

Civil Service Commission: February 12, 2026

Discussion Item:

Request to extend eligibility for candidates on our current eligibility list for Fire Lieutenant and Paramedic Lieutenant Classifications

Background:

Those currently remaining on the list continue to represent the highest-qualified candidates for future vacancies and have remained on the list primarily due to the limited number of promotional opportunities available. Extending the eligibility period will allow us to retain access to these well-qualified candidates while avoiding the stress, time commitment, and financial cost associated with conducting a new testing process.

Request:

We request that the Civil Service Commission approve extending the eligibility period for these candidates to **February 2027**, so that we can continue to consider these candidates for upcoming vacancies.
