5. The subject site abuts property zoned L-1 (Large Lot Residential District) to the north and R-2 (Rural Residential District) to the south, east, and west.
6. The purpose of the existing R-2 Rural Residential District is to provide single-family residential dwellings in a setting of moderate urban density. The R-2 District is located primarily in less populated areas where the character of the area should be preserved through low densities.
  - a. The minimum lot size required within the R-2 Rural Residential District is 3 acres with a minimum lot width of 200'.
7. The purpose of the requested L-1 Large Lot Residential District is to provide a single-family residential environment on moderate sized lots which are served by central utility systems and other urban services.
  - a. The minimum lot size required within the L-1 Large Lot Residential District is 1 acre with a minimum lot width of 150'.
8. If approved, the applicant may apply for a minor subdivision to create one 1-acre or larger parcel.

*Consistency with New Directions 2040*

**Residential: Low-Intensity:** Predominantly single family, detached homes on very large lots. The lower residential density creates a more spacious character appropriate as a transition between the Parish's Rural or Conservation areas and more intense land uses. The dispersed development pattern makes public services and amenities less efficient and more expensive to provide, and so residents typically must travel farther to access them.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Goal 1.3: The character of existing residential areas, expansive rural landscapes, and sensitive ecological areas will be preserved.

*Standards for Review (Sec. 200-3.3.G) - When reviewing a zoning map amendment, the St. Tammany Parish Planning & Zoning Commission shall take the following items into consideration prior to recommending a decision to the Council:*

- i. The proposed amendment is compatible with the Comprehensive Plan and consistent with the future land use map.
- ii. The proposed amendment promotes the public health, safety, and welfare of the Parish.
- iii. The proposed amendment corrects an error or meets the challenge of some changing conditions, trend or fact.
- iv. The proposed amendment is compatible with existing use and zoning of nearby property.
- v. The proposed amendment is a more suitable zoning classification for the property than the current classification.
- vi. The proposed amendment enhances or protects the surrounding natural environment, including air, water, stormwater management, wildlife, and vegetation.
