

JACKSON COUNTY EMERGENCY OPERATIONS PLAN

WHAT IS AN EOP?

- Assigns responsibility to organizations and individuals for carrying out specific actions at projected times and places in an emergency.
- Sets forth lines of authority and organizational relationships and shows how all actions will be coordinated.
- Describes how people and property will be protected in emergencies and disasters.
- Identifies personnel, equipment, facilities, supplies, and other resources available within the jurisdiction or by agreement with other jurisdictions.
- Identifies steps to address mitigation, preparedness, response, and recovery activities.

The Jackson County Emergency Operations Plan was developed to address multiple hazards which threaten a jurisdiction. Through use of a functional format, the plan encourages an Integrated Emergency Management System (IEMS) approach to disasters and fosters prompt, efficient and coordinated response operations by elements of the emergency organization.
