A massive ski snowboard throne! Something to play on!	1 (0.3%)
A mixture of transportation and Historic Truckee may be a nice combination. I also think it would be nice if the art fits with the design of the Mobility Hub.	1 (0.3%)
A sculpture depicting and honoring the "first people" (the Washoe)	1 (0.3%)
A three dimensional artistic map of the Tahoe-Truckee region	1 (0.3%)
A Truckee friend of mine has constructed a large fish sculpture made entirely of recycled used plastic bags (her own). It's beautiful , large and striking to behold. It would be wonderful for a transit shelter. You can contact her, through me, if there's interest. Jean Brooks	1 (0.3%)
Actual real affordable housing.	1 (0.3%)
Already have railroad items on display and this was historically a lumber mill site so should be lumber elated.	1 (0.3%)
An actual local animal bear, deer, not ants.	1 (0.3%)
Animal of reused/repurposed materials	1 (0.3%)
Art on the shelters and benches could be cool too. Maybe incorporating and including our youth.	1 (0.3%)

Big art piece that shows what truckee is like	1 (0.3%)
Can the artists decide? They may have some ideas for the space that is more abstract or other ideas, like river, water, logging, flora, etc.	1 (0.3%)
Climate is such a huge issue as is the toll taken on our environment by the tourist industry. Take the awful trash pile ups post July 4th or the horrendous traffic and emissions from ski season. An upcycled piece would be marvelous, including something educational about climate change. Interdependence of species, etc. If the theme goes more historical, we need to honor that the stewards of this place were the Washoe.	1 (0.3%)
Commemoration to snow removal operators- the town would stop working without them	1 (0.3%)
Connection to Washoe Tribe	1 (0.3%)
Consider a storytelling approach which highlights the sustainability initiatives of the town of Truckee for current and future generations. (Theme may include stewardship of the region)	1 (0.3%)
Depending on how much the town has to spend, I think it would be really exciting to commission a contemporary artist or put a call out for public art commission to create a site specific placed based artwork. I think this is a great way to put Truckee on the map to bring an actual contemporary public art piece.	1 (0.3%)
Find an Indigenous artist to create the piece!	1 (0.3%)

Green space first, then sculpture and art intermixed.	1 (0.3%)
Historic and use recycled materials	1 (0.3%)
Historic as it relates to trees, animals and indigenous peoples. People should see the art and remember and respect the beautiful land	1 (0.3%)
Historic figures that founded and kept this pioneer town alive throughout history.	1 (0.3%)
Historic Truckee: Trains, transcontinental railroad, logging, ice harvesting, and/or early skiing.	1 (0.3%)
I actually have no idea haha. I do feel that continuity is important when it comes to installations. I feel the art should blend with the environment to some degree. That being said, I really love the geometric globe in KB, and that doesn't blend at all! Ha... who am I to say, really?	1 (0.3%)
I believe this area is an excellent center point for demonstrating, celebrating, and educating the public on the area's past and current aquatic environment, namely our streams and rivers. Being so close to "Trout Creek", it would serve as a great location and opportunity to recognize this part of Truckee's history. Historically, giant Lahonton Cutthroat migrated up from Pyramid lake all the way to Lake Tahoe, and currently our local waters are home to Rainbow and Brown Trout, Whitefish, as well all the other wildlife that depends on this ecosystem - otters, snakes, waterfowl, birds of prey, migratory birds, insects, etc.. Our local rivers and streams have been put to the test - from logging, road construction, industry, development, and golf courses dotting the headwaters - streams like Trout Creek, and the Truckee River have witnessed survived a lot of change over the centuries. It would be really cool to build a hub of art that explores and demonstrates our love and appreciation for this great natural resource of ours. -Scott Ferguson	1 (0.3%)
I enjoy art but appreciate art that fits our area. The flowers by the rec center are kinda ugly we don't see flowers like that in Truckee/tahoe. The new art wall that goes from old town up to hilltop is confusing. It just looks like a bunch of random pieces put together in a wave shape. I'm all for abstract art but I still think it should fit the theme of our town. The theme of our town isn't railroads or skiing. The theme of our town is nature. Isn't that why we all live here? Sure the skiing is great and the history is interesting. But I believe we all live here because Mother Nature has provided us with a beautiful area and that's what we should we should decorate our town with. Something that fits what's already here, the beautiful flora and fauna.	1 (0.3%)
I have two suggestions: Artwork about the local indigenous people who have been here since long before any of us. Even better if the art is done by a local indigenous artist. OR... Artwork featuring local rare/endangered species... and or local native wildlife and plants.	1 (0.3%)
I like the idea of acknowledging Truckee's roots and the workers who built the railroad which put the town on the map, particularly the Chinese workers.	1 (0.3%)
I like the idea of art, probably sculpture of some kind, that residents can interact with, that viewers are drawn into as opposed to merely walking by it.	1 (0.3%)

I love the little “natural playground” features at the small pocket park next to Alibi/the arts center - would be fun to have something like that here too. Some good rocks for kids to climb, etc.	1 (0.3%)
I love when public areas have outdoor workout circuits. Would be cool to have functional art in the form of monkey bars, step boxes, etc. make it accessible for all ages.	1 (0.3%)
I think a lighting project would be cool similar to what they have in LA. https://s3-us-west-2.amazonaws.com/collections.lacma.org-images/remote_images/ma-29156-WEB.jpg?zhZrEbWMIMkvXpajc1HxARmUqQOY2Mri I hate when there is dull lighting at bus stops. Include seating, make it instagrammable, etc.	1 (0.3%)
I think the art should feature both the railroad, mountains and animals native to our area. I think Romina Branje should be considered as the artist or one of several artist commissioned - she is an amazing local artist who captures Lake Tahoe beautifully in her art	1 (0.3%)
I think the sculpture should pay homage to Truckee's past and roots by representing something related to the railroad industry. Railroad was the first mode of transit that connected Truckee to other parts of the world, so combines both categories together - transportation and historic Truckee - into one. Railroadng also captures the immigrant story to the area as well.	1 (0.3%)
I think the themes should be different at each location, not that all three areas should have the same theme.	1 (0.3%)
I think you could consider turning this into something actually useful for the community instead of spending our tax dollars for some stupid “art piece” that the locals will look at once and forget about the next day.	1 (0.3%)
I wish I could have put Historic Truckee and Railroad because there is so much history tied to Truckee associated with the railroad.	1 (0.3%)
I would like a truckee artist(s) to complete the artwork. There is so much talent in our community. I would like to see an art installation that depicts animals or mountains. The use of repurchased materials for some or all of the art would be ideal.	1 (0.3%)
I would love to see that the artists are sourced right here from our own community .	1 (0.3%)

It sounds like no one likes the ants, but I think the ants are pretty cool. Reusing waste that would otherwise fill our landfill is a great idea. Try something other than ant, but let's be serious, we have a lot of great artists in town making cool shit and let's support them. Just make it a unique space in our culture lacking town. Please do not put in modern artwork, it does not fit with the Truckee Mountain area theme!! (for example, the huge multi-colored metal painted flowers that were installed by the Rec Center) Artwork made from natural metals, rock, wood would be more appealing/appropriate for the mountain area theme.	1 (0.3%)
PLEASE historic truckee. So many people do not know the rich history of truckee. Ice palace? Boca brew? THE NATIVES OF TRUCKEE?!	1 (0.3%)

Thank you for taking the time to ask the people of Truckee for their opinion. It means a lot coming from Santa Rosa where the people don't have a voice. Very glad to be a part of this community. - Dan Barlow.	1 (0.3%)
The art installation should compliment the theme of the area being used while offering some insight to where the people have landed.	1 (0.3%)
The choices above should be in addition to the choice of reused/repurposed materials. Hire a local artist this time around. A transportation hub would be a great idea if it was actually useful. The public transportation around Northern Lake Tahoe isn't set up to benefit the working people around here. The hours of operation aren't conducive to when folks need to be to work early & late.	1 (0.3%)
The lumbar yard was there for decades It must incorporate something with timber And railroad- even consider the icehouse - a giant ice work of some kind?	1 (0.3%)

This area is currently used by the unhoused outdoors and in parked vehicles. I'd recommend adding a public restroom, garbage cans, shelter.	1 (0.3%)
Transportation/railroad buses, and trains	1 (0.3%)
Truckee was created because of the railroad. Railroad represents transportation. Perhaps the art could reflect that and also historic truckee.	1 (0.3%)
Using existing materials that would otherwise be trash would help show PACT's commitment to the environment. That said - it could also incorporate other themes like historic Truckee to showcase the town as visitors arrive in the transportation hub.	1 (0.3%)

Well aside from eventually using funds for local workforce housing that is not income restricted just because we "make too much", I am actually a fan of art and think it should be a display of mountains and trees and a bear made out of repurposed old donated skis and snowboards! It will represent 3 of the topics listed above, show homage to the towns love of winter sports, and our green clean mindset. Maybe even throw in some railroad ties somehow idk	1 (0.3%)

Again, would love to see an art installation depicting the indigenous Paiute chief/tracker Tro-kay, or the Washoe people	1 (0.3%)
Art installations at roundabout at Glenshire seems dangerous due to the fact that it is downhill and so narrow that oversized and CDFA restricted/Illegally avoiding the ag station trucks using Glenshire drive have gotten to stuck and damaged that roundabout. Plus during a fire event larger fire trucks will need all the space they can get	1 (0.3%)
Bring beauty to Church Street!	1 (0.3%)
Can we paint mosaics on the electrical boxes!!	1 (0.3%)
Church Street District would be a wonderful place for an installation of art, especially as it is the walking path from downtown Truckee to the Railyard and will be walked quite often.	1 (0.3%)
Commission more of it! And locally!	1 (0.3%)
For the above selections, my choices really depend on the subject and quality of the installations - if we're talking about big metal flowers, rusted ants or a band of musicians, I'd vote in the reverse order. But if you want something that really introduces the Town in a creative but authentic way, then start with the McIver roundabout. Thanks for taking our input..	1 (0.3%)
For the proposed existing roundabout artwork, it would be nice to see animal or winter sports themed artwork.	1 (0.3%)

How about a bear box painting/decorating competition. Historical themed murals. A beautiful labyrinth at the new West River Park. We have enough rusty metal art.	1 (0.3%)
I drive from prosser and have to look at the fake flowers and ants. They are hideous and make me cringe every time I pass by them. Please do not allow this to happen anywhere else in Truckee. It cheapens the image of the Town. The round about with the fake flowers and ants would be so much better off if they were removed.	1 (0.3%)
I like the sculpture art downtown. Would be cool to keep that theme. We have plenty of nature around us so it does not need to be trees, flowers or bears. More abstract.	1 (0.3%)

The art being installed should do its best to represent either the historic workers that made this town what it is today, Nature and the beautiful animals that call this place home, or the active lifestyle that can be lived up here. Should also be made strictly by local artists like Mountain forge and others alike. Lastly an emphasis on affordable housing for the local workforce non income restricted, but must have proof of local job. No bums from out of the area to take what was supposed to be for local workers. Sorry just throwing in my 2 cents	1 (0.3%)
The art should be interactive with the community - so art children can play on or where pedestrians can sit	1 (0.3%)

The Donner Lake installation was a huge disappointment for a couple reasons. PACT should be ashamed for not hiring local artists to do that installment. Bringing attention to the trash pulled out of the Lake is a great idea, however, the opportunity for the town to tackle the root of the problem was a big miss. The fish sculptures are already missing pieces and have been vandalized. How about adding bear proof trash bins along the public docks and then creating a town job position for someone to empty them? How about creating an architectural art installment that is also something useful AND nice to look at? Public bathrooms? Bear proof trash & recycling bins? A playground? Benches? Designed and built by artists that LIVE HERE?! I could get on board with that. Otherwise, use your resources for more important things like tackling the lack of affordable houses (notice I didn't say 'affordable eyesore condos?'), or homelessness or the useless public transportation hours or holding the ski resorts responsible for problems they're contributing to. I'm becoming more and more disappointed with our town. I makes me really sad.	1 (0.3%)

A bear standing on its hind legs with another bear on all fours.....or even a cub. Historic Truckee should go downtown. The railroad has infuriated too many people, the mountains surround the town so why more mountains, and winters sports are iffy depending on the climate. Bears are here to stay and whether one likes it or not, they have a "forever home" in Truckee. Another thought: open up the ant hill to residents of the town to decorate for all the holidays. Make it a town project each holiday and make it a fun event with changing themes. You might be pleasantly surprised at how creative people could be with the ant hill.	1 (0.3%)

Ask Greg from the historical society for input, we really enjoyed discussing Truckee history with him in the museum. Perhaps an homage to the historical winter sports history in Truckee, like the crystal ice palace or the long ski run that they created.	1 (0.3%)

Hi! I think it would be awesome to have some mushroom sculptures. It would add so much fun to the area. I clicked on animals because it could be fun if the mushrooms had eyes and smiles. I live in the Artist lofts and I actually sculpt mushrooms if you have any questions please reach out it would be so fun to have cute art around town -Cori 954-249-6588	1 (0.3%)
Highlight the intersection of art and nature. Ideally trees / plants / water. Something inspiring and abstract - natural colors - not bright colors.	1 (0.3%)

Historic or Railroad	1 (0.3%)
Historic Truckee or railroad themed using repurposed materials would be great! I like that all the roundabout artwork/artwork at the Donner Lake boat ramp all have a similar style/look. Thanks!	1 (0.3%)
How about a kinetic (moving/wind driven) installment created out of used items such as bicycle wheels etc. created by local artists perhaps comprised of various independent pieces that end up interconnected on the roundabout.	1 (0.3%)
How about a statue of a roundabout? Def need more round about presence in Truckee.	1 (0.3%)
How about repurposed railroad items	1 (0.3%)

I appreciate a historic piece always. But maybe Endangered species wildlife - or DOGS. I love how dog and animal friendly and loving our community is. Overall, I'd really love to see something incorporated with animals. Look forward to your artistic creations!	1 (0.3%)
I like the idea of re-used repurposed with whatever theme pick. Get creative. Love the bay bridge train depot at park as example.	1 (0.3%)
I think it would be great to focus on Truckee's railroad history and the Chinese railroad workers that helped make it happen.	1 (0.3%)
I would like to see sledding bears	1 (0.3%)
I would recommend a small sized piece of old railroad equipment, box car, switcher engine, etc. Kids always love to see railroad stuff, the circle allows for great 360 degree viewing and pays tribute to the railroad who has long worked at that location. I would reach out to Union Pacific, the Feather River Railroad Museum and the Sacramento Railroad Museum to see if they have any old right sized equipment that could weather and patina in place so as to not require much maintenance in the future.	1 (0.3%)
I would recommend you create something here that harkens to the legacy of the area. Any installations represent a great deal to locals, and visitors alike, and become representative to those visiting, of the area and who/what we are.	1 (0.3%)
I'm a big fan of well done landscaping. Trees, bushes, flowers, etc. Have yet to see an art installation in roundabout that was more appealing than natural elements. The flowers at the rec center round about aren't terrible, but the rusty ants are awful. Nothing beats nature.	1 (0.3%)
I'm going to keep responding and say that the town shouldn't ask people what "theme" they want - there should be a plan as to what the collective vision is with public art. Themes are "themey" - what is the prescription? Its a roundabout near the old train yard, also at the end of old downtown- its a gateway... These are all considerations as to what to prescribe as parameters. Either the town should have a vision they come up with the community, or look to the artists to help develop and present a "theme" as they look at the site. Therefor think the "theme" should be artist choice, if it's not the towns vision.	1 (0.3%)
Ideally something mountain, railroad, or historically relevant! Thank you :)	1 (0.3%)
Individual large letters spelling out "TRUCKEE" with a rustic reclaimed wood or recycled material. A place people could gather and take photos next to the letters.	1 (0.3%)
It should be a timber/wood stylized theme connected to the earliest cause for settlement of Truckee. The material should mostly be timber, large in scale. Doesn't mean there should be no reference to the railroad. If the artist wants to insert a little humor, a reference could be made to the way locals cut their own 8+' Christmas trees in the mountains around here.	1 (0.3%)
Keep it low in height with natural landscape and boulders. BTW: The fake colored blue/purple metal flowers and Rusty Ants are hideous on the other two roundabouts by the rec center. Also, fyi, the roundabout design is a dangerous intersection since the westbound church street traffic doesn't "have" to slow down to enter, it's pretty much a straight shot. I have had to slam on my brakes in two separate incidents while driving south on Truckee Way to avoid a TART bus and on the second occasion, a trash truck. There is 6'(?) high wood fence that obstructs the view of westbound Church St traffic.	1 (0.3%)

Leave the animals for Nevada's roundabouts and their freeways. Choose something so compelling that tourists will take selfies with it. We need a draw for that end of downtown if we are ever going to build out that side of town with businesses (like the movie theater that backed out because excessive parking was demanded).	1 (0.3%)

Please choose something that reflects and honors the rough-and-tumble history of Truckee - mining, logging (loggers and the flumes), ice mining, the Chinese contributions to the railroad etc. No more ugly modern art, no cannibal feet, and definitely no more San Francisco modern architecture like the "artist" lofts. It's not that I don't appreciate those things, but this place is special because it isn't all of that which is so common in urban areas.	1 (0.3%)
Please consider Romina Branje for any of the art pieces, her art is phenomenal and a long time local who consistently gives back to her community.	1 (0.3%)
Please do not put up anything that is not representative of this area such as the giant obnoxious flowers in the roundabout in front of the new rec center. Repurposed animals figures or mountainous art would be awesome. Even fish like the trout and/or Kokanee salmon we have up here in our waterways would be cool. Please do not make it so large that it blocks the view in the roundabout/roadway since it is smaller and tighter than others in our town.	1 (0.3%)
Please take inspiration from how other municipalities set up rfps for public art- having a "theme" seems to be an awkward place to start. What if artists got ideas from the setting, or place based art installation , the shape of the site, the history, the light of the site, etc... and made a proposal from there? Their artist statement would explain it all.	1 (0.3%)

Something provocative and memorable. Something unlike any other rotary. Something that could bring some illumination and feeling of safety in this incredibly underlit Central Business District. Something that reaches high. Troy's flowers have been the best, most loved by those I speak to. Something that is not the same old woodsy-goodsy banjo aesthetic [like the uninspired transit shelters]. No weathering steel -- please something with some color. [Reused/ repurposed materials is not a 'theme'.] Something that is playful. Something with some dynamic movement. Thank you for asking for input.	1 (0.3%)

That round about is hard to see the people coming from Glenshire. Make sure that whatever is put there, that you can still see the traffic from all directions.	1 (0.3%)
That roundabout is often the first "entry" for visitors into the town of Truckee. A sculpture to honor the history of Truckee in some way seems the most appropriate, especially since it's the entry into historic district of Town. The other ideas above are wonderful, but also could be put anywhere in town.	1 (0.3%)
