- 4. The S-2 Suburban Residential District is intended to provide single-family residential dwellings in a setting of moderate urban density. Central utility systems, convenience to commercial and employment centers and efficient access to major transportation routes are characteristics of this district. To protect the intention of the district, permitted activities are limited to single-family dwellings and certain utility uses. All commercial uses are prohibited in the S-2 District.
 - a. The minimum lot size requirements within the S-2 Suburban Residential District include 7,500 sq. ft. lot sizes with 75' of lot width.
- 5. The purpose of the HC-2 Highway Commercial District is to provide for the location of moderately scaled, more intense retail, office and service use, generally located along major collectors and arterials designed to provide services to a portion of the parish.

Consistency with New Directions 2040

Residential – Medium Intensity: Medium Intensity neighborhoods include a broader mix of large and small lots but remain predominantly, single-family detached homes. Attached homes such as townhomes and 2-unit homes, as well as assisted living centers may fit into the character of Medium Intensity Residential Neighborhoods. The higher density of development makes central water and sewer more practical than on-site water and wastewater systems, and infrastructure like sidewalks, subsurface drainage, and street lighting are more common. These areas are appropriate buffers between Rural or Low Intensity Residential Neighborhoods and High Intensity Residential Neighborhoods or Commercial and Institutional areas.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Goal 2: New development and redevelopment will be orderly, carefully planned, and predictable.

Standards for Review (Sec. 200-3.1.G) - When reviewing a zoning map amendment, the St. Tammany Parish Planning & Zoning Commission shall take the following items into consideration prior to recommending a decision to the Council:

- i. The proposed amendment is compatible with the Comprehensive Plan and consistent with the future land use map.

- ii. The proposed amendment promotes the public health, safety, and welfare of the Parish.
- iii. The proposed amendment corrects an error or meets the challenge of some changing conditions, trend or fact.
- iv. The proposed amendment is compatible with existing use and zoning of nearby property.
- v. The proposed amendment is a more suitable zoning classification for the property than the current classification.
- vi. The proposed amendment enhances or protects the surrounding natural environment, including air, water, stormwater management, wildlife, and vegetation.
