Part 1 - Goals, Policies, and Implementation Actions

1. Introduction

A. Background

The Housing Element is part of Tumwater's Comprehensive Plan and was prepared in response to the Growth Management Act (Chapter 36.70A RCW) and meets the requirements of RCW 36.70A.070(2) for the housing elements that are found in Appendix B *State Requirements*.

Tumwater's Vision, Mission, and Belief Statements that provide overarching direction for the future of Tumwater are found in the Comprehensive Plan Summary.

The Housing Element aligns and is consistent with the other elements of the Comprehensive Plan.

The 2021 goals and actions to address homelessness and create more housing identified in Tumwater Housing Action Plan were incorporated into the Housing Element.

Part 1 – Goals Policies, and Implementation Actions establishes Tumwater's goals and policies to set forth a direction to create and maintain housing in Tumwater.

B. How to Read this Part of the Document

In Part 1, Chapters 2 and 3 discuss the Housing Element's connection to the goals of the state Growth Management Act and the Thurston County-Wide Planning Policies.

Chapter 4 presents each goal with an explanation of how to read the tables and then presents each of Tumwater's housing goals in detail with an explanation of the importance of each goal and how it helps to reduce the cost of housing and address equity.

3 | Page

The goals of the Housing Element are guided by the state Growth Management Act and the Thurston County-Wide Planning Policies and the vision of a Tumwater that supports affordable housing for all members of the community. The Element's goals and policies are coordinated with the other Elements and regional plans.

The Housing Element's goals and policies are the policy basis for the draft implementation actions in Housing Element and those future actions that will be developed over the next 20 years which will be the foundation for Tumwater's annual work programs to address affordable housing for the community.

Part 2 – Technical Information provides a housing needs assessment, a land capacity analysis, consideration of racially disparate impacts, exclusion, and displacement, and a discussion of existing and future housing provision that are intended to try to reduce the cost of producing more housing to support the twenty-year growth projections for Tumwater.

Appendix A contains the draft implementation actions, which are intended to be a source of annual work program items that serve to implement the goals and policies of the Housing

The annual work programs will further refine the implementation actions prior to their being put into practice. It is expected that implementation actions will be further amended, added, or subtracted as needed over the course of the 20

City of Tumwater 2025 Comprehensive Plan Balancing Nature and Community: Tumwater's Path to Sustainable Growth

Element.

Commented [BM1]: This will be the document that has the Comprehensive Plan wide goals and policies.

Housing Element Part 1 – Goals, Policies, and Implementation Actions

year Comprehensive Plan as new opportunities arise to meet the intent of the Housing Element's goals and policies.

Part 1 – Goals, Policies, and Implementation Actions

2. Growth Management Act - Element Goals

Chapter 36.70A RCW requires that Tumwater show how the Housing Element meets the relevant planning goals contained within the Act. The following is a listing of the applicable goals for the Housing Element and an analysis of how the Element addresses these goals:

 Urban growth. Encourage development in urban growth areas where adequate public facilities and services exist or can be provided in an efficient manner.

The Housing Element has policies supporting development in the urban growth area that support the goals of the Land Use Element.

 Reduce sprawl. Reduce the inappropriate conversion of undeveloped land into sprawling, low density development.

The Housing Element has goals and policies requiring urban growth to be phased outward from the urban core and supports the development of housing on vacant and underdeveloped properties to reduce urban sprawl.

4. Housing. Plan for and accommodate housing affordable to all economic segments of the population of this state, promote a variety of residential densities and housing types, and encourage preservation of existing housing stock.

The Housing Element includes a variety of policies expressly designed to keep housing affordable, including a number of regulatory changes dispersed throughout the document.

 Permits. Applications for both state and local government permits should be processed in a timely and fair manner to ensure predictability.

Tumwater tracks the time it processes permits and has historically achieved short turnaround times for permits.

11. Citizen participation and coordination. Encourage the involvement of citizens in the planning process, including the participation of vulnerable populations and overburdened communities, and ensure coordination between communities and jurisdictions to reconcile conflicts.

During the 2025 Comprehensive Plan update, staff met with a housing stakeholder group made up of a wide range of individuals and groups involved in providing housing construction and services. Staff held an in person housing open house and an online housing story, conducted an informational survey and met regularly with the Planning Commission. General Government Committee, and City Council to discuss the development of the Element. The 2025 Comprehensive Plan update webpage was updated with all materials presented publicly. Tumwater staff also attended meetings with homeowner associations, civic and business groups. This approach allowed for public participation in the planning process for the Housing Element.

5 | Page

Part 1 – Goals, Policies, and Implementation Actions

TUMWÄTER

3. County-Wide Planning Policies

The Growth Management Act requires that Tumwater's Comprehensive Plan be consistent with Thurston County's County-Wide Planning Policies, which were last amended in 2025.

The following is a list of the relevant sections of the County-Wide Planning Policies that apply to the Housing Element. All County-Wide Planning Policies are adopted as part of the Comprehensive Plan and are found in Appendix A of the Plan Introduction.

The Housing Element is Tumwater's principal policy document concerning affordable housing. The Land Use Element works with the Housing Element to provide adequate suitably zoned vacant land to further the policies of the Housing Element. Each residential designation as well as a number of designations that allow for mixed use development in the Land Use Element provide a variety of housing types to allow for affordable housing to be provided for all economic segments of the Tumwater population.

The Housing Element includes a variety of policies expressly designed to support housing affordability, including but not limited to, suggested regulatory changes found throughout the document.

VIII. Affordable Housing

8.1 Increase housing choices to support all ranges of lifestyles, household incomes, abilities, and ages. Encourage a range of housing types and costs that are commensurate with the employment base and income levels of jurisdictions' populations, particularly for low,

6 | Page

moderate and fixed income families.

The Housing Element addresses how best to provide affordable housing for all economic segments of Tumwater's population by examining current housing conditions, regulatory barriers, and projected housing needs. The Element contains a variety of policies supporting a wide range of housing choices, such as providing sufficient, suitably zoned land for housing and developing innovative plans, codes, and standards for affordable housing.

8.2 Accommodate low and moderate income housing throughout each jurisdiction rather than isolated in certain areas.

The Housing Element discourages the concentration of low and moderate income housing, favoring dispersal of such housing.

8.3 Exploring ways to reduce the costs of housing.

The Housing Element's purpose is to support ways to reduce the cost of housing so that Tumwater residents of all income groups can afford housing suitable to their needs.

8.4 Establish and maintain a process to accomplish a fair share distribution of affordable housing among the jurisdictions.

The Housing Element recommends that the fair share distribution of affordable housing among the jurisdictions be decided on a regional basis.

> 8.5 Working with the private sector, Housing Authority, neighborhood

Part 1 - Goals, Policies, and Implementation Actions

groups, and other affected citizens, to facilitate the development of attractive, quality, low and moderate income housing that is compatible with the surrounding neighborhood and located within easy access to public transportation, commercial areas and employment centers.

Throughout the Housing Element, there are many goals and policies that support the development of housing to serve the needs of all income groups in Tumwater. Tumwater will address these goals by increasing density in specified areas, increasing the range of housing types, and building partnerships with other agencies and organizations including homeowners' associations to reduce restrictions and increase permanent, income-restricted affordable housing stock.

8.6 Regularly examine and modify policies that pose barriers to affordable housing.

The chapter on barrier assessment in the Housing Element provides specific recommendations on regulatory amendments to support the development and maintenance of affordable housing.

> 8.7 When possible, provide assistance in obtaining funding and/or technical assistance for the expansion or establishment of low cost affordable housing for low, moderate, and fixed income individuals and families.

The Housing Element includes language supporting low income housing providers in Tumwater.

Part 1 – Goals, Policies, and Implementation Actions

4. Element Goals and Policies

A. How to Read These Tables

The Housing Element goals and policies are not in priority order.

Appendix A provides a list of the draft implementation actions by goal and policy that will be considered when developing annual work programs for implementing the Housing Element's goals and policies.

Period 1)

Each of the Housing Element's policies are associated with estimated start dates, length of time to complete, and target completion dates, if appropriate based on adequate funding for staff and resources. Most policies are ongoing with no set target completion date.

2) Effort to Achieve

Each of the Housing Element's policies are ranked according to the level of effort to achieve:

High	Policy would require significant funding or staff resources or political effort to implement.
Medium	Policy would require moderate funding or staff resources or political effort to implement.
	Policy would require few fundir

funding or staff resources or political effort to implement.

3) Effect on Housing Supply

Each of the Housing Element's policies are ranked according to their expected effect on housing supply in Tumwater:

High increase in desired housing units. Policy could result in a moderate Medium increase in desired housing units. Policy could result in a small ow increase in desired housing units.

Policy could result in a significant

4) **Housing Needs**

The Housing Element's policies are associated with one of the six goals in the Housing Element. Each policy addresses one or more of the eight areas of housing needs or state requirements:

Affordability. Reduces the cost of housing for low-income and costburdened households.

Supply. Increases the inventory of housing for all households.

Variety. Increases the variety of housing types.

Seniors. Increases the stock of housing options needed for aging seniors.

Improvements. Maintains the existing housing stock, including improving energy efficiency and air quality.

8 | Page

low

Part 1 – Goals, Policies, and Implementation Actions

Stability. Increases household

wealth by providing safe, stable

options for rental housing and pathways to homeownership.

and those at risk of or experiencing homelessness.

requirements for housing.

State Requirement. Addresses state

Supportive Housing. Increases permanent supportive housing options for people with disabilities

B. Housing Goals and Policies

Goal H-1 Increase the supply and variety of housing for every income and age group.

Goal H-1 is intended to streamline the development and construction of both owner and renter-occupied market rate and publicly supported housing to increase the amount and variety of housing types.

1) Why is this Goal Important?

Between 2020 and 2045, the population of Tumwater and its urban growth area is projected to increase by 21,969 people. This growth will require 9,192 new housing units in Tumwater and its urban growth area by 2045. Of those unit 3,298 would need to be affordable to a household of four making 80% or less of the Area Median Income, which was \$82,000 in Thurston County in 2023. When demand for housing is high, but supply stays low, housing costs increase, reducing affordability. The increase in costs affects both renters and those looking to buy.

As household formation and composition have changed over time, so have housing needs. Increasing the variety of housing types allows households more choices and creates a dynamic housing market better able to meet the needs of people wanting to live in Tumwater.

2) How Does the Goal Reduce Housing Costs?

Tumwater will see a growth of households in all income categories over the next twenty years, from the lowest earning ones to those earning well above the median income. This will require housing affordable to a wide range of incomes.

Expanding the housing supply also means people can find housing better suited to their needs. For example, a young family looking to buy their first home may continue to rent or pay more than 30 percent of their household income on a mortgage if home sale prices are too high.

Middle housing, a small part of Tumwater's current housing stock, is an important part of an affordable housing strategy. Middle housing includes duplexes, triplexes, quadplexes, stacked units attached townhomes, and cottage housing.

Per unit costs for middle housing tend to be lower than single-family homes, because the units are smaller, and developers can benefit from economies of scale. Per unit costs are also less than larger multifamily developments because

9 | Page

Part 1 – Goals, Policies, and Implementation Actions

they do not require structured parking or concrete and steel structures and are typically in neighborhoods with existing infrastructure. This leads to lower costs for both homeowners and renters.

Diversifying the housing stock also recognizes that households are unique and have a wide range of housing needs. This is particularly true as Tumwater's population ages. Middle housing is one way for seniors to downsize while staying in the neighborhoods they love.

3) How Does this Goal Address Equity?

When demand for housing is high, but supply is low, housing costs rise, decreasing affordability.

Those with the lowest incomes, who are disproportionately people of color, are most affected. Rising rents are correlated with increased evictions and homelessness.

Rising home prices means homeownership, a way for disadvantaged households to build wealth and increase financial stability, becomes more difficult.

Increasing costs can also lead to gentrification or cultural displacement as people move to new neighborhoods that lack the businesses and institutions important to their community. While this process may be voluntary, it can be destabilizing for communities of color. When higher income households, those that can afford to rent or buy at market rates, find housing that better meets their needs and budgets, more units are freed up that lower income households can afford. Expanding the overall housing stock also slows the increases in rent and housing prices that disproportionately affect people of color.

Market rate housing alone will not address the needs of the most disadvantaged populations, and pressure to develop market rate housing in communities of color can cause displacement. Draft implementation actions for Goal H-1 in Appendix A would help to increase the supply of housing for the lowest-income households.

Increasing the variety of housing options gives more affordable housing options to low-income households, who are disproportionately people of color. Middle housing can be both rental and owner-occupied. Affordable owner-occupied units are a way to build financial equity.

Middle housing also expands the housing options available in predominantly single-family neighborhoods, leading to a mix of household incomes. This allows low-income households to access some of the resources, such as better school districts or healthier neighborhoods, available to higher-income households.

Goal H-2 Expand the supply of permanent, income-restricted affordable housing.

Goal H-2 includes draft implementation actions in Appendix A that increase the supply of housing affordable to low-income households (those making eighty or less percent of the area median family income) and draft implementation actions that support the providers of low-income housing.

1) Why is this Goal Important?

Demand for housing is straining the limited supply of affordable options. For households with the lowest incomes, such as single income earners with service industry roles like retail

12 | Page

City of Tumwater 2025 Comprehensive Plan Balancing Nature and Community: Tumwater's Path to Sustainable Growth **Commented [BM14]:** New goal, based in part on the Tumwater Housing Action Plan Strategy 1:

"Increase the supply of permanent, income-restricted affordable housing."

Part 1 – Goals, Policies, and Implementation Actions

clerks, home health aides, or a childcare provider, market rate housing is unlikely to be an affordable option. For these households, even home maintenance costs, let alone rent or mortgage payment costs, can be unaffordable.

2) How does this Goal Reduce Housing Costs?

Removing barriers and providing incentives to develop affordable housing for the lowest incomes increases housing affordability for these households.

Reducing the cost of renting and owning a home are both parts of the solution. For households looking towards homeownership, the up-front costs associated with purchasing a home can put this option out of reach. Low-income households, however, can benefit from the stabilization in housing costs that owning a home can offer, in general, monthly mortgage payments stay the same over 30 years while monthly rent payments increase.

The draft implementation actions in Appendix A address the need for permanent supportive housing for people with disabilities, seniors on limited incomes, and others in similar situations. For people moving out of emergency housing situations, such as a homeless shelter, permanent supportive housing provides not only affordable housing but also access to health and social services. These services build stability and decrease the likelihood residents experiencing homelessness again.

How Does this Goal Address Equity?

People who have systematically had less access to wealth generational building, such as communities of color, or those who have experienced homelessness, stand to benefit the most from income restricted housing. Equity means getting people and communities to have equal possible outcomes, which requires eliminating barriers and providing support to those who need it the most. This goal seeks to address equity by providing affordable, stable housing options tailored to meet the needs of our community.

Housing affordable to households with the lowest incomes can be rental or owner units, both of which help stabilize households. Programs that expand homeownership opportunities can significantly improve a household's wealth; this is especially important to addressing inequities for households of color stemming from historical policies like redlining and zoning.

	Policies	Period	Effort to Achieve	Effect on Housing Supply	Needs Addressed
H-2.1	Support permanent, income- restricted affordable housing in variety of locations, types, and designs that is safe, and near jobs and daily activities.	Term of the Plan	H	Μ	

Commented [BM15]: Update goal as a policy that addresses state goals, policies, and objectives for consideration of housing locations in relation to employment locations. <u>RCW 36.70A.070(2)(d)</u>.

Policies		Period	Effort to Achieve	Effect on Housing Supply	Needs Addressed
H-2.2	Support permanent, income- restricted affordable housing through budgeting and funding decisions.	Term of the Plan	Н	Μ	

Goal H-3 Maintain and improve existing housing stock.

Goal H-3 is intended to support the ongoing maintenance of Tumwater's housing stock.

1) Why is this Goal Important?

One of the most important methods to keep an adequate supply of housing in Tumwater is to retain existing housing in good condition. The policies and draft implementation actions in Appendix A for Goal H-3 are intended to support the maintenance and improvement of the existing housing stock to avoid prematurely needing new housing to replace existing housing.

2) How Does the Goal Reduce Housing Costs?

Goal H-3 helps to reduce costs by addressing ongoing maintenance on a regular basis to avoid creating a larger, more expensive problem later by not dealing with a smaller, less expensive problem now. Maintaining and improving Tumwater's existing housing stock also improves energy efficiency, which reduces costs and climate impacts, and air quality, which improves resident's health.

How Does this Goal Address Equity?

Existing housing stock is more likely to serve lowand moderate-income residents of Tumwater. Providing public funding to help with renovating and maintaining existing housing that serves lowincome households, seniors, or residents with disabilities is a good way of ensuring that residents of all incomes can continue to live in Tumwater.

Tumwater has implemented this goal in the part through funding to nonprofits, CDBG funding, and work through the Regional Housing Council.

Commented [BM21]: Updated 2016 policy.

Commented [BM22]: New policy.

Part 1 – Goals, Policies, and Implementation Actions

Goal H-4 Make it easier for households to access housing and stay housed.

Goal H-4 address housing stability in Tumwater by preventing evictions and displacement and creating opportunities to build financial equity through homeownership.

1) Why is this Goal Important?

Housing stability is an important component of housing affordability. When households face housing insecurity because they live paycheck to paycheck or other issues, there can be a fine line between being housed and being homeless. Evictions and foreclosures are both destabilizing and can lead to long-term poverty. These events also make it more likely that a household will experience homelessness.

2) How does this Goal Reduce Housing Costs?

For Tumwater, our priority is to prevent our residents from experiencing homelessness. Not only is that more humane, but it is also more cost-effective.

Households that can avoid evictions and foreclosures also avoid increases in their monthly housing costs. Finding a new home to live in is also very challenging when the supply is low and the demand is high. For renters, this can also include application fees, deposits, moving expenses, and other costs associated with finding new rental housing.

How Does this Goal Address Equity?

Goal H-4 includes draft implementation actions in Appendix A to make it easier for households to access housing and stay housed.

Homeownership is an important way for a household to build financial equity, move people out of poverty, and create generational wealth. Creating these opportunities for people of color, who were historically denied access to mortgages and loans, is particularly important.

As a result of these structural past and present harms, people of color are more likely to rent and more likely to have a lower income than their white, non-Hispanic counterparts. This makes them particularly vulnerable to being evicted when rent increases exceed their ability to pay. This concern is reflected in the population experiencing homelessness, which are also disproportionately people of color.

	Policies	Period	Effort to Achieve	Effect on Housing Supply	Needs Addressed
H-4.1	Coordinate with and promote social service organizations in their efforts to help prospective homeowners with financial assistance.	Term of the Plan	Μ	Μ	

Commented [BM23]: New goal based on Tumwater Housing Action Plan – Strategy 2.

Policies		Effort to Period Achieve		Effect on Housing Supply	Needs Addressed
H-4.2	Develop policies that protect vulnerable populations from displacement and inflated housing costs when on fixed incomes.	2026-28	Μ	M	A*** 🏦 🏛

Goal H-5 Continually develop partnerships to improve implementation of housing strategies.

Goal H-5 recognizes the need for Tumwater to engage with its community and maintain strong relationships with affordable housing and housings service providers to address housing affordability.

1) Why is this Goal Important?

While Tumwater does not build or manage housing, the policies and codes the City enacts can affect how much housing can be built and at what cost.

2) How does this Goal Reduce Housing Costs?

By establishing partnerships with organizations who build housing and that serve below median income households, Tumwater can work with them to direct resources and enact policies that best serve the community.

For some, changes brought on by growth and new development in their established neighborhoods can be seen as difficult. As a result, residents may support policies that improve housing affordability while at the same

17 | Page

time deter implementation actions needed to increase affordable options.

Inviting people of all social and economic groups in Tumwater into conversation provides the most direct means of collaborating with leaders of disadvantaged populations to foster government action that does not increase inequities faced by people of color.

3) How Does this Goal Address Equity?

Building public understanding and compassion around the challenges faced by low-income households includes recognizing the historic and systemic reasons why they are disproportionately people of color.

The people who typically engage in public review processes, especially land use processes, are often white and have a higher income, which is not reflective our entire community. Developing relationships with organizations that work with or represent communities of color and disadvantaged groups can help Tumwater better:

• Serve our community.

City of Tumwater 2025 Comprehensive Plan Balancing Nature and Community: Tumwater's Path to Sustainable Growth Commented [BM25]: New policy.

Commented [BM27]: New goal based on Tumwater Housing Action Plan – Strategy 5.

Part 1 - Goals, Policies, and Implementation Actions

- Identify who benefits or is burdened by an action.
- Examine potential unintended consequences of taking an action.
- Mitigate unintended negative consequences of taking an action.
- Build in strategies to advance racial equity.

Initiative-taking efforts to strive for engagement in decision-making processes are broadly inclusive and grounded in achieving equity is necessary.

With broader input representative of the whole community, decisions are better balanced and implementation actions Tumwater take can be more successfully implemented in an equitable fashion.

Inviting and bringing in people of all levels of society in Tumwater into conversation provides the most direct means of collaborating with leaders of disadvantaged populations to foster government action that does not increase inequities faced by people of color.

Part 1 – Goals, Policies, and Implementation Actions

Goal H-6 Explore a Permanent Source of Funding for Low-Income Housing.

Goal H-6 addresses the need to increase funding for low-income housing and to provide a regional strategy for distributing funds.

1) Why is this Goal Important?

While the private sector will build most of the housing needed to meet demand in the Cities of Lacey, Olympia, and Tumwater, a significant portion of households earn less than 80 percent of the median area income. Paying market rate rents or mortgages may not be affordable for them.

For nonprofit or for-profit developers, it is difficult for a low-income development project to be feasible without public support.

2) How does this Goal Reduce Housing Costs?

Providing affordable housing for the lowest income households and those experiencing homelessness requires significant public resources. Currently those resources are scarce, leaving many households unable to afford a decent and affordable place to live that does not have unsafe or unhealthy living conditions. Many of the draft implementation actions identified in Appendix A of this Element are not possible without more funding. Tumwater can play a significant role in leveraging local, state, and federal dollars for low-income housing. The City also recognizes the need to collaborate regionally on a funding strategy so that funds are used efficiently and distributed to the areas of greatest need. More funding reduces the costs to develop and maintain units and makes housing units more affordable.

While Tumwater will explore ways to increase funding, the City recognizes the need to increase at the state and federal level for affordable housing.

3) How Does this Goal Address Equity?

In 2021, 39 percent of households in Tumwater less than 80 percent of area median income, which are low-, very low-, and extremely lowincome households. The draft implementation actions in Appendix A of Goal H-6 will help to address these issues.

Policies	Period	Effort to Achieve	Effect on Housing Supply	Needs Addressed
H-6.1 Work with the state and reg partners to explore permane sources of funding for the construction and maintenan of low-income housing.	ent Term of the Plan	Η	Η	

Commented [BM33]: New policy.

Part 1 - Goals, Policies, and Implementation Actions

Appendix A – Draft Implementation Actions

Each of the Housing Element goals and policies in Chapter 4 will require Tumwater to take specific actions to implement over the course of the 20 year term of the Comprehensive Plan.

The draft implementation actions in the tables below were developed in coordination with the housing stakeholders, the community, and Tumwater staff. The draft implementation actions in the tables below are intended to serve as the start for developing annual Tumwater work programs to address housing.

As the Comprehensive Plan is put into action over the next twenty years, the draft

1. How to Read These Tables

The Housing Element goals, policies, and the draft implementation actions associated with them are not in priority order.

The draft implementation actions that can only be undertaken by other entities are not included in this plan.

a) Period

Each of the Housing Element's policies and draft implementation actions are associated with estimated start dates, length of time to complete, and target completion dates, if appropriate based on adequate funding for staff and resources. Most policies are ongoing with no set target completion date.

b) Effort to Achieve

Each of the Housing Element's policies and draft implementation actions are ranked according to the level of effort to achieve: implementation actions will change as new, unforeseen opportunities emerge: new ones may be added, proposed ones may be modified or replaced by other actions.

The draft implementations actions below are intended to be draft work program items that serve to implement the goals and policies of the Element. The draft implementation actions will need further refinement before they are incorporated into annual Tumwater work programs.

> Policy or action would require significant funding or staff resources or political effort to implement.

High

Nedium

low

Policy or action would require moderate funding or staff resources or political effort to implement.

Policy or action would require few funding or staff resources or political effort to implement.

c) Effect on Housing Supply

Each of the Housing Element's policies and draft implementation actions are ranked according to their expected effect on housing supply in Tumwater:

20 | Page

Part 1 – Goals, Policies, and Implementation Actions

 High
 Policy or action could result in a significant increase in desired housing units.

 Medium
 Policy or action could result in a moderate increase in desired housing units.

 Policy or action could result in a moderate increase in desired housing units.

 Policy or action could result in a moderate increase in desired housing units.

Low small increase in desired housing units.

d) Housing Needs

The Housing Element's policies and draft implementation actions are associated with one of the six goals in the Housing Element. Each policy and draft implementation action addresses one or more of the eight areas of housing need or state requirements:

Affordability. Reduces the cost of housing for low-income and costburdened households.

~~

Supply. Increases the inventory of housing for all households.

Variety. Increases the variety of housing types.

Seniors. Increases the stock of housing options needed for aging seniors.

Improvements. Maintains the existing housing stock, including improving energy efficiency and air quality.

Stability. Increases household wealth by providing safe, stable options for rental housing and pathways to homeownership.

Supportive Housing. Increases permanent supportive housing options for people with disabilities and those at risk of or experiencing homelessness.

State Requirement. Addresses state requirements for housing.

Commented [BM151]: New implementation action based on Tumwater Housing Action Plan – Action 6.a.

The City has begun the work necessary to implement the action, but work is needed through the Regional Housing Council and other regional forums to determine overall allocation goals for shelters, transitional and permanent low income housing. Otherwise, the City will continue to spend most of its money on shelters and not build enough affordable units.

Continue to provide funding for shelters and transitional housing through non-profits.

Commented [BM152]: New implementation action.

Commented [BM153]: New implementation action based on Tumwater Housing Action Plan – Action 6.b.

The City should survey taxpayers and its large property tax generators as a first step.

Commented [BM154]: New implementation action based on Tumwater Housing Action Plan – Action 6.c.

The City should survey taxpayers and its big sales tax generators as a first step.

Commented [BM155]: New implementation action based on Tumwater Housing Action Plan – Action 6.e.

Could be part of the Regional Housing Council discussions as well.
