TOMBALL
ECONOMIC DEVELOPMENT CORP.

2025- 2026 **ANNUAL REPORT**

About TEDC

The Tomball Economic Development Corporation (TEDC) is governed by a seven-member Board of Directors appointed by the Tomball City Council. The TEDC is focused on attracting new businesses and industry, supporting business retention and expansion, and coordinating strategic economic development efforts that strengthen Tomball's overall economic vitality.

Through measured and responsible growth, the TEDC works to create quality jobs, expand the tax base, and enhance the community's quality of life. The organization utilizes a variety of tools to attract and retain businesses, including infrastructure investment, targeted incentives, and improvement grants, while collaborating closely with existing companies and local partners to address evolving business and community needs.

With a premier location in the Houston region and a strong business-friendly mindset, Tomball offers an ideal environment for economic investment—one where both corporate employers and family-owned businesses can grow and prosper.

Mission

To promote economic development in the City of Tomball through the attraction of new business and industry and the retention of existing businesses by providing the resources that enhance the general well-being of the community.

Vision

Tomball is the community of choice for businesses, residents, and visitors, offering a dynamic economy, strong labor force, and unmatched living and working environment.

Message from the

Executive Director

We are pleased to present the 2025–26 annual report of the Tomball Economic Development Corporation (TEDC), highlighting another year of strong progress and continued momentum in our community. Tomball remains a leading destination for economic growth, driven in large part by a shared commitment to collaboration across the city.

In Tomball, partnership is more than a concept—it is a guiding principle. It shapes our approach and serves as a constant focus as we work to ensure Tomball remains one of the most desirable communities in Texas.

Over the past year, residents have seen the TEDC work closely with the City of Tomball to advance key infrastructure investments that support long-term growth both above and below ground. From alleyway enhancements that improve walkability to façade and property upgrades, these investments are enhancing the overall downtown experience. At the same time, funding has been directed toward expanding the South Wastewater Treatment Plant, reinforcing the city's commitment to infrastructure and essential services that support a growing population.

Collaboration has also extended to quality-of-life improvements. In partnership with the City, the Tomball Regional Health Foundation, HCA Houston Healthcare Tomball, and other community organizations, we completed significant upgrades to Jerry Matheson Park. Improvements to the playground, pool, splash pad, walking trails, and parking facilities have revitalized this cherished community space. Our shared vision is also evident in the ongoing reimagining of the former First Baptist Church site into Tomball Legacy Square—an arts and cultural destination that reflects the unique character of our community.

Our long-term relationships and strategic investments are also reflected in the success of the Summer Youth Employment Program (SYEP). Launched by the TEDC in 2024, the program provides paid summer job opportunities for local young adults across a variety of industries. Participation has grown significantly, from 12 employers in its inaugural year to 45 businesses now offering 89 positions. This growth not only expands career awareness and workforce readiness, but also highlights the value of strong relationships in economic development.

Our commitment to businesses extends well beyond their initial investment in Tomball. We remain actively engaged, working alongside our partners to ensure they have the resources and support needed to succeed.

This dedication to collaboration—from project inception through completion—continues to strengthen Tomball's reputation as a connected, forward-thinking community. We are proud to share these accomplishments and appreciate your continued interest in Tomball.

Kelly Violette

Business Retention & Expansion

To continually engage and assist in the success of Tomball businesses.

2025-2026 BR&E Impact

Business retention and expansion (BR&E) remains a cornerstone of the TEDC's mission to support the continued prosperity of Tomball businesses. Through a steadfast commitment to engagement and collaboration, the TEDC works to strengthen relationships that help businesses grow while advancing the economic vitality of the city.

From the earliest stages of the site selection process, companies recognize the advantages of locating in Tomball and frequently choose to invest in this thriving Houston suburb. Just as important, however, is the TEDC's intentional focus on ongoing, two-way communication that fosters lasting partnerships and encourages future investment.

Companies such as Northwest Houston Heart Center, Houston Poly Bag, Hoelscher Weatherstrip Manufacturing, and Grimes Industrial have expanded their presence in Tomball by leveraging the TEDC's collaborative support. Through financial assistance, development coordination, and workforce support, these businesses have chosen to deepen their roots and continue growing within the community.

Tomball Business & Technology Park

The Tomball Business & Technology Park has grown from a strategic investment into a catalyst for industrial development and business success. The 99.5-acre park, developed by the TEDC, has been recognized multiple times as one of the top 10 industrial parks in the nation. In less than a decade, the park reached full buildout, a significant milestone that reflects strong demand from companies seeking to locate and grow in Tomball. Yet this achievement is not the final chapter in the park's story.

Hoelscher Weatherstrip Manufacturing, a custom manufacturer of weatherstripping and door components for commercial and residential applications, originally purchased a 16.9-acre site in the Tomball Business & Technology Park in 2019.

Building on its success and the operational advantages of locating within the park, the company is currently expanding its facility with the addition of 45,375 square feet of warehouse and shipping space to its existing 194,195-square-foot building. Hoelscher is also installing two door pre-hanging machines that will enable the production of hundreds of door units per day for multi-family housing projects.

Collaboration That Builds Community

Strong collaboration between the Tomball Economic Development Corporation (TEDC) and the City of Tomball drives progress toward shared goals and a vibrant future. Mayor Lori Klein Quinn, City leadership, the TEDC, and community partners each contribute unique perspectives to build the best tomorrow for Tomball.

The TEDC, governed by a seven-member Board of Directors appointed by the Tomball City Council, plays a key role in enhancing the city's economic vitality. By fostering an environment that offers exceptional opportunities to live, work, and do business, the TEDC serves both residents and the business community.

Strategic infrastructure investments continue to elevate quality of life and support sustainable growth. In partnership with local businesses and community stakeholders, the TEDC and the City have advanced projects that enhance connectivity and aesthetics in key areas. Improvements in Old Town, including upgraded public alleyways, as well as enhanced signage, lighting, and landscaping, have contributed to a more walkable and inviting downtown environment.

The TEDC has also demonstrated its commitment to long-term growth by supporting the expansion of the South Wastewater Treatment Plant, reinforcing the City's focus on infrastructure and essential public services. Additional collaborative efforts have resulted in the development and enhancement of parks, playgrounds, and beloved community gathering spaces.

Attracting and retaining businesses in Tomball means offering more than opportunity—it means providing a community where people want to live and thrive. Through strong leadership and a shared commitment to collaboration, the City and the TEDC continue to deliver critical infrastructure and high-quality amenities that position Tomball for sustained success.

Grow Tomball

Success Stories:
Scan to see more!

The TEDC recognizes that one of the most effective ways to attract new investment is by highlighting the success of the businesses already operating in Tomball. Grow Tomball, a campaign launched by the TEDC to increase visibility for the local business community, continued to expand and evolve in 2025–26.

Developed to showcase local companies and highlight the TEDC's strong business retention and expansion (BR&E) efforts, the Grow Tomball initiative features original multimedia content, including articles, webinars, and video storytelling that spotlight the people and businesses shaping Tomball's economy.

New additions to the Grow Tomball program in 2026 included two promotional videos highlighting unique aspects of the community that help position Tomball as a destination. One video showcased the city's growing culinary scene, featuring acclaimed establishments, all Made in Tomball, such as Della Casa Pasta, Chef's Providence, Manna Bread from Heaven, and Paradigm Brewing, and highlighting how Tomball has become a destination for food enthusiasts. A second video illustrated the collaboration between multiple City of Tomball partners and the TEDC to co-author Tomball's progress.

With a focus on supporting the needs of Tomball's existing business community, the TEDC also hosted several educational webinars throughout the year. Topics included smart social media strategies, artificial intelligence for small businesses, and building a strong company culture.

For the third consecutive year, the TEDC received recognition from the International Economic Development Council (IEDC) for its "Success Stories" initiative in the Multimedia Promotion category. The program, which highlights the unique origins and success of local businesses in Tomball, earned a 2025 Bronze Excellence Award.

Businesses featured in the 2025–26 "Success Stories" series included TPC Real Estate, Walsh & Albert, Metal Zinc, Niky's Mini Donuts, Coaches Cigar Lounge, LeMaster Law Firm, Victory Pie Company, and Klauer Manufacturing.

Attraction & Recruitment

Attract and secure new businesses and industries that align with Tomball's economic goals and community character.

2025-2026 A&R Impact

Attraction and recruitment remain a top strategic priority for the TEDC, focused on securing businesses and industries that align with Tomball's economic vision and community character. As a premier business destination in the Houston region, Tomball's continued growth depends on proactively attracting new investment that supports quality job creation, strengthens the tax base, and enhances quality of life.

Through targeted efforts, the TEDC has successfully attracted a diverse mix of businesses—from restaurants and office/warehouse developments to oil and gas manufacturing—demonstrating the community's ability to support a wide range of industries. These efforts not only diversify the local economy but also reinforce Tomball's position as a competitive and business-friendly community.

By continuing to recruit companies that complement existing assets and workforce strengths, Tomball ensures sustainable growth that enhances its small-town character while expanding economic opportunity, making it a community of choice for businesses and residents alike.

New Business Rental Incentive Program

Seeking to reduce local vacancies and drive new business growth in previously underutilized areas of Tomball, the TEDC's New Business Rental Incentive Program is a performance-based rental subsidy to assist companies in leasing space within the City. With a proven track record of filling empty properties and increasing employment opportunities, the New Business Rental Incentive Program provides up to 25 percent of the base monthly rent for the business's first year of operation – not to exceed $10,000 per company.

Businesses Assisted	19
Square Footage Occupied	75,068
Jobs Created	318

A stated goal in the TEDC's Strategic Work Plan is to recruit and secure new businesses that are favorable to Tomball and its residents. As the community continues to blossom, Tomball's infrastructure, industry and economy are also bustling – keeping pace with the city's thoughtful development.

The Grand at 249

Developed by NewQuest Properties as the largest retail concentration within Houston's northwest submarket, is Tomball's hottest retail project. Located at the nexus of the Grand Parkway and Highway 249, the $90 million, 65-acre retail center is under development to deliver more than 400,000 square feet of retail. Gringo's Mexican Kitchen, Portillo's, Bojangles, Starbucks, Smalls Sliders, Black Bear Diner and Jersey Mike's are already operational. Signed tenants expected to open soon include Chick-fil-A, Dick's Sporting Goods and Sam's Club.

Tomball's ideal location and business-minded principles continue to attract major brands to The Grand at 249. Sam's Club, an anchor at the booming mixed-use retail center, is targeting this summer for the opening of its 166,664 square-foot, members-only store and fuel station. The Tomball location is part of Sam's Club's "strategic footprint expansion" that will see the opening of 15 new clubs in 2026.

Darden Restaurants

Featuring a portfolio of some of the most recognizable and successful brands in full-service dining, selected 2.14 acres at FM 249 and Alice Road in Tomball as the site of the company's two newest restaurants: Olive Garden and Cheddar's Scratch Kitchen. A customized economic impact analysis studying taxable sales, job creation and salaries estimates Olive Garden and Cheddar's to deliver the city of Tomball over $57 million in economic impact during the restaurants' first 10 years.

CSE W-Industries

A long-established provider of automation, engineered systems, and power solutions, plans to develop a multi-phase corporate campus in Tomball to consolidate its regional operations and support continued growth. The project, located at FM 2920 and FM 2978, will ultimately include approximately 555,000 square feet of manufacturing, warehouse, and office space. Phase one of this project will create 300 jobs and a total capital investment of $28 million.

Powering Tomball's Advantage

The stated vision of the TEDC is to ensure Tomball is the community of choice for businesses, residents, and visitors. To advance that vision, the TEDC initiated a study to identify emerging opportunities aligned with the city's strengths and to best position Tomball for long-term economic growth—supporting both the attraction of new companies and the retention of existing businesses.

The Target Industry Analysis evaluated key community assets, including infrastructure, a job-ready workforce, a dynamic economy, and available properties, to identify industries that are high-growth, high-value, and realistically recruitable. Supported by the city's business-friendly environment, strong connectivity, and exceptional quality of life, the analysis recommends that Tomball strategically pursue industries within Biotechnology & Life Sciences, Information & Computer Technology, Food Production & Processing, and Advanced Manufacturing.

In addition to identifying priority sectors, the analysis establishes a clear, data-driven approach for future economic development efforts. By aligning industry targets with Tomball's property inventory, workforce strengths, and infrastructure capacity, the TEDC is better positioned to focus recruitment efforts, guide investment decisions, and support long-term, sustainable growth. Importantly, the scale and operational needs of these targeted industries align well with Tomball's existing assets, ensuring that recruitment efforts are both strategic and achievable.

After

Forged by a desire to build upon the strengths of Old Town Tomball while maintaining the historic downtown area's unique character, a focus on developing/redeveloping Old Town was outlined as a stated goal in the TEDC's strategic work plan.

To achieve the mission of stimulating business through public-private partnerships to renovate, rehabilitate, restore and enhance Old Town, the TEDC offers an Old Town Façade Improvement Grant (FIG). The investment incentive is a matching grant program that provides funds to assist commercial renovations that enhance facades and structures in Old Town to help attract new customers, tourists and businesses.

Tomball Legacy Square

Redevelopment Project

In the heart of downtown Tomball, a cherished community landmark is being thoughtfully reimagined through a collaborative effort between the TEDC, Tomball City Council, and engaged residents.

The transformation of the former 4.6-acre First Baptist Church campus into Tomball Legacy Square—a vibrant, multi-purpose destination for community, arts, culture, and connection—is already attracting interest from regional and national organizations. These groups recognize the site's potential to host a wide range of activities, including gatherings, performances, professional events, and celebrations.

Since acquiring the property in April 2023, the TEDC has remained committed to preserving the site's legacy while incorporating community input throughout the planning process. Studio Red Architects is leading the schematic design phase, while Webb Management Group is conducting a comprehensive feasibility study to assess the operational, financial, and market viability of proposed uses.

To keep the community informed and engaged, a dedicated Tomball Legacy Square webpage has been launched on the TEDC website, providing ongoing updates, timelines, and information on events and public engagement opportunities.

Public Meetings

This redevelopment project is rooted in a pledge to integrate broad feedback from the community in every phase of the process. In July, the TEDC hosted the first Tomball Legacy Square community open house, welcoming approximately 200 attendees. Guests explored a series of interactive poster stations highlighting potential uses, architectural concepts, site layouts, landscape design, and parking and mobility considerations. Residents, business owners, and stakeholders were provided multiple opportunities to share feedback and perspectives.

TLS Advisory Committee

One of the key takeaways from the initial community open house was the value of establishing a dedicated citizens' committee to help guide the project. Within weeks, the TEDC Board of Directors appointed 15 members to form the Tomball Legacy Square Advisory Committee. Since then, the committee has met monthly, selected its leadership, collaborated with Studio Red Architects, and participated in a guided tour of the site to gain firsthand insight into the campus and its potential.

Parking & Mobility Study Stakeholder Group

To ensure Tomball Legacy Square enhances and supports the vitality of downtown for years to come, prioritizing access and connectivity is essential. With this in focus, the TEDC engaged AIG Technical Services to conduct a comprehensive downtown parking study, multimodal mobility analysis, and develop a downtown bollard plan for Old Town Tomball to accommodate the addition of Legacy Square. In addition, a Parking and Mobility Stakeholder Group has been established, meeting regularly and working closely with consultants to help guide these efforts.

Education & Workforce Development

To continually engage and assist in the success of Tomball businesses.

Building a Robust Workforce

Partnerships Built to Last

Education and workforce development remain a core priority in the Tomball Economic Development Corporation's Strategic Work Plan. Through strong partnerships with education institutions and industry leaders, the TEDC works to ensure local businesses have access to a skilled workforce while creating meaningful career pathways for Tomball students.

Through continued collaboration between the TEDC, Baker Hughes, and Tomball Independent School District (Tomball ISD), students gain exposure to STEM disciplines and real-world career applications that build interest and readiness for high-demand technical fields. These efforts support the development of a sustainable talent pipeline aligned with local industry needs.

TEDC leadership also serves on the steering committee for Tomball ISD's P-TECH program — a unique model that integrates high school coursework, college instruction, and career preparation into a single pathway. Students can earn both their high school diploma and a no-cost associate degree while gaining practical experience through internships, mentorships, job shadowing, and other work-based learning opportunities.

Additionally, the TEDC partners with Lone Star College–Tomball to support workforce readiness initiatives such as the GPA + Professional Competencies Quotient, helping students demonstrate both academic achievement and the professional skills valued by employers.

Summer Youth Employment Program

The Tomball Economic Development Corporation's Summer Youth Employment Program (SYEP) continues to serve as a key workforce development initiative, connecting local students with meaningful paid internship opportunities across a wide range of industries. The program provides real-world exposure that helps students better understand career pathways while allowing employers to begin developing relationships with future talent.

Since its inception, this innovative workforce initiative has experienced significant growth. Participation increased from 12 employers in the program's first year to 20 in the second year, before expanding to 45 businesses offering a total of 89 paid internship positions in 2026. This steady expansion reflects growing community engagement and recognition of the program's value in strengthening the local workforce pipeline.

2024:

Participating Employers: **8** Internship Opportunities: **12**

2025:

Participating Employers: **19** Internship Opportunities: **32**

2026:

Participating Employers: **45** Internship Opportunities: **89**

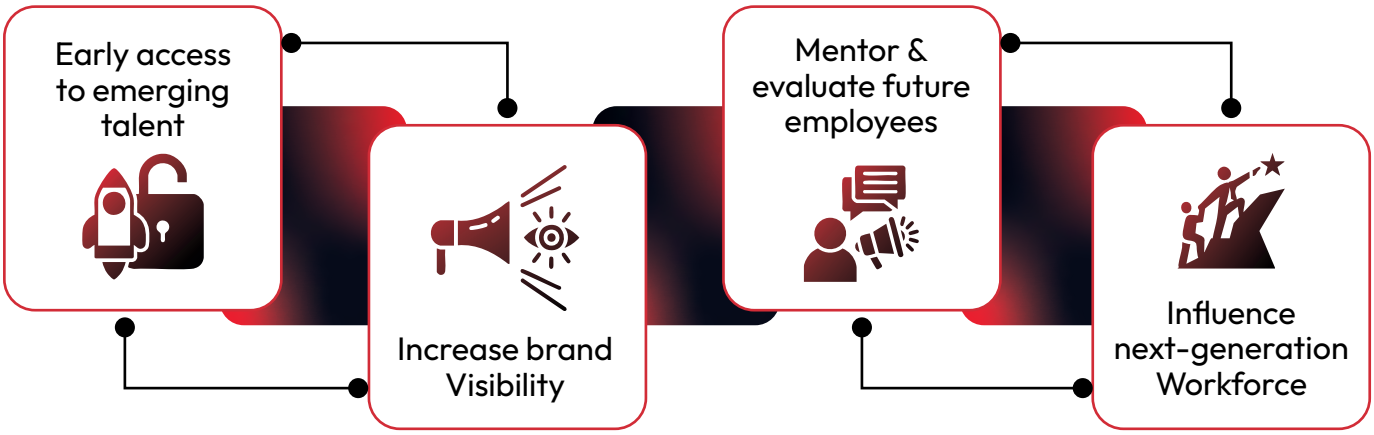

SYEP

Scan to see more!

As the program continues to expand opportunities for both students and employers, TEDC remains committed to strengthening and diversifying SYEP. In 2026, the maximum age for eligible participants was increased from 20 to 22, creating an additional pathway for college students and recent graduates to return to Tomball during the summer and explore career opportunities within the local workforce.

By aligning student interests with employer needs, SYEP strengthens local talent pipelines and contributes to long-term economic vitality. The program supports broader economic development goals by fostering alignment between education, career awareness, and industry demand, while also helping retain young talent by reconnecting students with career opportunities in Tomball.

Why Businesses Participate

Internship Impact

Structured. Intentional. Supported.

Events & Awards

Promoting economic development in Tomball requires both visibility and impact, and the TEDC continues to gain recognition at the highest levels for its work. Among this year's honors, Executive Director Kelly Violette was named Economic Developer of the Year at the 2025 Texas REDnews Real Estate Awards—an achievement that underscores the leadership, vision, and results driving Tomball's continued success.

This prestigious recognition reflects not only individual excellence, but also the strength of the partnerships, strategic initiatives, and long-term planning efforts shaping Tomball's economic landscape.

The TEDC's work was also recognized on an international stage, earning two gold and one bronze Excellence in Economic Development Awards from the International Economic Development Council (IEDC). Gold awards were received in the Talent Development & Retention category for the Summer Youth Employment Program and for the TEDC's Annual Report, which highlighted both recent achievements and the organization's 30-year legacy. Notably, the TEDC was the only Texas economic development organization to receive a gold award in either of these categories—earning top honors in both.

REDnews Economic Developer of the Year

2025 IEDC Awards

REDnews Economic Developer of the Year

2025 IEDC Awards

2025 Texas EDC Workforce Excellence Award

TISD Realtors Forum

At the state level, the Texas Economic Development Council further recognized the TEDC with a 2025 Economic Excellence Recognition and Workforce Excellence Award.

While these accolades elevate Tomball's profile, the TEDC remains equally focused on supporting local businesses and strengthening the community. Through events such as the Economic Outlook Luncheon, Community Career Fair, Tomball ISD Realtors Forum, Baker Hughes STEMinar, and Lone Star College–Tomball Employer Partnership Luncheon, the TEDC continues to bring together business and community leaders to foster collaboration, share insights, and drive ongoing economic growth.
