985-898-2529 21454 Koop Drive, Suite 1B, Mandeville, LA 70471 stpgov.org/planning

Location: Parcel located on the west side of U.S. Highway 190, south of Indian Village Road; Slidell; S20 & S21, T9S, R15E, Ward 8, District 13 **Council District:** 13

Owner: Northshore Mobile Home Park, LLC **Posted:** August 11, 2022

Applicant: Jeffrey Schoen **Commission Hearing:** September 6, 2022

Size: 51.458 acres **Determination:** Approved

Current Zoning

A-3 Suburban District

NC-4 Neighborhood Institutional District

Requested Zoning

NC-6 Public, Cultural, and Recreational District

Future Land Use

Residential – Low Intensity

Flood Zone

Preliminary: Flood Zone AE

Critical Drainage: Yes

FINDINGS

1. The 51.38-acre subject property is an existing undeveloped subdivision known as the *Northshore Mobile Home Community* which was approved to become a 250-site mobile home park in 1985 on the west side of U.S. Highway 190, south of Indian Village Road, Slidell. The mobile homes have since been removed from the site and a majority of the subdivision's infrastructure still remains.
2. 49.95 acres of the site is currently zoned A-3 Suburban District which allows single-family residential dwellings at a density of 2 units per acre. The remaining 1.52 acres of the site is zoned NC-4 Neighborhood Institutional District which is to provide for the location of uses which allow service at the neighborhood level.

Zoning History

3. Table 1: Zoning history of Subject Lot(s)

Ordinance	Prior Classification	Amended Classification
N/A	SA Suburban Agriculture	MH Mobile Home District
07-077	MH Mobile Home District	PUD Planned Unit Development
09-2117	PUD Planned Unit Development	A-3 Suburban District

The subject property was initially rezoned to MH Mobile Home Park and was approved to be developed with a 250-lot mobile home park. A considerable portion of the mobile home park was damaged during Hurricane Katrina and the mobile homes were removed from the site. The site was later the subject of a rezoning request to PUD Planned Unit Development to create a 175-lot residential subdivision. The Acadian Walk Planned Unit Development was approved under case No. ZC07-12-077 and obtained Preliminary approval at the August 12, 2008 Planning Commission hearing. No further action was ever taken for the creation of the PUD and the property was rezoned to A-3 Suburban District in 2009.

4. The reason for the rezoning request to NC-6 Public, Cultural, and Recreational District is to allow for a Recreational Vehicle Park and Camping Ground. A change in zoning will allow the applicant to operate any of the following permitted commercial uses: All uses permitted in the NC-5 District; Golf course and practice ranges; Community centers; Parks and playgrounds; Sports or

gymnasiums; Athletic fields; Convention and conference centers; Marinas; Recreational Vehicle Parks.

Compatibility or Suitability with Adjacent Area

5. Table 2: Surrounding Land Use and Zoning

Direction	Surrounding Use	Surrounding Zoning Classification
North	Undeveloped	Enchanted Acres PUD
South	Undeveloped	A-1 Suburban District
East	Industrial	A-3 Suburban District
West	Undeveloped	A-3 Suburban District A-1 Suburban District

The subject site is flanked on all sides by undeveloped property and a legal non-conforming outdoor storage use to the east. While the boundary of the site abuts U.S. Highway 190, the developable portion of the site is about 700 feet from the Highway.

- 6. If approved, the applicant must apply for a Major Resubdivision to reorient the existing platted mobile home park sites and improve the property to meet all minimum standards of a Recreational Vehicle Park and Camping Ground Subdivision subject to Sec. 125-222.

Consistency with New Directions 2040

Residential – Low Intensity: Predominantly single family, detached homes on very large lots. The lower residential density creates a more spacious character appropriate as a transition between the Parish’s Rural or Conservation areas and more intense land uses. The dispersed development pattern makes public services and amenities less efficient and more expensive to provide, and so residents typically must travel farther to access them.

- 1. The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:
 - i. Goal 1:5: Adequate infrastructure and utilities will be available in areas permitted for new development.
 - ii. Strategy 1:5:2 Locate high intensity land uses adjacent to high capacity transportation corridors
 - iii. Goal 1:9: Our building stock will be maintained in stable condition, with minimal vacant, blighted, or abandoned properties
 - iv. Strategy 1:9:2: Encourage infill development on vacant lots in existing neighborhoods
