

Potential Capital Improvement Project (CIP):
Sweeny Animal Shelter

Peach St.

2nd Street

This is a Public Works building referred to as “The Back Shop,” currently being evaluated by staff as a potential capital improvement project. This project proposes repurposing the site as the new Sweeny Animal Shelter which would include a redesigned, climate-controlled building with indoor/outdoor dog runs, office space, visitation room, and ADA-accessible restrooms. This project would expand the City’s animal welfare and adoption program.
