The review and decision criteria for a zone change are listed below in bold. Staff findings and analysis are provided under each review and decision criterion.

Zone change proposals shall be approved if the applicant provides evidence substantiating the following:

A. The proposed zone is appropriate for the Comprehensive Plan land use designation on the property and is consistent with the description and policies for the applicable Comprehensive Plan land use classification.

Staff Findings: The subject property has a Comprehensive Plan designation of Residential High Density (R-3). The Sweet Home Zoning Map is proposed to change from the Residential Low Density (R-1) Zone to the Residential High Density (R-3) Zone. The proposed zone change would bring the zoning designation into conformity with the property's existing Comprehensive Plan Map designation and is consistent with the description and policies of the R-3 Zone.

Based on the above information, staff finds that the application complies with this criterion.

B. The uses permitted in the proposed zone can be accommodated on the proposed site without exceeding its physical capacity.

Staff Findings: The uses permitted in SHMC 17.14.020, 17.14.030, and 17.14.040 can be accommodated on the subject property without exceeding its physical capacity. The subject property is approximately 190,211 square feet (5.18 acres). The R-3 zone density requirements for single family attached / detached homes and duplexes are no more than one residential structure per lot or parcel, other than an approved accessory dwelling unit; maximum of 12.0 dwelling units per net acre. The R-3 zone density requirements for multi-family is a maximum of 28 units per net acre.

Based on the above information, staff finds that the application complies with this criterion.

C. Allowed uses in the proposed zone can be established in compliance with the development requirements in this Development Code.

Based on the above information, staff finds that the application complies with this criterion.

D. Adequate public facilities, services, and transportation networks are in place or are planned to be provided concurrently with the development of the property.

Staff Findings: Per the CEDD Engineering comments in Section II above: There is a 12" water main on the west side of Clark Mill Rd. Cost of connection for City Services will be assigned during the development application review. There is a 15" sewer main in the center of Clark Mill Rd. Cost of connection for City Services will be assigned during the development application review. Adequate public facilities, services and transportation networks are planned to be provided concurrently with the development of the property. No development has been proposed with this application.

E. For residential zone changes, the criteria listed in the purpose statement for the proposed residential zone shall be met.

Staff Findings: The purpose of the R-3 zone is to provide areas suitable and desirable for high-density residential development, and particularly for apartments, but where other types of residential and related public service uses are appropriate. The R-3 zone is most appropriate in areas which have been developed for high-density residential use or which are suitable for such use due to proximity to downtown Sweet Home and to highway-related commercial areas inside The City.
