NC-2 (Neighborhood Commercial District) to the south and west, and undeveloped residential parcels zoned L-2 (Large Lot Residential District) to the north.

6. The existing L-2 Large Lot Residential District is intended to provide a single-family residential environment on moderate sized lots which are served by central utility systems and other urban services.  - a. The minimum lot size required within the L-2 Large Lot Residential District is ½-acre or greater with a minimum parcel width of 100 feet.

7. The purpose of the HC-2 Highway Commercial District is to provide for the location of moderately scaled, more intense retail, office and service uses, generally located along major collectors and arterials designed to provide services to a portion of the parish. Permitted uses include:

Consistency with New Directions 2040

Residential – Low Intensity: Predominantly single family, detached homes on very large lots. The lower residential density creates a more spacious character appropriate as a transition between the Parish's Rural or Conservation areas and more intense land uses. The dispersed development pattern makes public services and amenities less efficient and more expensive to provide, and so residents typically must travel farther to access them.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Strategy 5:1: Reserve land fronting existing, undeveloped corridors for commercial uses.

Standards for Review (Sec. 200-3.3.G) - When reviewing a zoning map amendment, the St. Tammany Parish Planning & Zoning Commission shall take the following items into consideration prior to recommending a decision to the Council:

- i. The proposed amendment is compatible with the Comprehensive Plan and consistent with the future land use map.
- ii. The proposed amendment promotes the public health, safety, and welfare of the Parish.
