Direction	Surrounding Use	Surrounding Zoning Classification
North	Residential	L-1 (Large Lot Residential District)
South	Residential	L-1 (Large Lot Residential District)
East	Residential	L-1 (Large Lot Residential District)
West	Residential	L-2 (Large Lot Residential District)

3. As seen in Table 2, the subject property is borders residential properties zoned L-1 Large Lot Residential District to the north, south, and the east, and to the west property zoned L-2 Large Lot Residential District.
4. The L-1 Large Lot Residential District is intended to provide a single-family residential environment on moderate sized lots which are served by central utility systems and other urban services. The L-1 Large Lot Residential District is located in areas appropriate for urbanized single-family development in areas convenient to commercial and employment centers. To protect the intention of the district, permitted activities are limited to single-family dwellings and utility uses.
 - a. The minimum lot area is 1 acre with a minimum lot width of 150'.
5. The L-2 Large Lot Residential District is intended to provide a single-family residential environment on moderate sized lots which are served by central utility systems and other urban services. The L-2 Large Lot Residential District is located in areas appropriate for urbanized single-family development convenient to commercial and employment centers. To protect the intention of the district, permitted activities are limited to single-family dwellings and utility uses.
 - a. The minimum lot area is 1/2 -acre with a minimum lot width of 100 feet.
6. If approved, the applicant may apply for a minor subdivision to formally create two parcels of at least one-half acre each.

Consistency with New Directions 2040

Residential: Low-Intensity: Predominantly single family, detached homes on very large lots. The lower residential density creates a more spacious character appropriate as a transition between the Parish's Rural or Conservation areas and more intense land uses. The dispersed development pattern makes public services and amenities less efficient and more expensive to provide, and so residents typically must travel farther to access them.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Goal 1.3: The character of existing residential areas, expansive rural landscapes, and sensitive ecological areas will be preserved.

Standards for Review (Sec. 200-3.1. G) - When reviewing a zoning map amendment, the St. Tammany Parish Planning & Zoning Commission shall take the following items into consideration prior to recommending a decision to the Council:

- i. The proposed amendment is compatible with the Comprehensive Plan and consistent with the future land use map.
- ii. The proposed amendment promotes the public health, safety, and welfare of the Parish.
- iii. The proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact.
- iv. The proposed amendment is compatible with existing use and zoning of nearby property.
- v. The proposed amendment is a more suitable zoning classification for the property than the current classification.
