13. SAVINGS

In the event funding from state, federal, or other sources is withdrawn, reduced, or limited in any way after the effective date of this Contract and prior to normal completion, COMMERCE may suspend or terminate the Contract under the "Termination for Convenience" clause, without the ten calendar day notice requirement. In lieu of termination, the Contract may be amended to reflect the new funding limitations and conditions.

14. SEVERABILITY

The provisions of this contract are intended to be severable. If any term or provision is illegal or invalid for any reason whatsoever, such illegality or invalidity shall not affect the validity of the remainder of the contract.

15. SUBCONTRACTING

The Contractor may only subcontract work contemplated under this Contract if it obtains the prior written approval of COMMERCE.

If COMMERCE approves subcontracting, the Contractor shall maintain written procedures related to subcontracting, as well as copies of all subcontracts and records related to subcontracts. In no event shall the existence of a subcontract operate to release or reduce the liability of the Contractor to COMMERCE for any breach in the performance of the Contractor's duties.

Every subcontract shall include a term that COMMERCE and the State of Washington are not liable for claims or damages arising from a Subcontractor's performance of the subcontract.

16. SURVIVAL

The terms, conditions, and warranties contained in this Contract that by their sense and context are intended to survive the completion of the performance, cancellation or termination of this Contract shall so survive.

17. TERMINATION FOR CAUSE

In the event COMMERCE determines the Contractor has failed to comply with the conditions of this contract in a timely manner, COMMERCE has the right to suspend or terminate this contract. Before suspending or terminating the contract, COMMERCE shall notify the Contractor in writing of the need to take corrective action. If corrective action is not taken within 30 calendar days, the contract may be terminated or suspended.

In the event of termination or suspension, the Contractor shall be liable for damages as authorized by law including, but not limited to, any cost difference between the original contract and the replacement or cover contract and all administrative costs directly related to the replacement contract, e.g., cost of the competitive bidding, mailing, advertising and staff time.

COMMERCE reserves the right to suspend all or part of the contract, withhold further payments, or prohibit the Contractor from incurring additional obligations of funds during investigation of the alleged compliance breach and pending corrective action by the Contractor or a decision by COMMERCE to terminate the contract. A termination shall be deemed a "Termination for Convenience" if it is determined that the Contractor: (1) was not in default; or (2) failure to perform was outside of his or her control, fault or negligence.

The rights and remedies of COMMERCE provided in this contract are not exclusive and are, in addition to any other rights and remedies, provided by law.

18. TERMINATION FOR CONVENIENCE

Except as otherwise provided in this Contract, COMMERCE may, by ten (10) business days' written notice, beginning on the second day after the mailing, terminate this Contract, in whole or in part. If this Contract is so terminated, COMMERCE shall be liable only for payment required under the terms of this Contract for services rendered or goods delivered prior to the effective date of termination.

19. TERMINATION PROCEDURES

Upon termination of this contract, COMMERCE, in addition to any other rights provided in this contract, may require the Contractor to deliver to COMMERCE any property specifically produced or acquired for the performance of such part of this contract as has been terminated. The provisions of the "Treatment of Assets" clause shall apply in such property transfer.

COMMERCE shall pay to the Contractor the agreed upon price, if separately stated, for completed work and services accepted by COMMERCE, and the amount agreed upon by the Contractor and COMMERCE for (i) completed work and services for which no separate price is stated, (ii) partially completed work and services, (iii) other property or services that are accepted by COMMERCE, and (iv) the protection and preservation of property, unless the termination is for default, in which case the Authorized Representative shall determine the extent of the liability of COMMERCE. Failure to agree with such determination shall be a dispute within the meaning of the "Disputes" clause of this contract. COMMERCE may withhold from any amounts due the Contractor such sum as the Authorized Representative determines to be necessary to protect COMMERCE against potential loss or liability.

The rights and remedies of COMMERCE provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

After receipt of a notice of termination, and except as otherwise directed by the Authorized Representative, the Contractor shall:

- A. Stop work under the contract on the date, and to the extent specified, in the notice;
- B. Place no further orders or subcontracts for materials, services, or facilities except as may be necessary for completion of such portion of the work under the contract that is not terminated;
- C. Assign to COMMERCE, in the manner, at the times, and to the extent directed by the Authorized Representative, all of the rights, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case COMMERCE has the right, at its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;
- D. Settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts, with the approval or ratification of the Authorized Representative to the extent the Authorized Representative may require, which approval or ratification shall be final for all the purposes of this clause;
- E. Transfer title to COMMERCE and deliver in the manner, at the times, and to the extent directed by the Authorized Representative any property which, if the contract had been completed, would have been required to be furnished to COMMERCE;
- F. Complete performance of such part of the work as shall not have been terminated by the Authorized Representative; and
- G. Take such action as may be necessary, or as the Authorized Representative may direct, for the protection and preservation of the property related to this contract, which is in the possession of the Contractor and in which COMMERCE has or may acquire an interest.

20. TREATMENT OF ASSETS

Title to all property furnished by COMMERCE shall remain in COMMERCE. Title to all property furnished by the Contractor, for the cost of which the Contractor is entitled to be reimbursed as a direct item of cost under this contract, shall pass to and vest in COMMERCE upon delivery of such property by the Contractor. Title to other property, the cost of which is reimbursable to the Contractor under this contract, shall pass to and vest in COMMERCE upon (i) issuance for use of such property in the performance of this contract, or (ii) commencement of use of such property in the performance of this contract, or (iii) reimbursement of the cost thereof by COMMERCE in whole or in part, whichever first occurs.

- A. Any property of COMMERCE furnished to the Contractor shall, unless otherwise provided herein or approved by COMMERCE, be used only for the performance of this contract.
- B. The Contractor shall be responsible for any loss or damage to property of COMMERCE that results from the negligence of the Contractor or which results from the failure on the part of the Contractor to maintain and administer that property in accordance with sound management

practices.

- C.** If any COMMERCE property is lost, destroyed or damaged, the Contractor shall immediately notify COMMERCE and shall take all reasonable steps to protect the property from further damage.
- D.** The Contractor shall surrender to COMMERCE all property of COMMERCE prior to settlement upon completion, termination or cancellation of this contract.
- E.** All reference to the Contractor under this clause shall also include Contractor's employees, agents or Subcontractors.

21. WAIVER

Waiver of any default or breach shall not be deemed to be a waiver of any subsequent default or breach. Any waiver shall not be construed to be a modification of the terms of this Contract unless stated to be such in writing and signed by Authorized Representative of COMMERCE.

Attachment A: Scope of Work

Purpose

Engrossed Substitute Senate Bill 5200 Section 1008 Subsection 1 states:

Home Electrification and Appliance Rebates (HEAR) Program

For the department (Commerce) to administer grants to eligible third-party administrators for heat pump and other high-efficiency electric equipment rebates, with a focus on low/moderate income households and small businesses. State incentives and rebates for installation of high efficiency electric equipment, including electrical panel upgrades, provide a benefit to the public consistent with the state's energy strategy and climate mandates by reducing greenhouse gas emissions from the built environment.

- (a) \$75,000,000 of the climate commitment account-state appropriation is provided solely for the department to administer ESSB 5200.PL grants to low/moderate income households and small businesses.

Commerce shall implement a statewide high efficiency electric equipment program consistent with the following:

- (a) Aid the transition of residential and commercial buildings away from fossil fuels by providing education and outreach resources for the installation of high efficiency electric heat pumps and other high efficiency electric equipment;
- (b) Provide grants, coordination, and technical assistance to eligible third-party administrators to promote the adoption of high efficiency electric heat pump equipment for space and water heating; and
- (c) Develop strategies to ensure that the program serves low income households, vulnerable populations, and overburdened communities, including dedicating a portion of the program funding for this purpose.

Tasks and Deliverables

Task 1: Funding Priorities

Third-party administrators that receive funding through HEAR, must meet the following funding priorities:

1. **Provide rebates and incentives that serve the following populations:**
 - a. Low-income single- and multifamily households with household income of 80% or less of Area Median Income.
 - b. Moderate-income single- and multifamily households with household income between 80% and 150% of Area Median Income.
 - c. Small businesses with fifty (50) employees or less, or otherwise meet the definition in RCW 39.06.010(22)
2. Rebates and incentives must be for the purchase or installation of high-efficiency electric equipment, including, but not limited to:

Table 1: Eligible High-Efficiency Electric Equipment

Upgrade Type	Eligible Equipment
Appliance	Electric Heat Pump Water Heater
	Electric Air-source or Ground source Heat Pump for Space Conditioning
	Commercial or Residential Induction Kitchen Equipment
	Electric Heat Pump Clothes Dryer

Electric Service necessary for the installation of high-efficiency electric equipment	Electrical Service and Panel Upgrade
	Electric Wiring

- (a) All equipment must meet the following requirements:
- Remove all fossil fuel equipment where technically and economically feasible.
 - All air-source heat pumps must be listed on the Northeast Energy Efficiency Partnership's (NEEP) Cold Climate Air Source Heat Pump (ccASHP) Product List, or meet the most recent ENERGY STAR Cold Climate product criteria.
 - All equipment must be ENERGY STAR Certified or CEE North Region Certified.
 - All equipment that uses refrigerants must follow the statutory global warming potential (GWP) limits from the Washington State Department of Ecology and the U.S. Environmental Protection Agency (EPA), and where technically and economically feasible, must use low GWP refrigerants listed by the EPA's Significant New Alternatives Policy (SNAP) Program, or the California Air Resources Board (CARB).
- (b) Mechanical, electrical, and plumbing (MEP) equipment may be eligible if necessary for the installation of eligible high-efficiency electric equipment listed in Table 1.
- (c) Education and outreach resources to promote the adoption of high-efficiency electric equipment and build workforce capacity.
- (d) Program administration costs not to exceed 15 percent of grant funds.

Task 2: Program Work Plan and Outcomes

Grantees must provide a work plan to COMMERCE. Work plans must address the following:

1. High-level description of the program, including goals and outcomes.
2. Description of the jurisdiction that the program will serve. This may include information on rural status, median income, and population demographics.
3. Total funding for the program – Commerce grant funds plus matching funds – and an anticipated budget that must include at a minimum:
 - a. Costs for rebates and incentives for eligible high-efficiency electric equipment
 - i. Costs should be categorized into the funding allocated to household and small business rebates and incentives, and subsequently by the eligible equipment rebates and incentives the program is providing (as described in Task 1).
 - b. Costs for outreach and education, if applicable.
 - c. Administrative costs.
4. Grantees must ensure that their program only provides rebates and incentives to the eligible rebate recipients listed in Task 1.
 - a. What populations or subsets of the listed eligible rebate recipients, does this program primarily serve? How will your jurisdiction prioritize the populations that will receive rebates and incentives?
 - b. How will the program qualify eligible households and small businesses to receive rebates or incentives? Possible methods for verifying eligibility of households may include participation in other income-qualified benefits programs (LIHEAP, SNAP, etc), tenancy in income-qualified housing units, or other methods, which verify income against the thresholds described in Task 1.
5. Describe how your jurisdiction, and any partners or subcontractors will, provide outreach and education about the program, and resources for the installation of high efficiency electric equipment.
 - a. What strategies will this program use to reach low-income households, vulnerable populations, and overburdened communities?
6. Describe the process for distributing rebates and incentives, including any application process that rebate recipients or contractors must follow.

7. Describe partnerships or subcontracts that the Grantee will use to complete the proposed scope of work of the program.

Task 3: Expenditure Reporting

1. All Grantees are required to submit Project and Expenditure Reports
 - a. Grantees must provide COMMERCE quarterly reports with an official expenditure report/ledger from their general ledger for all expenses claimed for COMMERCE funding from the program and any backup invoice documentation requested from COMMERCE. The expenditure report/ledger must include:
 - i. Number of households and small businesses that were provided rebates and incentives to purchase or install high-efficiency electric equipment and appliances

 6. Amount of the rebate or incentive claimed or issued
 7. Applicable building and electrical permit numbers
2. Grantees must provide COMMERCE an official final/close out expenditure report/ledger from their general ledger for all expenses claimed for COMMERCE funding from the program.
3. Grantees shall also provide information for any subawards, contracts, transfers, and direct payments made using funding from the program.
4. COMMERCE will withhold 2% of the total reimbursable amount for each item listed in Attachment B: Budget until the Grantee provides the official report/ledger from their general ledger for all expenses claimed for COMMERCE funding from the program.

Attachment B: Budget

Item	Description	Amount
1	Grant to administer a rebates and incentives program for high-efficiency electric equipment and appliances	\$477,540.00
	Total Grant Amount	\$477,540.00

Attachment C: Program Work Plan

1. Program Description

Thurston County and the cities of Olympia, Lacey and Tumwater are working together as the Thurston Climate Mitigation Collaborative (“TCMC”) to plan a Residential Energy Efficiency and Electrification Campaign (“EEE Campaign”) that will provide outreach and financial incentives to accelerate residential building decarbonization throughout the county. The EEE Campaign aims to support energy equity by prioritizing benefits to low- and moderate-income (LMI) single- and multi-family households. Within the framework of this broader program, Tumwater will utilize its HEAR funding to provide rebates and incentives to LMI residents of Tumwater.

All proposed rebates and installations include the following HEAR-eligible appliances and services:

- Heat pump water heaters
- Heat pump space conditioning
- Induction kitchen equipment
- Heat pump clothes dryers
- Electrical service and panel upgrades, when necessary for the installation of the above equipment
- Electric wiring, when necessary for the installation of the above equipment.

The City of Tumwater will efficiently distribute the HEAR rebates/incentives by incorporating methods used by existing local programs. Specifically, Tumwater will build on and expand the City of Olympia’s Energize Olympia program, which provides 100% cost coverage installations for eligible equipment for low- and moderate-income households (up to 120% area median income, AMI). Additionally, the City of Tumwater may design and offer rebates for residents earning 121-150% AMI for eligible equipment. Final incentive/subsidy amounts will be determined via stakeholder outreach during Phase I of the EEE Campaign development in summer 2024. During this phase we will also identify local campaign partners, finalize the campaign launch and implementation schedule, brand the campaign and develop a communications plan.

The goal of the program is to support comprehensive, equitable electrification services to City of Tumwater residents, with an anticipated outcome of supporting approximately 20-40 fully subsidized installations of eligible equipment with Commerce HEAR funding.

2. Jurisdiction Service Description

The EEE program in Tumwater will be focused on targeted financial incentives and customer support to galvanize consumer action and remove barriers to energy efficiency through the installation of home electrification equipment and appliances. According to US Census 2022 ACS 5-year estimates, the City of Tumwater has a total population of approximately 25,350 residents as of 2023 consisting of:

- 13.6% of persons aged 65 and older
- 2.6% of persons identifying as Black or African American alone

- 1.3% of persons identifying as American Indian and Alaska Native alone
- 5.4% of persons identifying as Asian alone
- 8.7% Hispanic or Latino
- 11.8% two or more races
- 8.2% persons in poverty
- A median household income of \$84,177 per year.

3. Program Funding

Tumwater’s total projected funding for EEE Campaign incentives is fully encompassed within the HEAR award of \$477,540. Unlike other TCMC jurisdictions involved in the EEE Campaign, Tumwater’s population size has limited the City’s access to other federal funds to leverage and grow this program. However, Thurston County was able to secure an EECBG Fellow, which will provide some staff capacity to help TCMC communities develop, administer, and ensure sustainability of the EEE Campaign.

The anticipated budget for the City of Tumwater’s HEAR funds is shown in Table 1 below.

1	Residential Rebates and Incentives	\$405,909
2	Administration, including outreach & education (15%)	\$71,631
	Total	\$477,540

4.a Populations Served & Prioritized

This residential program serves low- to moderate-income households, prioritizing the following populations:

- Low-income homeowners
- No working heat source, or oil/wood/propane/natural gas heating households
- No working air conditioner
- Seniors (one or more persons aged 65 or older)
- Large households (6 or more residents in house)
- Homeowners with disabilities
- Participants of Tumwater’s Utility Lifeline program (seniors or low-income disabled households)

4.b Qualification and Verification

Residential Program

Tumwater’s EEE campaign will serve both single-family and multifamily households, including rental households. For both single-family and multifamily rental households, the Program will require a signed landlord or building owner consent to participation in the program.

Single-family: All single-family households will be required to sign self-attestation of income. The Program will verify customer incomes through one of two methods:

1. Households will be asked to provide up-to-date registration information from another program with income requirements equal to or less than Program AMI requirements; examples are listed in Table 2.
2. Households send in income information (most recent Form 1040 tax form) allowing for independent income verification.

Multifamily: For participating multifamily buildings to be considered low-income, at least 50% of the multifamily units must have incomes less than 81% AMI, verified through one of the above two methods. Alternatively, income-qualified subsidized housing would also qualify.

5.a Outreach and Education Strategies

Tumwater’s EEE campaign will educate residents of Tumwater through a series of educational workshops hosted by the TCMC, City of Tumwater, and/or installers. The workshops will provide information on the benefits of heat pump technology, induction cooking, home electrification, and an overview of the program pathways and the installation process, as well as information on the many available financial incentives including federal tax credits and local utility incentives from Puget Sound Energy. Handouts, slides, and any printed materials provided during the workshops or in the recruitment of workshop attendees will include the required language citing that the program is funded by the Climate Commitment Act.

In addition to the workshops, Tumwater will conduct outreach directly to Utility Lifeline Customers, targeted radio advertising, tabling at community events and spaces, sharing marketing materials and flyers throughout the City, and informational meetings with various community groups. These outreach methods will include verbal (in the case of radio advertising) and/or written acknowledgment of the Climate Commitment Act funding that makes the program possible.

5.b Partnerships

The City of Tumwater will partner with other TCMC jurisdictions to launch this regional program. That launch includes developing partnerships and installer agreements to ensure the success of the program.

- **Local Government Partners:** The EEE campaign will be implemented at a regional scale via an Interlocal Agreement (ILA) between Thurston County, City of Olympia, City

of Lacey, and City of Tumwater at minimum. Additional jurisdictions may opt-in to join the campaign. The ILA will specify the roles and responsibilities of each partner including program management, management of third-party contracts, funding, and in-kind commitments.

- **Campaign Partners:** Partnerships will be finalized during Phase I of the EEE campaign development (summer 2024), and may include South Puget Sound Habitat for Humanity, Thurston County Public Health & Social Services, Community Action Council, and/or other community-based organizations. For example, in the Energize Olympia program, Habitat for Humanity has provided heat pump installations for LMI participants, site assessments, subcontract management, and collaboration on program outreach and recruitment.
- **TBD Installer:** A TBD installer(s) will provide information for educational workshops, conduct free site assessments, offer streamlined access to financial incentives and equipment rebates, and execute all installations for the program. Tumwater and partners will aim to negotiate a group purchase discount (e.g. 10%) to allow program dollars to fund more fully subsidized installations.
- **Puget Sound Energy:** Puget Sound Energy (PSE) is the local electric utility and natural gas utility for Tumwater. PSE provides a variety of incentives including home electrification assessments and energy efficiency rebates. The partner jurisdictions will coordinate with PSE on outreach/marketing and training of the TBD Installer(s) to ensure all applicable utility incentives are provided to participants as a time-of-sale discount.

6. Distribution Process

To receive a fully subsidized home electrification installation (which may include one or more appliances), participants must progress through the program via the following steps:

1. Sign up for and attend a program workshop.
2. Submit a program application and specify that the household is interested in receiving a subsidized installation.
3. Program staff will verify site eligibility and request income eligibility information.
4. Program staff will provide the participant with a status update and notify the installer that the participant is ready to schedule a site assessment.
5. Participants will schedule and receive HEAR-eligible installation(s) from the installer.
6. The Installer will submit the customer invoice from the installation to program staff verifying the HEAR-eligible equipment installed, and request reimbursement.
