

Note! I can move Carport to
the left to stay in line w/ house
& Gain Approx. 2' - That would
Give our structure a total of
42' - we would have
8' to deal with for an
offset on Both Sides...
maybe $2\frac{1}{2} + 3$ a 5 + $5\frac{1}{2}$
on the other side would be
better than a $4\frac{1}{4}$ split...
