During budget as in years past I had kept \$5000.00 in this line item to purchase meters as needed. During the final round of the budget it was removed by previous administration saying we will have all new meters by then and will not have a need to purchase meters in FY25. Meter program has not started yet and I have had to purchase meters to replace non-working meters. I have already purchased \$3905.00 for new meters and need to purchase more. I am requesting we take \$7000.00 out of 02-74-7021 and move it into line item 02-74-7023 to cover the cost of these meters.

Let me know if you have any questions.

Thanks
