

# Salish Landing County Amendment Letter

City Council Consideration, February 3, 2026

# Intent

The intent of tonight's presentation is to discuss:

1. The background to the request and the application review process
2. Public engagement
3. The general review process and an approximate timeline
4. The requested action by City Council at tonight's meeting

# Summary of the Request

- As part of the 2026-2027 Thurston County Comprehensive Plan Preliminary Docket process, the Board of County Commissioners is considering whether to keep the Salish Landing Comprehensive Plan and Joint Plan Amendment application on their docket
- As part of the docket process, the Board of County Commissioners has requested a letter from Mayor indicating Tumwater's support for the Salish Landing Comprehensive Plan and Joint Plan amendment and for the amendment to remain on the County docket for review and action

# Comprehensive Plan Docketing Process

- Under the Growth Management Act, Tumwater may consider amendments to their Comprehensive Plans no more than once a year
- All annual applications initiated by the community and the City are considered together as part of a docketing process
- The City Council's review of the preliminary docket is the first step in Tumwater's docketing process
- The City Council determines which applications it wants to see continue through the application review process as part of the final docket

# County Docketing Process

- Thurston County goes through similar docketing process for their Comprehensive Plan amendments
- Unlike Tumwater's annual process, the County process is every two years
- In the first quarter of this year, the Board of County Commissioners will be approving their preliminary docket for 2026-27
- The County's preliminary docket considers both adding new applications and continuing applications submitted in previous docketing cycles

# Application Filed with the County

- The amendment application was originally filed with the County in 2021
- The proposed amendment would affect Tumwater's urban growth area and the City of Tumwater and Thurston County Joint Plan
- The application was amended by the applicant in 2023 to include a proposed urban growth area land swap that would take part of Tumwater's current urban growth area out and add a new area

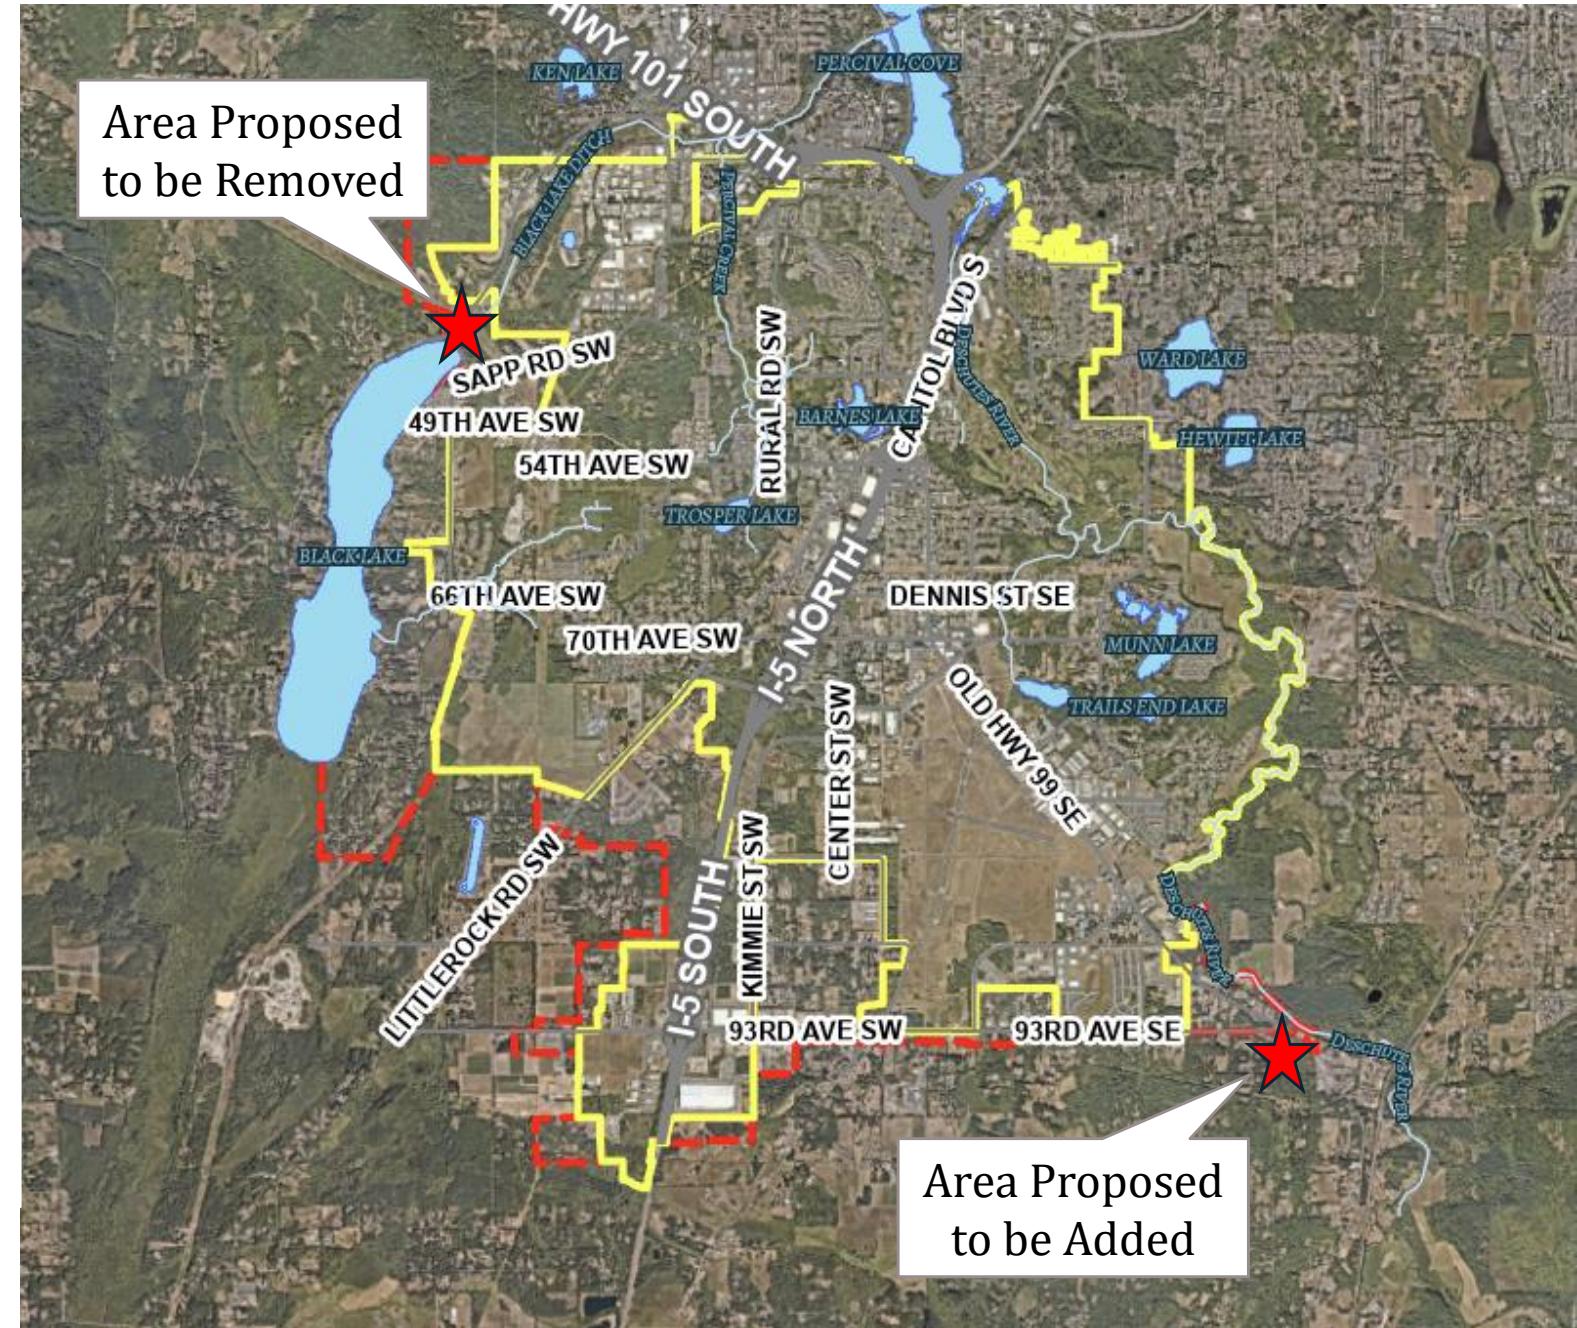

# UGA Swap

Thurston County makes every effort to ensure that this map is a true and accurate representation of the work of County Government. However, the County does not warrant, express or implied, regarding the accuracy, completeness or convenience of any information disclosed on this map. Nor does the County accept liability for any damage or injury caused by the use of this map.

To the fullest extent permissible pursuant to applicable law, Thurston County disclaims all warranties, express or implied, including, but not limited to, warranties of merchantability, fitness for a particular purpose, and non-infringement of proprietary rights.

Under no circumstances, including, but not limited to negligence, shall Thurston County be liable for any direct, indirect, incidental, special or consequential damages that result from the use of, or the inability to use, Thurston County materials.

Date: 9/3/2024 by WE

# Tumwater and Urban Growth Area Forecasts

According to Tumwater's Comprehensive Plan, which was updated in December 2025, the City and its urban growth area will need to accommodate the following state mandated growth by 2045:

New Housing Units	9,192 Units
Population Increase	17,363 People
New Jobs	10,730 Jobs

# Planned City Water System Improvements

# Southeast Urban Growth Area Development

# Previous City Comment Letters to the County

Tumwater provided written comments on the amendment to the County on December 10, 2021, February 10, 2023, and March 13, 2024, as part of the County's preliminary and mid-cycle docketing processes

# December 2021 City Comment Letter

Staff noted that amendment application filed in 2021 only added additional area to the City's urban growth area, which the City did not support because the recently updated Joint Plan indicated Tumwater's current urban growth area had sufficient capacity

# February 2023 City Comment Letter

The Mayor said Tumwater was in favor of the proposed amendment because it would provide services closer to the hundreds of new single-family housing units in southern Tumwater, included space for a YMCA, and would help to extend water and sewer utilities for a planned Tumwater School District elementary school in the area

The letter noted that processing the application would take significant City and County resources

# March 2024 City Comment Letter

The Mayor supported the urban growth area swap as its mixed-use vision would support the recent significant addition of hundreds of single-family housing units in southern Tumwater by having goods and services located much closer to these residents and reduce miles traveled, ease road congestion, and reduce carbon emissions

The letter noted that processing the application would take significant City and County resources and stated Tumwater would like to work with the County on an agreement to address future development in the amendment area

# Community Engagement Process

- This City Council meeting is the beginning of the public process for Tumwater's consideration of the Salish Landing Comprehensive Plan and Joint Plan Amendment
- It is one step in a series of opportunities for the community to engage with Tumwater and Thurston County
- The approximate timeline identifies some of the processes that will be gone through before a decision is reached
- Each step will involve opportunities for public engagement
