- Developments of note: For your reference, below are some developments of note that were previously reported. Changes are noted with **bold text**.
 - Duck Hollow Phase III Subdivision: 51-lot single-family home subdivision located adjacent to the existing Duck Hollow Subdivision (41st Avenue and Long Street). This subdivision received planning approval in 2020, however there was a long delay due to wetlands regulations administered by the Oregon Department of State Lands. State approval has been granted, however there is no timeline available on actual construction.
 - Live Oak Subdivision: 8-lot single-family home subdivision located between the two existing portions of Live Oak Street. The subdivision was approved in 2021, however the property changed hands, which delayed development. The new owner is planning on constructing 8 duplexes (16 housing units) on the lots. Development of the road and infrastructure is complete, and construction of the first buildings has begun.
 - Foothills Ridge Subdivision: A single-family home subdivision located at the west end of Foothills Drive was originally approved in 2021, **however the property has changed ownership, and the previous subdivision expired. The Planning Commission recently approved a new subdivision for the site consisting of 27 lots.**
 - Santiam River Development Phase 1 : 42-lot single-family home subdivision located at the north end of Clark Mill Road. Planning approval was granted at the beginning of this year, however some of the property is being sold to a different developer. It is unknown when construction will begin.
 - Clear Water Subdivision: 18-lot single-family home subdivision located on the west side of 45th Avenue, just north of Kalmia Street. Planning approval was granted in June. Road, sidewalk, and other infrastructure construction is complete. Construction on the first houses has begun.
 - Domino's Pizza is under construction at the northwest corner of Main Street and 22nd Avenue. The modular commercial building was placed on site, but construction is not yet complete.
 - Coulter Subdivision: The Sweet Home Planning Commission recently approved a 157-lot low-density residential subdivision located at 43rd Avenue and Coulter Lane. This subdivision will be built in four phases; however it is unclear when construction will start. The property includes wetlands, and development will require mitigation and permitting through the Department of State Lands, which will likely decrease the number of lots that are ultimately developed. The initial phase is unhindered by wetlands and will likely move forward as soon as market conditions warrant construction.

5. PARKS

- The Park and Tree Committee last met on September 18th. Their next meeting will be October 16th, 2024.
- Work continues on updated the Parks System Master Plan. It was expected to be complete by June 30, 2024, however the project has been delayed. The final adoption process has begun, however, and is expected to be complete in October.
- Staff have applied for a grant from the Oregon Park and Recreation Department for Phase III of Sankey Park improvements, which will include a replacement structure for the now-demolished bandstand and trail connections to the upper portion of the park. The application has passed the first review, and Staff gave a presentation to the grant review committee on June 27th. Staff recently received an award letter for this grant. Staff and the Park & Tree Committee are continuing to solicit and gather donations. The engineering design work has begun, and is expected to be complete by January, after which the City will issue an RFP for construction.
- Design work is underway for a new park adjacent to City Hall. The Park will include a donated playground structure and dog park.

6. OTHER PROJECTS

- Willow Street Neighborhood LID: Staff have finalized a financing plan, and recently received approval from the financing agency. A Request for Proposals was issued, however new information on current conditions has come to light which requires the RFP to be reissued. The City is utilizing its Engineer-of-Record contract to do the initial engineering design, after which an RFP for construction will be issued.
- The ODOT Foster Lake Sidewalk Project: Construction is complete. Staff are working with the Railroad and ODOT on a plan to construct the portion that lies under the railroad trestle.
- Engineering on the 2nd Avenue/Holley Road pedestrian crossing, which is funded by a Safe Routes to School Grant, is complete and a Request for Proposals for the work has been issued. A contract for the remaining work has been signed, and the contractor has ordered materials and equipment. This project has been delayed by ODOT permitting, however permits were recently granted, and Staff are working with the contractor to get the project moving again. Construction is complete, and the project has passed ODOT inspection. Staff have completed all the final paperwork on this grant.
