Truckee, CA 96161  
June 18, 2022

Dear Ms. Callaway:

On behalf of the Truckee-Donner Historical Society, I am writing to express our support of the Rotary Club of Truckee sign project, "Welcome to Truckee", though we would like to see it read "Welcome to Historic Truckee" much better, and it wouldn't even need an arrow.

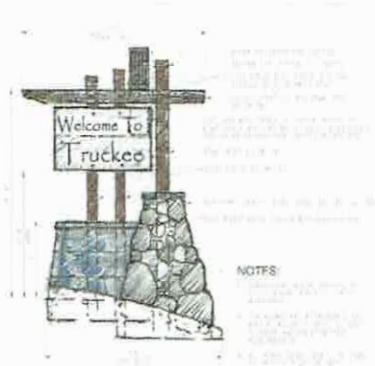

#### Details and Materials

##### Size:

- Overall ~ 10 feet tall by ~10 feet wide
- 3 - 4 foot tall base
- 3 foot by 5 foot sign area about 5 feet above ground level for snow clearance. Letter height varies from 8 to 10 inches depending upon distance from roadway based on MUTCD

##### Materials:

- Granite base for primary support column with smaller steel panels for uprights
- Heavy timber framing
- Solar powered down lighting to illuminate sign

The Rotary sign project is a gift to the town and a nice gift at that.

Respectfully submitted,

Gregory P. Zirbel, President  
Truckee-Donner Historical Society
