****Subject:**** Petition in Support of Kennel Construction by Tomball Animal Hospital

Dear Mr. Meyers,

On behalf of our 501(c)(3) nonprofit animal rescue organization, we respectfully petition the City of Tomball to support and approve the construction of a kennel facility by Tomball Animal Hospital. This facility is urgently needed to house rescued dogs and cats, many of whom are saved directly from the streets of Tomball and would otherwise be left without shelter or care.

Tomball Animal Hospital has played a critical and compassionate role in our community by offering temporary housing and veterinary care for animals in need. This partnership has allowed us to rescue, rehabilitate, and rehome countless strays, neglected, abused, and owner-surrendered pets.

With the approval of this new kennel facility, we can continue providing these life-saving services and ensure that these animals have a safe place to stay while they await adoption. Without additional housing space, we will be forced to turn away animals from the public—those who find strays or who are facing life changes that prevent them from keeping their pets.

This would not only compromise the well-being of the animals but also increase pressure on our already overwhelmed city and county shelters. As a no-kill rescue organization, we strive to reduce the burden on public shelters while promoting responsible pet ownership and the humane treatment of all animals.

The approval of this new kennel would directly support these efforts and serve the greater good of our community.

We sincerely appreciate your time and consideration in approving this vital facility. Your support will make a meaningful difference in the lives of Tomball's homeless and at-risk animals.

Sincerely,

9/22/25
