

## Community Grants

---

The PARC Foundation has awarded over \$700,000 to projects and programs throughout Thurston County since 2004. The number of grants awarded and the amount of funding available varies from year to year, according to the growth of the funds available or partnership donations. The PARC is proud of the foundation's ability to make a definitive, positive, significant difference through fiscal support to the communities the PARC serves — it's what PARC does! Below are the grants that the PARC Foundation has contributed back to the local parks and recreation departments and other organizations in the last two years.

---
