	BIKE RACK	NOTES	NOTES
These	Items have been suggested for staff support but in the holding rack at this time	30-Sep-21	31-Dec-21
	This has been brought forward by a Planning Commissioner		
lights Velcome to Truckee	There is a small group of community members taking on this effort but recent communications with Town staff indicated		Anticipated implementation item in 2040 GPU
ignage	that there was hope for more town participation in this effort.		
	The work plan items around community cohesion are very much focused on the Truckee Community and what we are		
	trying to accomplish in terms of being an Inclusive Community. With respect to Community Cohesion, we have several- proposed action items that focus on the uniqueness of our community and how Truckee can focus on being an inclusive		
	community. It is our opinion that for Truckee, Equity includes a variety of factors, racial equality, use of force policies and		
	training for our police, socio-economic equity and access to services, housing, transportation and social services. It is-		
	through this inclusiveness lens that staff will be proposing many different action items, a few of which are outlined below,		
	as part of the work plan. These are action items that we feel are really Truckee focused:		
	 Revisit the Town's Mission statement to include language of being committed to an inclusive community Communication Plan which promotes being an inclusive community 		
epresentation on-	 Growing Spanish translation services for social media, Council meetings, and Council agenda's with the understand that 		
,	annually we will enhance translation services		
ubcommittee on Race	 Chief's Advisory Committee to work directly with the Police Chief to review policy policies, practices and training to make- recommendations on policies but also on how the police department can better connect with members of our community- 		
and Social Equity	 Homeless Coalition/Team through PD with homeless liaison officer on each shift 		
	 Discuss partnership with the Community Collaborative to engage in living room conversations about inclusiveness in our 		
	community		
	 Hold Community Conversation series to discuss being an inclusive community, including equitable access to services, 		
	transportation and housing Participation in a more Participation in a more		
	focused Countywide discussion is at the discretion of Council.		
	Supervisor Bullock is serving on this committee and representing the Town. No further action at this time.		
Collaboration with School-	In development		
District, Airport District,			
TDPUD and potentially			
others to form a Climate		Part of new task item 10.13 under climate priority.	
Action JPA		Removed from bike rack.	
Staff person assigned to	Hilary Hobbs currently serves as Town Liaison with Council member Polivy. This request is for additional Town staff		
	support. In addition, staff believes that many of the proposed work plan items help to lay the groundwork for VTT to		
Sustainable Tourism efforts and overall more	obtain sustainable tourism certification but additional support beyond what is proposed is beyond capacity at this point in time. Staff does not recommend this at this time.		
expansive support of			
hese efforts.			
	Policy could include exploration of EV charging stations within Town right of way, use of proprietary chargers on public land		
charging station policies	(e.g. Tesla or Rivian), and consideration of designated EV charging spaces toward parking requirements.		
Smoke Free community	Nevada County Public Health and at least one community member has requested that the Town consider development of		
	a smoke-free Downtown Truckee ordinance. This process would require significant public and business engagement and		
	Town Attorney time, as well as coordination with police staff to develop an enforcement strategy.		
Updated Building Energy Audit	At the May 20 budget workshop Town Council expressed an interest in performing an updated building energy audit o		
	Town facilities. Staff has received a bid for this work and included funds in the FY21-22 budget so that this project could be	Council discussed an updated building energy audit during	
	funded if added to the work plan. Completion of this scope of work will require substantial time from both the facilities and Keep Truckee Green staff.	move forward with an update at that time.	
easibility Study for	A Biomass feasibility study is currently budgeted for FY22/23 (C1510). During Q4 of FY20/21 staff, TTAD, and TFPD met with		
Biomass facility in Town-	a potential consultant regarding a feasibility study for a biomass facility near the airport and Town Hall, which would likely		
Hall-Airport- neighborhood-	be a partnership effort and would generate heat for our three facilities. Staff recommends moving this feasibility study up to FY21/22 because we have partnership momentum and consultant capacity. If this change is approved by Council, TTAD,	Council approved moving forward with biomass scoping	
	and TFPD boards, a feasibility study is anticipated to take approximately six months and the cost would be shared between	study on $8/2/2$. Removed from bike rack and updated as	
	the agencies.	part of task 8.2 under the climate priority.	
Emergency housing- measures	6/25/21 Mountain Housing Council convened a group of regional leaders and stakeholders to brainstorm possible		
	solutions for rapid action to address immediate housing needs. Council could consider adjusting the housing work plan to pursue one or more of these actions. Actions discussed at this meeting and/or suggested by Council members included:		
	- A cap on any new short term rental permits (urgency ordinance)		
	Residential eviction moratorium (urgency ordinance)		
	Rental down payment assistance program.	Council approved advancing long-term rental grant	
	Changes to long term rental grant program before the 1-year review that is currently scheduled. Changes could include-	program changes - implemented during the quarter	
I	increasing incentives: partnering with business community to match these grants, and expanding program to include single		1
