3. As shown in Table 2, the subject site abuts residential properties R-1 (Rural Residential District) & RO (Rural Overlay Residential) to the north, south, east and west.
4. The existing R-1 (Rural Residential District) is intended to provide a single-family residential environment at a low-density level. The R-1 (Rural Residential District) is located primarily in less populated areas where the character of the area should be preserved through low densities.
 - a. The existing R-1 (Rural Residential District) calls for parcel sizes of 5 acres or greater with a minimum lot width of 300 feet.
5. The purpose of the R-2 (Rural Residential District) is to provide a single-family residential environment at a low-density level. The R-2 District is located primarily in less populated areas where the character of the area should be preserved through low densities.
 - a. The proposed R-2 (Rural Residential District) calls for parcel sizes of 3 acres or greater with a minimum lot width of 200 feet.
6. If approved, the applicant may apply for a minor subdivision.

Consistency with New Directions 2040

Rural/Agricultural: areas include mostly very low intensity uses in non-urbanized areas, such as agriculture, horse farms, timberlands, ranches, and very large single-family lots typically larger than three acres. No large traffic generators or noisy or pollution causing uses are located in Rural and Agricultural areas. Low-capacity country roads—typically two-lanes—serve these areas. Septic systems and wells are typical. The Parish’s abundant rural areas provide ample space for low intensity uses, offering residents privacy and access to the outdoors. The countryside also fosters a number of commercial activities, such as production farms, horse boarding, and lumber harvesting. The Rural and Agricultural category includes these commercial uses, as well as small rural-serving businesses such as small groceries, gas stations, restaurants, and auto repair shops. St. Tammany’s countryside supports a growing tourism industry, whose businesses in this area include bed and breakfasts, retreat centers, nature tours, and “u-pick” farms.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Goal 1.8: A variety of safe, affordable, and attractive housing types will meet the needs of our diverse community.

Standards for Review (Sec. 200-3.1.G) - When reviewing a zoning map amendment, the St. Tammany Parish Planning & Zoning Commission shall take the following items into consideration prior to recommending a decision to the Council:

- i. The proposed amendment is compatible with the Comprehensive Plan and consistent with the future land use map.
- ii. The proposed amendment promotes the public health, safety, and welfare of the Parish.
- iii. The proposed amendment corrects an error or meets the challenge of some changing conditions, trend or fact.
- iv. The proposed amendment is compatible with existing use and zoning of nearby property.
- v. The proposed amendment is a more suitable zoning classification for the property than the current classification.
- vi. The proposed amendment enhances or protects the surrounding natural environment, including air, water, stormwater management, wildlife, and vegetation.
