Hi James,

Thank you for reaching out. I have attached a copy of the SEPA checklist which I reviewed prior to the issuance of the optional DNS process. I have also attached a copy of the transportation concurrency completed by our Transportation Manager as a part of our transportation/SEPA review.

Based on our review we do not anticipate any impacts to adjacent properties but are waiting to make an official determination until after the notice of application review period is complete to assess any comments that come in during that time. The public comment period ends on April 13th and I would anticipate making a determination within the following week if we do not receive any substantial comments.

After that has been completed there will be a public hearing as the proposed use is a conditional use permit in this zoning district. I will be coordinating with the Permit Manager to schedule a date for the public hearing after the comment period is complete.

Please let me know if you have any additional questions and I will be happy to help.

Sincerely,

Hi,

I just received the notice about project TUM-22-1544.

May I have a copy of the environmental checklist?

The letter says the threshold determination has not been issued yet. When do you expect to complete that? If it is complete already, may I have a copy?

Thank you,

James Geluso
