Consistency with New Directions 2040

Residential – Medium Intensity: Medium Intensity neighborhoods include a broader mix of large and small lots but remain predominantly, single-family detached homes. Attached homes such as townhomes and 2-unit homes, as well as assisted living centers may fit into the character of Medium Intensity Residential Neighborhoods. The higher density of development makes central water and sewer more practical than on-site water and wastewater systems, and infrastructure like sidewalks, subsurface drainage, and street lighting are more common. These areas are appropriate buffers between Rural or Low Intensity Residential Neighborhoods and High Intensity Residential Neighborhoods or Commercial and Institutional areas.

1. The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:
 - a. Goal 1.8: A variety of safe, affordable, and attractive housing types will meet the needs of our diverse community.
