East	Residential	S-2 Suburban Residential District
West	Residential	S-2 Suburban Residential District

5. The petitioned site abuts parcels zoned Light Industrial District to the north and S-2 Suburban Residential District to the east, west, and south.
6. The purpose of the existing S-2 Suburban Residential District is to provide single-family residential dwellings of moderate urban density. The minimum lot size for the S-2 Suburban Residential District is 7,500 square feet with a width of 75'.
7. The purpose of the proposed Manufactured Home Overlay is to provide various areas and settings for a quality living environment for manufactured home residents.
8. Per Sec. 500-2.2(B), a legal nonconforming manufactured home is considered nonconforming¹ once the electricity is turned off for longer than six months. If the request for MHO is approved, the applicant may apply for an administrative permit for a manufactured home swap out to place a newer manufactured home on the property or a permit to gain electricity to the existing structure.

Consistency with New Directions 2040

Residential: Low-Intensity: Predominantly single family, detached homes on very large lots. The lower residential density creates a more spacious character appropriate as a transition between the Parish's Rural or Conservation areas and more intense land uses. The dispersed development pattern makes public services and amenities less efficient and more expensive to provide, and so residents typically must travel farther to access them.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Goal 1.8: A variety of safe, affordable, and attractive housing types will meet the needs of our diverse community.

Standards for Review (Sec. 200-3.1.G) - When reviewing a zoning map amendment, the St. Tammany Parish Planning & Zoning Commission shall take the following items into consideration prior to recommending a decision to the Council:

- i. The proposed amendment is compatible with the Comprehensive Plan and consistent with the future land use map.
- ii. The proposed amendment promotes the public health, safety, and welfare of the Parish.
- iii. The proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact.
- iv. The proposed amendment is compatible with existing use and zoning of nearby property.
- v. The proposed amendment is a more suitable zoning classification for the property than the current classification.
- vi. The proposed amendment enhances or protects the surrounding natural environment, including air, water, stormwater management, wildlife, and vegetation.

¹ Nonconforming Use. A use which was legally established but which is no longer classified as a permitted use or no longer classified as a special use in the zoning district in which it is located.
