Any remaining costs of the proposed Improvements will be paid from sources other than assessment of the property within the District.

 Letter from developer requesting consideration of a PID and summary of the special benefits to be received by the development;

HistoryMaker Homes is requesting from the City of Tomball the creation of a Public Improvement District to assist in developer reimbursement through PID bond sales. The proceeds from the PID bond sales will be used to help fund public improvements which serve the Seven Oaks community. Seven Oaks will sit on 19.34 acres of land which is under Tomball's 50-acre threshold for PID bond sales. In exchange for Tomball's consideration for PID financing through bond sales, HistoryMaker will agree to close 25 homes in the Seven Oaks community before the PID bonds are sold

The Seven Oaks community will consist of 143 townhomes which will come in packs of 3, 4, 5 & 6. These townhomes will be 1800 SF on average, and are anticipated to have an average sales price of \$260,000. This community will be managed by a homeowner's association which will allow the Seven Oaks residents to live a lifestyle which demands little in the way of property management and maintenance. The HOA will be responsible for the exterior upkeep of the buildings in the community, as well as the landscaping & amenities throughout the community.

HistoryMaker has had tremendous success in Houston, and other major US cities, in bringing their townhome product to market. Due to design efficiency, HistoryMaker is able to deliver to their customers a level of quality that is unmatched by competing products.

Over the past 12 months HistoryMaker has seen its expected development costs for the Seven Oaks community increase by 33% due to the extreme supply chain issues constraining the housing and construction industry. It is HistoryMakers desire to deliver a product to its customers that does not cut back, in any way, on the quality of the Seven Oaks Community. The additional funds that the PID will generate will be used to embellish our amenity lake and other reserves with high quality features. These amenities include masonry walls, iron fencing to enhance views of the lake, decorative lighting features around the lake, aesthetic fountains, walking trails, entry monumentation, seating areas, and the planting of shade trees. Without such funds History maker will have no choice but to lessen its ambitions in respect to *amenity material selection* in order to provide a positive return on its investment.

iii. Evidence that the developer has the expertise, experience, necessary capital, and financial backing to complete the new development to be supported by the District financing. The developer must provide the City with adequate evidence of its committed and anticipated sources of funding to fund the balance of the improvements in the District not eligible to be funded by District issued financing;

### HistoryMaker Homes:

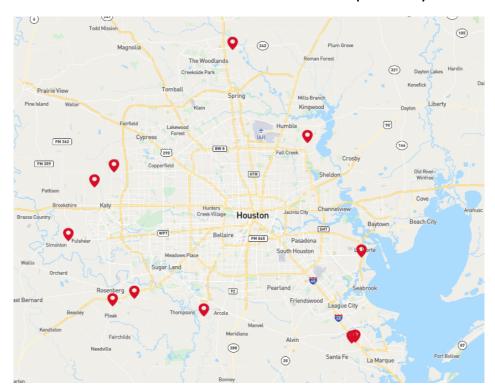

A brief history behind HistoryMaker Homes goes back to pre-World War II. The Mitchell family began building homes in the Fort Worth area in the late 1940's. From there on, the Mitchell family would establish HistoryMaker Homes and would then flourish into the prevalent home builder & developer they are today. After 60 years in the DFW market, History Maker would then open their Houston, TX hub in 2016. Since then, History Maker Homes has constructed quality homes in major master plan communities such as; Sunterra, Artesia Village, Katy Lakes, Summer Lakes, Seabourn Landing, Harpers Preserve, Sienna Townhomes at Parkway Place, & Balmoral. The success of History Maker Homes can be attributable to the company's vision, mission, and core values ``To honor God, enrich the lives of

stakeholders, and delight customers". History Maker Homes has made strides in the development and home building industry due to their adaptations in technology applications, intelligent construction methods, as well as energy efficiency.

In the past 12 months HistoryMaker has constructed approximately 290 homes in the Houston area, and approximately 846 homes in the Dallas / Fort Worth area. With an average home selling at \$332,700 that is \$378,000,000 in home sales over the past 12 months.

iv. A site plan or general plan of development that outlines, at a minimum, land use and thoroughfare connections and is consistent with the City's Comprehensive Plan, Strategic Plan, and all other City plans formally approved by City Council, as amended;

History Maker Homes will provide 143 luxury townhomes to the City of Tomball. These townhomes will consist of pristine landscaping at the front of each dwelling for a more inviting atmosphere for residents to walk through the entire community. The detention pond area will have a walkable trail to create a sense of place that coincides with the values and direction of the City of Tomball comprehensive plan. With driveways located in the rear of each unit the clutter of automobiles will be mitigated by the private alleyways. Please see the exhibits below for an understanding of the general plan and landscaping to be provided

 Identification of how the project will contribute to funding the expansion of arterial and connector streets, major collector roadways or highways, and trunk line utility infrastructure, as applicable when necessary to address the projected demand for services and the impacts of the development;

HistoryMaker's Seven Oaks project will contribute to and enhance the public infrastructure of Tomball in several major ways. Harris County is undertaking a major project which will widen Holderrieth Road, and replace water, sewer, and drainage facilities within the Holderrieth ROW. The Seven Oaks project has caused Harris County to agree to deepen their proposed storm sewer in this area in order to better serve the 7 Oaks community and the land around this area. This action will allow nearby properties to drain to the Holderrieth storm sewer that would have otherwise not been able to. HistoryMaker has agreed to pay for the cost to lower this storm sewer line. HistoryMaker will also be providing a left-hand turn lane which will allow traffic flow to continue while passengers are entering the Seven Oaks community. The detention Pond of Seven Oaks will also enhance the flooding characteristics of the area by detaining storm water that previously sheet flowed off site. Seven Oaks will also sport an amenity pond with walking trails that will be open for public use.
