Location: Parcel located on the southeast side of McGee Road, east of LA Highway 1077, Covington; S21, T6S, R10E; Ward 1, District 3 **Council District:** 3

Owner: Mary Wright

Posted: February 20, 2024

Petitioner: Monica Wright

Commission Hearing: March 5, 2024

Size: 1 acre

Determination: Approved

Current Zoning

A-1 (Suburban District)

Requested Zoning

A-2 (Suburban District)

MHO (Manufactured Housing Overlay)

Future Land Use

Residential: Medium-Intensity

Flood Zone

Effective Flood Zone C

Preliminary Flood Zone AE

Critical Drainage:

Yes

Elevation Requirements:

Proposed BFE 37' + 1' Freeboard = 38' FFE

FINDINGS

1. The applicant is requesting to rezone the 1-acre parcel from A-1 (Suburban District) to A-2 (Suburban District) and MHO (Manufactured Housing Overlay). The property is located on the southeast side of McGee Road, east of LA Highway 1077, Covington.

Zoning History

2. Table 1: Zoning history of Subject Lot(s)

Ordinance / Case #	Prior Classification	Amended Classification
88-060	Unknown	SA Suburban Agriculture
09-2116	SA Suburban Agriculture	A-1 Suburban District

Site and Structure Provisions

3. Per the petitioner's application the subject property is currently developed with a mobile home that is of legal non-conforming use. The property, in total, consists of 3.05 acres. As the subject property is zoned A-1 Suburban District which requires 5-acre parcel sizes, the property is deemed as a lot of record as it does not conform to the site provisions of the existing zoning.

Compatibility or Suitability with Adjacent Area

4. Table 3: Surrounding Land Use and Zoning

Direction	Surrounding Use	Surrounding Zoning Classification
North	Residential	A-1 Suburban District
South (Across McGee Road)	Undeveloped	Providence Parks PUD Planned Unit Development
East	Undeveloped	A-1 Suburban District
West	Residential	A-1 Suburban District

5. The subject property abuts residential uses on all sides zoned A-1 Suburban District with an undeveloped portion of the Providence Park PUD to the south.
6. Based on the most recent and available data from Google Earth, the number of manufactured homes from the corner of Wilkinson Street and McGee Road heading towards the subject property appears to be three.
7. The A-1 Suburban District calls for a minimum of 5-acre parcel sizes with a width of 300' as well as a density of 1 unit per every 5 acres. The requested A-2 Suburban District calls for a minimum 1-acre parcel sizes with a width of 150' as well as a density of 1 unit per every 1 acre.
8. If approved, the applicant could place one additional mobile home on the property.

Consistency with New Directions 2040

Residential: Medium-Intensity: Medium Intensity neighborhoods include a broader mix of large and small lots but remain predominantly, single-family detached homes. Attached homes such as townhomes and 2-unit homes, as well as assisted living centers may fit into the character of Medium Intensity Residential Neighborhoods. The higher density of development makes central water and sewer more practical than on-site water and wastewater systems, and infrastructure like sidewalks, subsurface drainage, and street lighting are more common. These areas are appropriate buffers between Rural or Low Intensity Residential Neighborhoods and High Intensity Residential Neighborhoods or Commercial and Institutional areas.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Goal 1.3: The character of existing residential areas, expansive rural landscapes, and sensitive ecological areas will be preserved.
