1). If the business section of Sweet Home don't want them to be located in the old City Hall. Why is it better to locate them in the residential section any better. We would have the same issues, if not more. There is children and Seniors citizen that need to be protected also.

2). How would you (the city) protect the value of our homes with the site so close?

3). How would you protect us as home owners from increases to the thefts, damage, burglaries and trash in our area?

4). How would you insure if any crime increase within our neighbor, that you would close the homeless camp site down.

(Some sort of close within the legal document that would terminate the site within a few weeks.)

5). I need insurance, that our level of living won't change. Causing our elderly to be house bound and scared to go out in the own yards.

How about the children, parents need to feel safe and secure that their kids won't be harmed also.

I know the homeless needs a place to call their own, till they can find their permanent housing. They need to feel safe and secure within their own living areas. But, with all the news and seeing how some choose to live. It's hard to have a camp so close, knowing that. If the city would guaranty with follow through with their word about keeping the site clean, quiet and free of drugs. I would feel better about giving it a try.

I know with the homeless camp being so close us, the property value will go down. That is not far too everyone that lives in the Neighborhood, any neighbor hood. That is one of the biggest concern to me as a home owner.

I just found out that the city is wanting to make this site a permanent site. I am very opposed to it becoming a permanent site.

6). Is the city going to lower everyones property taxes to compensate us for the homeless site, for the lose of value?. By at least \$3-4000.00.

I understand that no one wants a homeless site in their back yard. But, I have never seen one in the upper class neighborhoods. Why not? They're always in the middle to lower neighborhoods.
