Dear Truckee Town Council,

I am a voter and homeowner in Truckee and I am writing today in support of a new library in Truckee, and of a bond measure to help finance a new library. My family (we have two children in TTUSD schools) are all supporters and plan to volunteer in the campaign to pass a bond measure. We are excited about the benefits a new library would offer to our community, especially as a gathering place for teens to study and collaborate, as a place for clubs and organizations to meet, and as an emergency resource center with built-in backup power and air conditioning.

Please approve the library to move forward with a bond measure.

Thank you,

Adrienne Kimber

Subject: FW: Proposed Re-Zoning at West End Donner Lake

Hi Chantal and Laura,

This comment came in for the NMU zoning discussion.

Chelsea Crager
Senior Planner
ccrager@townoftruckee.gov
Phone: 530-582-2910

From: ericwormood@comcast.net <ericwormood@comcast.net>
Sent: Tuesday, March 25, 2025 4:10 PM
To: Planning Division <PlanningDivision@townoftruckee.gov>
Cc: Eric Wormood <ericwormood@comcast.net>; 'Aileen Wormood' <awormood@comcast.net>
Subject: Proposed Re-Zoning at West End Donner Lake

We are the owners of two parcels on Donner Pass Road, situated between Donner Lake Rd and South Shore Drive in the proposed NMU zoning area. These adjacent parcels are shaped as a flag type lot with a very narrow long lot and a shallow back lot. With this configuration we have

limited street frontage on the front lot. The second parcel is only accessed by an existing driveway through the first parcel. Our question is whether there will be open options written into the NMU zoning for taking into account odd size parcels, as is known that all parcels have very different shapes and do not fit in a "standard" for the current potential percentages of commercial verses residential.

We had envisioned building out the second parcel with the possibility of providing several local housing units. It seems like this could be difficult to achieve this objective were the 50% commercial requirement applied to this virtually land-locked parcel and the front parcel bordering Donner Pass road is very narrow.

For these two particular parcels, a 10% commercial requirement could be met creatively to adhere to this possible requirement in the NMU zoning.

We would also like to point out that having owned property in the West End of Donner Lake for 20 years, we have seen very few successful commercial undertakings at that end of the lake. The isolated nature of the West End, with only one way in and out, severely limits the foot traffic that a commercial property would need to thrive. In addition it does seem most any commercial business would need to survive on 8 +- months of sales as the West End has very limited people in the off seasons.

For this reason we believe the NMU zoning in this area should reflect the greater need for sustainable affordable housing, coupled with improved shuttle service to get folks to town

Thank you for taking this into consideration while this moves forward in the process.

Sincerely

Aileen and Eric Wormood

Dear Town Council,

I am writing to express my support for the initiative to build a new library. As a wheelchair user and Truckee resident for 36 years, I have encountered increasing challenges in accessing the current library due to its outdated facilities and cramped space. A new library is not only necessary for those with mobility issues, but it will also be an important aspect to our town's emergency preparedness.

Once built, the new library will be the only emergency resource center in Truckee equipped with permanent back-up power, modern communication capabilities, and full ADA compliance. This will ensure that all residents, regardless of physical ability, can rely on it during times of natural disaster. The combination of these features will provide a safe and efficient hub for information, resources, and community support.

Thank You for considering this important bond measure!

Bill Bowness

My family is in support of the library bond measure.

We will happily support the building of a new town library. We were shocked 12 years ago when we moved here at the size of the library.

We know that a functional library can be the heartbeat of a community. We all need this, our youth, our teens, our entrepreneurs, artists, non English speakers, handicapped, professionals, parents, teachers, everyone.

Thank you

Dear Truckee Town Council,

Please support the new Truckee Library. The town of Truckee is in need of an improved, modern library. As a volunteer for Friends of the Truckee Library, I helped conduct some of the community outreach/feedback. Community members from all ages and backgrounds were very enthusiastic about the project. Everyone I spoke with said it would enhance the community and that it was much needed. I had several people say how vital the current library is to them as a resource, but how much better a new, larger library would be for accessing resources and addressing their needs. Several mentioned that the library was their sole source of internet access. The new library will offer more opportunity for so many people. It will be ADA compliant, have permanent back-up power along with modern communication capability.

I gained a unique perspective over the summer as I participated in a Tahoe Donner community garage sale. I specified that all funds raised at my site would be matched by us towards the new library. I raised five times more than I expected. Most noteworthy it was members of the community with the least income to spare who universally gave the most. All stated that they would love a new library. Kids with a few dollars or cents chose to put them in the library funds jar and forego a "treasure." It was clear that the community supported the dream of a new library. Please support the new library. It will be a much used and much loved community resource for our very special town.

Sincerely,

Jeanne Chiodo

I believe a new library would serve as a vital resource for the residents of Truckee, fostering education, creativity, and community engagement. The key reason for my support is the immense benefit that a modern library can offer to our children and youth. Enhanced access to learning resources, technology, and quiet study spaces promotes academic success and encourages a lifelong love of reading and learning. In an age where access to digital information is crucial, a state-of-the-art library can bridge the gap for all community members, ensuring that everyone has the tools they need to thrive.

Furthermore, a new library would be a community hub, providing a welcoming space for workshops, events, and programs that foster connection among residents. It can also support local artists, authors, and educators, helping to cultivate Truckee's unique cultural identity.

I urge the council to consider the long-term value and impact of this project and to vote in favor of moving forward with the library bond measure for November 2025. I am also willing to volunteer my time and efforts to help campaign for its passage, as I believe in the transformative power of a well-supported library.

Thank you for your consideration.

To the Truckee Town Council:

My name is Jeff Lennan and I live in Truckee. I'm writing to you in support of building a new Truckee Library and putting the bond measure on the ballot this November. I believe that the new library - and also the campaign to approve it - will be good for our community now and long into the future.

My wife and I are deeply committed to this community and we believe building a new library can make it stronger. From youth literacy and workforce development programs to a gathering place for all ages and an emergency resource for times of shared community challenges like wildfires and winter storms, the new library will serve as a center for community-building for generations to come.

I also happen to have a fair amount of experience with local bond measure campaigns to fund libraries. In 2004, I co-founded a political consulting firm that specialized in ballot measures and public funding campaigns. Our team has helped pass nearly a dozen library bond measures in cities and counties in Oregon, Washington and Idaho.

I'm retiring this year, and when I was introduced to The Friends of the Truckee Library, I was excited to volunteer my time and any expertise I have to help pass a potential bond measure. For the last few months, I've participated in the early stages of planning and I've evaluated the campaign's strategy and capacity and the playing field on which it will need to operate in order to succeed.

In my professional opinion, if this bond makes it to the ballot this November, it will pass. I don't say this because of a gut feeling. I say it because I feel strongly that a well organized Yes campaign focused on systematic voter identification and voter turnout will succeed here. I have not only seen this strategy win the day in similar circumstances, but I have been involved in making it happen and I am committed to rolling up my sleeves and helping make sure we do what it takes to win this campaign.

You will not regret voting to support putting the library bond on the ballot this November. The new Truckee Library facility and its programs will provide real and lasting benefits that will be clear and measurable for the community and for stakeholders like the Town Council.

Dear Council Members, I am writing regarding item 7.3, the Truckee Library Revenue Measure on Tuesday March 25 agenda. I am in complete support of a new Truckee Library and plan to volunteer to help with its passage. In addition to the information and support mentioned in the agenda packet. I believe the library can become the center for community service. It will be a location that will allow community discussions, provide meeting rooms for all types of groups especially book clubs and a library is also a location for the students to meet safely. For me, growing up the library was not only a place to study but for me it was also a safe place to meet friends in a safe environment.

I am writing to encourage the Town Council to approve moving forward with the library bond measure for November 2025. The Town of Truckee both needs and deserves a modern facility that reflects the town's vibrant and buoyant outlook, and engaged and diverse citizenry. A revitalized, well designed space not only complements other areas of the town's growth, but will offer children, students, and adults of all ages the resources they need and desire. In addition, a new library will provide an emergency center with full-time back up power and modern communications capabilities. This space will also be ADA compliant. Given Truckee's location, a safety net for the community when natural disasters occur is essential.

Please vote to approve the November bond measure for the Library!

Kate Korsh

I am an enthusiastic supporter of building a new library in Truckee. This library will be a community asset for many reasons. Through years of hard work, the Library Up committee and the Friends of the Library has done a thorough, professional analysis of the how the library will serve the community and the best way to make it a reality. Now is the perfect time for the next step to put a ballot measure on the November 2025 special election for funding of the new library. Please vote to support this effort!

Thank you!

Hello council members, I am writing to encourage you to vote in favor of a library bond measure. As a mother of two young children in Truckee, we've spent many hours at the library! My four year old daughter requests library visits all the time, especially in the snowy months when there are few indoor spaces to spend our winter time. And though we love reading it's definitely not just about the books. We love bilingual story hour, crafts and special events, and practicing social skills by chatting with our librarian friends. The library is our safe, comfortable space where we connect with others, grow, and learn.

Building a new library will create even more opportunities for literacy, community, and play, with a space that better accommodates our growing community.

Thank you for your consideration of this important investment in our community.

Best,

Kyla Ettinger

In the years since our family moved to Truckee in 1987, we have always strived to support endeavors that would improve and enhance the community that we raised our son in. As we look forward to the lives of all the children, grandchildren, grandparents and extended family that will be lucky enough to call Truckee home, the incredible attributes of this proposed new state-of-the-art library will provide a place to learn, a place to gather, a place to connect via internet that may not be available at home, a place for teens . . . so much to benefit our local community and to be enriching the lives of our future leaders.

I hope that you will vote to approve this new library to replace what has become outdated and much too small to serve our growing community.

Dear Town Council Members,

I am writing to express the vital role our public library plays in our community. More than just a place to borrow books, it serves as an essential hub for learning, literacy, and connection. It provides free access to knowledge, technology, and educational programs for people of all ages, fostering personal and professional growth.

For students, it is a quiet space to study and access resources they may not have at home. For job seekers, it offers tools and guidance to improve their prospects. For seniors, it provides programs that keep them engaged and connected. In a time when digital access is crucial, our library ensures that no one is left behind.

On a personal note, the library and its wonderful staff have been an invaluable resource to our family. Our children have become avid readers with the help of the library, and we are grateful for the programs and support it provides.

A well-supported public library strengthens the heart of our town. I urge you to continue investing in this invaluable resource for the benefit of all.

Thank you for your time and commitment to our community.

I am writing
to advocate that the Town Council approve Agenda 7.3 so we can move forward now
in building the library that our community needs and has expressed their desire
and commitment to. The FOTL and all involved
in the JPA have done the work needed to push this project forward and now we
need the Town governance to take the next step The timing is now as evidenced by
the
enthusiasm in actions and financial gifts.
The library as planned will serve our community both as a library of the
21st century and as a resource center in times of emergency. Let's not miss this
opportunity.

Dear TRuckee Town Council.

Please support the new Truckee Library. The new library will be a much needed modern community resource. Our great town deserves a great library.. The current library was built to serve a much smaller community. Although the thoughtful staff is amazing, a larger, modern library will better serve Truckee and the surrounding area. It will have better access for those with physical challenges (ADA), better internet and a robust back up generator. It will be much more than a source of information, it will be "the beating heart" of a great town.

Please support the new library.

Sincerely,

Mike Chiodo

I am writing to express my support for the new library. I see the library as a gathering place for our community and a resource for multiple groups including elderly, low income families that may need computer resources, young families for story time, as well as a great place to borrow books for people of all ages and economic backgrounds.. My mother lives in the senior apartments and the library, if built in the regional park location, would provide a social outlet and a place she could walk to from her home. I think a new updated library would be a tremendous asset to our community . Thank you

Rachel Elste (Truckee resident)

I strongly advocate for the creation of a new library and community center. Truckee urgently needs a vibrant, central hub where residents of all ages can connect, learn and collaborate. This project represents a vital investment in our community's future, ensuring a valuable resource for generations.
