Justice Center Cooling Tower

Scope: It was noted during an inspection, cooling tower #2 at the Justice Center has structural cracks that support large fan motors on top of the cooling tower. The structural cracks have caused structural integrity issues, which makes the cooling tower unsafe for operations. The following is required for repair: Remove and replace the existing stainless steel support beam, stainless steel end plates and hardware, motor sheave and bushing, fan shaft sheave and bushing, stainless steel motor mount, and belt.

Status: This repair is an immediate necessity in order to have appropriate cooling tower capacity for the Justice Center and available back up should a cooling tower fail.

Budget including work completed to date:	Current Budget	Amendment	Revised Budget
Parish Funds - 206-2406 - Justice Center Complex	-	74,000.00	74,000.00
	-	74,000.00	74,000.00

This Ordinance is presented off-the-floor due to the emergency nature of the project.
