INDEXED INCREASES

Except as expressly provided herein, commencing on January 1, 2012, all water and sewer rates, fees and costs shall be adjusted annually using the "Municipal Cost Index" issued by Penton Media, Inc. through American City and County (<http://americacityandcounty.com/mciarchive/>). Effective January 1, 2012 and each January 1 thereafter, the then-current water and sewer rates shall be revised by an amount equal to the percentage change in the Municipal Cost Index for the previous twelve (12) month period comprised from October of the prior year and October two years' prior. **Provided, however, the percentage increase shall not exceed four (4%) percent without Council approval.** For example, on January 1, 2012, rates shall increase four (4%) percent based on the percentage change in the Municipal Cost Index from October 2010 (212.8) to October 2011 (223.6) of 5.08% $((223.6-212.8)/212.8)$. If the percentage change in the Municipal Cost Index for such period of October to October is zero or less than zero, then no increase to the water and sewer rates shall occur for that calendar year.

Rates shall be rounded up to the nearest tenth of a dollar (10/100th).

Indexed Increases do not apply to:

- I. Capacity Reservation Fees
- II. Tap-In Fees
- III. Connection Fees
- IV. Re-Connect Fees
- V. Deposit

If the Municipal Cost Index is subsequently converted to a different standard reference base or otherwise revised, the numerator and denominator of the fraction(s) set out in this rate ordinance will be determined by using any conversion factor, formula or table published by a nationally recognized publisher of similar statistical information. If the Municipal Cost Index ceases to be published, for the purposes hereof, any other index chosen by Parish may be substituted therefor.
