

**TRUCKEE POLICE DEPARTMENT  
MEMORANDUM**

**DATE:** 02/02/2026  
**TO:** Chief Danny Renfrow  
**FROM:** Captain Lisa Madden  
**SUBJECT:** CA Government Code 7072 – Military Equipment Usage

---

In compliance with California Government Code Section 7072, this memorandum will supplement the attached Military Equipment (ME) matrix by providing information regarding the following items pertaining to ME usage from **March 2026, to March 2027:**

**Summary of Usage:**

UAV/Drones – During this reporting period our UAV's were deployed on several occasions during calls for service pertaining to missing persons, search and rescue operations (Donner Lake drowning incident), as well as for traffic collision scene mapping. Additionally, UAV's were deployed as a situational awareness resource during community events to support public safety. UAV's were deployed for individual operator training and for internal media creation purposes (social media/public relations).

PepperBall Launchers and Munitions – All PepperBall related deployments during this time period were only for individual user training purposes and instances of wildlife diversion. No PepperBall munitions were projected at human targets as a less lethal force option during this reporting period.

BeanBag Shotguns and Munitions – These shotguns and their munitions were used during in-service training functions and for non-lethal wildlife diversion situations. No BeanBag munitions were fired at human targets as a less lethal force option during this reporting period.

Simunition Firearms and Sim-Rounds – This equipment and accompanying munitions are solely reserved for training and has no authorized field use. Therefore, these items were only used within a training environment during this timeframe.

**Complaints:**

During this reporting period no complaints were received regarding use of military equipment.

**Internal Audits & Policy Violations:**

During this reporting period all items were inventoried and confirmed as being accounted for. All equipment usage by department personnel was found to be within policy. As a result, there are no violations to report.

Sincerely,

*Lisa Madden #6174*
