

TO: Public Health & Safety Committee
FROM: Karen Kirkpatrick, City Attorney
DATE: October 14, 2025
SUBJECT: Thurston County Prosecuting Attorney's Data Dashboard Presentation

1) Recommended Action:

No action needed – this is an informational presentation only.

2) Background:

The City has a long-standing relationship with the Thurston County Prosecuting Attorney's Office. Jon Tunheim and Christy Peters will provide an informational presentation about the County's Prosecution Data Dashboard, which was launched earlier this year. The dashboard was created by the Prosecuting Attorney's Office through a Department of Justice grant to advance justice system transparency and accountability. The dashboard offers insight into adult felony cases using data from the Prosecuting Attorney's case management system. The dashboard tracks case processing across six key areas: cases received, decisions after case review, types of diversion, how cases end, sentencing outcomes, and case timeliness. It further allows users to filter or group each of those categories by the following criteria: race/ethnicity, sex, age, County residence, offense type, domestic violence or firearm involvement, arresting agency, and failure to appear.

3) Policy Support:

Our continued relationship with the Prosecuting Attorney's Office helps provide and sustain quality public safety services.
