Recommended Action: Motion to recommend approval or denial of the requested conditional rezoning to the Board of Commissioners. The motion recommending approval of the requested conditional rezoning must include the comprehensive plan consistency statement and be based on the site plan submitted and the following recommended conditions:

1. A Traffic Impact Analysis meeting the Town’s requirements must be completed and approved prior to the preliminary plat (construction drawings) and before the development is heard at the Planning Board.
2. Stormwater methods will be required to route the phase 1 development stormwater within the development not impacting the wetlands to reduce the amount of stormwater routed to Swansboro Loop Road. (modified)

Additional Conditions were added to address concerns expressed at the required community meetings January 4 and January 5 as well as the Planning Board meeting January 10th.

3. The twenty-five-foot required exterior buffer where there is natural screening where you cannot see through the vegetation will remain. Where there is an open field or no vegetation the area will be planted to screen the adjoining neighbors using the type A buffer standard.
4. An additional ten-foot-wide buffer will be required between the proposed 26-foot-wide fire road on the south side of the development adjacent to tax parcels 056584 and 002598. If there is natural screening where you cannot see through the vegetation it will remain otherwise the type A buffer standard will be used.
5. Construct a 4 ft. wooden privacy fence with gates surrounding the lift station with hardy fast-growing shrubs planted outside the fence to form a hedge meeting ONWASA requirements.
