River Revitalization Steering Committee

Author and title: Carissa Binkley, Economic Vitality Program Analyst & Stephanie Grigsby, Principal Design Workshop

Title: **River Health and Access Action Team revised memo**

Recommended Action:

That the River Revitalization Steering Committee receive a presentation from Design Workshop summarizing the updated River Health and Access Team memo and recommendations and provide feedback.

Overview:

The River Health and Access Action Team met to further revise the attached memo in response to River Revitalization Steering Committee feedback on the first draft of the memo.

Design Workshop will present an overview of the updated memo. R2SC members are requested to provide feedback as to if revisions addressed the comments and are acceptable.

It is anticipated that the RHA Action Team will not meet again until they have plan recommendations from the R2SC and/or the catalyst projects to review.
