

1. We are currently working on grading the alleyways and parking lots as well as cleaning/replacing street signs.
2. We recently broke ground for the foundation of the new memorial wall that will be near the walking trail next to the pool entrance.
3. We are currently building a gazebo that will be up in the fenced area near the swimming pool.
4. We're also working on replacing all of the old outdated fire hydrants as well as water meters this year.
5. We will be replacing the membrane bioreactor (MBR) in basin 2. At the wastewater treatment plant this summer.
