

TO: City Council and Planning Commission  
FROM: Brad Medrud, Planning Manager  
DATE: December 10, 2024  
SUBJECT: 2025 Long Range Planning Work Program

---

1) Recommended Action:

Place the 2025 Long Range Planning Work Program on the January 7, 2025 City Council consent calendar with a recommendation to approve.

---

2) Background:

The City Council, Planning Commission, residents, property owners, and City staff can propose annual work program items. The major focus of the draft 2025 long range planning work program will be on completing the state mandated 2025 Comprehensive Plan and development code periodic update.

The City Council approves an annual long range planning work program at the beginning of each year. The Planning Commission reviewed and discussed the draft 2025 long range planning work program at their November 26, 2024, meeting.

The City Council and the Planning Commission will discuss the draft 2025 long range planning work program and the 2025 Comprehensive Plan periodic update at a joint work session on December 10, 2024, at 6:00 p.m. The City Council will then be asked to approve the 2025 long range planning work program in January 2025.

A short list of discussion topics is included in the attached staff report.

---

3) Alternatives:

None.
