### Executive Summary

With the allocated funds from the additional sales tax, we will be able to start working on drainage projects. The plan is to utilize the interlocal agreements between the drainage district, county and the City of Sweeny to accomplish this work.

The CIC recommended areas of greatest needs and those areas are identified in the projects. Some funded through CDBG grant, some the additional tax funds and some by the drainage district.

The question on the table is do we clean and regrade ditches to culvert flow line as they exist and cover more territory to get rain water moving quicker or perform a larger detailed project and replace all culverts and cover less territory.

### Recommended Action

To allow City staff to work with the Drainage District and Brazoria County to clean and regrade ditches and only replace culverts that are severely damaged.
