

**TOWN OF TRUCKEE**  
**California**

**PLANNING COMMISSION RESOLUTION 2024-13**

**A RESOLUTION OF THE PLANNING COMMISSION OF THE TOWN OF TRUCKEE  
RECOMMENDING APPROVAL OF AMENDMENTS TO THE DEVELOPMENT CODE,  
ZONING MAPS, AND GENERAL PLAN LAND USE DIAGRAM AND ROADWAY NOISE  
CONTOURS DIAGRAM**

**WHEREAS**, the Town Council adopted the 2019-2027 Housing Element on August 13, 2019 thereby establishing goals, policies, and actions to further State and local housing goals;

**WHEREAS**, the Town Council adopted the 2040 General Plan on May 9, 2023 thereby establishing the Council's policy on future growth, development, and conservation of natural resources; and

**WHEREAS**, a number of actions and programs in the General Plan and Housing Element are to be implemented through the Development Code and will require amendments to the Development Code; and

**WHEREAS**, the Council may initiate amendments to the Development Code, zoning maps, and General Plan, and the Planning Commission is an advisory body to the Council on matters concerning land use regulation and the Development Code; and

**WHEREAS**, the Development Code is reviewed regularly to ensure consistency with state and federal laws; and

**WHEREAS**, the Commission held a public meeting on the Development Code amendments, zoning map amendments, General Plan clean-up amendments contained in this resolution on October 29, 2024 for the following items:

Development Code Amendment discussion topics:

- (1) Mixed Use Zoning Districts (Chapter 18.14)
- (2) By Right Housing (Chapter 18.217)

Development Code Amendment cleanup items:

- (1) Zoning Districts (Chapter 18.06, Table 2-1)
- (2) Calculations—Rounding (Section 18.03.020.C)
- (3) Purposes of Residential Zoning Districts (Section 18.08.020)
- (4) Allowed Uses and Permit Requirements for Residential Zoning Districts (Section 18.08.030, Table 2-2)
- (5) Minimum and Maximum Density (Section 18.08.050)
- (6) Purposes of Commercial and Manufacturing Zoning Districts (Section 18.12.020)
- (7) Allowed Uses and Permit Requirements for Commercial and Manufacturing Zoning Districts (Section 18.12.030, Table 2-7)
- (8) Allowed Uses and Permit Requirements for Downtown Commercial and Manufacturing Zoning Districts (Section 18.12.030, Table 2-8)

- (9) Commercial and Manufacturing District General Development Standards (Section 18.12.040, Table 2-9)
- (10) Floor Area Ratio Criteria (Section 18.12.050)
- (11) Mixed Use Component (Section 18.12.060)
- (12) Downtown Commercial District Development Standards (Section 18.12.070)
- (13) Purposes of Special Purpose Zoning Districts (Section 18.16.020)
- (14) Special Purpose District Land Uses and Permit Requirements (Section 18.16.030)
- (15) Allowed Uses and Permit Requirements for Special Purpose Districts (Section 18.16.030, Table 2-10; renumbered to Table 2-12)
- (16) Special Purpose District General Development Standards (Section 18.16.040, Table 2-11; renumbered to Table 2-13)
- (17) DMP (Downtown Master Plan) District Development Standards (Section 18.16.080)
- (18) Historic Preservation (-HP) Overlay District (Section 18.20.40)
- (19) Design Guidelines for Specific Land Uses (Section 18.24.110)
- (20) Residential Mixed-Use Development (Section 18.25.120)
- (21) Multifamily Residential Projects within Downtown Visitor Lodging (DVL) Zoning District (Section 18.25.130)
- (22) Screening and Buffer (Section 18.30.110)
- (23) Open Space Standards (Section 18.46.050)
- (24) Signs (Chapter 18.54)
- (25) Bed and Breakfast Inns (Section 18.58.070)
- (26) Drive In and Drive Through Facilities (Section 18.58.110)
- (27) Mixed-Use Development (Section 18.58.140)
- (28) Wireless Communications Facilities (18.58.270.C)
- (29) Inclusionary Housing (Chapter 18.214)
- (30) Definitions/Glossary (Chapter 18.220)
- (31) Throughout Code: Update all "Downtown Specific Plan" references to "Downtown Truckee Plan"; and
- (32) Throughout Code: Amend all zoning district names and abbreviation to be consistent with the 2040 General Plan land use designations.

#### Zoning Map Amendments

- (1) Update the zoning map to ensure zoning is consistent with the 2040 General Plan land use designations.
- (2) Names and abbreviations for all residential, rural residential, downtown residential, and Downtown Mixed Use zoning districts will be updated to be consistent with the land use and density designations identified in the 2040 General Plan.

#### General Plan Clean-up Amendments

- (1) General Plan Land Use Diagram (Figure LU-2) Clean-up Amendments
- (2) General Plan Roadway Noise Contours Map (Figure SN-8) Clean-up Amendment

**WHEREAS**, the Community Development Department duly noticed the Planning Commission public hearing; and

**WHEREAS**, the Commission finds the amendments may be approved because all findings required by Section 18.160.060 of the Development Code can be made.

**NOW THEREFORE, BE IT RESOLVED BY THE PLANNING COMMISSION OF THE TOWN OF TRUCKEE,** the Commission hereby recommends to the Town Council that the Council take the following actions:

1. Determine that the Development Code amendments were assessed in accordance with the authority and criteria contained in the California Environmental Quality Act (CEQA), the State CEQA Guidelines, and the environmental regulations of the Town. The amendments are not subject to CEQA because the adoption of this ordinance is not a “project” pursuant to Sections 15060(c)(2) and 15060(c)(3) of Title 14 of the California Code of Regulations. Moreover, under Section 15061(b)(3) of the State CEQA Guidelines, the amendments are exempt from the requirements of CEQA because it can be seen with certainty that the provisions contained herein would not have the potential for causing a significant effect on the environment; and
2. Approve the amendments to the Development Code as set forth in Exhibit A, the Zoning Map amendments as set forth in Exhibit B, General Plan Land Use Diagram (Figure LU-2) cleanup amendments as set forth in Exhibit C, General Plan Road Noise Contour Diagram (Figure SN-8) cleanup amendments as set forth in Exhibit D, the amendments to the zoning district names and abbreviations as set for in Exhibit E, and the map identifying the locations of the by right housing sites as set forth in Exhibit F, attached hereto and incorporated herein.

**BE IT FURTHER RESOLVED,** the Commission hereby recommends to the Town Council that the Council adopt the following findings in support of approval of the amendments:

1. The proposed amendments directly implement and are internally consistent with the goals, policies, and actions of all elements of the 2040 General Plan.
2. The proposed amendments would not be detrimental to the public interest, health, safety, convenience, or welfare of the Town.
3. With the proposed amendment, adequate and available sites remain to mitigate the loss of any residential density to accommodate the Town of Truckee’s fair share regional housing need in compliance with State law (Government Code Section 65863[b]).
4. There is adequate capacity available in the community sewer and water systems to serve the potential development, and the site is physically suitable for the requested zoning designation(s) and anticipated land use development(s). Factors considered to evaluate suitability shall include access, provision of utilities, compatibility with adjoining land uses, and absence of physical constraints.
5. The proposed amendments ensure and maintain internal consistency with other applicable provisions of the Development Code, California state law, and federal law.

**PASSED AND ADOPTED** by the Town of Truckee Planning Commission on this 29<sup>th</sup> day of October 2024 by the following vote:

AYES:

**PLANNING COMMISSION RESOLUTION 2024-13**

**EXHIBIT “A”**

**A RESOLUTION OF THE PLANNING COMMISSION OF THE TOWN OF TRUCKEE  
RECOMMENDING APPROVAL OF AMENDMENTS TO THE DEVELOPMENT CODE,  
ZONING MAPS, AND GENERAL PLAN LAND USE DIAGRAM AND ROADWAY NOISE  
CONTOURS DIAGRAM**

**DEVELOPMENT CODE AMENDMENTS**

The Planning Commission hereby recommends the following amendments to the Title 18, Development Code, of the Municipal Code. (Deletions are shown by ~~striketrough~~ type and additions are shown by underlined type.)

- g. When used to describe the applicability of two or more requirements of this Development Code, the word “or” shall mean that compliance with any of the series is sufficient, and the words “and” and “and/or” shall mean that compliance with all of the series is required.
- 3. **Number of days.** Whenever a number of days is specified in this Development Code, or in any permit, condition of approval, or notice issued or given as provided in this Development Code, the number of days shall be construed as calendar days. Time limits will extend to the following working day where the last of the specified number of days falls on a weekend or holiday.
  - 4. **State law requirements.** Where this Development Code references applicable provisions of State law (for example, the California Government Code, Subdivision Map Act, Public Resources Code, etc.), the reference shall be construed to be to the applicable State law provisions as they may be amended from time to time.
- C. **Calculations - Rounding.** Where provisions of this Development Code require calculations to determine applicable requirements, any fractional/decimal results of the calculations shall be rounded as provided by this Subsection.
- 1. **Minimum lot area, maximum density.** The fractional/decimal results of calculations of the number of parcels or residential units allowed through subdivision or a land use permit based on a minimum lot area or maximum density requirement shall be rounded down to the next lowest whole number. For example, the RM-6 zoning district would allow a parcel to be proposed for development with up to six dwellings per acre of site area, which would allow up to 15 dwelling units on a 2.6 acre parcel ( $6 \times 2.6 = 15.6$ , rounded down to 15).
  - 2. **Minimum density.** The fractional/decimal results of calculations of the number of parcels or residential units allowed through subdivision or a land use permit based on a minimum density requirement shall be rounded to the next highest whole number when the fraction/decimal is 0.5 or more, and to the next lowest whole number when the fraction is less than 0.5, except that at least one dwelling unit is required in all cases.
  - 23. **All other calculations.** For all calculations required by this Development Code other than those described in Subsection C.1 above or in another section stating the calculations for a specific development standard, the fractional/decimal results of calculations shall be rounded to the next highest whole number when the fraction/decimal is 0.5 or more, and to the next lowest whole number when the fraction is less than 0.5.
- D. **Zoning Map boundaries.** If there is uncertainty about the location of any zoning district boundary shown on the official Zoning Map, the following rules are to be used in resolving the uncertainty (see also 18.06.040, Zoning District Regulations):
- 1. Where district boundaries approximately follow lot, alley or street lines, the lot lines and street and alley centerlines shall be construed as the district boundaries.

## CHAPTER 18.08 – RESIDENTIAL ZONING DISTRICTS

---

### Sections:

- 18.08.010 - Purpose of Chapter
- 18.08.020 - Purposes of Residential Zoning Districts
- 18.08.030 - Residential Zoning District Land Uses and Permit Requirements
- 18.08.040 - Residential Zoning District General Development Standards
- 18.08.050 - Minimum Lot Area and Maximum Density
- 18.08.060 - Residential Zoning District Performance Standards
- 18.08.070 - Maximum Gross Floor Area for Single-Family Residential Uses

### 18.08.010 - Purpose of Chapter

This Chapter provides regulations applicable to development and new land uses in the residential zoning districts established by Section 18.06.020 (Zoning Districts Established).

### 18.08.020 - Purposes of Residential Zoning Districts

The purposes of the individual residential zoning districts and the manner in which they are applied are as follows:

- A. **RR (Rural Residential) District.** The RR zoning district identifies areas intended for rural living residential homes on large parcels, including the keeping of livestock and other large animals, with supporting corrals and barns. Parcels in the RR zoning district are appropriate for clustered infill development away from environmentally sensitive areas, and to preserve open space. The density of development for this zoning district generally includes properties of one acre or larger with a minimum area of five acres for each dwelling unit. The RR zoning district is consistent with the RC-10, RC-5, Rural Residential 10 acres per dwelling unit, Rural Residential 5 acres per dwelling unit, Rural Residential 1-2 acres per dwelling unit ~~RES~~ and OSR classifications of the General Plan.

The designation of areas in the RR zoning district may also include:

1. Establishing separate RR zoning districts with specific density requirements. These requirements shall be indicated on the Zoning Map by a suffix to the RR Zoning Map symbol which denotes the minimum and maximum allowable number of dwelling units per acre. For example, RR-0.11 to 2 means a minimum of one dwelling unit per 10 acres ~~acre~~ and RR-0.2 means one a maximum of two dwelling units per five acres ~~acre~~.
2. Establishing separate RR zoning districts where further subdivision of existing parcels shall be prohibited because the maximum density allowed by the General Plan has been achieved through previous subdivision. This requirement shall be indicated on the Zoning Map by an "X" suffix to the Zoning Map symbol. Existing parcels located within an area designated in the RS-X district on the Zoning Map shall not be further subdivided unless further subdivision is allowed pursuant to State law.

- B. ~~RS (Single Family)~~ RL (Low Density Residential) District.** The ~~RS-RL~~ zoning district applies to parcels with existing residential development and areas appropriate for new clustered development. Allowable densities range from ~~0.5 to 4.0 one~~ 1 dwelling unit per 2 acres to 426 dwelling units per acre. The ~~RS-RL~~ zoning district is consistent with the Very Low Density Residential, Low Density Residential, Residential (RES), Residential Cluster (RC), Open Space Recreation (OSR), Public (Hospital/Office) and Tahoe Donner PC land use classifications of the General Plan.

The designation of areas in the ~~RS-RL~~ zoning district may also include:

1. Establishing separate ~~RS-RL~~ zoning districts with specific density requirements. These requirements shall be indicated on the Zoning Map by a suffix to the ~~RS-RL~~ Zoning Map symbol which denotes the minimum and maximum allowable number of dwelling units per acre. For example, ~~RSRL-1 to 12~~ means a minimum of one dwelling unit per acre and ~~RS-4 means four~~ a maximum of 12 dwelling units per acre.
2. Establishing separate ~~RS-RL~~ zoning districts where further subdivision of existing parcels shall be prohibited because the maximum density allowed by the General Plan has been achieved through previous subdivision. This requirement shall be indicated on the Zoning Map by an "X" suffix to the Zoning Map symbol. Existing parcels located within an area designated in the ~~RSRL~~-X district on the Zoning Map shall not be further subdivided unless further subdivision is allowed pursuant to State law.

- C. ~~RM (Residential Multifamily)~~ Medium Density Residential District.** The RM zoning district is applied to parcels appropriate for multifamily residential and small-lot single-family residential uses. Appropriate densities range from ~~four-six~~ to 12 housing units per acre. The RM zoning district is consistent with the Medium Density Residential (RES), Medium High Density Residential, High Density Residential (RH) and Tahoe Donner PC land use classifications of the General Plan.

The designation of an area in the RM zoning district may include establishing separate RM zoning districts with specific density requirements. These requirements shall be indicated on the Zoning Map by a suffix to the RM Zoning Map symbol which denotes the minimum and maximum allowable number of dwelling units per acre. For example, ~~RM-8-6 to 12~~ means eight-a minimum of six dwelling units per acre and ~~RM-14 means 14~~ a maximum of 12 units per acre. ~~RM-18 means 18 dwelling units per acre. RM-24 means 24 dwelling units per acre.~~

- D. RH (High Density Residential) District.** The RH zoning district is applied to parcels appropriate for multifamily residential uses. Appropriate densities range from 12 to 24 housing units per acre. The RH zoning district is consistent with the Medium High Density Residential and High Density Residential land use classifications of the General Plan.

- E. ~~DRS-DRL~~ (Downtown Single Family)Low Density Residential District.** The ~~DRS-DRL~~ zoning district applies to areas in the Downtown Study Area with existing residential development or are appropriate for new single-family infill and clustered development. Allowable densities range from one to ~~five-six~~ dwelling units per acre. The ~~DRS-DRL~~ zoning district is consistent with the single-family residentialDowntown Low Density Residential land use classification of the Downtown Specific Truckee Plan.

Separate ~~DRS-DRL~~ zoning districts may be established with specific density requirements. These requirements shall be expressed as a suffix to the ~~DRS-DRL~~ Zoning Map symbol which denotes the minimum and maximum allowable number of dwelling units per acre. For example, ~~DRSDRL-10-1 to 6~~ means 10-a minimum of 1 dwelling units per acre and ~~DRS-4~~ means foura maximum of 6 dwelling units per acre.

- E. **DRM (Downtown Medium Density Residential) District.** The DRM zoning district is applied to parcels in the Downtown Study Area with existing residential development and areas appropriate for new medium density infill and clustered development in the form of single family and multifamily dwellings. The ~~maximum~~-allowable density is 7-14 dwelling units per acre. The DRM zoning district is consistent with the ~~single family residential~~ Downtown Medium Density Residential land use classification of the Downtown ~~Specific Truckee~~ Plan.

Separate DRM zoning districts may be established with specific density requirements. These requirements shall be expressed as a suffix to the DRM Zoning Map symbol which denotes the minimum and maximum allowable number of dwelling units per acre. For example, DRM-10 to 15 means a minimum of 10 dwelling units per acre ~~and DRM-14 means 14a maximum of 15~~ dwelling units per acre.

- F. **DRH (Downtown High Density Residential) District.** The DRH zoning district is applied to areas appropriate for multifamily residential uses. The ~~maximum~~-allowable density is 12-24 dwelling units per acre. The DRH zoning district is consistent with the Downtown High-Density Residential land use classification of the Downtown ~~Specific Truckee~~ Plan

Separate DRH zoning districts may be established with specific density requirements. These requirements shall be expressed as a suffix to the DRH Zoning Map symbol which denotes the minimum and maximum allowable number of dwelling units per acre. For example, DRH-12 to 24 ~~20~~ means a minimum of 12 20-dwelling units per acre and ~~DRH-24 means 24a maximum of 24~~ dwelling units per acre.

### 18.08.030 - Residential Zoning District Land Uses and Permit Requirements

- A. **General land use permit requirements.** Tables 2-2 and 2-3 identify the uses of land allowed by this Development Code in each residential and downtown residential zoning district, and the land use permit required to establish each use, in compliance with Section 18.06.040 (Zoning District Regulations).

**Note:** Where the last column in the tables (“See Standards in Section”) includes a section number, the regulations in the referenced section apply to the use; however, provisions in other sections of this Development Code may also apply.

- B. **Activities within railroad rights-of-way.** Railroad and railroad-related operations, activities and facilities within the Union Pacific railroad right-of-way and operating properties are not subject to the requirements of this Development Code.
- C. **Mobile Home Park Conversion.** Any affordable units lost in the RM zoning district through conversion of a mobile home park to non-affordable housing or another use that would remove affordable manufactured housing units shall be replaced at a one-for-one replacement to ensure no net loss. Mobile home park conversion is subject to approval of a Use Permit by the review authority in accordance with Chapter 18.76 (Use Permits and Minor Use Permits).

**TABLE 2-2 – ALLOWED USES AND PERMIT REQUIREMENTS  
FOR RESIDENTIAL ZONING DISTRICTS**

LAND USE (1)	PERMIT REQUIREMENT BY DISTRICT			See standards in Section:
	RR	RS	RM

Ski lift facilities and ski runs	UP	UP	UP	

**KEY TO PERMIT REQUIREMENTS**

Symbol	Permit Requirement	Procedure is in Section:
P	Permitted use, Zoning Clearance required for projects with less than 7,500 sq. ft. of floor area and less than 26,000 sq. ft. of site disturbance.	18.72
DP	Development Permit required for permitted projects with 7,500 sq. ft. or more of floor area or 26,000 sq. ft. or more of site disturbance.	
MUP	Conditional use, Minor Use Permit approval required.	18.76
UP	Conditional use, Use Permit approval required.	18.76
TUP	Temporary use, Temporary Use Permit approval required.	18.80
	Use not allowed. See 18.03.020.E regarding uses not listed.	

**Notes:**

- Definitions of the listed land uses are in Chapter 18.220 (Definitions, Glossary).
- Section 18.58.060 (Animal Raising and Keeping) may require a Minor Use Permit for certain animals and household pets, the raising and keeping of animals or household pets over a certain number, and/or the raising and keeping of animals on small parcels.
- Allowed only as part of a mobile home park in accordance with Section 18.58.150.

Continues on next page.

**TABLE 2-4**  
**RESIDENTIAL DISTRICT GENERAL DEVELOPMENT STANDARDS**  
 (Continued)

**Notes:**

- (1) Clustered residential projects, condominiums, townhome or planned development projects may be subdivided with smaller parcel sizes for ownership purposes with narrower lot widths, increased site coverage and decreased setbacks for new parcels, with these requirements determined through the subdivision review process.
- (2) Measured at the front setback line.
- (3) Maximum number of dwelling units allowed for each specified unit of land, except where a different density is established by 18.08.050 (Minimum Lot Area and Maximum Density). The approval of a Tentative Map, Planned Development, Development Permit, Minor Use Permit or Use Permit may result in fewer dwelling units being allowed than the maximum density shown. See also Chapters 18.212 (Density Bonuses, Concessions and Incentives) and 18.214 (Inclusionary Housing) for possible density bonuses.
- (4) Garage may be allowed within front and street-side setbacks, not to exceed one story or 20 feet above driveway grade. May not include second floor storage, habitable space, attics, etc. Storage and habitable space may be allowed below road and driveway grade. See 18.58.220 (Residential Accessory Uses and Structures) for garage setback exception.
- (5) Maximum percentage of net site area that may be covered with structures and pavement. See the definition of site coverage in Chapter 18.220 (Definitions, Glossary).
- (6) Maximum allowable height for structures.

### 18.08.050 - Minimum and Maximum Density

The minimum and the maximum density of residential development is determined by this Section. In all cases, the approval of a residential project and/or subdivision through the land use permit and Tentative Map process ~~may result in fewer dwelling units being allowed than the maximum must comply with the~~ allowable density established by this Chapter ~~and the zoning district. The maximum density may be increased in accordance with Section 18.08.050.C (Density Incentives).~~ and the zoning district.

#### A. RR, RS and DRS districts.

1. The maximum number of dwelling units that may be allowed on a parcel in the RR, RS and DRS districts shall be one single-family dwelling, one accessory dwelling unit, and one junior accessory dwelling unit unless the parcel is subdivided into multiple parcels as may be allowed by the maximum density.
2. Where minimum lot area and density requirements are established by the Zoning Map, a suffix to the zoning district map symbol shall state the minimum and maximum density, expressed as dwelling units per acre, for subdivision of the parcel. For example, RR-~~0-1-2~~ means a minimum of one dwelling unit per 10 acres and ~~RS-4 means four a~~ maximum of two dwelling units per acre. The minimum and maximum number of parcels and/or units allowed shall be equivalent to the density established on the Zoning Map. The minimum and maximum density shall be calculated pursuant to Development Code Section 18.03.020.C (Calculations—Rounding). Accessory dwelling units and junior accessory dwelling units shall not count towards the maximum allowed density.
3. Where no further subdivision of existing parcels is allowed because the maximum density designated by the General Plan has been achieved through previous subdivisions, unless the further subdivision is allowed pursuant to State law, the Zoning Map symbol shall include an "X" suffix. For example: RS-X.

4. ~~Where no further subdivision of a parcel is allowed because the parcel upon its subdivision would exceed the maximum density established by the Zoning Map, the review body may approve a tentative map proposing to subdivide the parcel if all of the following conditions are met:~~
- ~~The subdivision will create only one additional parcel, and the newly created parcels cannot be further subdivided under the maximum density established by the Zoning Map;~~
  - ~~The parcel before subdivision is at least 90 percent of the parcel size needed to divide the parcel into two parcels under the maximum density established by the Zoning Map (e.g. a parcel with a density of one unit per five acres would have to be at least nine acres in size—90% of 10 acres);~~
  - ~~The zoning district and maximum density in existence and applied to the parcel prior to adoption of this Development Code would have permitted the subdivision; and~~
  - ~~The parcel was created on or prior to February 15, 1996.~~
5. The review body may approve a tentative map proposing parcels 2.5 to 10 acres in size only if all of the following findings can be made:
- The subdivision is located within or adjacent to an established rural subdivision or an area developed with similar size parcels; and
  - Further subdivision of the parcels will not be permitted or a planned development has been adopted for the subdivision which will ensure the orderly subdivision and development of the parcels to sizes less than 2.5 acres.

**B. RM, DRM and DRH districts.** The number of dwelling units allowed on a parcel within the RM, DRM and DRH zoning districts shall be determined as follows:

- Map symbol suffix.** The suffix to the zoning district map symbol shall state the minimum and maximum number of dwelling units allowed per acre. For example, RM-10 to 15 ~~6~~ means six a minimum of 10 dwelling units per acre and ~~RM-20 means 20~~ a maximum of 15 dwelling units per acre. The minimum and maximum density shall be calculated pursuant to Development Code Section 18.03.020.C (Calculations—Rounding). Accessory dwelling units shall not count towards the maximum allowed density.
- Density based on number of bedrooms.** Within the RM, DRM and DRH zoning districts, the allowed number of dwelling units may also be based on the number of bedrooms in each unit, as shown in Table 2-5.

**TABLE 2-5  
DWELLING UNIT EQUIVALENTS  
BASED ON NUMBER OF BEDROOMS**

Number of Bedrooms in Unit	Equivalent Number of Dwelling Units

Studio	0.50 units
1 bedroom	0.67 units
2 bedrooms	0.80 units
3 bedrooms or more	1.00 unit

The maximum number of multifamily dwelling units that may be allowed on a site shall be calculated by multiplying the total site area by the number of units allowed in the zoning district, and then dividing the number of units allowed on the site by the desired equivalent number of dwelling units.

For example, the maximum number of units allowed on a .62-acre site in the RM-~~6-10 to 15 zoning~~ district would be calculated as: 0.62 acre x ~~6-15~~ units/acre = ~~3.729.3~~ units allowed. The site could accommodate any combination of studio and/or one-, two-, three-bedroom or larger units as long as the total number of equivalent dwelling units based on Table 2-5 does not exceed ~~3.729.3~~.

- C. **Density Requirements for all residential zoning districts (RR, RS, DRS, RM, DRM, and DRH).** In order to ensure efficient use of land and an adequate supply of housing to meet the housing needs of all segments of the community, residential projects shall be required to achieve minimum densities consistent with the ~~following density range of the zoning district except as follows:~~

- ~~a. Projects with 90 percent to 100 percent of the maximum allowable density shall be exempt from providing additional housing units beyond those required under Chapter 18.214 (Inclusionary Housing).~~
- ~~b. For projects with less than 90 percent of the maximum allowable density, additional inclusionary housing units shall be provided as shown in Table 2-6 below:~~

**TABLE 2-6  
MINIMUM DENSITY REQUIREMENT**

Minimum Density (% of maximum allowed density for the residential zoning district)	Additional Required Inclusionary Housing Units (% of maximum density)
90-100%	0%
80-89%	5%
70-79%	10%
60-69%	15%
50-59%	20%

- ~~c. All projects must provide a minimum of 50% of the maximum allowable density on-site unless an exception is granted by the review authority consistent with Subsection d below, or the review authority approves a Transfer of Development Rights or project phasing plan.~~

- ~~d.a.~~ Exceptions to Minimum Density Requirements. The review authority may waive the minimum density requirements ~~of Section D~~ if one or both of the following findings can be made:

- (1) There are special circumstances applicable to the property such as environmental or other site constraints that preclude construction of the minimum number of dwelling units on site;
- (2) Requiring the minimum density on-site would be detrimental to the public health, safety, or welfare, or injurious to the property or improvements in the vicinity and zoning district in which the property is located.

**D. Density Incentives.** The review authority may increase the maximum density requirements established by this section in accordance with Chapter 18.212 (Density Bonuses, Concessions and Incentives) ~~and Section 18.214.060 (Inclusionary Housing—Density Bonuses, Incentives and Concessions), and/or in accordance to the following findings and standards:~~

- ~~1. The review authority may approve a density increase, with or without conditions, only if all of the following findings can be made:~~
  - ~~a. The density increase is proportional to the benefit provided by the project, including exemplary design and environmental sensitivity, and compliance with the other provisions of this Section;~~
  - ~~b. The density increase will not create unmitigable traffic circulation impacts in the site vicinity or elsewhere in the Town; and~~
  - ~~c. The subject site is physically suitable for and adequate in size and shape to accommodate the density of development being proposed.~~
- ~~2. The review authority may increase the maximum density by five percent up to a maximum of 15 percent for each/any of the following project features:~~
  - ~~a. Lands are dedicated for public open space, public access and/or public recreation beyond that necessary for the project;~~
  - ~~b. The site is within the preferred infill area shown on Sheet 28 of the Town Zoning Map; and/or~~
  - ~~c. The project will provide enhanced public facilities which are needed by the Town beyond those necessary for the project or required for the project as mitigation measures (for example, transit facilities).~~
- ~~3. No increased density shall be granted unless the Town Engineer first determines that the increased project density will not create unmitigable traffic circulation impacts in the site vicinity or elsewhere in the Town.~~

### 18.08.060 - Residential Zoning District Performance Standards

All land uses proposed in a Residential Zoning District shall be operated and maintained so as to not be injurious to public health, safety or welfare, and shall comply with the following standards:

- A. Sewer requirement.** No land use shall be approved with on-site sewage disposal. Connection to sewer shall be required.

## CHAPTER 18.12 - COMMERCIAL AND MANUFACTURING ZONING DISTRICTS

---

### Sections:

- 18.12.010 - Purpose of Chapter
- 18.12.020 - Purposes of Commercial and Manufacturing Districts
- 18.12.030 - Commercial and Manufacturing District Land Uses and Permit Requirements
- 18.12.040 - Commercial and Manufacturing District General Development Standards
- 18.12.050 - Floor Area Ratio Criteria
- 18.12.060 - Mixed Use Component
- 18.12.070 - Downtown Commercial District Development Standards
- 18.12.080 - Commercial and Manufacturing District Performance Standards
- 18.12.090 - Retail Trade Uses

### 18.12.010 - Purpose of Chapter

This Chapter provides regulations applicable to existing development and new land uses in the commercial and industrial zoning districts established by Section 18.06.020 (Zoning Districts Established).

### 18.12.020 - Purposes of Commercial and Manufacturing Districts

The purposes of the individual commercial and manufacturing/industrial zoning districts and the manner in which they are applied are as follows.

- A. **CN (Neighborhood Commercial) District.** The CN zoning district is applied to areas appropriate for retail sales, offices and services serving the daily needs of nearby residents. This district may also accommodate mixed-use developments with residential and commercial uses. The development standards and permit requirements of the CN district are intended to create a pedestrian-oriented environment. The maximum floor area ratio ~~for commercial development is 0.2025, and the density for residential development within the CN district is four units per acre for mixed-use developments and 12 units per acre for stand-alone multifamily residential projects.~~ The CN zoning district is consistent with the Residential, Residential High Density, Commercial, Public (Hospital/Office) and Tahoe Donner PC land use classifications of the General Plan.
- B. **CG (General Commercial) District.** The CG zoning district is applied to areas appropriate for a wide range of commercial uses including retail trade and service uses such as restaurant, office and personal service uses. ~~This district may also accommodate mixed-use developments with residences. The construction of onsite multifamily residential units is allowed when required to address a project's workforce housing requirements pursuant to Development Code Chapter 18.216.~~ The maximum floor area ratio ~~for commercial development is 0.2025, and the density for residential development within the CG district is four units per acre for mixed-use developments and 12 units per acre for stand-alone multifamily residential projects.~~ The CG zoning district is consistent with the Commercial and Public (Hospital/Office) land use

## Commercial and Manufacturing Districts

18.12

classifications of the General Plan and the [Downtown](#) Commercial land use classification of the Downtown ~~Specific-Truckee~~ Plan.

- C. **CH (Highway Commercial) District.** The CH zoning district is applied to locations along highways and it is intended to provide highway and tourist related services. The [maximum](#) floor area ratio for commercial development in the CH zoning district is ~~0.200.25~~. The CH zoning district is consistent with the Commercial land use classification of the General Plan.
- D. **CS (Service Commercial) District.** The CS zoning district is applied to areas appropriate for more intensive commercial activities than are allowed in other commercial zoning districts. The [maximum](#) floor area ratio ~~for commercial development~~ in the CS zoning district is ~~0.2025~~, ~~and the density for residential development within the CS district is 4.0 units per acre for mixed-use developments.~~ The CS zoning district is consistent with the Commercial and Industrial land use classifications of the General Plan.
- E. **M (Manufacturing/Industrial) District.** The M zoning district is applied to areas appropriate for manufacturing/industrial uses including [manufacturing](#), processing, [warehousing and distributions and storage](#). [This designation also allows supporting commercial uses, work/live opportunities, and workforce housing.](#) The [maximum](#) floor area ratio for industrial development in the M zoning district is ~~0.2025~~. [The maximum density for residential development is four dwelling units per acre.](#) The M zoning district is consistent with the Industrial land use classification of the General Plan.
- F. ~~**DMU (Downtown Mixed Use) District.** The DMU zoning district is applied to areas in the Downtown Study Area appropriate for a combination of retail sales, offices, services, lodging and residential land uses. The development standards and permit requirements of the DMU district are intended to create a pedestrian-oriented mixed-use environment. In general, most non-retail related uses are prohibited in ground floor spaces along Commercial Row within this district. For a complete list of allowed uses, see Table 2-7 in Chapter 18.12. There is no maximum floor area ratio. The maximum density for residential development is 24 dwelling units per acre. The DMU zoning district is consistent with the Mixed Use land use classification of the Downtown Specific Plan.~~
- G. **DC (Downtown Commercial) District.** The DC zoning district is applied to areas in the Downtown Study Area appropriate for a wide range of commercial uses in or near the Downtown Core, including retail sales, restaurants and offices. There is no maximum floor area ratio. The DC zoning district is consistent with the [Downtown](#) Commercial land use classification of the Downtown ~~Specific-Truckee~~ Plan.
- H. ~~**DVL (Downtown Visitor Lodging) District.** The DVL zoning district is applied to the “gateway property” at the southwest corner of the I-80/Highway 267 interchange. The DVL district accommodates lodging as the primary use. Secondary and appurtenant uses such as a restaurant, meeting rooms and a visitor center are allowed. High density residential, with a minimum density of 16 dwelling units per acre is encouraged in the DVL district through the use of incentives. See Section 18.25.130 (Multi-Family ~~Multifamily~~ Residential Projects within the Downtown Visitor Lodging Zoning District) for a complete description of the incentives. The maximum floor area ratio is 0.25. Residential uses are not counted toward the maximum floor area ratio. The DVL district is consistent with the Visitor Lodging land use classification of the Downtown Specific Plan.~~

## Commercial and Manufacturing Districts

18.12

- 4H. DM (Downtown Manufacturing) District.** The DM zoning district is applied to areas in the Downtown ~~Study Area~~area appropriate for manufacturing/industrial uses. ~~There is no maximum floor area ratio.~~The floor area ratio for industrial development in the DM zoning district is 0.25. The maximum density for residential development is four dwelling units per acre. The DM zoning district is consistent with the Industrial land use classification of the ~~Downtown Specific~~General Plan.

**KEY TO PERMIT REQUIREMENTS**

Symbol	Permit Requirement	Procedure is in Section:
P	Permitted use, Zoning Clearance required for projects with less than 7,500 sq. ft. of floor area and less than 26,000 sq. ft. of site disturbance.	18.72
DP	Development Permit required for permitted projects with 7,500 sq. ft. or more of floor area or 26,000 sq. ft. or more of site disturbance.	18.74
MUP	Conditional use, Minor Use Permit approval required.	18.76
UP	Conditional use, Use Permit approval required.	18.76
	Use not allowed. See 18.03.020.E regarding uses not listed.	

**Notes:**

- Definitions of the listed land uses are in Chapter 18.220 (Definitions, Glossary).
- Use on a site adjacent to a residential zoning district shall comply with the special setback, screening and landscaping standards in Section 18.30.110(E) (Screening between neighborhood commercial and residential lands uses) and Section 18.40.040(E) (Landscaping requirements between neighborhood commercial and residential land uses).

## Commercial and Manufacturing Districts

18.12

- (3) Supportive and transitional housing are subject to the same regulations that apply to other residential uses of the same type in that zone.
- (4) Accessory Dwelling Units associated with multifamily residential project.
- (5) Standalone residential uses shall be subject to the development standards of the RM zoning district and Chapter 18.25 (Objective Design Standards)
- (6) Time-share uses are allowed within existing legal nonconforming single-family residences in the CG and CN zoning districts.
- (7) Small lot single-family subdivisions that comply with all requirements of Gov. Code, § 66499.40 are permitted in zoning districts that allow multifamily residential uses.

**KEY TO PERMIT REQUIREMENTS**

Symbol	Permit Requirement	Procedure is in Section:
P	Permitted use, Zoning Clearance required for projects with less than 5,000 sq. ft. of floor area and less than 26,000 sq. ft. of site disturbance.	18.72
DP	Development Permit required for permitted projects with 5,000 sq. ft. or more of floor area or 26,000 sq. ft. or more of site disturbance.	18.74
MUP	Conditional use, Minor Use Permit approval required.	18.76
UP	Conditional use, Use Permit approval required.	18.76
TUP	Temporary use, Temporary Use Permit approval required. Use not allowed. See 18.03.020.E regarding uses not listed.	18.80

**Notes:**

- (1) Definitions of the listed land uses are in Chapter 18.220 (Definitions, Glossary).
- ~~(2) Stand-alone residential projects must comply with residential development standards of DRM zoning district.~~
- ~~(3) These uses are prohibited on ground-floor spaces along Commercial Row. See Section 18.20.070.~~
- ~~(4) Section 18.58.060 (Animal Raising and Keeping) may require a Minor Use Permit for certain animals and household pets, or the raising and keeping of animals or household pets over a certain number, and/or the raising and keeping of animals on small parcels.~~
- ~~(5) Multifamily dwellings within the DVL zoning district shall have a minimum density of 16 dwelling units per acre.~~
- (62) Employee, supportive, and transitional housing are subject to the same regulations that apply to other residential uses of the same type in that zone.
- ~~(7) Excludes sites listed on the National Register of Historic Places.~~
- (83) Small lot single-family subdivisions that comply with all requirements of Gov. Code, § 66499.40 are permitted in zoning districts that allow multifamily residential uses.

**TABLE 2-9**  
**COMMERCIAL AND MANUFACTURING DISTRICT**  
**GENERAL DEVELOPMENT STANDARDS (Continued)**

**Notes:**

- ~~(1) The total allocation of FAR may be used for a visitor lodging facility. Additional uses may be approved based on the following standards:~~
  - ~~(a) Seven percent (7%) of the available FAR may be used for one table service restaurant. This restaurant must be constructed in conjunction with a lodging project, but the restaurant floor area is not subject to the proportion requirement described in Note (1)(b) below.~~
  - ~~(b) In addition to the restaurant described in Note (1)(a), commercial development consistent with the allowed uses for the DVL district in Table 2-7 may be approved. The floor area of this commercial development shall be counted towards the available FAR and shall be phased in proportion to the amount of lodging floor area. The floor area allowed for commercial development in any phase of development on the property shall be no greater than 16% of the lodging floor area within the same phase.~~
  - ~~(c) Additional floor area above the 0.25 FAR, up to a maximum of 3,500 square feet, may be allocated to the site for the construction of a visitor center.~~
  - ~~(d) For projects with a high density residential (Multifamily dwellings, 11 and more units), the residential components shall not count towards the FAR calculation.~~
- ~~(2) Maximum percentage of net site area that may be covered with structures and pavement. See the definition of site coverage in Chapter 18.220 (Definitions, Glossary).~~
- ~~(3) Maximum allowable height for structures. See 18.30.090 (Height Measurement and Height Limit Exceptions).~~
- ~~(4) For projects with high density residential (Multifamily dwellings, 11 and more units) in the DVL district, refer to 18.25.130 (Multifamily Residential Projects within the Downtown Visitor Lodging Zoning District) for potential incentives for development standards.~~

### **18.12.050 – Floor Area Ratio Criteria**

~~The review authority may increase the floor area ratio (FAR) requirements established by Table 2-8 for the CN, CG, CH, CS and M zoning districts to a maximum of 0.35, subject to the following findings and standards:~~

- ~~A. The review authority may approve a FAR increase, with or without conditions, only if all of the following findings can be made:~~
  - ~~1. The FAR increase is proportional to the public benefit provided by the project, including exemplary design and environmental sensitivity, and compliance with the other provisions of this Section;~~
  - ~~2. The increased project intensity will not create unmitigatable traffic circulation impacts in the site vicinity or elsewhere in the Town; and~~
  - ~~3. The subject site is physically suitable for and adequate in size and shape to accommodate the type and intensity of development being proposed.~~
- ~~B. The review authority may increase the FAR by 0.05, or 2,178 square feet per acre, up to a maximum of 0.35, for each/any of the following project features:~~
  - ~~1. The primary use of the site is for lodging;~~
  - ~~2. The project is a mixed use development that complies with the eligibility requirements of Section 18.58.140.C (Eligibility for mixed use development incentives);~~
  - ~~3. The site is within the preferred infill area shown on Sheet 28 of the Town Zoning Map;~~

## Commercial and Manufacturing Districts

18.12

- ~~4. Lands are dedicated for public open space, public access and/or public recreation beyond that necessary for the project;~~
  - ~~5. The project will provide enhanced public facilities which are needed by the Town beyond those necessary for the project or required for the project as mitigation measures (for example, transit facilities);~~
  - ~~6. The project is a development with commercial and/or industrial uses that contain one or more businesses that support other businesses within the development and reduce traffic and parking demand for the development to an extent greater than that generated by the increased floor space. The review authority may require traffic and/or parking analyses to support this finding; and/or~~
  - ~~7. The project incorporates transportation control measures that reduce traffic and parking demand for the development to an extent greater than that generated by the increased floor space. The review authority may require traffic and/or parking analyses to support this finding.~~
  - ~~8. An in lieu fee is paid in accordance with Council Resolution No. 2002-50 as amended.~~
  - ~~9.  Public art valued at one percent or more of the private development costs for new construction.~~
- ~~C. Residential floor space within mixed-use developments and work/live spaces shall not be counted toward the maximum allowed FAR.~~

**18.12.060 – Mixed Use Component**

All land uses and projects proposed in the CN, CG, CS and M zoning districts having a single tenant or business with 20,000 square feet or more of floor space shall include a mixed-use component as follows:

- ~~A. A project with a single retail, service or office tenant or business of over 20,000 square feet of floor space shall include other retail, office and/or restaurant tenants and businesses equal to 30% of the floor space of the project. The project shall also include a minimum of two residential units for the first 40,000 square feet of floor space, or fraction thereof, of the project and one additional residential unit for each 10,000 square feet of floor space, or fraction thereof, thereafter.~~
- ~~B. A project with a single industrial tenant or business of over 20,000 square feet of floor space shall include other retail, office, restaurant and/or industrial tenants and businesses equal to 30% of the floor space of the project.~~
- ~~C. Land uses and projects with a required mixed-use component are eligible to receive incentives in accordance with Section 18.58.140 (Mixed Use Development).~~

**18.12.070-050 - Downtown Commercial District Development Standards**

- A. In-lieu parking fees.** Unless a project is exempted from providing required parking by state law, parking impact fee may be paid at the discretion of the Director for uses in the DMU and DC districts in lieu of complying with Section 18.48.040 (Number of Parking Spaces Required). The amount of the impact fee per parking space shall be set by Town Council resolution.

## Commercial and Manufacturing Districts

18.12

~~**B. In-lieu bicycle parking fees.** A bicycle parking impact fee may be paid at the discretion of the Director for uses in the DMU and DC districts in lieu of complying with Section 18.48.090 (Bicycle Parking and Support Facilities). The amount of the impact fee per bicycle parking space shall be set by Town Council resolution.~~

~~**C. In-lieu frontage improvement fees.** The Director may require the payment of a frontage improvement fee for uses in the DMU and DC districts in lieu of actual construction of frontage improvements required by Section 18.30.020.B (Access). The amount of the improvement fee shall be determined by the Town Engineer based on the costs to construct the required frontage improvements.~~

**D.B. Commercial Row land use limitations.** In general, most non-retail related uses are prohibited in ground floor spaces along Commercial Row, but are allowed in second and third floor spaces. These limitations are further outlined under Section 18.20.070 (Commercial Row Overlay District.)

## **18.12.080-060 - Commercial and Manufacturing Zoning District Performance Standards**

All land uses proposed in the Commercial and Manufacturing zoning districts shall be operated and maintained so as to not be injurious to public health, safety or welfare, and shall comply with the following standards.

- A. Air emissions.** No approved land use shall generate or cause any visible dust, gasses or smoke to be emitted into the atmosphere, except in accordance with the air quality regulations of the Northern Sierra Air Quality Management District and the California Air Resources Board or for the operation of motor vehicles on the site.
- B. Glare and heat.** No direct or sky-reflected glare or heat, whether from floodlights or from high temperature processes (including combustion or welding or otherwise), shall be visible or felt at the property line.
- C. Ground vibration.** No approved land use shall generate ground vibration perceptible without instruments at any point along or outside of the property line of the use, except for motor vehicle operations.
- D. Odor.** No approved land use shall generate or emit any obnoxious odor or fumes perceptible at the property line.
- E. Sewer requirement.** No land use shall be approved with on-site sewage disposal. Connection to sewer shall be required. Any new land use established on a site must provide access to onsite restrooms that are connected to the sewer system. Uses that utilize a septic system, portable toilets or offsite restrooms for a permanent land use shall be prohibited.
  - a. Exceptions.** Portable toilets (e.g., port-a-potties) may be used on a temporary basis during construction only when the site has an active building permit.

## **18.12.090-070 - Retail Trade Uses**

A single retail trade use or business as listed in Tables 2-6 and 2-7 shall not exceed 20,000 square feet of gross floor space. For the purpose of calculating the maximum square footage, the gross floor area of

## Commercial and Manufacturing Districts

18.12

adjacent stores shall be aggregated in cases where the stores (1) are engaged in the selling of similar or related goods, wares or merchandise and operate under common ownership or management; (2) share checkstands, a warehouse, or a distribution facility; or (3) otherwise operate as associated, integrated or co-operative business enterprises. This restriction on the maximum gross floor space of a retail trade use or business shall not be adjusted or modified by the approval of a planned development, specific plan or master plan.

## CHAPTER 18.14 – MIXED USE ZONING DISTRICTS

---

### Sections:

18.14.010 - Purpose of Chapter

18.14.020 - Purposes of Mixed Use Districts

18.14.030 – Mixed Use Land Uses and Permit Requirements

18.14.040 – Mixed Use District General Development Standards

18.14.060 - Mixed Use Component

18.12.090 - Retail Trade Uses

### 18.14.010 - Purpose of Chapter

This Chapter provides regulations applicable to existing development and new land uses in the mixed use zoning districts established by Section 18.06.020 (Zoning Districts Established).

### 18.14.020 - Purposes of Mixed Use Districts

The purposes of the individual mixed use zoning districts and the manner in which they are applied are as follows.

- A. DMU (Downtown Mixed Use) District.** The DMU zoning district is applied to areas in the Downtown Truckee Plan Area appropriate for a combination of commercial, office, lodging and residential land uses. The development standards and permit requirements of the DMU district are intended to create a pedestrian-oriented mixed-use environment. In general, most non-retail related uses are prohibited in ground floor spaces along Commercial Row within this district. For a complete list of allowed uses, see Table 2-7 in Chapter 18.12. There is no maximum floor area ratio. The density for residential development is 12-24 dwelling units per acre. The DMU zoning district is consistent with the Mixed Use land use classification of the Downtown Truckee Plan.
- B. CMU (Corridor Mixed Use) District.** The CMU zoning district is applied to areas in the Gateway Area appropriate for a combination of multifamily residential, retail, office, service commercial, and public uses. The development standards and permit requirements of the CMU district are intended to create a pedestrian-oriented mixed-use environment with residential and commercial uses. Mixed use is required. Horizontal and vertical mixed-use development are allowed. Stand-alone residential is not permitted. In general, most non-retail related uses are prohibited in ground floor spaces within this district. For a complete list of allowed uses, see Table 2-7 in Chapter 18.12. The maximum floor area ratio is 1.0. The density for residential development in a mixed-use project is 12-24 dwelling units per acre. The CMU zoning district is consistent with the Corridor Mixed Use land use classification of the General Plan.
- B. NMU (Neighborhood Mixed Use) District.** The NMU zoning district is applied to areas appropriate for restaurants, retail sales, offices and services serving the daily needs of nearby residents. The development standards and permit requirements of the NMU district are intended to create a pedestrian-oriented, neighborhood-serving mixed-use environment with residential and commercial uses. Mixed-use is required. Horizontal and vertical mixed-use development are allowed. Stand-alone residential is not permitted. The maximum floor area

~~Commercial and Manufacturing~~ Mixed Use Districts

18.1214

ratio is 0.6. The density for residential development in a mixed-use project is 6-8 dwelling units per acre. The NMU zoning district is consistent with the Neighborhood Mixed Use land use classification of the General Plan.

**18.12.030 – Mixed Use District Land Uses and Permit Requirements**

- A. General land use permit requirements.** Table 2-10 identifies the uses of land allowed by this Development Code in the mixed use zoning districts, and the land use permit required to establish each use, in compliance with Section 18.06.040 (Zoning District Regulations).

**Note:** Where the last column in the tables (“See Standards in Section”) includes a section number, the regulations in the referenced section apply to the use; however, provisions in other sections of this Development Code may also apply.

- B. Activities within railroad rights-of-way.** Railroad and railroad-related operations, activities and facilities within the Union Pacific railroad right-of-way and operating properties are not subject to the requirements of this Development Code.

- C. Mobile Home Park Conversion.** Any affordable units lost in the CMU and NMU zoning districts through conversion of a mobile home park to non-affordable housing or another use that would remove affordable manufactured housing units shall be replaced at a one-for-one replacement to ensure no net loss. Mobile home park conversion is subject to approval of a Use Permit by the review authority in accordance with Chapter 18.76 (Use Permits and Minor Use Permits).

Continues on next page.

**Notes:**

- (1) Maximum percentage of net site area that may be covered with structures and pavement. See the definition of site coverage in Chapter 18.220 (Definitions, Glossary).
- (2) Maximum allowable height for structures. See 18.30.090 (Height Measurement and Height Limit Exceptions).
- (3) Existing standalone residential projects shall comply with the development standards of the RS zoning district (for single-family residential projects) and RM zoning district (for multifamily residential projects).
- (4) Projects in the NMU zoning district located directly adjacent to Donner Lake are required to comply with the required setbacks of Section 18.38.050 (Donner Lake Development Standards).

**18.14.050 - Mixed Use Component**

Land uses and projects in the mixed use zoning districts are required to comply with the following standards:

A. Mixed-use projects shall comply with the following:

1. In the CMU zoning district, more than one-third of the floor area of the project must be dedicated to commercial uses.
2. In the NMU zoning district, at least half of the floor area of the project must be dedicated to commercial uses, with the following exception:
  - a. For properties located directly adjacent to Donner Lake, at least one-quarter of the floor area of the project must be dedicated to commercial uses.
3. New projects on vacant sites which propose 10,000 square feet of floor area or more in a mixed-use zoning district are required to provide a residential component in compliance with the residential density range of the zoning district. Vacant sites include sites where a demolition of existing structures is proposed.
4. Projects proposing construction of a new building (including demolition of an existing structure) equal to the existing floor area of the project or existing developed sites proposing an increase in floor area which is equal to or greater than 50 percent of the existing floor area of the project must comply with the following:
  - a. For mixed-use projects not proposing a residential use, the project must provide more than one type of non-residential primary use (e.g., restaurant and studio or retail and office). Uses shall comply with Table 2-10 (Allowed Uses and Permit Requirements for Mixed Use Districts). Accessory uses approved under Section 18.58.030 (Accessory Retail Uses) and Section 18.58.040 (Accessory Uses – General Standards) shall not be adequate to meet the requirements of this section.
  - b. For mixed-use projects proposing a residential use, the project must meet the minimum density requirements of the zoning district, except as follows:

Commercial and Manufacturing Mixed Use Districts

18.1214

- (1) Modifications to existing sites within the DMU zoning district which have been developed as of [effective date of ordinance] with a single-family or multifamily residential project, a mixed-use project, or a non-residential project which proposes to add residential units are exempt from the minimum density requirements of the zoning district if one of the following conditions applies:
- (a) The proposed increase in floor area is less than 50 percent of the existing floor area of the structure; and/or 2)
  - (b) The structure or site is identified as a historic resource (Category A, B, or C) in Truckee's Historic Resource Inventory.
- (2) All other projects in the DMU zoning district proposing a residential component must meet the minimum density requirements, including the following: 1) Projects proposing new development on a vacant site; 2) Projects proposing to demolish 50 percent or more of an existing structure; and 3) Projects proposing an increase in floor area per structure of a building which is equal to or greater than 50 percent of the existing floor area of the structure based on the previous land use permit approvals for the project.
- c. A mixed-use project which provides more than one non-residential use and only includes on-site workforce housing units required pursuant to Development Code Chapter 18.216 is not subject to the minimum density requirements.
- d. **Floor area calculation.** For the purposes of this section, the floor area of the existing structures shall be based on the approved land use permit in effect prior to [effective date of this ordinance]. Where a land use permit was not required, the approved building permit shall be used in determining existing floor area.
- e. **Cumulative floor area.** The floor area calculation is based on the cumulative change since [effective date of this ordinance]. For example, if a 25% floor area increase is approved one year after the date [effective date of this ordinance] and four years later an additional 30% floor area increase is requested, the requirements of this section would apply.
- f. **Exception.** The addition of floor area for an accessory dwelling unit pursuant to Development Code Section 18.58.025—Accessory Dwelling Units shall be exempt from this section.

B. Both horizontal and vertical mixed-use developments are allowed, subject to the design standards identified in Section 18.14.060 (Mixed Use Zoning District Design Standards).

### 18.14.060 – Mixed Use Zoning District Design Standards

Projects proposed in the mixed-use zoning districts are required to comply with the following design standards:

- A. **Building orientation.** Buildings shall be oriented to the street and parking shall be provided in the rear or on the side of the building to create a pedestrian-oriented environment.

Commercial and Manufacturing Mixed Use Districts

18.1214

- B. Ground-floor commercial requirement.** Mixed-use developments shall have commercial spaces on the ground floor on the front of the building and residential uses and other nonresidential uses located above or behind the commercial use. For building frontages within 20 feet of the Donner Pass Road right-of-way, a maximum of 10% of the building frontage shall be dedicated for residential entrances.
- C. Multifamily unit size.** Multifamily residential units for projects in the CMU zoning district are limited to a maximum average living area of 1,000 square feet.
- D. Streamlined Residential Review.** For projects with at least two-thirds of the gross square footage of the development designated for residential use, consistency with development standards, including the Objective Design Standards (Chapter 18.25), may be administratively determined through the Streamlined Residential Review (Chapter 18.79).

18.14.070 – Mixed Use Zoning District Performance Standards

All land uses proposed in the Mixed Use zoning districts shall be operated and maintained so as to not be injurious to public health, safety or welfare, and shall comply with the following standards.

- A. Air emissions.** No approved land use shall generate or cause any visible dust, gasses or smoke to be emitted into the atmosphere, except in accordance with the air quality regulations of the Northern Sierra Air Quality Management District and the California Air Resources Board or for the operation of motor vehicles on the site.
- B. Glare and heat.** No direct or sky-reflected glare or heat, whether from floodlights or from high temperature processes (including combustion or welding or otherwise), shall be visible or felt at the property line.
- C. Ground vibration.** No approved land use shall generate ground vibration perceptible without instruments at any point along or outside of the property line of the use, except for motor vehicle operations.
- D. Odor.** No approved land use shall generate or emit any obnoxious odor or fumes perceptible at the property line.
- E. Sewer requirement.** No land use shall be approved with on-site sewage disposal. Connection to sewer shall be required. Any new land use established on a site must provide access to onsite restrooms that are connected to the sewer system. Uses that utilize a septic system, portable toilets or offsite restrooms for a permanent land use shall be prohibited.
- a. Exceptions.** Portable toilets (e.g., port-a-potties) may be used on a temporary basis during construction only when the site has an active building permit.

18.14.070 - Retail Trade Uses

A single retail trade use or business as listed in Tables 2-10 shall not exceed 20,000 square feet of gross floor space. For the purpose of calculating the maximum square footage, the gross floor area of adjacent stores shall be aggregated in cases where the stores (1) are engaged in the selling of similar or related goods, wares or merchandise and operate under common ownership or management; (2) share checkstands, a warehouse, or a distribution facility; or (3) otherwise operate

~~Commercial and Manufacturing~~ Mixed Use Districts

18.1214

as associated, integrated or co-operative business enterprises. This restriction on the maximum gross floor space of a retail trade use or business shall not be adjusted or modified by the approval of a planned development, specific plan or master plan.

## CHAPTER 18.16 - SPECIAL PURPOSE ZONING DISTRICTS

---

### Sections:

- 18.16.010 - Purpose of Chapter
- 18.16.020 - Purposes of Special Purpose Zoning Districts
- 18.16.030 - Special Purpose District Land Uses and Permit Requirements
- 18.16.040 - Special Purpose District General Development Standards
- 18.16.050 - RC (Resource Conservation) District Development Standards
- 18.16.060 - PC (Planned Community) District Development Standards
- 18.16.070 - REC (Recreation) District Development Standards
- 18.16.080 - DMP (Downtown Master Plan) District Development Standards
- 18.16.090 - Special Purpose District Performance Standards

### 18.16.010 - Purpose of Chapter

This Chapter regulates development and new land uses in the special purpose zoning districts established by Section 18.06.020 (Zoning Districts Established).

### 18.16.020 - Purposes of Special Purpose Zoning Districts

The purposes of the individual special purpose zoning districts and the manner in which they are applied are as follows:

- A. **OS (Open Space) District.** The OS zoning district is applied to areas of the Town with significant natural resources, including forest land, rangeland, mineral resources and areas suitable for passive recreational uses. The intent of this zoning district is to: designate areas for permanent protection of open space; maintain environmentally sensitive areas; preserve wildlife habitat and corridors, and scenic views. The OS zoning district is consistent with all land use classifications of the General Plan.
- B. **RC (Resource Conservation) District.** The RC zoning district is applied to areas appropriate for protection as open space because of significant environmental resources, but where limited development may be appropriate if clustered. Land uses in this zoning district include open space, passive recreational uses and single-family homes. Development will be clustered and/or integrated with the natural environment to minimize site disturbances, and to preserve open space and other significant natural resources. The RC zoning district is consistent with the Resource Conservation/Open Space (RC/OS) land use classification of the General Plan.
- C. **REC (Recreation) District.** The REC zoning district is applied to areas appropriate for active recreational activities that would be compatible with natural resource areas. Allowed uses include camping, skiing, golfing, clustered lodging, residences and support services. The REC zoning district is consistent with the Open Space Recreation (OSR), Resource Conservation/Open Space (RC/OS), Residential (RES) and Tahoe Donner PC land use classifications of the General Plan.
- D. **PF (Public Facilities) District.** The PF zoning district is applied to areas appropriate for public, institutional and auxiliary uses that are established in response to the recreational,

## Special Purpose Districts

18.16

safety, cultural and welfare needs of the Town. Allowable land uses may include public parks and facilities, schools, hospitals and government offices, and other appropriate uses for public agencies. The PF zoning district is consistent with the Public and Public, Hospital/Offices land use classifications of the General Plan and on public lands in other land use classifications.

- E. **PC (Planned Community) District.** The PC zoning district applies to specific subareas identified in the General Plan that define the type, amount and mixture of land uses allowed. The subareas include development of residential, commercial, recreational, mixed use and industrial uses. The PC zoning district is consistent with the Special Study Area and PC-1, PC-2 and PC-3 land use classifications of the General Plan.
- F. **DMP (Downtown Master Plan) District.** The Downtown Master Plan zoning district applies to specific subareas identified in the Downtown ~~Specific-Truckee~~ Plan that define the type, amount and mixture of land use allowed. The subareas include development of residential, commercial and mixed uses. The intent of this zoning district is to provide for development in Master Plan Areas consistent with the applicable policies and land uses identified for the Master Plan Areas in the ~~Specific-Truckee~~ Plan. The DMP zoning district is consistent with the Master Plan Area land use classification of the Downtown ~~Specific-Truckee~~ Plan.
- G. **~~DRR (Downtown Railroad)~~RTC (Rail Transportation Corridor) District.** The ~~Downtown Railroad~~Rail Transportation Corridor zoning district allows railroad operations and facilities, surface and subsurface utility lines, and land uses allowed immediately adjacent to the railroad right-of-way. This designation includes all areas within the Union Pacific Railroad right-of way. applies to portions of the Union Pacific Railroad right of way and operating properties within the Downtown Study Area which are not considered suitable for lease or sale to private parties for new non-railroad related land uses. The intent of this zoning district is to identify lands which are limited to land uses dedicated to railroad and railroad related operations and facilities, and surface and subsurface utility lines, utility related installations and other subsurface uses.

### 18.16.030 - Special Purpose District Land Uses and Permit Requirements

- A. **General requirements.** Table 2-9 identifies the uses of land allowed by this Development Code in each special purpose zoning district and the land use permit required to establish each use, in compliance with Section 18.06.040.B (Zoning District Regulations).

**Note:** Where the last column in the tables (“See Standards in Section”) includes a section number, the regulations in the referenced section apply to the use; however, provisions in other sections of this Development Code may also apply.

- B. **Requirements for the PC (Planned Community) District.** In advance of Specific Plan approval, interim uses within the PC zoning district shall be limited to those allowed by this Chapter within the RC zoning district except golf courses and clubhouses, subject to the same land use permit requirements as the uses within the RC district. PC-1 (Coldstream Specific Plan), PC-2 (Gray’s Crossing Specific Plan), and PC-3 (Joerger Ranch Specific Plan) have been adopted and are the governing documents for the designated areas.

**C. Requirements for the DMP (Downtown Master Plan) District.** In advance of Master Plan approval, the following interim uses within the DMP zoning district shall be permitted uses:

1. A single-family dwelling on an existing parcel not owned by Union Pacific Railroad;
2. Improvements and land uses necessary for railroad operations on railroad owned property;
3. Operation of existing legally approved uses, subject to the non-conforming use provisions set forth in Chapter 18.130 (Nonconforming Uses, Structures and Parcels);
4. Public parking lots and appurtenant uses; and
5. Expansion of up to 25 percent of the floor area of existing non-residential land uses.

~~**D. Density for the Truckee River (Bright Property) Downtown Master Plan Area.** The density guideline for the Truckee River (Bright Property) Downtown Master Plan Area is 40 single family residential units. Multifamily residential may be allowed at a density of two units in place of one single family residential unit. Lodging units may be allowed at a density of three lodging units in place of one single family residential unit.~~

**ED. Activities within railroad rights-of-way.** Railroad and railroad-related operations, activities and facilities within the Union Pacific railroad right-of-way and operating properties are not subject to the requirements of this Development Code.

**Notes:**

Special Purpose Districts

18.16

- (1) Definitions of the listed land uses are in Chapter 18.220 (Definitions, Glossary).
- (2) Use must be operated by a public agency.
- (3) Railroad and railroad-related operations, activities, and facilities within the Union Pacific Railroad right-of-way and operating properties are not subject to the land use permit and development standards of the Development Code).
- (4) Permit requirements vary by type of facility. See Section 18.58.270 (Wireless Communications Facilities).

**18.16.040 - Special Purpose District General Development Standards**

Subdivisions, new land uses and structures, and alterations to existing land uses and structures shall be designed, constructed and/or established in compliance with the requirements in Table 2-10, in addition to any other applicable requirements of this Chapter and the development standards (e.g., landscaping, parking and loading, etc.) in Article III (Site Planning and General Development Standards).

**TABLE 2-~~10~~<sup>13</sup>**  
**SPECIAL PURPOSE DISTRICT GENERAL DEVELOPMENT STANDARDS**

Development Feature	Requirement by Zoning District	
	OS	RC
<b>Minimum lot size</b>	Determined through the subdivision process.	80 acres
<b>Residential density (1)</b>	None allowed.	1 single-family unit per lot, one accessory dwelling unit, and one junior accessory dwelling unit in compliance with 18.58.025 (Accessory Dwelling Units).
<b>Setbacks required</b>	Minimum setbacks required unless otherwise shown on the Zoning Map, Subdivision Map or Planned Development. See 18.30.120 (Setback Requirements and Exceptions) for setback measurement, allowed projections into setbacks and exceptions to required setbacks.	
<b>Front</b>	30 ft.	30 ft.
<b>Sides (each)</b>	30 ft.	30 ft.; 10 ft. on parcels less than 3 acres
<b>Street-side</b>	Same as front.	
<b>Rear</b>	30 ft.	30 ft.; 20 ft. on parcels less than 3 acres
<b>Clustered development</b>	Required in compliance with 18.46 (Open Space/Cluster Requirements).	
<b>Site coverage (2)</b>	5% maximum.	20% maximum; 40% maximum on parcels less than 3 acres.
<b>Open space</b>	Permanent open space shall be provided in compliance with 18.46 (Open Space/Cluster Requirements).	
<b>Height limit (3)</b>	24 ft.	35 ft. or 3 stories, whichever is less.
<b>Landscaping</b>	As required by Chapter 18.40 (Landscape Standards).	
<b>Parking and loading</b>	As required by Chapter 18.48 (Parking and Loading Standards).	

**Notes:**

- (1) Maximum number of dwelling units allowed.
- (2) Maximum percentage of net site area that may be covered with structures and pavement. See the definition of site coverage in Chapter 18.220 (Definitions, Glossary).
- (3) Maximum allowable height for structures. See 18.30.090 (Height Measurement and Height Limit Exceptions).

**TABLE 2-~~413~~**  
**SPECIAL PURPOSE DISTRICT GENERAL DEVELOPMENT STANDARDS (Continued)**

Development Feature	Requirement by Zoning District	
	REC	PF
<b>Minimum lot size (1)</b>	3 acres. The total number of lots that may be allowed is one lot per 10 acres in area.	Determined through subdivision process.
<b>Residential density (2)</b>	1 single-family unit per lot, one accessory dwelling unit, and one junior accessory dwelling unit in compliance with 18.58.025 (Accessory Dwelling Units).	<a href="#">12-24 dwelling units per acre for student and employee housing projects. Determined through land use permit process.</a>
<b>Setbacks required</b>	Minimum setbacks required unless otherwise shown on the Zoning Map. See 18.30.120 (Setback Requirements and Exceptions) for setback measurement, allowed projections into setbacks and exceptions to required setbacks.	
<b>Front</b>	20 ft.; 30 ft. on lots of 3 acres or larger.	
<b>Sides (each)</b>	20 ft; 30 ft. on lots of 3 acres or larger.	Determined through land use permit process.
<b>Street-side</b>	15 ft.; 30 ft. on lots of 3 acres or larger.	
<b>Rear</b>	20 ft.; 30 ft. on lots of 3 acres or larger	
<b>Clustered development</b>	Required in compliance with 18.46 (Open Space/Cluster Requirements).	
<b>Site coverage (3)</b>	40%, maximum.	
<b>Site Disturbance</b>	In compliance with 18.30.080.D (Maximum site disturbance for single-family residential uses).	
<a href="#">Floor Area Ratio</a>	<a href="#">Average 0.2 FAR for non-open space land</a>	<a href="#">0.8 FAR maximum (average FAR 0.2 for public hospital/office)</a>
<b>Open space</b>	Permanent open space shall be provided in compliance with 18.46 (Open Space/Cluster Requirements).	
<b>Height limit (4)</b>	35 ft. or 3 stories, whichever is less.	
<b>Landscaping</b>	As required by Chapter 18.40 (Landscaping).	
<b>Parking and loading</b>	As required by Chapter 18.48 (Off-Street Parking and Loading).	
<b>Signs</b>	As required by Chapter 18.54 (Signs).	

**Notes:**

- (1) Clustered residential projects, condominiums, townhomes or planned development projects may be subdivided with smaller parcel sizes and lot widths for ownership purposes, with the minimum lot area requirement determined through the subdivision review process.
- (2) Maximum number of dwelling units allowed for each specified unit of land, except where a different density is established by 18.08.050 (Minimum Lot Area and Maximum Density). The approval of a Tentative Map, Planned Development, Development Permit, Minor Use Permit or Use Permit may result in fewer dwelling units being allowed than the maximum density shown. See also Chapter 18.212 (Density Bonuses, Concessions and Incentives) for possible density bonuses.
- (3) Maximum percentage of net site area that may be covered with structures and pavement. See the definition of site coverage in Chapter 18.220 (Definitions, Glossary).
- (4) Maximum allowable height for structures. See 18.30.090 (Height Measurement and Height Limit Exceptions).

**18.16.050 - RC (Resource Conservation) District Development Standards**

Proposed subdivisions and other development and new land uses within the RC (Resource Conservation) zoning district shall be designed so that proposed structures and facilities are clustered, in compliance with 18.46 (Open Space/Cluster Requirements).

**18.16.060 - PC (Planned Community) District Development Standards**

Standards for proposed development and new land uses within a PC (Planned Community) zoning district shall be determined by the applicable Specific Plan.

**18.16.070 - REC (Recreation) District Development Standards**

Proposed subdivisions and other development and new land uses within the REC (Recreation) zoning district shall be designed so that proposed structures and facilities are clustered, in compliance with 18.46 (Open Space/Cluster Requirements).

**18.16.080 - DMP (Downtown Master Plan) District Development Standards**

**A. Development standards.** Standards for proposed development and new land uses within a DMP (Downtown Master Plan) zoning district shall be determined by the applicable [Hilltop and Railyard Master Plans](#). [The Hilltop Master Plan and Railyard Master Plan have been adopted](#). In advance of Master Plan approval, general development standards for interim uses allowed by Section 18.16.030.C (Requirements for DMP District) shall be as follows: for residential uses, the development standards shall be the same as the DRS zoning district; for commercial uses, the same as the DC zoning district; and for industrial uses, the same as the DM zoning district.

**B. Residential density bonus.** For each one-half acre of land contiguous to the Truckee River 100-year floodplain which is dedicated to the Town or other approved entity for public use as a riverfront recreational corridor, a density bonus of one additional residential unit shall be provided. Portions of land within the 100-year floodplain shall not count towards the density bonus. In determining the configuration of land for dedication, the length of the dedicated property as measured along the river, shall not be less than the width of the property. This density bonus is voluntary and subject to the discretion of the property owner for implementation. The Town has a right to refuse the density bonus if it determines it has been incorrectly applied or misused.

**18.16.090 - Special Purpose District Performance Standards**

All land uses proposed in a Special Purpose District shall be operated and maintained so as to not be injurious to public health, safety or welfare, and shall comply with the following standards:

- A. Sewer Requirement.** No land use shall be approved with on-site sewage disposal. Connection to sewer shall be required.
- B. Exceptions.** Residential subdivisions creating four or less parcels may use on-site septic systems with the approval of the appropriate health and environmental agencies and if approved by the review authority.

- B. Applicability.** The -AO overlay district may be combined with any residential, commercial, manufacturing/industrial or special purpose zoning district established by Section 18.06.020 (Zoning Districts Established). The -AO overlay district is established and shall be applied and shown on the Zoning Map to:
1. Areas below the imaginary surfaces above and around the airport established in compliance with the Federal Aviation Regulations, Volume XI, Part 77, of the U.S. Federal Aviation Administration (FAA);
  2. Safety areas surrounding the airport as identified in the Truckee-Tahoe Airport Comprehensive Land Use Plan adopted and as amended by the Foothill Airport Land Use Commission; and
  3. Areas subject to high noise levels from aircraft operations.
- C. Allowed land uses and development standards.** Any land use normally allowed in the primary zoning district by this Article may be allowed within the -AO overlay district subject to compliance with the height, safety and noise restrictions established by Chapter 18.64 (Truckee-Tahoe Airport Area Restrictions), all applicable requirements of the primary zoning district, and all other applicable provisions of this Development Code.
- D. Permit requirements.** Development and new land uses within the -AO overlay district shall obtain the land use permits required by this Article for the primary zoning district.

#### 18.20.040 - Historic Preservation (-HP) Overlay District

- A. Purpose.** The -HP overlay district is intended to safeguard the Town's unique cultural heritage as embodied and reflected in the Town's architectural history and patterns of cultural development; to preserve diverse architectural styles, patterns of development and design preferences reflecting phases of the Town's history and to encourage complementary contemporary design and construction and inspire a more livable urban environment; to protect and enhance the Town's attraction to tourists and visitors, thereby stimulating business and industry; to identify as early as possible and resolve conflicts between the preservation of cultural resources and alternative land uses; and to integrate the preservation of cultural resources into public and private land use management and development processes. Development standards and guidelines for this district address new development, alterations, additions and modifications to existing buildings and structures, demolition of historic buildings and structures, and the identification and protection of subsurface historic and archaeological resources.
- B. Applicability.**
1. The -HP overlay district may be combined with any residential, commercial, manufacturing/industrial or special purpose zoning district established by Section 18.06.020 (Zoning Districts Established). The -HP overlay district is established and shall be applied and shown on the Zoning Map to those areas of the Downtown [Specific Truckee](#) Plan Area with concentrations of historic buildings and structures that contribute to the downtown's historic character.

2. The -HP overlay district and the requirements of this section shall not apply to railroad and railroad-related operations, activities and facilities within the Union Pacific Railroad right-of-way and operating properties if the application of such requirements would interfere with the railroad, railroad-related operation, activity or facility.
- C. Allowed land uses.** Any land use normally allowed in the primary zoning district may be allowed within the -HP overlay district, except as provided for in Subsection G (Special Use Standards for Historic Resources).
- D. Permit requirements.** Proposed development and new land uses within the -HP overlay district shall obtain the land use permits required by this Article for the primary zoning district.
- E. Development standards.** Proposed development and new land uses within the -HP overlay district shall comply with all applicable requirements of the primary zoning district, all other applicable provisions of this Development Code, the applicable requirements of Chapter 18.26 (Historic Preservation Design Guidelines), and the following requirements:
1. Metal cargo storage, shipping, and box containers and similar storage containers shall be prohibited in the -HP overlay district, except as allowed in compliance with the requirements of Chapter 18.62 (Temporary Uses and Events).
- F. Demolition or destruction.** No historic resource, or portion thereof, shall be relocated, moved, torn down or demolished, except in compliance with the requirements of Chapter 18.83 (Demolition Review).
- G. Special use standards for historic resources.** To encourage preservation of historic resources, the following land use incentives are provided for historic resources:
1. **Additional density in DRS and DRM districts.** Historic resources in these districts may be used as multifamily dwelling structures, up to a maximum of one dwelling unit for each 1,000 square feet of site area. The historic resource may be expanded and new floor area used for additional dwelling units if the expansion is approved through the historic design review procedure and when it is determined by the review authority that the historic resource is being preserved or will retain its integrity as an historic resource. Any improvements, alterations, or modifications made through the use of this incentive shall not cause the survey rating category of the historic resource to be downgraded and shall comply with all applicable provisions of the Development Code unless a Historic Variance is approved in compliance with Section 18.82.050 (Historic Variances).
  2. **Additional density in DRH district.** Historic resources located in this district may be used as multifamily dwelling structures ~~with no maximum density~~. All of the existing floor area of the historic resource may be used for dwelling units and accessory use. The historic resource may be expanded and new floor area used for additional dwelling units if the expansion is approved through the historic design review procedure and when it is determined by the review authority that the historic resource is being preserved or will retain its integrity as an historic resource. Any improvements, alterations or modifications made through the use of this incentive shall not cause the survey rating category of the historic resource to be downgraded and shall comply with all applicable

### 18.24.110 - Design Guidelines for Specific Land Uses

The guidelines in this Section address design issues related to specific types of development which, by their nature, can present problematic design issues. These guidelines are intended to help improve the overall design quality of each specific use and to emphasize the unique characteristics of each use. These guidelines should be used in conjunction with other applicable guidelines in this Chapter.

**A. Drive-through businesses.** The major design issues related to these types of establishments are tendencies toward corporate or franchise architecture, the creation of efficient and well-organized vehicular access and on-site circulation, while adequately buffering adjacent uses.

#### 1. Site organization.

a. The primary presence along the major street frontage should be the building, not the menu board, drive-through aisle or parking lot.

b. Drive-through aisles should provide adequate on-site queuing distance to accommodate five cars before the first stopping point (e.g. menu board). No portion of the queuing aisle should also serve as a parking aisle.

c. Pedestrian walkways should not intersect the drive-through drive aisle, except where they cannot be avoided. They should have minimum 15-foot clear visibility, and they should be emphasized by enriched paving.

d. Whenever physically possible, the main structure should be sited so as to maximize the distance for on-site vehicle queuing while screening the drive-through operations located on the back side of the structure.

e. Menu board speakers should be located so as to protect adjoining residential areas from excessive noise and should be located no closer than 10 feet to any property line.

**2. Building design.** All building elevations, whether they function as the front, side or rear of the building, should be architecturally detailed to avoid the appearance of the “back

**FIGURE 2-29  
DRIVE-THROUGH DESIGN**

~~of the building.” Buildings should contribute a positive presence to the street scene. The use of franchise or corporate architecture is strongly discouraged.~~

**BA. Hotels and motels.** Hotels and motels are quasi-residential uses and should be designed and sited to minimize the effect of noise from the I-80 freeway or Truckee’s arterial streets. Although they are quasi-residential, the scale and activities associated with hotels and motels often make them problematic neighbors for adjacent properties. Because hotel and motel architecture is often thematic, presenting a strong temptation to over design the building front and to neglect the other sides, it is important to remember that all sides of a building shall be stylistically consistent.

### 1. Site organization.

- a. The primary presence along the major street frontage should be the building and driveway approach, not the parking lot.
- b. No more than five short-term parking spaces should be provided near the office for check-ins.
- c. Exterior corridors on multi-level buildings are discouraged and should not be located near residential uses.
- d. Delivery and loading areas should not be located near residential uses.
- e. Mechanical equipment, including swimming pool equipment, should be located to ensure compliance with Chapter 18.44 (Noise).
- f. Recreational facilities (e.g., swimming pools) should be located where guests can use them in some privacy. They should not be exposed to public streets to function as advertising.
- g. Avoid locating driveway, garage ramps or loading and service areas where they interfere with the flow of pedestrian movement or impact the privacy of guest rooms.
- h. Utilize parking lots and open spaces on the site to help buffer the hotel/motel from any adjacent incompatible uses.

### 2. Building design.

- a. Noise attenuation techniques should be included in the design of buildings near major noise generators (e.g., major streets or the I-80 freeway).
- b. Air conditioning and heating units should not be visible from public streets. Avoid exterior units for each room.
- c. For structures over two stories, guest rooms should be accessible from hallways within the hotel. Room entrances that are directly adjacent to parking lots or exterior walkways are discouraged.

### 18.25.120 - Residential Mixed-Use Development

- A. Purpose.** In addition to the design standards in this Chapter, this Section identifies additional requirements for development of residential mixed-use projects in the CN, ~~CG, CS, and~~ DMU, ~~DC, M and DM~~ zoning districts with at least two-thirds of the gross square footage of the development designated for residential use. For projects with less than two-thirds of the gross square footage of the development designated for residential use, reference Section 18.58.140 (Mixed-Use Developments).
- B. Allowed land uses.** The uses which may be approved in a mixed-use project shall be those allowed in the applicable zoning districts in compliance with the provisions of Section 18.12.030 (Commercial and Manufacturing District Land Uses and Permit Requirements). In addition, uses not specifically permitted in the applicable zoning district (e.g., office use in a manufacturing zoning district) may be approved in a mixed-use project as an accessory use. The floor area for uses not specifically permitted in the applicable zoning district shall not exceed 25% of the total floor area of the non-residential uses within each tenant space of the mixed-use project, and the review authority shall find that the uses are compatible with the other uses in the mixed-use project and the surrounding area. Reference Chapter 18.58.130 (Live/Work and Work/Live Units) for requirements for Live/Work and Work/Live Units.
- C. Residential mixed-use development standards.** A project shall meet the following requirements:
- ~~1. **Minimum density.** The project shall provide a minimum density of two residential units per acre onsite. For example, a mixed-use development on a 0.5-acre site shall include at least one residential unit, and a development on a two-acre site shall include at least four residential units. The residential units may be counted toward any workforce housing requirements for the project to comply with Chapter 18.216 (Workforce Housing).~~
  - ~~2. **Maximum density.** In the CN, CG, CS, DC, M, DM, and DMU zoning districts residential density shall not exceed four units per acre.~~
  1. **Minimum and maximum density.** The project shall comply with the minimum and maximum density requirements established by the density range for the zoning district.
  - 3.2. **Mix of uses.** Mixed-use multifamily residential developments shall have nonresidential space on the ground floor with residential uses and other commercial above or nonresidential space at the front of the site and residential uses at the rear. The uses may be attached or detached but must be comprehensively planned and managed. In the ~~CG, DC, CMU and~~ DMU zoning districts, mixed-use developments shall have commercial spaces on the ground floor on the front of the building and residential uses and other nonresidential uses located above or behind the commercial uses.

The project may be developed as one or more multiuse or single-purpose structures. If the project is developed in phases, a proportionate number of residential units shall be constructed in each phase.

**4.3. Workforce housing.** Nonresidential uses in a mixed-use development project shall comply with Chapter 18.216 (Workforce Housing). Where inclusionary housing requirements result in a fraction, the fraction shall be combined with any fraction required by the workforce housing requirements. If the fractions combine to a whole unit or the developer opts to construct a unit to meet the fractional requirement, the unit shall be subject to the inclusionary housing standards consistent with Chapter 18.214 (Inclusionary Housing). Example: If a project is required to have 1.2 workforce housing units and 2.8 inclusionary housing units, a total of 4 affordable housing units are required. One unit shall meet the workforce housing requirements and the three other units are required to meet the inclusionary housing requirements.

**Inclusionary housing.** Residential units in a mixed-use development project shall comply with Chapter 18.214 (Inclusionary Housing) with the exception of any units that are dedicated for Workforce Housing in compliance with Chapter 18.216. Where inclusionary housing requirements result in a fraction, the fraction shall be combined with any fraction required by the workforce housing requirements. If the fractions combine to a whole unit or the developer opts to construct a unit to meet the fractional requirement, the unit shall be subject to the inclusionary housing standards consistent with Chapter 18.214 (Inclusionary Housing). Example: If a project is required to have 1.5 workforce housing units and 1.7 inclusionary housing units, 3.2 affordable housing units are required. One unit shall meet the workforce housing requirements, and either three units shall meet the inclusionary housing requirements, or two units shall meet the inclusionary housing requirements and 20% of an in-lieu fee may be paid.

**5.4. Maximum multifamily residential unit sizes.** The maximum average living area shall be 1,000 square feet.

### ~~18.25.130 — Multifamily Residential Projects within the Downtown Visitor Lodging (DVL) Zoning District~~

~~A. High density multifamily residential (Multifamily dwellings with 11 or more units) is encouraged within the Downtown Visitor Lodging (DVL) zoning district through incentives to allow greater flexibility in design and encourage innovative and creative site planning. The following development standards and incentives apply:~~

~~1. Multifamily residential projects within the DVL zoning district shall provide a minimum density of 16 dwelling units per acre.~~

~~2. **Residential parking.** Parking requirements identified in Chapter 18.48 (Parking and Loading Standards), including the number of required on-site parking spaces and the requirement that 1 space per unit, shall be in a fully enclosed garage, may be modified through a parking management plan. The parking management plan shall demonstrate that there is sufficient on-site parking for all proposed uses and shall be approved by the review body concurrent with the land use application.~~

~~3. **Inclusionary housing.** Multifamily residential projects shall comply with Chapter 18.214 (Inclusionary Housing).~~

- ~~4. **Floor area.** If a non-residential project is proposed concurrent with a multifamily, the residential floor space shall not be counted towards the allowed floor area as determined by the floor area criteria development standard.~~
- ~~5. **Site Coverage.** The maximum site coverage development standard may be increased by up to 10%.~~
- ~~6. **Non-residential Parking.** The number of parking spaces required for the non-residential portion of the project may be reduced through an approved parking management plan.~~
- ~~7. **Setbacks.**~~
  - ~~a. **I 80 setback.** The 125-foot setback from property lines adjacent to Interstate 80 may be reduced to a minimum of 50 feet by the review authority, if the review authority finds that the reduction will further General Plan Housing Element goals and will create a superior site design than would otherwise be achieved through strict application of the setback. The reduced setback shall be required to be landscaped to create a visual buffer to and from the highway and to screen any development proposed within the 125-foot setback. Trees shall be provided at a rate of one for every 20 lineal feet of landscaped area and shrubs shall be provided at a rate of one for every five lineal feet of landscaped area. Additional trees and shrubs may be required by the review authority as determined on a case-by-case basis. Parking may be allowed within this reduced setback if vehicles are adequately screened from I 80 with additional landscaping and/or the project demonstrates that vehicles will not be visible from I 80 or off-ramp.~~
  - ~~b. **Truckee Cemetery setback.** Parking, driveways, roads, and other surface improvements may be located within the 100-foot Truckee Cemetery setback if the review authority finds that there would be adequate screening to minimize potential impacts to the cemetery. Structures are prohibited within this setback. Landscaping shall be incorporated within the setback area to provide adequate screening. Trees shall be provided at a rate of one for every 20 lineal feet of landscaped area and shrubs shall be provided at a rate of one for every five lineal feet of landscaped area to screen improvements located within the 100-foot Truckee Cemetery setback. Additional trees and shrubs may be required by the review authority as determined on a case-by-case basis.~~

- B. Agreements.** The property owner shall sign and execute a street (trail) improvement maintenance and liability agreement prepared and executed in accordance with the requirements of the Town Engineer. The agreement shall include, but not be limited to, the following:
1. The agreement shall include a level or standard of repair and maintenance that the property owner will be required to perform including inspection, repair, maintenance, snow removal and replacement responsibilities.
  2. The agreement shall include a minimum schedule of maintenance that the property owner will be required to inspect, repair and maintain the improvements.
  3. The agreement shall include a minimum schedule of snow removal that the property owner will be required to remove snow from the parking lane, parking spaces, sidewalks, and trails. The agreement shall include provisions for the storage of snow including locations for snow storage and legal rights to store snow in those locations.
  4. The agreement shall indemnify and hold the Town harmless in regards to the requirements of this agreement and address other liability issues identified by the Town Attorney.
  5. The agreement shall be prepared and executed in a manner acceptable for recordation in the Nevada County Recorder's Office.
  6. Upon the draft agreement being approved by the Town Engineer and prior to issuance of a temporary or final certificate of occupancy (or recordation of the Final Map), the property owner shall sign and execute the agreement (notarized signature required) and submit the agreement to the Town Clerk for recordation in the Nevada County Recorder's Office.

### 18.30.110 - Screening and Buffer

All multifamily and non-residential land uses shall comply with the screening and buffer requirements of this Section.

- A. Screening and buffer between non-residential or mixed use development and residential land uses.** Where a non-residential development, mixed use development, or new land use is proposed on a parcel in the CG, CS, CH, CMU or M zoning district, and adjoins a residential zoning district, the following screening/buffering features shall be constructed as part of the development or land use:
1. A six-foot high, solid decorative masonry wall or solid fence or a combination of landscaping, berm and fencing, or wall shall be constructed between the non-residential use and residentially zoned parcels. The wall shall be architecturally treated on both sides and the design of the screening (e.g., berm and fencing, landscaping, or wall) shall be subject to the approval of the Director. A landscaping strip with a minimum width of five feet shall be provided along the wall or fence. If adjoining a parking area, the landscaped area may be counted towards required interior parking lot landscaping.
  2. All proposed or required landscaping shall comply with Chapter 18.40 (Landscape Standards).

3. The review authority may modify or waive the requirements of this subsection or approve alternatives to the screening and buffer methods if the review authority finds the characteristics of the site or vicinity would make the required screening and buffer unnecessary or the alternative will achieve the same effect of the required screening and buffer.

**B. Screening and buffer between neighborhood commercial or neighborhood mixed use and residential land uses.** Where a non-residential development, mixed use development, or new land use is proposed on a parcel in the CN or NMU zoning district and adjoins a residential zoning district, the following setback, screening and landscaping features shall be provided as part of the development or land use:

1. **Setbacks.** If the proposed commercial use is in a commercial zoning district and adjoins a residential zoning district, but is not separated by a street, the required setback for a structure adjacent to a residential zoning district shall be equal the height of the building, but in no case shall the setback be less than 15 feet.
2. **Screening.** A solid decorative masonry wall or solid fence with a minimum height of six feet, or higher if required by an acoustical analysis to mitigate noise impacts, shall be constructed and maintained on the project site along the common property line. Pedestrian access may be provided through the wall from a residential neighborhood to a neighborhood-serving commercial use subject to the approval of the Director.
3. **Landscaping.** A landscaped strip shall be provided adjacent to the wall with the intention of providing a planting area for trees and shrubs on the commercial site.
  - a. The width of the landscaped strip shall be a minimum of five feet. Larger areas may be required by the review authority for larger projects which shall be determined on a case by case basis.
  - b. Landscaping shall be designed to visually screen the commercial development from the residences and to effectively break up the otherwise long, flat appearance of the wall. Trees shall be provided at a rate of one for every 20 lineal feet of landscaped area, and shrubs shall be provided at a rate of one for every five lineal feet of landscaped area. Additional trees and shrubs may be required by the review authority as determined on a case by case basis.
  - c. The use of the landscaped setback for passive activities (e.g., lunch area, pedestrian path, snow storage) shall be subject to the approval of the Director.
4. **Exceptions to screening and buffer requirements.** The requirements of this subsection may be modified or waived through the approval of a Minor Use Permit in compliance with Chapter 18.76.

**C. Screening and buffer between multifamily and single-family residential uses.** Wherever a multifamily residential project adjoins a site developed with or zoned for a single-family residence, but is not separated by a street, a six-foot high solid wood fence or decorative masonry wall shall be constructed along the property line adjoining the single-family residential use. The review authority may modify or waive the requirements for the fence or wall if the review

- B. Preservation requirements.** In preserving these environmentally sensitive areas, emphasis shall be placed on maintaining the natural characteristics of the property while ensuring that any proposed development is harmonious with the terrain, provides buffer yards for neighboring land uses, and provides for snow storage areas in compliance with Section 18.30.130 (Snow Storage). Areas designated as environmentally sensitive shall remain in their natural and undisturbed state and shall be maintained in a manner which minimizes the danger of fire hazards. A minimum 10-foot setback from a delineated wetland shall be required for all improvements, including grading, structures, cantilevered features, footings.
- C. Disturbance and restoration of wetlands.** Development projects resulting in the disturbance of wetlands shall require the approval of a Minor Use Permit in compliance with Chapter 18.76 (Use Permits and Minor Use Permits). The review authority may approve a minor use permit for disturbance of wetlands only if all of the following findings can be made:
1. The wetlands and/or the wetland setback area cannot be avoided and there are no feasible alternatives or mitigation to disturbance of the wetlands;
  2. Any wetlands removed or destroyed as part of the project are mitigated by the restoration or creation of wetland habitat at a rate of 1.5 to 1 (1.5 units of restored habitat for each unit of habitat removed or destroyed);
  3. The disturbance and/or removal of the wetlands and/or the wetland setback area complies with all applicable Federal and State regulations; and
  4. The project is not requesting a Streamlined Residential Review (Chapter 18.79).

### 18.46.050 - Open Space Standards

**A. Minimum open space requirements.**

1. **Single-Family Residential Zones:** All new single-family residential subdivisions within the single-family residential zoning districts (i.e., RR, RS and DRS) shall provide permanent open space. The minimum amount of open space required within the property shall be either:
  - a. The sum of all areas listed in Section 18.46.010 and all those OS zoned portions of the property; or
  - b. As shown in Table 3-7 below, whichever is greater. Portions of the property zoned OS and areas listed in Section 18.46.010 above shall be credited toward the minimum open space area requirement.
  - c. Within proposed single-family lot boundaries, setback areas shall not count toward the minimum open space area requirement.

**TABLE 3-7  
MINIMUM OPEN SPACE AREA**

Minimum Open Space Area Required	
Zoning District	Minimum Open Space Area Required (% of gross site area)
DRS, RS-3, RS-4	30%
RS-2	40%
RS-1	50%
RR-0.67	60%
RS-0.5, RR-0.5	70%
RR-0.2, RR-0.15	80%
RR-0.1, RR-0.05	90%

2. **Multi-Family, Commercial, Mixed Use and Manufacturing Zones:** The minimum amount of contiguous open space required within the property for the multi-family residential, commercial and manufacturing/industrial zoning districts (i.e., RM, DRM, DRH, CN, CG, CH, CS, CMU, NMU, M, DMU, DC, DVL and DM) shall be either:
  - a. The sum of all areas listed in Section 18.46.010 and all those OS zoned portions of the property; or
  - b. As identified in the applicable open space standards in Article II, whichever is greater.
3. **Open Space Recreation Designation:** The minimum amount of open space required for properties designated Open Space Recreation by the General Plan Land Use Map, Figure LU-1, shall be 90% of the gross site area.
4. **Special Purpose Zones:** The minimum amount of open space required for properties in all other zoning districts (i.e., RC, REC and PF) shall be:
  - a. The sum of all areas listed in Section 18.46.010 and all those OS zoned portions of the property; and
  - b. Additional site area as determined to be appropriate through the subdivision or land use permit process.

**B. Permanent open space.**

1. The portions of the original underlying/parent parcel counted toward the minimum open space area requirement shall be preserved as permanent open space. Preservation and management options for open space, in order of preference, include the following:

## CHAPTER 18.54 - SIGNS

---

### Sections:

- 18.54.010 - Purpose of Chapter
- 18.54.020 - Applicability
- 18.54.030 - Sign Plan Review Requirements
- 18.54.040 - Comprehensive Sign Program Requirements
- 18.54.050 - Temporary Sign Permit Requirements
- 18.54.060 - Prohibited Signs
- 18.54.070 - General Requirements for All Signs
- 18.54.080 - Standards for Specific Types of Permanent Signs
- 18.54.090 - Sign Requirements for Specific Land Uses
- 18.54.100 - Nonconforming or Abandoned Signs

### 18.54.010 - Purpose of Chapter

This Chapter provides minimum standards to safeguard life, health, property and public welfare, and to preserve the unique character of the Town by regulating the size, height, design, quality of materials, construction, location, lighting and maintenance of signs and sign structures. These standards are intended to:

- A. Provide a reasonable and comprehensive system of sign controls;
- B. Encourage signs that are well-designed and pleasing in appearance by providing incentive and latitude for variety, good design relationship, spacing and location;
- C. Encourage a desirable Town character with a minimum of clutter, while recognizing the need for signs as a major form of communication;
- D. Provide for fair and equal treatment of sign users;
- E. Provide for maximum public convenience by properly directing people to various activities and businesses; and
- F. Promote public safety by providing that official traffic regulation devices be easily visible and free from nearby visual obstructions, including blinking signs, excessive number of signs, or signs that in any way resemble official signs.

### 18.54.020 – Applicability

All signs shall comply with the limitations on the type, number, area, location and lighting of signs, and other requirements of this Section, and all applicable provisions of this Chapter.

- A. The standards of this Chapter shall apply to signs in Commercial (CN, CG, CH, CS, [CMU](#), [NMU](#), DMU, DC, ~~DVL~~), Manufacturing (M, DM), and Special Purpose (OS, RC, REC, PF, [RRRTC](#)) zoning districts, unless otherwise identified within this Chapter or within Chapter

**TABLE 3-14  
MAXIMUM ALLOWABLE BACKYARD CHICKENS**

<b>Zoning District</b>	<b>Minimum Lot Size</b>	<b>Maximum Number</b>
RS, DRS, DRM, DMU (1) (2)	2,500 sq. ft. 5,000 sq. ft. 10,000 sq. ft. 0.5 acres	2 4 6 More than 6 is subject to Minor Use Permit
RM, DRH (2)	Subject to Minor Use Permit	Subject to Minor Use Permit

**Notes:**

- (1) Raising and keeping of six or fewer backyard chickens shall be allowed in these zoning districts without a permit requirement in association with single-family residential uses only
- (2) Raising and keeping of backyard chickens in association with multi-family residential uses in these zoning districts may be allowed subject to Minor Use Permit approval

**3. Shelter requirement.** A coop shall be provided that meets the following minimum standards:

- a. Be predator-proof from the sides, the top, and from below.
- b. Be located a minimum of 20 feet to the nearest abutting residence and five feet to any property line.
- c. Movable chicken coops are allowed in compliance with Table 3-3 for Residential Accessory Uses and Structures, and shall be considered temporary structures.

### **18.58.070 - Bed and Breakfast Inns**

This Section establishes standards for the development and operation of Bed and Breakfast Inns (B&Bs). The intent of these provisions is to ensure that compatibility between the B&B and any adjoining residential zoning districts/uses is maintained and enhanced.

**A. Applicability.** Bed and Breakfast Inns (B&Bs) are allowed in the RR, RS, DRS, RM, DRM, DRH, DMU, NMU, CN and CH zoning districts with Minor Use Permit approval in compliance with Chapter 18.76, and in the CG and DC zoning districts with Zoning Clearance approval in compliance with Chapter 18.72.

- 1. Hosted Rental Exceptions.** The renting of one designated bedroom within a single-family dwelling for the purpose of overnight or vacation lodging as a hosted rental is allowed as a permitted use, subject to compliance with Municipal Code Chapter 3.24 (Transient Occupancy Tax) and the following criteria:

**TABLE 3-15  
MAXIMUM SITE COVERAGE**

Parcel Size	Maximum Coverage
2 acres or less	60%
2.01 - 5 acres	50%
Greater than 5 acres	40%

### **~~18.58.110—Drive-In and Drive-Through Facilities~~**

- ~~A. Purpose and applicability.~~** This Section establishes supplementary standards for drive-in restaurants and fast food establishments with drive-through facilities, located within the CH (Highway Commercial) zoning district, which conduct business while customers remain in their vehicles. Other types of drive-in and drive-through facilities are not permitted.
- ~~B. Permit requirement.~~** Drive-in restaurants and fast food or counter service establishments, with drive-through facilities, shall require Use Permit approval in compliance with Chapter 18.76 (Use Permits and Minor Use Permits).
- ~~C. General standards.~~** Drive-in and drive-through facilities shall be designed and operated to effectively mitigate problems of air pollution, congestion, excessive pavement, litter, noise and unsightliness, and shall comply with the on-site circulation standards in Subsection E, below, which are not applicable to drive-in theaters or service stations.
- ~~D. Accessory use required.~~** Drive-through facilities may only be accessory to an allowable main use.
- ~~E. On-site circulation.~~** Parcels with drive-through facilities shall be provided with internal circulation and traffic control devices as follows:
- ~~1. Aisle design.~~** Drive-through aisles shall be located and designed as follows:
    - ~~a.~~** The entrance/exit of any drive-through aisle shall be at least 50 feet from an intersection of public rights-of-way (measured at the closest intersecting curbs) and at least 25 feet from the edge of any driveway on an adjoining parcel. The drive-through aisle or stacking area (see following Subsection E.2) shall not be located adjacent to a street frontage.
    - ~~b.~~** Drive-through aisles shall be designed with a minimum 10-foot interior radius at curves and a minimum 12-foot width.
  - ~~2. Stacking area.~~** A clearly identified area shall be provided for vehicles waiting for drive-through service that is physically separated from other on-site traffic circulation.
    - ~~a.~~** The stacking area shall accommodate a minimum of five cars for each drive-through window in addition to the vehicle(s) receiving service.

- ~~b. The stacking area shall be located so that the area for five cars is located before their reaching the menu board.~~
  - ~~c. Separation of the stacking area from other traffic shall be by asphaltic or concrete curbing, or paint striping on at least one side of the lane.~~
- ~~3. Walkways. Pedestrian walkways should not intersect the drive through drive aisles, but where they do, they shall have clear visibility, and emphasized by enhanced paving or marking.~~
- ~~F. Screening. An eight foot high solid decorative wall shall be constructed on each property line that is adjoining a residentially zoned/occupied parcel. The design of the wall and the proposed construction materials shall be subject to the approval of the Director.~~
- ~~G. Signs. In addition to the signs allowed in compliance with Chapter 18.54 (Signs), the following signs are allowed for drive through uses:~~
  - ~~1. One two square foot ground mounted sign, with a maximum height of three feet, is allowed at the entrance to the drive through aisle;~~
  - ~~2. One two square foot ground mounted sign, with a maximum height of three feet, is allowed at the exit of the drive through aisle; and~~
  - ~~3. One sign, 24 square feet in area or less, with a maximum height of six feet, is allowed along the drive aisle. The sign shall face away from the public right of way and shall not use reflective material. Outdoor speakers shall be located at least 50 feet from any residentially zoned or residentially occupied parcel.~~
- ~~H. Minimum floor area for restaurants. To ensure that the drive through service facility is an accessory to a primary restaurant use, the minimum interior floor area for drive through restaurants shall be 1,000 gross square feet.~~
- ~~I. Facility design within shopping centers. Drive through facilities within an integrated shopping center shall have an architectural style consistent with the theme established in the center. The architecture of any drive through facility shall provide compatibility with surrounding uses in terms of color, form, materials, scale, etc.~~
- ~~J. Parking. No reduction in off street parking requirements shall be granted a restaurant because drive through service facilities are provided.~~
- ~~K. Public hearing notice. Whenever a hearing is held regarding a land use permit for a drive through facility, notice procedures for the public hearing shall comply with the requirements of Section 65091(d) of the California Government Code.~~

### 18.58.114 - Electrical Utility Facilities

- c. Any makerspace with a retail component shall be subject to the parking requirements for retail uses.
- 4. **Signs.** Regulation of signs, in compliance with Chapter 18.54 (Signs);
- 5. **Outdoor Uses.** Regulation of outdoor uses in compliance with Section 18.58.190 (Outdoor Uses) and 18.58.200 (Outdoor Storage and Work Areas); and
- 6. **Other conditions.** Other conditions that will ensure the operation of the proposed use in an orderly and efficient manner and in full compliance with the purpose/intent of this Section.

### 18.58.140 - Mixed-Use Development

- A. **Applicability.** This Section applies to mixed-use projects in the CN, ~~CG, CS, CMU, NMU, DMU, DC, M~~ and DM zoning districts where less than two-thirds of the total gross floor area for the project is designated for residential uses. Projects that have two-thirds or more of the total gross floor area designated for residential uses are considered multi-family residential projects and are eligible for Streamlined Residential Review (Chapter 18.79). This section also applies to projects that request Flexible Design Review (Section 18.25.030.B).
- B. **Purpose.** The intent is to ~~incentivize~~ allow a mixture of commercial and manufacturing/industrial uses with residential uses ~~within the commercial and manufacturing zoning districts~~ to increase the area's population and pedestrian activity, and to reduce air pollution, energy consumption and transportation costs. The provisions of this Section allow greater flexibility in design and encourage innovative and creative site planning by providing incentives to combine commercial and residential land uses on the same site.
- C. **Allowed land uses.** The uses which may be approved in a mixed-use project shall be those allowed in the applicable zoning districts in compliance with the provisions of Section 18.12.030 (Commercial and Manufacturing District Land Uses and Permit Requirements) and Section 18.14.030 (Mixed Use District Land Uses and Permit Requirements). In addition, uses not specifically permitted in the applicable zoning district (e.g., office use in a manufacturing zoning district) may be approved in a mixed-use project as an accessory use. The floor area for uses not specifically permitted in the applicable zoning district shall not exceed 25 percent of the floor area of the non-residential uses within each tenant space of the mixed-use project, and the review authority shall find that the uses are compatible with the other uses in the mixed-use project and the surrounding area. Live/work and work/live units as defined in Section 18.58.130 shall require Minor Use Permit approval, and the "work" portion of each unit shall count toward the maximum allowable floor area ratio of the project.
- ~~D. **Eligibility for mixed-use development incentives.** To qualify for a mixed-use development incentive, a project shall meet the following minimum requirements:~~
  - ~~1. The project shall provide a minimum density of two residential units per acre onsite. For example, a mixed-use development on a 0.5-acre site shall include at least one residential unit, and a development on a two-acre site shall include at least four residential units.~~

~~The residential units may be counted toward any workforce housing requirements for the project to comply with Chapter 18.216 (Workforce Housing).~~

2. ~~The project may be developed as one or more multi-use or single purpose structures. If the project is developed in phases, a proportionate amount of residential units shall be constructed in each phase.~~

**E.D. Development standards and incentives.** The following standards and incentives shall apply to eligible mixed-use projects:

1. **Maximum Residential Density.** Residential density shall ~~not exceed four units per acre~~ comply with the minimum and maximum density for the applicable zoning district.

2. **Floor area.** Residential floor space in a mixed-use project shall count towards the allowed floor area as determined by the floor area criteria development standard.

3. **Mixed Use Component.** Projects in the CMU and NMU zoning districts are required to provide a mixed use component in compliance with Section 18.14.050 (Mixed Use Component).

- 1.4. **Inclusionary housing.** Residential units in a mixed-use development project shall comply with Chapter 18.214 (Inclusionary Housing) and Chapter 18.216 (Workforce Housing).

- 2.5. **Amenities.** Projects with residential units, including projects where less than two-thirds of the gross floor area of the development is designated for residential use, shall be subject to the applicable requirements of Sections 18.25.050.D (Open Space and Common Outdoor Areas, 18.25.090.B (Balconies, porches, decks, and patios), and 18.25.090.C (Amenities).

### 3. ~~Floor area.~~

- a. ~~The maximum floor area ratio may be increased by 0.05, or 2,178 square feet per acre in accordance with Section 18.12.050 (Floor Area Ratio Criteria).~~

- b. ~~Commercial and/or industrial uses shall be the primary components of a mixed-use project. Residential floor area shall not exceed 50 percent of the total floor area of the mixed-use project. For example, a project with 5,000 square feet of industrial warehouse space may have up to 5,000 square feet of residential floor area.~~

- c. ~~Residential floor space shall not be counted towards the allowed floor area as determined by the floor area criteria development standard.~~

6. **Design.** Mixed-use developments shall have commercial spaces on the ground floor on the front of the building and residential uses and other nonresidential uses located above or behind the commercial uses.

7. **Phasing.** The project may be developed as one or more multi-use or single purpose structures. If the project is developed in phases, a proportionate amount of residential units shall be constructed in each phase.

~~4. **6. Additional Incentives.** The development standards of the applicable zoning district shall apply to mixed use projects unless they are specifically modified by the review authority as an additional incentive. The review authority shall find that the modifications are appropriate on the site and will not create adverse impacts on the surrounding area.~~

~~a. The maximum site coverage development standard may be increased up to 10%.~~

~~b. The minimum open space development standard may be decreased up to 10%.~~

~~c. The number of parking spaces required for the project may be decreased up to 10%.~~

~~d. The amenities required in Section 18.58.140.D may be waived for second story residential units above commercial/industrial uses.~~

### 18.58.150 - Mobile Home Parks and Subdivisions

**A. Purpose.** This Section establishes standards for the location, development and operation of mobile homes in planned, integrated mobile home parks or subdivisions, and to protect the health, safety and welfare of the community and those living within the park or subdivision.

1. These standards are intended to produce a development with appropriate standards of light and air, open space, pedestrian and vehicular circulation, and a density which is similar to those required by the residential zoning district in which the development is located.
2. For purposes of this Section, the use of the term “mobile home park” shall mean and refer to both a mobile home park and a mobile home subdivision.

**B. Applicability.** New mobile home parks shall conform to the minimum standards of this Section. The Commission may impose other, more restrictive requirements in the interest of public health, safety and welfare.

**C. Design and development standards.**

1. **Minimum area and density.** Proposed mobile home parks shall comply with the following requirements:
  - a. Minimum site area for park: Five acres.
  - b. Minimum lot area: 3,500 square feet for parcels in a mobile home subdivision.
  - c. Maximum density: Eight spaces per acre.

- (b) In locations where the existing topography, vegetation or other structures provide the greatest amount of screening; or
  - (c) On vacant land without significant visual mitigation, only in commercial and manufacturing zoning districts.
- (2) **Prohibited areas.** Wireless communications facilities shall not be established within the RS, RM, DRS, DRM~~T~~, DRH, NMU, OS and RC zoning districts, within the HP Overlay District, or within environmentally sensitive areas as outlined in Chapter 18.46.
- (3) **Placements on existing structures.** The Town shall encourage and allow placement of wireless communications facilities on appropriate existing Town structures and towers subject to reasonable engineering requirements. The Town shall encourage utility providers, special districts and other public agencies to allow placement of wireless communications facilities on appropriate existing structures and towers subject to reasonable engineering requirements.
- (4) **Setbacks.** The facility shall not be located within any front, side, or street-side setbacks in any zoning district and shall not extend beyond the property lines. In zoning districts that do not have setbacks, the facility shall not be located within twenty (20) feet of any front property lines and ten (10) feet of any side or rear property lines.
- (6) **Signs.** No facility may display any signage or advertisement unless it is required under FCC regulations or required by law or permit condition. Every facility shall at all times display signage that accurately identifies the facility owner and provides the owner's unique site number and a local or toll-free telephone number to contact the facility owner's operations center.
- (7) **Undergrounding required.** Electrical and equipment wiring shall be placed underground.
- (8) **Unused/obsolete equipment.** Unused/obsolete equipment or towers shall be removed from the site within six (6) months after their need has ceased.
- (9) **Stealth design.** State of the art stealth design technology shall be utilized as appropriate to the site and type of facility. Wireless communications facilities that are mounted on buildings or structures shall be designed to match existing architectural features, incorporated in building design elements, camouflaged, painted, or otherwise screened to achieve a stealth design in a manner that is compatible with the architectural design of the building or structure and compatible with the appearance and character of the surrounding neighborhood. New standalone facilities shall use designs that are compatible and blend in with the surrounding area, for example, faux trees should be of the same type and size as nearby real trees. All finishes shall be non-reflective.

- E. Interior Quality.** Inclusionary units may have different interior finishes, amenities, and features than the market rate units provided the interior finishes, amenities, and features are durable, of good quality, and consistent with contemporary standards for new housing.
- F. Maximum Allowed Average Living Area.** In order to ensure an adequate supply of housing to meet the housing needs of all segments of the community, residential subdivisions located in the RM, DRM, ~~and~~ DRH and NMU zoning districts shall be required to limit the maximum allowed average living area consistent with the following:
1. Projects with 30 percent of their total units affordable to very low-, low-, or moderate-income households are exempt from this requirement;
  2. Projects in a zoning district with a maximum allowable density less than six dwelling units per acre are exempt from this requirement;
  3. For projects with less than 30 percent of the total units available to affordable households, the maximum allowed average living area shall be consistent with Table 7-1 below. Examples of small, medium, and large projects are shown in Table 7-2.

**TABLE 7-5****MAXIMUM AVERAGE LIVING AREA**

Affordable Units Provided (% of total units restricted to very low-, low-, or moderate-income households)	Maximum Allowed Average Living Area Size (sq. ft.)
30% and above	None
26-29 %	2,000
21-25 %	1,815
16-20 %	1,650
15%	1,500

**TABLE 7-6****MAXIMUM AVERAGE LIVING AREA EXAMPLES**

	Number of Market Rate Units	Number of Affordable Units	% of Affordable Units Provided	Maximum Allowed Average Living Area Size (sq. ft. )
Small Size Project	4	1	20%	1,650
Formula	Divide the total number of affordable units by the total number of units within the project to determine the percentage of affordable units provided; 1 affordable /5 units =20%			
Medium Size Project	15	5	25%	1,815
Formula	Divide the total number of affordable units by the total number of units within the project to determine the percentage of affordable units provided; 5 affordable /20 units =25%			
Large Size Project	144	56	28%	2,000
Formula	Divide the total number of affordable units by the total number of units within the project to determine the percentage of affordable units provided; 56 affordable /200 units =28%			

## **CHAPTER 18.217 – BY RIGHT HOUSING**

---

### **Sections:**

18.217.010 – Purpose and Intent

18.217.020 – Applicability

18.217.030 – By Right Housing Requirements

18.217.040 – Review Authority and Procedure

18.217.050 – Review Process

### **18.217.010 – Purpose**

**A. Purpose.** The purpose of this Chapter is to ensure that the Town is in compliance with the State Housing Element law (Government Code Section 65583.2) to ensure streamlined ministerial review of housing development projects by requiring by right housing on sites that were identified in previous Housing Elements.

### **18.217.020 – Applicability**

**A. Applicability.** This Chapter applies to five properties identified in the 2019-2027 Housing Element, as shown on the map adopted by Town Council Resolution 2024-XX:

1. Arnold DMU (APN 019-300-041);
2. Arnold DRH (APN 019-300-042);
3. Winter Creek Multi-family (APN 019-820-001);
4. Joerger Ranch Parcel 4 (the portion zoned RMW-20 of APN 019-620-002); and
5. Upper McIver (APN 019-460-042)

**B. Project type.** This Chapter applies to housing development projects, which are defined as:

1. Development with residential units only.
2. Mixed-use developments consisting of residential and nonresidential uses with at least two-thirds of the square footage designated for residential use.
3. Transitional housing or supportive housing.

**C. Developer's option.** The developer have the following options:

1. The developer may choose to use the provisions in this Chapter to ensure a by right streamlined review of a residential project; or

2. The developer may choose to comply with the provisions of the standard requirements of the underlying zoning district. Residential projects seeking exceptions, waivers, or modifications to any development standards, excluding modifications granted as part of density bonus concession, incentive, parking reduction, or waiver of development standards pursuant to Chapter 18.212 (Density Bonuses, Concessions and Incentives), shall not be eligible for ministerial and/or streamlined processing contemplated by this chapter, and will be subject to the applicable discretionary review process outlined in Article IV. Projects opting to use the Flexible Design Review outlined in Section 18.25.030.B shall not use this streamlined review process.

### **18.217.030 – By Right Housing Requirements**

**A. Affordable housing.** Projects shall be required to deed-restrict at least 20% of the housing units on site to lower income households or below in perpetuity. “Lower income households” has the same meaning as defined in Section 50079.5 of the Health and Safety Code. All other requirements for the affordable housing units, including submittal of an affordable housing agreement, shall be consistent with the requirements of Chapter 18.210 (Affordable Housing Controls). The affordable housing may be used to comply with the Inclusionary Housing requirements (Chapter 18.214) and/or determine eligibility for Density Bonuses, Concessions and Incentives (Chapter 18.212) if the by right affordable housing units meet the affordability criteria outlined in the applicable Chapters.

1. Location of Inclusionary Units. Affordable housing units required by this Chapter shall be built on site within the residential development project.
2. Timing of Development. Affordable housing units required by this Chapter shall be constructed and offered for sale or rent in accordance with this Chapter concurrently with or prior to completion of market rate units within the residential development project or phase thereof. As used in this Chapter, “concurrently” means that a proportionate share of affordable housing units must be completed by the time 50% of the market rate units within a residential development project are sold.
3. Building Types and Exterior Appearance. Exterior building materials and finishes for affordable housing units required by this Chapter shall be of the same type and quality as for the market rate units of the project. The building types for inclusionary units shall be the same as for market rate units. For example, if the market rate units are attached two-unit buildings, the affordable housing units are also required to be attached as part of a two-unit building. The living area for the affordable housing units may only be up to 20% smaller than the average living area of all of the market rate units.
4. Common Amenities. On-site inclusionary units shall have access to all on-site amenities available to market rate units.
5. Interior Quality. Inclusionary units may have different interior finishes, amenities, and features than the market rate units provided the interior finishes, amenities, and features are durable, of good quality, and consistent with contemporary standards for new housing.

- B. Minimum density.** In all cases, the minimum density required for projects eligible for the streamlined ministerial review is 15 dwelling units per acre. The maximum density is the density allowed within the applicable zoning district unless a density bonus is requested, consistent with Chapter 18.212.
- C. Development standards.** Projects reviewed under this Chapter shall comply with the development standards of the primary zoning district, including all design standards. For projects on Joerger Ranch Parcel 4 (Portion of APN 019-620-002), the requirement of the Joerger Ranch Specific Plan governs. For all other projects, the Development Code standards shall govern, including Chapter 18.25 (Objective Design Standards).
- D. Projects within the DMU zoning district.** Multi-family residential projects within the DMU zoning district with only residential units shall comply with the requirements of the DRM (Downtown Medium Density Residential) zoning district.

#### **18.217.040 – Review Process**

- A. Review.** Projects reviewed for compliance with the Chapter shall be subject to by right Streamlined Residential Review (Chapter 18.79) and ministerial Zoning Clearance review. Environmental review shall not be required for by right housing projects that are consistent with this Chapter.

**D. Definitions, “D.”**

**Decibel (dB).** A unit for measuring the amplitude of sounds, equal to 20 times the logarithm to the base 10 of the ratio of the pressure of the sound measured to the reference pressure, of 20 micropascals.

**Deck.** A platform attached to a house and supported by structural connections to the ground, including posts or piers, to provide outdoor living area that may be roofed (i.e., covered deck), but is without walls on at least two sides, and which includes railings where required by the California Building Code.

**Demolition.** Reconstruction, removal, taking down or destroying all or portions of an existing building or structure, or making extensive repairs or modifications to an existing building or structure, if such changes involve removal or replacement of 50 percent or more of the structural framing and cladding or of the exterior walls, including the following:

1. More than 50% of the structural elements of the roof or roof framing are removed.
2. More than 50% of the structural exterior walls (or vertical supports such as posts or columns when a structure has no walls) of a structure, or 50% of a cantilevered feature, are removed or are no longer a necessary and integral structural component of the overall building.
3. More than 50% of the foundation system is removed, or is no longer a necessary and integral structural component of the overall structure, including, but not limited to: perimeter concrete foundation, retaining walls, post and pier foundations, or similar element(s) that connect a structure to the ground and transfers gravity loads from the structure to the ground.

The meaning of the term “demolition” with regard to a historic resource is defined in Development Code Chapter 18.83 (Demolition Review).

**Density.** The number of housing units per net acre, unless otherwise stated, for residential uses.

**Department.** The Town of Truckee Community Development Department, referred to in this Development Code as “Department.”

**Detached.** Any structure that does not have a wall or ceiling/floor in common with another structure.

**Detached living area.** A detached living area is a fully conditioned accessory structure within a residential zoning district, is not a required element of the main dwelling and is designed for human occupancy. It is intended to provide additional living area located on the same premises with the main dwelling, for use by members of the family occupying the main dwelling and their non-paying guests. A detached living area includes conditioned space for a home office, artist’s studio, workshop, and other habitable spaces.

**Floodplain management.** The operation of an overall program of corrective and preventive measures for reducing flood damage, including but not limited to emergency preparedness plans, flood control works, floodplain management regulations, and open space lands.

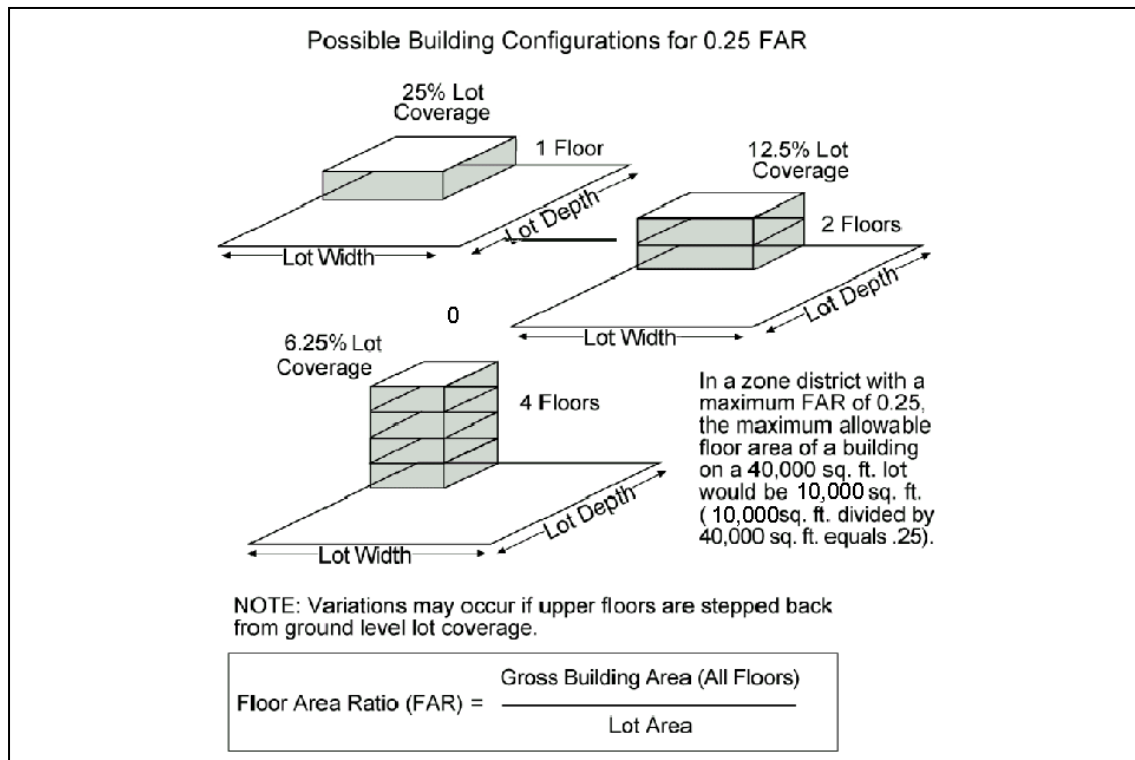

**Floodplain, 100-year.** See “One-hundred-year floodplain”.

**Flood proofing.** A combination of structural and nonstructural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

**Floodway.** The channel of a river or other water course and the adjacent land areas that shall be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation. Also referred to as “Regulatory floodway.”

**Floor Area.** See “Gross Floor Area.”

**Floor Area Ratio (FAR).** The Floor Area Ratio (FAR) is the ratio of floor area to total lot area. FAR restrictions are used to limit the maximum floor area allowed on a site (including all structures on the site). [The FAR calculation for a commercial or mixed-use development includes finished interior spaces on all building floors.](#) The maximum floor area of all structures (measured from exterior wall to exterior wall) permitted on a site (including [carports and covered storage but excluding structured parking and exterior open space, such as courtyards, roof gardens and balconies](#)) shall be determined by multiplying the Floor Area Ratio (FAR) by the total gross area of the site (FAR x Gross Site Area = Maximum Allowable Floor Area). For the purposes of determining the floor area ratio for parcels adjacent to Donner

**FIGURE 8-7**  
**STORY**

**Street.** A public thoroughfare which affords principal means of access to abutting property, including avenue, place, way, drive, lane, boulevard, highway, road, and any other thoroughfare except an alley as defined in this Subsection, or a private thoroughfare which affords or has the potential to afford principal means of access to five or more parcels. Does not include driveway easements on parcels in the Tahoe Donner Subdivision that front a Town street.

**Street line.** The boundary between a street right-of-way and property.

**Structural Clay and Pottery Products.** Manufacturing establishments engaged primarily in producing brick and structural clay products, including pipe, china plumbing fixtures, and vitreous china articles, fine earthenware and porcelain products. Artist/craftsman uses are included in “Cottage Industries,” “Handcraft Industries and Small Scale Manufacturing,” “Home Occupations.”

**Structure.** Anything constructed or erected, the use of which requires attachment to the ground or attachment to something located on the ground. For the purposes of this Development Code, the term “structure” includes “buildings.”

**Structure-mounted.** Mounted to the side of a structure (e.g., a billboard, church steeple, freestanding sign, water tank, etc.).

**Structure, primary.** See “Primary Structure.”

**Student and employee housing.** [Housing for students and employees allowed in conjunction with educational facilities or on Town-owned or federally owned land in conjunction with the Public Service Center.](#)

**Studios for Art, Dance, Music, Photography, etc.** Facilities for: individual and group instruction and training in the arts; production rehearsal; photography, and the processing of photographs produced only by users of the studio facilities; and martial arts training studios.

**Subdivision.** The division, by any subdivider, of any unit or portion of land shown on the latest equalized Nevada County assessment roll as a unit or contiguous units, for the purpose of sale, lease or financing, whether immediate or future. Property shall be considered as

**PLANNING COMMISSION RESOLUTION 2024-13**

**EXHIBIT “B”**

**A RESOLUTION OF THE PLANNING COMMISSION OF THE TOWN OF TRUCKEE  
RECOMMENDING APPROVAL OF AMENDMENTS TO THE DEVELOPMENT CODE,  
ZONING MAPS, AND GENERAL PLAN LAND USE DIAGRAM AND ROADWAY NOISE  
CONTOURS DIAGRAM**

**ZONING MAP AMENDMENTS**

The Planning Commission hereby recommends the following amendments to the Town of Truckee Zoning Map.

**Corridor Mixed Use - West Gateway**

**Current Zoning:** General Commercial (CG)  
**Proposed Zoning:** Corridor Mixed Use, 12 to 24 dwelling units per acre (CMU, 12-24)

# PLANNING COMMISSION RESOLUTION 2024-13

## EXHIBIT “D”

### A RESOLUTION OF THE PLANNING COMMISSION OF THE TOWN OF TRUCKEE RECOMMENDING APPROVAL OF AMENDMENTS TO THE DEVELOPMENT CODE, ZONING MAPS, AND GENERAL PLAN LAND USE DIAGRAM AND ROADWAY NOISE CONTOURS DIAGRAM

#### AMENDED GENERAL PLAN ROADWAY NOISE CONTOURS DIAGRAM (FIGURE SN-8)

The Planning Commission hereby recommends the following cleanup amendments to the 2040 General Plan Roadway Noise Contours Diagram (Figure SN-8).

**PLANNING COMMISSION RESOLUTION 2024-13**

**EXHIBIT “E”**

**A RESOLUTION OF THE PLANNING COMMISSION OF THE TOWN OF TRUCKEE  
RECOMMENDING APPROVAL OF AMENDMENTS TO THE DEVELOPMENT CODE,  
ZONING MAPS, AND GENERAL PLAN LAND USE DIAGRAM AND ROADWAY NOISE  
CONTOURS DIAGRAM**

**AMENDMENTS TO ZONING DISTRICT NAMES AND ABBREVIATIONS**

The Planning Commission hereby recommends the following amendments to the zoning district names and abbreviations.

**Proposed Amendments to Zoning District Names and Abbreviations**

The below changes to the names of the residential, rural residential, downtown residential, and Downtown Mixed Use zoning districts are proposed globally within the Town of Truckee Zoning Maps and Development Code.

**Existing Rural Residential Zoning**

<b>Existing</b>	<b>Proposed</b>
Rural Residential, 1 dwelling unit per 20 acres (RR-.05)	Rural Residential, 1 dwelling unit per 20 acres (RR, .05)
Rural Residential, 1 dwelling unit per 10 acres (RR-.10)	Rural Residential, 1 dwelling unit per 10 acres (RR, .10)
Rural Residential, 1 dwelling unit per 7.5 acres (RR-.15)	Rural Residential, 1 dwelling unit per 5 acres (RR, .20)
Rural Residential, 1 dwelling unit per 5 acres (RR-.20)	
Rural Residential, 1 dwelling unit per 2 acres (RR-.50)	Rural Residential, 1 dwelling unit per 1-2 acres (RR, .50-1)
Rural Residential, 1 dwelling unit per 1.5 acres (RR-.67)	

**Existing Single Family Residential Zoning**

<b>Existing</b>	<b>Proposed</b>
Single Family Residential, 1 dwelling unit per 2 acres	Low Density Residential, 1 dwelling unit per 2 acres (RL, .50)
Single Family Residential, 1 dwelling unit per acre	Low Density Residential, 1-2 dwelling units per acre (RL, 1-2)
Single Family Residential, 2 dwelling units per acre	
Single Family Residential, 3 dwelling units per acre	Low Density Residential, 3-6 dwelling units per acre (RL, 3-6)
Single Family Residential, 4 dwelling units per acre	
Single Family Residential, 6 dwelling units per acre	

**Existing Multifamily Residential Zoning**
