

Periodic Update Checklist for Fully-Planning Cities

Notice: This checklist has been updated with the new 2022-2023 GMA legislation. Rows that include new 2022-2023 legislative changes or updated Commerce guidance are marked with an orange dot \bigcirc . Statutory changes adopted since 2015 are emphasized in highlighted text to help identify new GMA requirements that may not have been addressed during the last periodic update or through other amendments outside of the required periodic update process. Additionally, amendments to the GMA, including those from the 2023 legislative session, are summarized in this document on Commerce's GMA Laws and Rules webpage.

Overview: This checklist is intended to help cities that are fully planning under the Growth Management Act (GMA) conduct the "periodic review and update" of **comprehensive plans** and **development regulations** required under <u>RCW 36.70A.130 (5)</u>. This checklist identifies components of comprehensive plans and development regulations that may need updating to reflect the latest local conditions or to comply with GMA changes since the last periodic update cycle (2015-2018).

Local governments should review local comprehensive plan policies, countywide planning policies and multicounty planning policies (where applicable) to be consistent with the new requirements.

Checklist Instructions

With the most recent versions of your comprehensive plan and development regulations in hand, fill out each item in the checklist, answering the following questions:

Is this item addressed in your current plan or development regulations? If YES, fill in the form with citation(s) to where in the plan or regulation the item is addressed. Where possible, we recommend citing policy or goal numbers by element rather than page numbers, since these can change. If you have questions about the requirement, follow the hyperlinks to the relevant statutory provision or rules. If you still have questions, visit the Commerce Periodic Update webpage or contact the Commerce planner assigned to your region.

Is amendment needed to meet current statute? Check YES to indicate a change to your plan will be needed. Check NO to indicate that the GMA requirement has already been met. Local updates may not be needed if the statute hasn't changed since your previous update, if your jurisdiction has kept current with required inventories, or if there haven't been many changes in local circumstances.

<u>Use the "Notes" column</u> to add additional information to note where your city may elect to work on or amend sections of your plan or development regulations, to call out sections that are not strictly required by the GMA, or to indicate if the item is not applicable to your jurisdiction.

Submit your checklist! This will be the first deliverable under your periodic update grant.

PlanView system and instructions: Completed checklists can be submitted through Commerce's PlanView portal. The PlanView system allows cities and counties to submit and track amendments to comprehensive plans or development regulations online, with or without a user account. You can also submit via email: reviewteam@commerce.wa.gov Fill out and attach a cover sheet, a copy of your submittal and this checklist. *Please be advised that Commerce is no longer accepting paper submittals*.

For further information about the submittal process, please visit Commerce's <u>Growth Management Act</u> <u>Laws and Rules webpage</u>.

Capital Facilities Plan (CFP) Element

To serve as a check on the practicality of achieving other elements of the plan, covering all capital facilities planned, provided and paid for by public entities including local government and special districts, etc. including water systems, sanitary sewer systems, storm water facilities, schools, parks and recreational facilities, police and fire protection facilities. Capital expenditures from park and recreation elements, if separate, should be included in the CFP Element. The CFP Element must be consistent with CWPPs, and <u>RCW 36.70A.070(3)</u> amended in 2023. Changes made to this element through <u>HB 1181</u> (climate change and resiliency) are not required, although jurisdictions should make a good faith effort to incorporate these items to be consistent with the new legislation.

Climate Change and Resiliency

New in 2023, see HB 1181. RCW and WAC updates are forthcoming.

A new required element for comprehensive plans and new goal of the GMA. Designed to reduce greenhouse gas (GHG) emissions, plan for resiliency and support environmental justice. Climate elements must maximize economic, environmental and social co-benefits and prioritize environmental justice in order to avoid worsening environmental health disparities. A climate element can take the form of a single comprehensive plan chapter or be integrated into several chapters/elements such as housing, transportation and land use. Visit <u>Commerce's Climate Program</u> webpage for further guidance, grants, tools and staff contacts.

These requirements for GHG emission reductions and resiliency apply to the following counties and their cities with a population greater than 6,000 as of April 1, 2021. Please also review <u>Appendix B</u> for requirements due in the upcoming <u>periodic update</u>.

- June 30, 2025 Deadline: Clark, Skagit, Thurston, Whatcom
- June 30, 2026 Deadline: Benton, Franklin, Spokane
- June 30, 2029 Deadline: These jurisdictions are only required to update two elements this cycle the transportation and climate elements

a. Greenhouse gas emissions reduction sub- element: must include goals and policies to reduce emissions and vehicle miles traveled. This sub-element is mandatory for the state's largest and fastest-growing counties and the cities within those counties. <u>RCW 36.70A.070(9)</u> new in 2023				Completed: 🗆 Date:
 b. Resiliency sub-element: must include goals and polices to improve climate preparedness, response and recovery efforts. This is mandatory for all counties and cities fully planning under the GMA and encouraged for others. <u>RCW 36.70A.070(9)</u> new in 2023 				Completed: 🗆 Date:

Future required elements: pending state funding As of 2022, these elements have not received state funding to aid local jurisdictions in implementation. Therefore, these elements are not required to be added to comprehensive plans at this time. Commerce encourages jurisdictions to begin planning for these elements, pending the future mandate.

	In Current Plan? Yes/No If yes, cite section	Notes	
Economic Development Although included in <u>RCW 36.70A.070</u> "mandatory elements" an economic development element is not currently required because funding was not provided to assist in developing local elements when this element was added to the GMA. However, provisions for economic growth, vitality, and a high quality of life are important, and supporting strategies should be integrated with the land use, housing, utilities, and transportation elements. <u>RCW 36.70A.070(7)</u> amended in 2017			Completed: 🗆 Date:
Parks and Recreation Implements and is consistent with the capital facilities plan. Include a ten-year demand estimate, evaluation of service and facilities needs and evaluation of tree canopy coverage within UGAs. <u>RCW 36.70A.070(8)</u> amended in 2023 Although included in <u>RCW 36.70A.070</u> "mandatory elements" a parks and recreation element is not currently required because the state did not provide funding to assist in developing local elements when this provision was added to the GMA. However, parks, recreation and open space planning are GMA goals, and it is important to plan for and fund these facilities.			Completed: 🗆 Date:

Optional Elements Pursuant to <u>RCW 36.70A.080</u>, a comprehensive plan may include additional elements, items, or studies dealing with other subjects relating to the physical development within its jurisdiction, including, but not limited to:

Section II: Development Regulations

Must be consistent with and implement the comprehensive plan. RCW 36.70A.040, WAC 365-196-800 and 810

Critical Areas

Regulations protecting critical areas are required by RCW 36.70A.060(2), RCW 36.70A.172(1), WAC 365-190-080 and WAC 365-195-900 through 925.

Please visit Commerce's Critical Areas webpage for resources and to complete the Critical Areas Checklist. Critical areas regulations must be reviewed and updated, as necessary, to incorporate legislative changes and best available science. Jurisdictions using periodic update grant funds to update critical areas regulations must submit the critical areas checklist as a first deliverable, in addition to this periodic update checklist.

• Appendix B: Element updates per HB 1181

	Required Updates to GMA Elements per HB 1181						
GMA Periodic Update Due Dates	Greenhouse Gas Reduction Sub-element	Climate Resilience Sub-element	Transportation Element	Land Use Element	Capital Facilities Element*	Utilities Element*	Parks & Recreation Element*
For jurisdictions with a 2024 deadline and subject to GHG Emissions Reduction [Sec. 15 (10)]	Due 2029	Due 2029	Due 2029	Due in 2034			
For jurisdictions with a 2025 & 2026 deadline and subject to GHG Emissions Reduction [Sec. 4 (1) and (2)]	х	x	х	х	Х*	Х*	Х*
Jurisdictions <u>not</u> subject to GHG Emissions Reduction (all years) [Sec. 4 (3) and 9(e)(i)]	Optional	X See RCW 36.70A.0 70(9)(e)	**	Only counties over 20k pop.	Х*	Х*	Х*

Table notes: "X" indicates a GMA update requirement. One asterisk (*) indicates jurisdictions should make a good faith effort to update their elements to be consistent; refer to HB 1181 (Chapter 228, Laws of 2023) for specifics. Two asterisks (**) indicates 22 cities that need to update their transportation element based on population, not whether or not their county is among those that must develop a GHG emissions element.
