Sec. 130-1623. Site and structure provisions.

(a) *Maximum building size.* The maximum building size footprint in the AML district shall be 1,000,000 square feet.

(1) *Building footprint* means the area contained within the exterior walls of the ground floor. It does not include detached structures; covered or uncovered carports, patios, porches, decks, or balconies; cantilevered covers, projections; or ramps and stairways required for access.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

(1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lot width shall not be less than 80 feet.

(2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1976.

(3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1977.

(4) *Transitional yard.* Where an AML district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations, whichever is more restrictive:

a. Where an AML district abuts a residential zoning classification, a no-cut buffer of 75 feet shall be imposed along the adjoining lot line.

ba. Where lots in an AML district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the

setback regulations for the residential district shall apply to the said lots in the commercial district.

~~b. In an AML district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under this chapter for a residential use on the adjacent property in the residential district.~~

~~c. In an AML district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under this chapter for a residential use on the adjacent property in the residential district.~~

~~d. In an AML district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by this chapter on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.~~

~~ce.~~ Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each façade is measured separately and the additional depth is required perpendicular to that façade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 100 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(f) *Design criteria.*
