

**TO:** Honorable Mayor and City Council

**FROM:** Kelly Violette  
Executive Director

**MEETING DATE:** March 20, 2023

**SUBJECT:** North and South 100 Block Alleyways

---

The attached request letter from David Esquivel, City Manager, indicates that the City of Tomball is requesting additional funding due to an increase in the scope of the project (addition of a public restroom) and rising prices for construction material. The aesthetic enhancements related to the project are still under design and have not received opinion on probable costs for those elements.

This is an eligible project under the legislation that governs Type B sales tax corporations. If approved as a Project of the TEDC, it will go to the city council for final approval by resolution.
