River Revitiazation Steering Committee

Author and title: Carissa Binkley, Economic Vitality Program Analyst & Stephanie Grigsby, Principal Design Workshop

Title: **Envisioned Uses**

Recommended Action:

That the River Revitalization Steering Committee receive a presentation from Design Workshop on envisioned uses and participate in a facilitated discussion.

Overview:

Design Workshop will present on envisioned uses in the river corridor.

- Draft Presentation slides include:
 - Summary of R2SC input to date on desired uses and qualities for the West River Street portion of the corridor
 - Overview of how Place Types can help further visualize and describe land use and desired community character for a place
 - Review of a DRAFT Place Type Description for West River Street
 - Overview of the different types of residential uses and corresponding densities

Desired input from the R2SC:

- Discussion and Input on the Place Type Description for West River Street:
 - o What parts of the description do you like?
 - What parts would you change?
- Discussion and Input :
 - What types of residential buildings/densities do you like? NOT like? (This will be a series of Mentimeter questions, followed by discussion.)
 - Are there areas where the PERCENTAGE of residential uses is higher than other uses? Where?
 - Are there areas the DENSITY of residential use is higher than other areas? Where?
