6. Conveyance of Improvements to the City

Upon completion of the improvements, and final inspection and acceptance of the public improvements by the City, the developer will convey all rights to the improvements to the city or homeowner's association as applicable, subject to the developers rights of reimbursement described in the Development Agreement executed between the developer and the City.

7. Authorized Improvements

The area within the PID that is covered by the Service and Assessment Plan will be developed as single family residential. This Plan designates the public improvements required for the growth and development of the land within the PID. The goal of this Plan is to provide sufficient certainty for the owners of land within the PID to proceed with the financing and construction of the necessary public improvements, while allowing flexibility to meet the needs of the PID over the life of the development of residential properties within the PID.

The construction of the public improvements authorized herein began in calendar year 2021. The actual costs of the public improvements will be determined by an independent accountant report of the developer's costs.

8. Advance Financing by the Developer

The developer will advance the funds for construction of the public improvements and will be entitled to repayment pursuant the Development Agreement executed between the City and the developer.

9. Apportionment of Costs

Payment of assessments, if any, on property owned by exempt jurisdictions other than the City shall be established by contract.

10. Levy of Assessments

The total assessment for each property shall be an equal apportionment of the total costs divided by the total number of lots. Assessments can be paid by each property in advance or at any time thereafter. Financed assessments paid annually shall be concurrent with the city's tax year and will bear interest at 4.5% for up to 15 years. The principal amount of the assessment is payable at any time by property owners.

The assessments are on a per lots basis. The cost of the public improvements will consist of the costs subject to construct water, sanitary sewer, storm sewer, streets, detention, amenities, landscaping, gas, engineering and design fees, PID creation costs and administration and financing payable to the developer pursuant to the Development Agreement.

11. Levy and Collection

Notice of levy of each assessment will be given as provided in Chapter 372 of the Local Government Code. The assessment levy statement will be sent to each property owner in the District, and the payment will be due and payable at the same time property taxes are due and payable to the City.

The first installment of an assessment against a particular property shall be due with respect to the calendar year following the date such property has been

improved with a habitable structure as evidenced by the issuance of a certificate of occupancy or by full improvement valuation on the Harris County Appraisal District rolls. The City will invoice each property owner for the installment payment in conjunction with the City's annual property tax bill, and the installments shall be due and payable, and incur penalty and interest for unpaid installments in the same manner as provided for the City's property taxes. Thereafter, subsequent installments shall be due in the same manner in each succeeding calendar year until the assessment has been paid in full. The owner of assessed property may pay at any time the entire assessment then due on each property through the date of final payment. Failure of an owner to receive an invoice shall not relieve the owner of the responsibility for the assessment.

A lien will be established against the property assessed effective as of the date of the ordinance levying the assessment, privileged above all other liens, include prior mortgage liens, to the extent allowed by Section 372 of the Local Government Code. Assessment installments shall be considered delinquent on the same date as the city's property taxes. Delinquent assessments or installments shall incur the costs of collection. If practicable, the assessment shall be included on the City property tax statement. Notwithstanding the above, the assessment shall be perfected immediately as to the entire assessment, but may be executed only with respect to the amounts then due or past due for current or prior installments or final payment.
