**Town Administrator Report**

- We had our February Safe & Tidy this last week. I am thankful for the team who went out collecting debris, offered home inspections, and patrolled the area.
- We have an update from our new glass and cardboard recycling vendor. We will be kicking off our new program beginning next week. We will have 6 glass recycling bins and one cardboard dumpster installed at our Sustainability Corner as well as two extra cans installed at our Public Works Department
- Renovations for Nellie Johnson Park and Honey Park are underway. Concrete has officially been poured at both parks. New grills, basketball hoops, and a swing set are coming to Nellie Johnson soon and we are hoping the parking lot will be finished at Honey Park by the end of the month.
- We are excited to announce we will be planting 25 new trees along Whatley Ave starting the week of March 10th.
- Our staff and I have been working on updating the Town of Thunderbolt's master fee schedule. These increases are minimal and have been updated to offset rising labor and technology costs.
- Our staff is also in the process of updating our right of way ordinances and Permit Processes in accordance with GMA regulations.
- Oscar and staff are waiting on final designs from Thomas & Hutton and hope to be ready to send the project out to bid this March.
- We are talking with Senator Ossoff's team to help us obtain support and potential funding assistance with our Force Main replacement project.
- We are also in the process of applying for a Hazard Mitigation Grant to help fund the replacement of the generator we have at Town Hall.
- Mark your calendars, the official date of Blessing of the Fleet is April 5th.
