FINDINGS

1. The applicant is requesting to rezone a 7.001-acre parcel from A-2 Suburban District to CBF-1 Community Based Facilities District. The property is located on the north side of Louisiana Highway 22 West. The municipal address is 1846 Louisiana Highway 22 West, Madisonville.
2. Per the petitioner's application, the site is proposed to be develop with a softball and baseball facility.

Zoning History

3. Table 1: Zoning history of Subject Lot(s)

Ordinance	Prior Classification	Amended Classification
09-2116	unknown	A-2 Suburban District

ZONING STAFF REPORT
2023-3609-ZC

MICHAEL B. COOPER
PARISH PRESIDENT

PLANNING & DEVELOPMENT
Ross Liner
Director

- The subject property was zoned A-2 Suburban District during the 2009-2010 Comprehensive rezoning. At the end of 2020, the applicant had applied to rezone the property from A-2 Suburban District to HC-2 Highway Commercial District (Zoning Case No. 2020-2139-ZC). According to the applicant, the intention was to develop an RV and Boat Storage Facility. That zoning case was withdrawn.

Site and Structure Provisions

- The subject property is composed of three separate lots and is currently developed with a vacant single-family residence.
- The existing A-2 Suburban District allows for a minimum lot size of 1-acre parcel size with maximum allowable density of 1 unit per acre and minimum lot width of 150ft.

Compatibility or Suitability with Adjacent Area

- Table 3: Surrounding Land Use and Zoning

Direction	Surrounding Use	Surrounding Zoning Classification
North	Residential	A-2 Suburban District
South (across Highway 22)	Residential	PUD Planned Unit Development - Timberlane
East	Residential	A-2 Suburban District
West	Residential	A-2 Suburban District

- The subject property is surrounded by residential zoning on all sides: Timberlane Subdivision/ Residential PUD Planned Unit Development to the south, across LA Highway 22, and A-2 Suburban District zoning on all other sides (north, east, and west).
- The purpose of the existing A-2 Suburban District is to provide a single-family residential environment on large, multi-acre lots. The A-2 Suburban District is intended to be located primarily in less populated areas where the character of the area should be preserved through low densities. To protect the intention of the district, permitted activities are limited to single-family dwellings, certain specified agricultural, and utility uses. All strictly commercial uses are prohibited in the A-2 Suburban District.
- The purpose of the requested CBF-1 Community Based Facilities district is to provide for the location of public and quasi-public uses that are appropriate within close proximity to residential districts. The allowed uses in a CBF-1 Community Based Facilities District include: Golf courses and recreational facilities owned by public or private entities, including restaurants, clubhouses, grills and retail (including sale of alcohol) when accessory to recreational facilities; Churches, temples and synagogues; Religious educational facilities; Clubs and lodges; Fraternal and religious institutions.
- If approved, the applicant could place any of the permitted uses listed under the CBF-1 Zoning District:
Golf courses and recreational facilities owned by public or private entities, including restaurants, clubhouses, grills and retail (including sale of alcohol) when accessory to recreational facilities, churches, temples, and synagogues, religious educational facilities, clubs and lodges, and fraternal and religious institutions.
- To develop any of the above uses, the applicant will have to meet all applicable Parish requirements, including drainage, landscaping, and parking.

Consistency with New Directions 2040

Residential Medium-Intensity neighborhoods include a broader mix of large and small lots but remain predominantly, single-family detached homes. Attached homes such as townhomes and 2-unit homes, as well as assisted living centers may fit into the character of Medium Intensity Residential Neighborhoods. The higher density of development makes central water and sewer more practical than on-site water and wastewater systems, and infrastructure like sidewalks, subsurface drainage, and street lighting are more common. These areas are appropriate buffers between Rural or Low Intensity Residential Neighborhoods and High Intensity Residential Neighborhoods or Commercial and Institutional areas.

Mixed Use areas are flexible and appropriate for higher concentration of residential and commercial uses, allowing shorter trips between destinations and opportunities for walkable, compact development patterns. Mixed Use areas are typically located at or near the Parish's existing hubs of activity and intersections of major roads, as well as along major traffic corridors. Mixed Use areas may also include higher density residential uses, such as garden apartments and condominiums.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Goal 5:2: St. Tammany Parish will attract and grow businesses that expand the Parish's tax base and provide living wage jobs to residents of varying skill levels.
- ii. Goal 5:1: The Parish will designate adequate land served by supporting infrastructure for use by businesses and industries seeking to begin or expand.
