

TO: City Council
FROM: Dan Smith, Director – Water Resources & Sustainability
DATE: December 6, 2022
SUBJECT: Service Provider Agreement with Stantec Consulting Services for the Deschutes River Flood Reduction Study Amendment 1

1) Recommended Action:

Staff recommends the City Council approve Amendment 1, which updates required contract provisions for the Washington Department of Ecology, and authorize the Mayor to sign the Amendments with Stantec Consulting Services.

2) Background:

The Washington Department of Ecology (ECY) has recently revised its standard contract language provisions for any agreement underwritten by ECY grant or loan funds. The contract being amended herein was executed prior to ECY's requirement for the language inclusion, and ECY has since requested any contract held by the City funded in whole or in part, to be updated with the revised language.

3) Policy Support:

The underlying agreement supports projects to help reduce ground and surface water impacts associated with stormwater runoff, and enhance salmon runs.

4) Alternatives:

☐ None.

5) Fiscal Notes:

There are no funding implications for this contractual amendment.
