

LEGAL NOTICE

CITY OF TUALATIN
10699 SW HERMAN RD., TUALATIN, OR 97062 • (503) 691-3020

NOTICE OF SOLE SOURCE PROCUREMENT

Micro-Hydro Turbine

Pursuant to ORS 279B.075, the City of Tualatin intends to award a sole source energy performance savings contract without competitive procurement to InPipe Energy, Inc. and Tapani, Inc. The contract is for the design and installation of the HydroXS Micro-Hydro Turbine, a patented energy recovery system that replicates the functionality of control valves and generates electricity from the flow of water in pressurized pipelines.

The sole source procurement is justified under ORS 279B.075(2)(d) because findings support the conclusion that these services are available from only one source. Anyone desiring to protest award of this sole source contract must file a written protest no later than 5:00 p.m. on June 7, 2024, with Rachel Sykes, Public Works Director, via email at rsykes@tualatin.gov. A protest may only be filed by an Affected Person as defined by OAR 137-047-0100 and must comply with the requirements for a valid protest contained in OAR 137-047-0710.

In accordance with Tualatin Municipal Code 1-21-110(6)(j), the City of Tualatin may award this contract seven days after the publication of this notice.
