3. As shown in Table 2, the subject site abuts property zoned R-1 Rural Residential District, RO Rural Residential District, & MHO Manufactured Housing Overlay to the north, south, east, and west.
4. The existing R-1 Rural Residential District is intended to provide a single-family residential environment at a low-density level. The R-1 District is located primarily in less populated areas where the character of the area should be preserved through low densities. To protect the intention of the district, permitted activities are limited to single-family dwellings, certain specified agricultural, and utility uses.
 - a. The existing R-1 Rural Residential District requires parcel sizes of 5 acres or greater with a minimum lot width of 300'.
5. The L-1 Large Lot Residential District is intended to provide a single-family residential environment on moderate sized lots which are served by central utility systems and other urban services. The L-1 Large Lot Residential District is located in areas appropriate for urbanized single-family development in areas convenient to commercial and employment centers. To protect the intention of the district, permitted activities are limited to single-family dwellings and utility uses.
 - a. The proposed L-1 Large Lot Residential District requires parcel sizes of 1 acre or greater with a minimum lot width of 100'.
6. If approved, the applicant can apply for a minor subdivision to separate the 2.94 acre property into 2 lots, being a minimum size of one acre each.

Consistency with New Directions 2040

Rural/Agriculture: areas include mostly very low intensity uses in non-urbanized areas, such as agriculture, horse farms, timberlands, ranches, and very large single-family lots typically larger than three acres. No large traffic generators or noisy or pollution causing uses are located in Rural and Agricultural areas. Low-capacity country roads—typically two-lanes—serve these areas. Septic systems and wells are typical. The Parish's abundant rural areas provide ample space for low-intensity uses, offering residents privacy and access to the outdoors. The countryside also fosters a number of commercial activities, such as production farms, horse boarding, and lumber harvesting. The Rural and Agricultural category includes these commercial uses, as well as small rural-serving businesses such as small groceries, gas stations, restaurants, and auto repair shops. St. Tammany's countryside supports a growing tourism industry, whose businesses in this area include bed and breakfasts, retreat centers, nature tours, and "u-pick" farms.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Goal 1.8: A variety of safe, affordable, and attractive housing types will meet the needs of our diverse community.

Standards for Review (Sec. 200-3.1.G) - When reviewing a zoning map amendment, the St. Tammany Parish Planning & Zoning Commission shall take the following items into consideration prior to recommending a decision to the Council:

- i. The proposed amendment is compatible with the Comprehensive Plan and consistent with the future land use map.
- ii. The proposed amendment promotes the public health, safety, and welfare of the Parish.
- iii. The proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact.
- iv. The proposed amendment is compatible with existing use and zoning of nearby property.
