ADVERTISEMENT FOR BIDS

Separate and sealed bids or electronic bids for the construction of **BRIDGE REPAIR FOR BRIDGE #69 – (COLONIAL ESTATES RD) & BRIDGE #97 (RANKIN BLVD. EXTENDED), BID NO. 2026-030PW** will be received by the **CITY OF TUPELO** until **10:00 A.M.** on **THURSDAY THE 9TH DAY OF JULY 2026** and then at said office publicly opened and read aloud. Sealed bids will be received until the designated date and time at **TUPELO CITY HALL, TAX OFFICE, ATTENTION: CADE ARMSTRONG, 71 EAST TROY STREET, TUPELO, MS 38804**. Electronic bids will be received until the date and time via electronic online submission through www.cceplanroom.com.

This project consists of pile splicing and other associated bridge repairs.

The Contract Documents may be examined at the following locations: **TUPELO CITY HALL, 71 EAST TROY STREET, TUPELO, MS 38804**, and Cook Coggin Engineers, Inc., 703 Crossover Road, Tupelo, Mississippi 38801.

Registering for a free account at www.cceplanroom.com will enable bidders to view and/or order Contract Documents online. The only requirement for account registration is a valid email address. Questions regarding website registration or online orders shall be directed to Plan House Printing at (662) 407-0193.

Contract Documents are issued to potential Bidders from Plan House Printing and Graphics, 607 West Main Street, Tupelo, MS 38804. Bidders may opt to purchase Contract Documents online at www.cceplanroom.com. All payments for Bid Documents are non-refundable and shall be made payable to Plan House Printing and Graphics, 607 West Main Street, Tupelo, MS 38804.

Bids will be accepted only under the name of the Bidder to whom contract documents have been issued by Plan House Printing, on behalf of the Engineer, and whose name appears on the official list of Plan holders maintained by Plan House Printing.

Each bidder must deposit with this bid, security in the amount, form and subject to the conditions provided in the Information for Bidders. For Bidders submitting bids electronically, the bond submitted must be either a bond issued by the Surety in electronic format or the original hard copy of the bid bond must be submitted to the **CITY OF TUPELO, TAX OFFICE, ATTENTION: CADE ARMSTRONG, 71 EAST TROY STREET, TUPELO, MISSISSIPPI 38804**, prior to bid opening in order for the bid to be valid.

No Bidder may withdraw his bid within 60 days after the actual date of the opening thereof.

Simultaneously with his delivery of the executed contract, the Contractor shall furnish surety bonds subject to the conditions provided in the Information for Bidders.

All applicable laws, ordinances and the rules and regulations of all authorities having jurisdiction over construction of the project shall apply to the contract throughout.

Each Bidder is responsible for inspecting the site and for reading and being thoroughly familiar with the Contract Documents. The failure or omission of any Bidder to do any of the foregoing shall in no way relieve any Bidder from any obligation in respect to this Bid.

A conditional or qualified Bid will not be accepted. Award will be made to the lowest or best responsible, responsive Bidder.

The Owner reserves the right to waive any informality or to reject any or all Bids.

CITY OF TUPELO
MAYOR TODD JORDAN

Publish: June 5, 12, 2026

INSTRUCTIONS FOR BIDDERS

Bids will be received by the Owner at the time and place designated in the Advertisement for Bids, and then at said office publicly opened and read aloud.

BIDDING

As a condition precedent to the opening of a Bid, Bids, when submitted as a paper version shall be sealed in a plain envelope with the following listed information plainly written on the outside or face of the envelope.

- (1) Addressee: Name of the Owner
- (2) For: Name of the project and contract designation for which the Bid is submitted.
- (3) Bid of: Name of Person or Firm submitting the Bid.
- (4) Permanent Address of the Bidder: Post Office Box Number, or Street Address, and the City and State of the Bidder.
- (5) Certification: Certificate of Responsibility Number as issued by the Mississippi State Board of Public Contractors or a statement signifying the Bid is not in excess of \$50,000.00.

PAPER BIDS

If a Bid is delivered by mail or commercial courier, the sealed envelope containing the Bid shall be enclosed in a separate package plainly marked on the outside with the notation "BID ENCLOSED." A mailed Bid shall be addressed as above.

ELECTRONIC BIDS

Electronic bidding ONLY applies when the ADVERTISEMENT FOR BIDS indicates Electronic Bidding,

As a condition precedent to the opening of a Bid, Bids submitted electronically shall meet the same functional and documentary requirements (Bid Form, Bid Bond, documents, certifications, attachments, etc.) as above for Bids submitted in paper form. Unless provided for otherwise, Bids submitted electronically shall be scanned images of completely executed bid documents delivered to the Owner in Portable Document Format (PDF). Bids may be submitted electronically either as an assembly in a single bookmarked PDF file or as an ordered series of multiple PDF files. The first page of the PDF assembly, or the first PDF file in an ordered series of multiple file Bids, shall display the same information that is required to be written on the outside or face of the envelope for Bids submitted in paper form. Bids submitted electronically that are corrupt or have corrupted attachments will not be considered.

ALL BIDS (PAPER OR ELECTRONIC)

The Bidder's contract designation as issued by the Mississippi State Board of Contractors must coincide with the type of project he is bidding.

Bids will be accepted only under the name of the Bidder to whom contract documents have been issued by the plan house designated on the advertisement for bids, on behalf of the Engineer, and whose name appears on the official list of Planholders maintained by the Owner.

No Bid will be opened, considered or accepted unless the above information is given as specified. Sufficient evidence that said Certificate of Responsibility has been issued and is in effect at the time receiving Bids must be submitted when required by the Owner.

All Bids must be made on the required Bid Form with all Addenda acknowledged. All blank spaces for Bid prices must be filled in, in ink or typewritten, and the Bid Form must be fully completed and executed when submitted. Only one copy of the Bid Form is required.

When a non-resident contractor submits a Bid for a Mississippi public project, he shall submit with the Bid a copy of his resident State's current law pertaining to such State's treatment of non-resident contractors as required by House Bill Number 850, Chapter Number 527, Laws of 1988. Bidders residing in the states having no contractor preference law shall so state in a letter on contractor's letterhead submitted with his Bid.

The Owner may waive any informalities or minor defects or reject any and all Bids. Any Bid may be withdrawn prior to the above scheduled time for the opening of Bids or authorized postponement thereof. Any Bid received after the time and date specified shall not be considered. No Bidder may withdraw a Bid within 60 days after the actual date of the opening thereof. Should there be reasons why the contract cannot be awarded within the specified period, the time may be extended by mutual agreement between the Owner and the Bidder.

Each Bidder is responsible for inspecting the site and reading and being thoroughly familiar with the contract documents. The failure or omission of any Bidder to do any of the foregoing shall in no way relieve any Bidder from any obligation in respect to this Bid. Bidders must satisfy themselves of the accuracy of any estimated quantities on the Bid Form by examination of the site and a review of the drawings and specifications including Addenda. After Bids have been submitted, the Bidder shall not assert that there was a misunderstanding concerning the quantities of Work or of the nature of the Work to be done.

The Owner shall provide to Bidders prior to Bidding, information which is pertinent to, and delineates and describes, the land owned and rights-of-way acquired or to be acquired.

The Contract Documents contain the provisions required for the construction of the Project. Information obtained from an officer, agent, or employee of the Owner or any other person shall not affect the risks or obligations assumed by the Contractor or relieve him from fulfilling any of the conditions of the contract.

Each Bid must be accompanied by a Bid Bond payable to the Owner for five percent of the

total amount of the Bid and have as a surety thereon a Surety company currently authorized and licensed in good standing to conduct business within the State. Bid Bonds shall be executed by a Mississippi agent or a qualified nonresident agent. The Mississippi agent or qualified nonresident agent shall be in good standing and currently licensed by the Insurance Commissioner of the State to represent Surety companies. A certified check may be used in lieu of a Bid Bond.

A conditional or qualified Bid will not be accepted.

AWARD
any and all Bids.

The Owner has the right to reject

The award will be made based on the lowest and best bid for the base bid or for the base bid and any combination of alternate bids, as the Owner chooses.

The responsiveness of the Bidder will be determined by the completeness and regularity of the Bid, without excisions or special conditions and having no alternative Bids for any items unless provided for on the Bid Form. The responsibility of the Bidder will be determined by whether or not he maintains a permanent place of business, has adequate plant equipment to do the work properly and within the time limit that is established and has adequate financial status to meet his obligations contingent to the work.

Performance and Payment Bonds and Certificates of Insurance are NOT REQUIRED for MATERIAL ONLY CONTRACTS.

A PERFORMANCE BOND and a PAYMENT BOND, each in the amount of 100 percent of the CONTRACT PRICE, with a corporate surety listed on the Treasury Department's most current list (Circular 570 as amended), approved by the OWNER, will be required for the faithful performance of the contract.

Attorneys-in-fact who sign BID BONDS or PAYMENT BONDS and PERFORMANCE BONDS must file with each BOND a certified and effective dated copy of their Power of Attorney.

The party to whom the contract is awarded will be required to execute the Agreement and obtain and submit the PERFORMANCE BOND, PAYMENT BOND and CERTIFICATES OF INSURANCE within ten (10) calendar days from the date when NOTICE OF AWARD is delivered to the BIDDER. The NOTICE OF AWARD shall be accompanied by the necessary Agreement and BOND forms. In case of failure of the BIDDER to execute and submit the Agreement, the PERFORMANCE BOND, the PAYMENT BOND and CERTIFICATES OF INSURANCE the OWNER may at his option determine the BIDDER in default, in which case the BID BOND accompanying the proposal shall become the property of the OWNER.

The OWNER within ten (10) calendar days of receipt of acceptable PERFORMANCE BOND, PAYMENT BOND, CERTIFICATES OF INSURANCE and Agreement signed by the party to whom the Agreement was awarded, shall sign the Agreement and return to such party an executed duplicate of the Agreement, and issue a NOTICE TO PROCEED. Should the

OWNER not execute the Agreement within such period, the BIDDER may by WRITTEN NOTICE withdraw his signed Agreement without further liability on the part of either party. Such notice of withdrawal shall be effective upon receipt of the notice by the OWNER. Should there be reason(s) the NOTICE TO PROCEED cannot be issued within such period, the time may be extended by mutual agreement between the OWNER and CONTRACTOR. If the NOTICE TO PROCEED has not been issued within the ten (10) calendar day period or within the period mutually agreed upon, the CONTRACTOR may terminate the Agreement without further liability on the part of either party.

The OWNER may make such investigations as he deems necessary to determine the ability of the BIDDER to perform the WORK, and the BIDDER shall furnish to the OWNER all such information and data for this purpose as the OWNER may request. The OWNER reserves the right to reject any BID if the evidence submitted by, or investigation of, such BIDDER fails to satisfy the OWNER that such BIDDER is properly qualified to carry out the obligations of the Agreement and to complete the WORK contemplated therein.

THE CONTRACT

Where all or part of the work is to be unit price work, the estimated item quantities set out in the Bid form are not guaranteed and are solely for the purpose of comparison of Bids; payment will be made on the actual quantity of each item installed and accepted. It is understood that the quantities of items may be increased and decreased for which payment will be made at the unit price Bid. It is also understood that the location of some work items may be changed from that shown on the drawings and such change in location shall be made at the unit price Bid for the various items of work involved.

Included in these documents is the "Prime Consultant/Contractors EEV Certification and Agreement". This document must be executed and made part of the contract after award. It does not have to be executed at the time of the bidding.

If multiple contracts are bid, each contract will be amended by strikethrough of non-applicable contract wording to clearly identify which contract is being awarded. The following sections will be amended in this manner: 00 51 00 Notice of Award, 00 52 13 Contract Agreement, 00 55 00 Notice to Proceed, 00 61 13.13 Performance Bond, 00 61 13.16 Payment Bond.

INTERPRETATIONS AND ADDENDA

Should a Bidder find discrepancies in, or omissions from the specifications or other contract documents, or should he be in doubt as to the meaning of any part thereof, he should at once submit to COOK COGGIN ENGINEERS, INC., P.O. Box 1526, Tupelo, Mississippi 38802, a written request for an interpretation. No oral interpretation will be made to any Bidder as to the meaning of any of the Contract Documents, or no oral interpretation shall be effective to modify any of the provisions of the contract documents. The Engineers will make interpretations by duly issued Addenda which will be mailed or delivered to Bidders of record receiving copies of the Contract Documents; and neither the Owner nor the Engineers will be responsible for any other explanation or interpretation of the documents.

STORM WATER POLLUTION PREVENTION

The Mississippi Department of Environmental Quality (MDEQ) is the National Pollutant Discharge Elimination System (NPDES) permit authority for the State of Mississippi. Current regulations require NPDES stormwater construction discharge permit coverage for construction activities which disturb one or more acres of land, or less than one acre if part of a larger common plan of development or sale.

BID FORM

Proposal of MTN Excavators, Inc.

(hereinafter called "Bidder"), organized and existing under the laws of the State of

Kansas, doing business as a Corporation

_____ * to **CITY OF TUPELO** (hereinafter called "Owner").

In compliance with your Advertisement for Bids, Bidder hereby proposes to perform all work for **BRIDGE REPAIR FOR BRIDGE #69 – (COLONIAL ESTATES RD) BRIDGE #97 – (RANKIN BLVD. EXTENDED)** in strict accordance with the Contract Documents, within the time set forth herein, and at the prices stated below.

By submission of this Bid, each Bidder certifies, and in the case of a joint bid, each party thereto certifies as to his own organization that this Bid has been arrived at independently, without consultation, communication, or agreement as to any matter relating to this bid with any other Bidder or with any competitor.

Bidder hereby agrees to commence work under this contract on the date to be specified in the Notice to Proceed and to fully complete the project within 45 consecutive calendar days. Bidder further agrees to pay as liquidated damages, the sum of \$800.00 for each consecutive calendar day thereafter as provided in Article 14 of the General Conditions, said amount to cover the cost of additional resident inspection.

Bidder acknowledges receipt of the following addendum:

NONE

*Insert "a corporation", "a partnership", or "an individual" as applicable.

Bidder agrees to perform all work described in the Contract Documents for the following unit prices or lump sum:

BID SCHEDULE

Each bid item unit price shall include all applicable taxes and fees.

Write/Type unit prices and bid prices, as clearly as possible, in number format.

Item No.	Item Description	Estimated Quantity	Unit	Bid Unit Price	Bid Price
BRIDGE REPAIR FOR BRIDGES #69 & 97 (COLONIAL ESTATES RD & RANKIN BLVD EXT)					
BASE BID					
1	Mobilization	1	LS	\$ 15500.00	\$ 15500.00
2	Maintenance of Traffic	1	LS	\$ 11000.00	\$ 11000.00
3	Piling Splices	90	LinFt	\$ 865.00	\$ 77850.00
4	Bridge Concrete, Class "B"	7	CuYd	\$ 4250.00	\$ 29750.00
5	Reinforcement	327	Lbs	\$ 18.00	\$ 5886.00
6	3-1/2" x 3-1/2" x 5/16" Angle Bracing	234	LinFt	\$ 98.00	\$ 22932.00
7	Floating Turbidity Curtain	150	LinFt	\$ 0.01	\$ 1.50
TOTAL BASE BID PRICE					\$ 162,919.50

PROPOSED SUBCONTRACTORS

In accordance with General Condition 6.15.4, the Contractor shall not award to Subcontractors in excess of fifty (50%) percent of the contract value, without prior approval of the Owner.

Subcontractor	Address	Work to be Subcontracted	Amount
<i>Riverside Traffic Systems, Inc.</i>	<i>1283 St. Hwy 178 W. New Albany, MS 38652</i>	<i>Maintenance of Traffic</i>	<i>\$11,000.00</i>

All of the above prices shall include all labor, materials, taxes, overhead, profit, bonds, insurance, and other costs necessary to cover the finished work of the several kinds called for.

Bidder acknowledges that (1) each unit price provided includes an amount considered by the Bidder to be adequate to cover the Contractor's overhead and profit for each separately identified item, (2) estimated quantities are not guaranteed and are solely for the purpose of comparison of Bids, (3) up to a ten percent reduction in the quantities for unit priced items may be applied to establish a construction contract amount that is within the funds available for construction and (4) final payment for all unit priced bid items will be based on actual quantities, determined as set forth in the Contract Documents.

IT IS UNDERSTOOD THAT THE CONTRACT WILL BE AWARDED BASED ON THE TOTAL BASE BID OR ON THE BASE BID AND ANY COMBINATION OF ALTERNATE BIDS AS THE OWNER CHOOSES.

UNIT PRICED ITEMS INCLUDED IN ANY ALTERNATE BIDS THAT HAVE THE SAME ITEM NUMBER AND ITEM DESCRIPTION AS FOR THE BASE BID SHALL BE OFFERED AT THE SAME UNIT PRICE IN ANY ALTERNATE BID AS OFFERED IN THE BASE BID.

Bidder understands that the Owner reserves the right to reject any or all bids and to waive any informality in the bidding.

The Bidder agrees that this Bid shall be good and may not be withdrawn for a period of 60 calendar days after the scheduled closing time for receiving bids.

Upon receipt of written notice of the acceptance of this Bid, Bidder will execute the formal contract attached within 10 calendar days and deliver a Surety Bond or Bonds as required by Article 5 of the General Conditions.

BID BOND

KNOW ALL MEN BY THESE PRESENTS, that we, the undersigned, M & N Excavators, Inc.
as Principal, and Allegheny Casualty Company
as Surety, are hereby held and firmly bound unto **CITY OF TUPELO**, as owner in the
penal sum of Five Percent (5%) of the Amount Bid

_____ for the payment of which, well
and truly to be made, we hereby jointly and severally bind ourselves, our heirs, executors,
administrators, successors and assigns.

Signed, this 9th day of July, 2026.

The condition of the above obligation is such that whereas the Principal has submitted to
CITY OF TUPELO a certain Bid, attached hereto and hereby made a part hereof to enter
into contract in writing, for the **BRIDGE REPAIR FOR BRIDGE #69 – (COLONIAL ESTATES**
RD) BRIDGE #97 – (RANKIN BLVD. EXTENDED)

NOW, THEREFORE,

- (a) If said Bid shall be rejected, or in the alternate,
- (b) If said Bid shall be accepted and the Principal shall execute and deliver a contract
in the Form of Contract attached hereto (properly completed in accordance with
said Bid) and shall furnish a bond for his faithful performance of said contract,
and for the payment of all persons performing labor or furnishing materials in
connection therewith, and shall in all other respects perform the agreement
created by the acceptance of said Bid, then this obligation shall be void,
otherwise the same remain in force and effect; it being expressly understood and
agreed that the liability of the Surety for any and all claims hereunder shall, in no
event, exceed the penal amount of this obligation as herein stated.

The Surety, for value received, hereby stipulates and agrees that the obligations of said Surety and its bond shall be in no way impaired or affected by any extension of the time within which the Owner may accept such Bid; and said Surety does hereby waive notice of any such extension.

IN WITNESS WHEREOF, the Principal and the Surety have hereunto set their hands and seals, and such of them as are corporations have caused their corporate seals to be hereto affixed and these presents to be signed by their proper officers, the day and year first set forth above.

PRIME CONSULTANT / CONTRACTOR EEV CERTIFICATION AND AGREEMENT

Project No: BRIDGE REPAIR FOR BRIDGE #69 (COLONIAL ESTATES RD) BRIDGE #97 (RANKIN BLVD. EXT.)
 Termini: CITY OF TUPELO
 Prime Consultant: MTN Excavators, Inc.

By executing this Certification and Agreement, the undersigned verifies its compliance with the Mississippi Employment Protection Act, Section 71-11-3 of the Mississippi Code of 1972, as amended, and any rules or regulations promulgated by Mississippi Transportation Commission [MTC], Department of Employment Security, State Tax Commission, Secretary of State, Department of Human Services in accordance with the Mississippi Administrative Procedures Law (Section 25-43-1 et seq., Mississippi Code of 1972, as amended), stating affirmatively that the individual, firm, or corporation which is contracting with MTC has registered with and is participating in a federal work authorization program* operated by the United States Department of Homeland Security to electronically verify information of newly hired employees pursuant to the Immigration Reform and Control Act of 1986, Pub.L. 99-603, 100 Stat 3359, as amended. The undersigned agrees to inform the MTC if the undersigned is no longer registered or participating in the program.

The undersigned agrees that, should it employ or contract with any subconsultant(s) and/or subcontractor(s) in connection with the performance of this Contract, the undersigned will secure from such subconsultant(s) and/or subcontractor(s) verification of compliance with the Mississippi Employment Protection Act. The undersigned further agrees to maintain records of such compliance and provide a copy of each such verification to MTC, if requested, for the benefit of the MTC or this Contract.

TO: M&N Excavators, Inc.
19 County Road 418
Oxford, MS 38655

PROJECT DESCRIPTION: **BRIDGE REPAIR FOR BRIDGE #69 (COLONIAL ESTATES RD.)**
& BRDGE #97 (RANKIN BLVD. EXTENDED)

The OWNER has considered the BID submitted by you for the above described WORK in response to its Advertisement for Bids dated July 9th, 2026.

You are hereby notified that your BID has been accepted for items in the amount of \$ 162,919.50-----.

You are required by the Information for Bidders to execute the Agreement and furnish the required CONTRACTOR'S Performance Bond, Payment Bond, and Certificates of Insurance within ten (10) calendar days from the date of this Notice to you.

If you fail to execute said Agreement and to furnish said BONDS within ten (10) days from the date of this Notice, said OWNER will be entitled to consider all your rights arising out of the OWNER'S acceptance of your BID as abandoned and as a forfeiture of your BID BOND. The OWNER will be entitled to such other rights as may be granted by law.

You are required to return an acknowledged copy of this NOTICE OF AWARD to the OWNER. Dated this 23rd day of July 2026.

Notice of Award

CONTRACT AGREEMENT

This Agreement, made this the 23rd day of July, 2026, by **CITY OF TUPELO** and between M&N Excavators, Inc., hereinafter called the Contractor, and the **CITY OF TUPELO**, hereinafter called the Owner.

WITNESSETH:

That the Contractor and Owner for the consideration hereinafter named agree as follows:

Article 1 SCOPE OF WORK

The Contractor shall furnish all materials for the construction of **BRIDGE REPAIR FOR BRIDGE #69 (COLONIAL ESTATES RD.) & BRDGE #97 (RANKIN BLVD. EXTENDED)** for the Owner, all in the manner provided for in the Specifications and Contract Documents, dated **JUNE 2026** and Construction Plans entitled **BRIDGE REPAIR FOR BRIDGE #69 (COLONIAL ESTATES RD.) & BRDGE #97 (RANKIN BLVD. EXTENDED)** Sheets 1 through 13, dated **JUNE 2026**, which are fully incorporated herein as if hereto attached or herein repeated.

Article 2 THE CONTRACT SUM

The Owner shall pay the Contractor for the complete performance of this Contract a total amount of One Hundred and Sixty-Two Thousand, Nine Hundred and Nineteen 50/100----- Dollars (\$ 162,919.50-----) being the amount of the accepted proposal for **BRIDGE REPAIR FOR BRIDGE #69 (COLONIAL ESTATES RD.) & BRDGE #97 (RANKIN BLVD. EXTENDED)** subject to proper additions and/or deductions at the lump sum and/or unit price as stated in the proposal or otherwise provided for by Modification, the corrected amount referred to being full compensation for furnishing, installing and connecting all of the items of materials, labor and equipment necessary for the Work and the completion of the Project in full accordance with the Plans and Specifications and Contract Documents.

Payment therefore to be made in accordance with applicable specifications, provided: That the Engineers have certified to the Owner that all of the work has been completed and that payment is due therefore and provided further that the Contractor has submitted evidence satisfactory to the Owner and all payrolls, materials bills and other indebtedness, labor and materials liens connected with the work have been paid.

Article 3 TIME OF COMPLETION

The Contractor shall commence work at the time stated in the Notice to Proceed issued by the Owner and shall complete the work within 45 consecutive calendar days from and including the starting date stated in said notice unless this period is extended by Modification by the Owner and the Engineers, due to delays beyond the

control of the Contractor and/or extensions to the Contract.

It is mutually agreed between the parties hereto that time is the essence of this contract; and in the event construction of the work is not completed within the time specified herein, it is agreed that from the compensation otherwise to be paid to the Contractor, the Owner may retain the sum of \$800.00 per day for each calendar day thereafter that the work remains uncompleted, which sum shall represent the actual damages which the Owner will have sustained per day by failure of the Contractor to complete the work within the time stipulated; and this sum is not a penalty, being the stipulated damage the Owner will have sustained in event of such default by the Contractor.

Article 4. ADDITIONAL SURETY

It is further mutually agreed between the parties hereto that if, at any time after the execution of this agreement and the Surety Bond hereto attached for its faithful performance, the Owner shall deem the surety or sureties upon such bond to be unsatisfactory, or if for any reason such bond, in the opinion of the Owner, ceases to be adequate to cover the performance of the work, the Contractor, at his expense, within five days after receipt of the notice from the Owner to do so, shall furnish additional bond or bonds in such form and amount, not in excess of the original amount, and with surety or sureties as shall be satisfactory to the Owner.

Article 5 ROYALTIES AND PATENTS

It is further mutually agreed between the parties hereto that the contract price of the Contractor shall include payment by the Contractor of all royalties and license fees, if any; and the Contractor shall defend all suits or claims for infringement of any patent rights and shall save the Owner harmless from loss on account thereof.

Article 6 DAMAGE TO PERSONS AND PROPERTY

It is further mutually agreed that the Contractor shall indemnify and hold harmless the Owner and the Engineer and their agents and employees from and against any and all liability of every nature, kind and character which may be incurred in connection with the performance or fulfillment of the Work or such other liability resulting from negligence or otherwise on the part of the Contractor, including but not limited to injury to persons and damage to properties, and the structures and improvements thereon, adjacent to the Project, and shall indemnify and hold harmless the Owner from all costs and damages, including attorney's fees, which may be suffered by reason of the failure to fully and completely perform under the Contract Documents and shall fully reimburse Owner for all expenditures of every kind, character and description, including attorney's fees, which may be incurred by Owner in making good any and every default which may exist on the part of the Contractor in connection with its performance under the Contract Documents. Article 7.

GENERAL CONDITIONS

The Contractor has read, understands and accepts the General Conditions and Special Conditions as set forth in the Specifications and Contract Documents.

In witness whereof, the parties hereto have executed this Agreement on the day and year first mentioned in 3 counterparts, each of which shall, without proof or accounting for the other counterparts, be deemed an original contract.

***BRIDGE REPAIR FOR BRIDGE #69 (COLONIAL ESTATES RD.) &
BRDGE #97 (RANKIN BLVD. EXTENDED)***

NOW, THEREFORE, if the Principal shall well, truly, and faithfully perform its duties, all the
undertakings, covenants, terms, conditions, and agreements of said contract during the
original term thereof, and any extensions thereof which may be granted by the OWNER, with
or without notice to the Surety and during the one year guaranty period, and if he shall
satisfy all claims and demands incurred under such contract, and shall fully indemnify and
save harmless the OWNER from all costs and damages which it may suffer by reason of
failure to do so, and shall reimburse and repay the OWNER all outlay and expense which the

OWNER may incur in making good any default, then this obligation shall be void; otherwise to remain in full force and effect.

PROVIDED, FURTHER, that the said surety, for value received hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the contract or to WORK to be performed there under or the SPECIFICATIONS accompanying the same shall in any wise affect its obligation on the BOND, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the contract or to the WORK or to the SPECIFICATIONS.

PROVIDED, FURTHER, that no final settlement between the OWNER and the CONTRACTOR shall abridge the right of any beneficiary hereunder, whose claim may be unsatisfied.

IN WITNESS WHEREOF, this instrument is executed in 3
(Number)
counterparts, each one of which shall be deemed an original, this the 23rd
day of July, 2026.

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That **ALLEGHENY CASUALTY COMPANY**, a corporation organized and existing under the laws of the State of New Jersey, having its principal office in the City of Newark, New Jersey, does hereby constitute and appoint

Marina Tapia, Rachel A Mullen, KD Wapato, Abigail E Curtiss, Debra J Scarborough, Christy M Braile, Teresa D Kelly, Caitlyn Magennis, Lourdes Scheel, Hillary D Shepard, Sandra Corona, Walker Wilks, Ivette Bustos, Chase Seyforth, Robert F. Laing, Veronica Lawver, Maegen I Allhands, Jason Fomenko, Kathleen Coen, Adam Martin, Amy S Fulton, Kristin D Thurber, Erin C Lavin, April M. Terbay, Danielle R. Capps, Kayla A. Woodward, Rebecca S. Leal, Ivette Bustos, Kala Kelly

its true and lawful attorney(s)-in-fact to execute, seal and deliver for and on its behalf as surety, any and all bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof, which are or may be allowed, required or permitted by law, statute, rule, regulation, contract or otherwise, and the execution of such instrument(s) in pursuance of these presents, shall be as binding upon the said **ALLEGHENY CASUALTY COMPANY**, as fully and amply, to all intents and purposes, as if the same had been duly executed and acknowledged by its regularly elected officers at its principal offices.

This Power of Attorney is executed, and may be revoked, pursuant to and by authority of the By-Laws of **ALLEGHENY CASUALTY COMPANY** and is granted under and by authority of the following resolution adopted by the Board of Directors of **ALLEGHENY CASUALTY COMPANY** at a meeting duly held on the 13th day of December, 2018.

"**RESOLVED**, that (1) the Chief Executive Officer, President, Executive Vice President, Senior Vice President, Vice President, or Secretary of the Corporation shall have the power to appoint, and to revoke the appointments of, Attorneys-in-Fact or agents with power and authority as defined or limited in their respective powers of attorney, and to execute on behalf of the Corporation and affix the Corporation's seal thereto, bonds, undertakings, recognizances, contracts of indemnity and other written obligations in the nature thereof or related thereto; and (2) any such Officers of the Corporation may appoint and revoke the appointments of joint-control custodians, agents for acceptance of process, and Attorneys-in-Fact with authority to execute waivers and consents on behalf of the Corporation; and (3) the signature of any such Officer of the Corporation and the Corporation's seal may be affixed by facsimile to any power of attorney or certification given for the execution of any bond, undertaking, recognizance, contract of indemnity or other written obligation in the nature thereof or related thereto, such signature and seals when so used whether heretofore or hereafter, being hereby adopted by the Corporation as the original signature of such officer and the original seal of the Corporation, to be valid and binding upon the Corporation with the same force and effect as though manually affixed."

IN WITNESS WHEREOF, **ALLEGHENY CASUALTY COMPANY** has executed and attested these presents on this 31st day of December 2021

STATE OF NEW JERSEY
County of Essex

Robert Kersnick
Vice President, **ALLEGHENY CASUALTY COMPANY**

On this 31st day of December, 2021, before me came the individual who executed the preceding instrument, to me personally known, and, being by me duly sworn, said he is the therein described and authorized officer of **ALLEGHENY CASUALTY COMPANY**; that the seal affixed to said instrument is the Corporate Seal of said Company; that the said Corporate Seal and his signature were duly affixed by order of the Boards of Directors of said Company.

IN TESTIMONY WHEREOF, I have hereunto set my hand affixed my Official Seal, at the City of Newark, New Jersey the day and year first above written

Michele A Alenman, a Notary Public of New Jersey

CERTIFICATION

I, the undersigned officer of **ALLEGHENY CASUALTY COMPANY** do hereby certify that I have compared the foregoing copy of the Power of Attorney and affidavit, and the copy of the Sections of the By-Laws of said Company as set forth in said Power of Attorney, with the originals on file in the home office of said company, and that the same are correct transcripts thereof, and of the whole of the said originals, and that the said Power of Attorney has not been revoked and is now in full force and effect.

IN TESTIMONY WHEREOF, I have hereunto set my hand on this 23rd day of July, 2026.

James Portman, Secretary

GENERAL CONDITIONS

ARTICLE 1 - DEFINITIONS

Wherever used in these General Conditions or in the other Contract Documents, the following terms shall have the meanings indicated which shall be applicable to both the singular and plural thereof:

Acceptance: Acceptance by the Engineer of the Work as being in substantial conformance with the Contract Documents and recommendation to the Owner for final inspection.

Final Acceptance: Acceptance by the Owner of the Work as being fully complete in accordance with the Contract Documents (subject to waiver of claims) and final payment made.

Agreement: The written agreement between the Owner and the Contractor covering the Work to be performed; the Contract Documents are attached to and made a part of the Agreement. Also designated as the Contract.

Addenda: Written or graphic instruments issued prior to the execution of the Agreement which modify or interpret the Contract Documents, Drawings and Specifications, by additions, deletions, clarifications or corrections.

Application for Payment: The form furnished by the Engineer which is to be used by the Contractor in requesting progress payments and an affidavit of the Contractor that progress payments heretofore received from the Owner on account of the Work have been applied by the Contractor to discharge in full all of the Contractor's obligations stated in prior Applications for Payment.

Bid: The offer or proposal of the Bidder submitted on the prescribed form setting forth the prices for the Work to be performed.

Bidder: Any person, firm or corporation submitting a Bid for the Work.

Bonds: Bid, Performance and Payment bonds and other instruments of security, furnished by the Contractor and his surety in accordance with the Contract Documents and in accordance with the law of the place of the project.

Change Order: A written order to the Contractor signed by the Owner authorizing an addition, deletion or revision in the Work, or an adjustment in the Contract Price or the Contract Time issued after execution of the Agreement.

Contract Documents: The Contract Agreement, Addenda, Information for Bidders, Bid, Bonds, Notice of Award, these General Conditions, Supplementary General Conditions, Specifications, Drawings and Modifications, and Notice to Proceed.

Contract Price: The total moneys payable to the Contractor under the Contract Documents.

Contract Time: The number of calendar or working days stated in the Agreement for the completion of the Work.

Contracting Officer: The individual who is authorized to sign the Contract Documents on behalf of the Owner's governing body.

Contractor: The person, firm or corporation with whom the Owner has executed the Agreement.

Day: A calendar day of twenty-four hours measured from midnight to the next midnight.

Drawings: The construction plans which show the character and scope of the Work to be performed and which have been prepared or approved by the Engineer and are referred to in the Contract Documents.

Engineer: The person, firm or corporation named as such in the Contract Documents.

Modification: (a) A written amendment of the Contract Documents signed by both parties, (b) a Change Order, (c) a written clarification or interpretation issued by the Engineer in accordance with paragraph 9.3 or (d) a written order for a minor change or alteration in the Work issued by the Engineer pursuant to paragraph 10.2. A Modification may only be issued after execution of the Agreement.

Notice to Proceed: A written notice given by Owner to Contractor (with a copy to Engineer) fixing the date on which the Contract Time will commence to run and on which Contractor shall start to perform his obligations under the Contract Documents.

Owner: The public body or authority, corporation, association, partnership, or individual for whom the Work is to be performed.

Project: The entire construction to be performed as provided in the Contract Documents.

Project Representative: An authorized representative of the Engineer assigned to observe the Work performed and materials furnished by the Contractor or such other person as may be appointed by the Owner as his representative.

Samples: Physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

Shop Drawings: All drawings, diagrams, illustrations, brochures, performance charts, schedules and other data which are prepared by the Contractor, a Subcontractor, manufacturer, supplier or distributor and which illustrate the equipment, material or some portion of the Work and as required by the Contract Documents.

Specifications: Those portions of the Contract Documents consisting of written technical descriptions of materials, equipment, construction systems, standards and workmanship as applied to the Work. This will include general specifications and item (technical) specifications.

Standards: The following words, symbols, letters, or abbreviations shall be deemed to have the following meaning and shall refer to the latest current revision of said standard or specification applicable in effect of the date of opening bids:

AASHTO	-	American Association of State Highway and Transportation Officials
ACI	-	American Concrete Institute
AIA	-	American Insurance Association (formerly National Board of Fire Underwriters
ANSI	-	American National Standards Institute
ASME	-	American Society of Mechanical Engineers
ASTM	-	American Society for Testing Materials
AWWA	-	American Water Works Association
NEMA	-	National Electrical Manufacturer's Association
NEC	-	National Electrical Code

Subcontractor: An individual, firm or corporation having a direct contract with Contractor or with any other Subcontractor for the performance of a part of the Work at the site.

Substantial Completion: The date as certified by written notice by the Engineer at which time the Work (or a specified part thereof) has progressed to the point where, in the opinion of the Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purpose for which it is intended; or if there be no such certification, the date when final payment is due in accordance with paragraph 14.9. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion.

Supplier: Any person or organization who supplies materials or equipment for the Work, including that fabricated to a special design, but who does not perform labor at the site.

Surety: The corporate body which is bound with the Contractor and which engages to be responsible for the Contractor and his acceptable performance of the Work.

Work: Any and all obligations, duties and responsibilities necessary to the successful completion of the Project assigned to or undertaken by Contractor under the Contract Documents, including all labor, materials, equipment and other incidentals, and the furnishing thereof.

Written Notice: The term "Notice" as used herein shall mean and include all written notice required to obtain compliance with Contract requirements. Written notice shall be deemed to have been duly served if delivered in person to the individual or to a member of the firm

or to an officer of the corporation for whom it is intended, or to an authorized representative of such individual, firm or corporation, or if delivered at or sent by mail to the last business address known to him who gives the notice. Unless otherwise stated in writing, any notice to or demand upon the Owner under this Contract shall be delivered to the Owner through the Engineer.

ARTICLE 2 - PRELIMINARY MATTERS

Award:

2.1 The award of the Contract, if it is awarded, will be to the lowest or best responsible, responsive Bidder. No Notice of Award will be given until the Owner has concluded such investigations as he deems necessary to establish the responsibility, qualifications and financial ability of the Bidders to do the Work in accordance with the Contract Documents to the satisfaction of the Owner within the time prescribed. The Owner reserves the right to reject the Bid of any Bidder who does not pass such investigation to the Owner's satisfaction. In analyzing Bids, the Owner may take into consideration alternates and unit prices, if requested by the Bid forms.

Execution of Agreement:

2.2 At least three counterparts of the Agreement and such other Contract Documents as practicable will be executed and delivered by Contractor to the Owner within 10 days of receipt by the Contractor.

Forfeiture of Bid Security:

2.3 Failure of the successful Bidder to execute and deliver the Agreement and deliver the required Bonds as stipulated in paragraph 2.2 shall be just cause for the Owner to annul the Notice of Award and declare the Bid and any security therefore forfeited.

Contractor's Pre-Start Representations:

2.4 Contractor represents that he has familiarized himself with, and assumes full responsibility for having familiarized himself with, the nature and extent of the Contract Documents, Work, locality, easements and rights-of-way obtained, adjacent properties upon which easements have not been obtained, and with all local conditions and federal, state and local laws, ordinances, rules and regulations that may in any manner affect performance of the Work, and represents that he has correlated his study and observations with the requirements of the Contract Documents. Contractor also represents that he has studied the Drawings and Specifications and made such additional surveys and investigations as he deems necessary for the performance of the Work at the Contract Price in accordance with

the requirements of the Contract Documents and that he has correlated the results of all such data with the requirements of the Contract Documents.

Commencement of Contract Time:

2.5 The Contract Time will commence to run on the date stated in the Notice to Proceed.

Starting the Project:

2.6 Contractor shall start to perform his obligations under the Contract Documents on the date when the Contract Time commences to run.

Before Starting Construction:

2.7 Before undertaking each part of the Work, Contractor shall carefully study and compare the Contract Documents and check and verify pertinent figures shown thereon and all applicable field measurements. He shall at once report in writing to Engineer any conflict, error or discrepancy which he may discover.

Schedule of Completion:

2.8 Within 10 days after delivery of the Notice to Proceed by Owner to Contractor, Contractor shall submit to Engineer for review, an estimated progress schedule with earnings indicating the starting and completion dates of the various stages of the Work, and a preliminary schedule of Shop Drawing submissions. The Engineer shall approve this schedule or require revisions thereto within 14 days of its submittal.

2.9 After delivery of the executed Agreement by Owner to Contractor, but before starting the Work at the site, a preconstruction conference may be held to review the above schedules, to establish procedures for handling Shop Drawings and other submissions and for processing Applications for Payment, and to establish a working understanding between the parties as to the Project. Present at the conference will be the Owner or his representative, Engineer, Project Representatives, Contractor and his superintendent.

Qualification of Subcontractors Materialmen and Suppliers:

2.10 Within 14 days after award of Contract, the Contractor will submit to the Owner and the Engineer for acceptance a list of the names of Subcontractors and such other persons and organizations (including those who are to furnish principal items of materials or equipment) proposed for those portions of the Work as to which the identity of the Subcontractors and other persons and organizations must be submitted as specified in the Contract Documents. Within 30 days after receiving the list, the Engineer will notify the Contractor in writing if either the Owner or the Engineer, after due investigation, has reasonable objection to any Subcontractor,

person or organization on such list. The failure of the Owner or the Engineer to make objection to any Subcontractor, person or organization on the list within thirty days of receipt shall constitute an acceptance of such Subcontractor, person or organization. Acceptance of any such Subcontractor, person or organization shall not constitute a waiver of any right of the Owner or the Engineer to reject defective Work, material or equipment, or Work, material or equipment not in conformance with the requirements of the Contract Documents.

2.11 If, prior to the Notice of Award, the Owner or the Engineer has reasonable objection to and refuses to accept any Subcontractor, person or organization listed, the apparent low Bidder may, prior to Notice of Award may submit an acceptable substitute without an increase in his Bid price.

ARTICLE 3: CORRELATION, INTERPRETATION AND INTENT OF CONTRACT DOCUMENTS

3.1 It is the intent of the Engineer and Owner through the Specifications and Drawings to describe a complete Project to be constructed in accordance with the Contract Documents. The Contract Documents comprise the entire Agreement between the Owner and the Contractor. They may be altered only by a Modification.

3.2 The Contract Documents are complementary; what is called for by one is as binding as if called for by all. If Contractor finds a conflict, error or discrepancy in the Contract Documents, he shall call it to Engineer's attention in writing at once and before proceeding with the Work affected thereby. The various Contract Documents shall be given precedence, in case of conflict, error or discrepancy, as follows: Addenda, General Specifications, Item (Technical) Specifications, Drawings, Information for Bidders, Supplemental General Conditions, and General Conditions.

3.3 The words "furnish", "furnish and install", "install", and "provide" or words with similar meaning shall be interpreted, unless otherwise specifically stated, to mean "furnish and install complete in place and ready for service".

3.4 Miscellaneous items and accessories which are not mentioned, but which are essential to produce a complete and properly operating installation, or usable structure or plant, providing the indicated function, shall be furnished and installed without change in the Contract Price. Such miscellaneous items and accessories shall be of the same quality standards, including material, style, finish, strength, class, weight and other applicable characteristics, as specified for the major component of which the miscellaneous item or accessory is an essential part, and shall be approved by the Engineer before installation. The above requirement is not intended to include major components not covered by or inferable from the Drawings and Specifications.

3.5 The specifications division are not delineated by trade or by subcontract. Items specified under one division of the specifications shall be furnished, installed and connected as though recited in each division of the specifications.

3.6 The Work of all trades under this Contract shall be coordinated by the Contractor in such a manner as to obtain the best workmanship possible for the entire Project, and all components of the Work shall be installed or erected in accordance with the best practices of the particular trade.

3.7 The Contractor shall be responsible for making the construction of habitable structures under this Contract rainproof, and for making equipment and utility installations properly perform the specified function.

3.8 Manufacturer's literature, when referenced, shall be dated and numbered and is intended to establish the minimum requirements acceptable. Whenever reference is given to codes, or standard specifications or other data published by regulating agencies or accepted organizations, including but not limited to National Electrical Code, applicable State Building Code, Federal Specifications, ASTM Specifications, various institute specifications, and the like, it shall be understood that such reference is to the latest edition including addenda in effect on the date of Bid.

3.9 Brand names where used in the technical specifications, are intended to denote the standard of quality required for the particular material or product. The term "equal" or "equivalent", when used in connection with brand names, shall be interpreted to mean a material or product that is similar and equal in type, quality, size, capacity, composition, finish, color and other applicable characteristics to the material or product specified by trade name, and that is suitable for the same use and capable of performing the same function, in the opinion of the Engineer, as the material or product so specified. Proposed equivalent items must be approved by Engineer before they are purchased or incorporated in the Work. (When a brand name, catalog number, model number, or other identification, is used without the phrase "or equal", or "or equivalent", the Contractor shall use the brand specified.)

ARTICLE 4 - AVAILABILITY OF LANDS AND SUBSURFACE CONDITIONS

Availability of Lands:

4.1 The Owner will furnish, as indicated in Contract Documents, the lands upon which the Work is to be done and such other lands which are designated for the use of the Contractor. Easements for permanent structures or permanent changes in existing facilities will be obtained and paid for by the Owner, unless otherwise specified in the Contract Documents. Other access to such lands or rights-of-way for the Contractor's convenience other than as set forth in easements obtained by the Owner shall be the responsibility of the Contractor. The Contractor will provide for

additional lands and access thereto that may be required for temporary construction facilities or storage of materials and equipment.

4.2 The Owner will, upon request, furnish to the BIDDERS copies of all available boundary surveys.

Subsurface Conditions:

4.3 The Contractor acknowledges that he has investigated prior to bidding and satisfied himself as to the conditions affecting the Work, including but not restricted to those bearing upon transportation, disposal, handling and storage of materials, availability of labor, water, electric power, roads and uncertainties of weather, river stages, tides, water tables or similar physical conditions at the site, the conformation and conditions of the ground, the character of equipment and facilities needed preliminary to and during prosecution of the Work. The Contractor further acknowledges that he has satisfied himself as to the character, quality and quantity of surface and subsurface materials or obstacles to be encountered from an investigation of the site. Failure by the Contractor to acquaint himself with the project site will not relieve him from responsibility for estimating properly the difficulty or cost of successfully performing the Work.

ARTICLE 5 - BONDS AND INSURANCE

Performance and Payment Bonds and Certificates of Liability Insurance are NOT REQUIRED for MATERIALS ONLY contracts.

Bonds:

5.1 The Contractor shall within 10 days after the receipt of the Notice of Award furnish the Owner with a performance bond and payment bond in penal sums equal to the amount of the contract price, conditioned upon the performance by the Contractor of all undertakings, covenants, terms, conditions and agreements of the contract documents, and upon the prompt payment by the Contractor to all persons supplying labor and materials in the prosecution of the work provided by the contract documents. Such bonds shall be executed by the Contractor and a corporate bonding company licensed to transact such business in the state in which the work is to be performed. The expense of these bonds shall be borne by the Contractor. If at any time a surety on any such bond is declared a bankrupt or loses its right to do business in the state in which the work is to be performed, the Contractor shall, within 10 days after notice from the Owner to do so, substitute an acceptable bond (or bonds) in such form and sum and signed by such other surety or sureties as may be satisfactory to the Owner. The premiums on such bond shall be paid by the Contractor. No further payments of the Contract price shall be deemed due nor shall be made until the new surety or sureties shall have furnished an acceptable bond to the Owner.

Contractor's Liability Insurance:

5.2 At all times applicable to this Agreement, Contractor shall procure and maintain, at it's sole expense as a minimum the insurance as listed in 5.5 below. Owner does not represent that insurance coverage and limits listed will be adequate to protect Contractor or Contractor's interests. Insurance shall be obtained from companies that are duly licensed or authorized, in the state or jurisdiction in which the Project is located, to issue insurance policies for the required limits and coverages. The Contractor shall submit to the Owner, prior to the commencement of the Work, a completed, duly executed and authorized Certificate of Insurance as evidence that the insurance requirements set forth are in full force and effect. Policies providing such coverage shall contain provisions that no cancellation or material changes in the policies shall become effective except on 15 days' advance written notice thereof to the Owner.

5.3 Contractor agrees to require that all policies of insurance which are in any way related to the Work and that are secured and maintained by Contractor or any Subcontractor or Sub-subcontractor will include clauses providing that each underwriter shall waive all of its rights of recovery, under subrogation or otherwise, against owner. Furthermore, Contractor waives and shall cause any Subcontractor or Sub-subcontractor to waive all rights of recovery against Owner, which Contractor or any Subcontractor or Sub-subcontractor may have or acquire because of deductible clauses in, or inadequacy of, limits of any policies of insurance maintained by Contractor. All such policies except for the Worker's Compensation and Employer's Liability insurance, and the Professional/Errors and Omissions coverage insurance, shall designate Owner and Engineer as additional insured/certificate holder.

5.4 Contractor shall cause any Subcontractor or Sub-subcontractor to obtain and maintain insurance consistent with the provisions of this Article and submit an appropriate Certificate of Insurance prior to commencement of any Work.

5.5 SCHEDULE OF INSURANCE

5.5.1 COMMERCIAL GENERAL LIABILITY INSURANCE

Commercial General Liability Insurance, endorsed to provide coverage for: Contractual Liability, particularly the applicable provisions of the indemnity sections of this Agreement; explosion, collapse or structural injury to property of others including underground utility facilities; and Contractor's Protective Liability (if subcontracting is authorized), and Products and Completed Operations (for a minimum of three years discovery period after acceptance of the Work.)

Each Occurrence	\$1,000,000
General Aggregate	\$1,000,000

5.5.2 COMMERCIAL AUTOMOBILE LIABILITY INSURANCE

Commercial Automobile Insurance which shall include coverage for all owned, non-owned and hired vehicles.

Combined Single Limit \$1,000,000 Each Accident

5.5.3 UMBRELLA LIABILITY INSURANCE

Umbrella Liability Insurance with limits of at least \$1,000,000 per occurrence for bodily injury or property damage in excess of the limits afforded for Commercial General Liability, Commercial Automobile Liability and Employer's Liability.

5.5.4 WORKER'S COMPENSATION AND EMPLOYER'S LIABILITY INSURANCE

Contractor agrees to comply with Worker's Compensation laws of the state where the Work is performed and maintain a Worker's Compensation and Employer's Liability policy which shall cover all of Contractor's employees engaged in the Work. This policy shall be endorsed to provide: Other states endorsement, voluntary compensation coverage and occupational disease. If the Work is to be performed on or near navigable waters, the policy shall include United States Longshoreman's and Harbor Workers coverage.

Worker's Compensation – Statutory

Employer's Liability – \$1,000,000 Each Accident

\$1,000,000 Disease – Each Employee

\$1,000,000 Disease – Policy Limit

5.5.5 BUILDERS RISK INSURANCE

The Contractor shall maintain property insurance to fully cover the insurable portion of the project for the benefit of the Owner.

5.5.6 PROFESSIONAL/ERRORS AND OMISSIONS COVERAGE

If Contractor will provide or furnish professional services under this Contract, through a delegation of professional design services or otherwise, then Contractor shall be responsible for purchasing and maintaining applicable professional liability insurance. This insurance shall provide protection against claims arising out of performance of professional design or related services, and caused by a negligent error, omission, or act for which the insured party is legally liable. It shall be maintained throughout the duration of the Contract and for a minimum of two years after Substantial Completion. If such professional design services are performed by a Subcontractor, and not by Contractor itself, then the requirements of this paragraph may be satisfied through the purchasing and maintenance of such insurance by such Subcontractor.

Insurance shall provide a minimum of \$1,000,000 of coverage per claim.

5.5.7 OWNER'S AND CONTRACTOR'S PROTECTIVE LIABILITY (OCP)

The Contractor shall maintain an OCP policy with the Owner as Named Insured, with the Engineer named as Additional Insured and Certificate Holder, in a combined single limit of not less than \$1,000,000. This policy is to remain in effect until completion and acceptance of the entire project.

Cancellation

5.6 If any insurance should be cancelled or changed by the insurance company or should any insurance expire during the period of this Contract, the Contractor shall be responsible for securing other acceptable insurance to provide the coverage specified in this section to maintain continuous coverage during the life of this Contract.

Please refer to the "SAMPLE" CERTIFICATE OF LIABILITY INSURANCE form that precedes this section.

ARTICLE 6 - CONTRACTOR'S RESPONSIBILITIES

Supervision and Superintendence:

6.1 The Contractor will supervise and direct the Work. He will be solely responsible for the means, methods, techniques, sequences, procedures and safety of construction. The Contractor will employ and maintain on the Work a qualified supervisor or superintendent who shall have been designated in writing by the Contractor as the Contractor's representative at the site. The supervisor shall have full authority to act on behalf of the Contractor and all communications given to the supervisor shall be as binding as if given to the Contractor. The supervisor shall be present on the site at all times as required to perform adequate supervision and coordination of the Work.

Labor, Materials and Equipment:

6.2 The Contractor will provide competent, suitably qualified personnel to survey and lay out the Work and perform construction as required by the Contract Documents. He will at all times maintain good discipline and order at the site.

6.3 The Contractor will furnish all materials, equipment, labor, transportation, construction equipment and machinery, tools, appliances, fuel, power, light, heat, local telephone, water and sanitary facilities and all other facilities and incidentals necessary for the execution, testing, initial operation and completion of the Work.

6.4 All materials and equipment will be new, except as otherwise provided in the Contract Documents. When special makes or grades of material which are normally

packaged by the supplier or manufacturer are specified or approved, such materials shall be delivered to the site in their original packages or container with seals unbroken and labels intact.

6.5 All materials and equipment shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the instructions of the applicable manufacturer, fabricator or processors, except as otherwise provided in the Contract Documents.

6.6 Stored Materials and equipment shall be so stored as to insure the preservation of their quality and fitness for the work. Stored materials and equipment to be incorporated in the work shall be located so as to facilitate prompt inspection.

6.7 Inspection and testing of all materials and equipment used in the construction of the project shall be subject to adequate inspection and testing in accordance with generally accepted standards, as required and defined in the Contract Documents.

6.7.1 The Owner shall provide all inspection and testing services not required by the Contract Documents. The Contractor shall provide at his expense the testing and inspection services required by the Contract Documents.

6.7.2 If the Contract Documents, laws, ordinances, rules, regulations, or orders of any public authority having jurisdiction require any work to specifically be inspected, tested, or approved by someone other than the Contractor, the Contractor will give them timely notice of readiness. The Contractor will then furnish the Engineer the required certificates of inspection, testing or approval.

6.7.3 Inspections, tests or approvals by the Engineer or others shall not relieve the Contractor from his obligations to perform the work in accordance with the requirements of the Contract Documents.

6.8 Plans are drawn and the Specifications are written naming certain brands of specialized equipment or products. Brand names so cited are cited for the purpose of establishing the quality desired.

6.8.1 The brands of items of equipment listed in these specifications are hereby designated to be the basic brands. Bidders shall submit a price for furnishing and installing the lowest quoted basic brand or approved alternate brand of each major product or equipment items in the base bid.

6.8.2 As the Owner is interested in obtaining the lowest practical cost and encouraging competition, a price may be offered based on any alternate brand which the bidder determines to be equal to the basic brand. Bidder shall clearly identify the alternate brand for each item proposed as an equal for the basic brand item on the Bid Form. The Owner will approve alternate brands offered by the Bidder provided the alternate item is determined by the Owner to be equal to

the basic item specified. If no basic or alternate brands are identified then the bid is presumed to be based on the basic brands.

Owner will evaluate alternate brands offered and may accept any, all or none of the items prior to executing the contract agreement.

6.8.3 A complete set of supporting data shall be submitted with the bid for each alternate item to support the claim that it is equal to basic brand. Sufficient data, including horsepower or energy requirements, performance, operation and maintenance, manpower and supply requirements shall be submitted in order for the Owner to evaluate the equality of the offered product or equipment. Any variance with the specifications shall be listed and failure to do so may be grounds for rejection of the alternate item. Bids submitted based on incorporating alternative products or equipment without providing the supporting data as set out will be deemed non-responsive.

6.8.4 Submittals shall include complete design calculations including the effect substituted equipment or materials will have on all affected system processes. If the proposed substituted equipment or materials will require a change in any buildings, structures, piping, controls, work, etc., the submittal shall include detailed sketches and specifications of the necessary changes. Submittals shall also include an up-to-date list of at least five present users of the proposed items including names, addresses, and present municipal users of the proposed items including names, addresses and telephone numbers. The submission of insufficient data to determine equality as set out herein shall be sufficient grounds for rejection of the alternate item and the bid being deemed non-responsive.

6.8.5 The cost of any change in structure, locations, connections, etc., necessary for any alternate brand accepted shall be borne by the Contractor, as well as the cost of revision of the Drawings and Specifications.

6.8.6 No alternate equipment or materials will be considered unless the Manufacturer offers documented proof that the alternate items have been in general usage in similar applications for at least the two preceding years.

6.8.7 Submittals will be compared for equality by evaluating the life cycle cost including cost of modifications and redesign, the compatibility of the item offered with other items, the service experience record of the manufacturers or suppliers in attending to requests for repairs/parts by Owner and reliability of offered items in performing intended functions. Where the offeror does not have a two year experience record, substitute items may be considered provided the offeror furnishes a five year bond which guarantees replacement of the item in the event of failure as judged by the Engineer, in an amount equal to purchase price plus the actual cost of removal and re-installation.

6.8.8 The determination as to whether or not such alternates are acceptable shall rest solely with the Owner.

6.8.9 Approval by the Owner of alternate equipment or materials shall in no way serve as a guarantee that the equipment or materials will meet the performance and construction requirements as specified herein, and shall not relieve the Contractor from any responsibility or requirements under the contract. It shall be the Contractor's responsibility to produce an efficient product.

6.8.10 Delay caused by obtaining approvals for alternate products, materials or equipment will not be considered justifiable grounds for an extension of Contract Time.

6.8.11 Should any work or materials, equipment or products not conform with requirements of the Contract Documents or become damaged during the progress of the Work, such Work or materials shall be removed and replaced, together with any work disarranged by such alterations, at any time before completion and acceptance of the Project. All such work shall be done at the expense of the Contractor.

6.8.12 No materials or supplies for the Work shall be purchased by the Contractor or by any Subcontractor subject to any chattel mortgage or under a conditional sale or other agreement by which an interest is retained by the Seller. The Contractor warrants that he has good title to all materials and supplies used by him in the Work.

Materials, Equipment, Products, and Substitutions:

6.9 Materials, equipment and products incorporated in the Work must be approved for use before being purchased by the Contractor. The Contractor shall submit to the Engineer a list of proposed materials, equipment or products, together with such samples as may be necessary for the Engineer to determine their acceptability and obtain the Engineer's approval. No request for payment for substitute materials, equipment or product will be approved until this list has been received and approved by the Owner.

Concerning Subcontractors:

6.10 The Contractor will not employ any Subcontractor, other person or organization of the types referred to in paragraph 2.11 (whether initially or as a substitute) against whom the Owner or the Engineer may have reasonable objection, nor will the Contractor be required to employ any Subcontractor against whom he has reasonable objection. The Contractor will not make any substitution for any Subcontractor who has been accepted by the Owner and the Engineer, unless the Engineer determines that there is good cause for doing so.

6.11 The Contractor shall be fully responsible for all acts and omissions of his Subcontractors and of persons and organizations directly or indirectly employed by them and of persons and organizations for whose acts any of them may be liable to the same extent that he is responsible for the acts and omissions of persons directly employed by him. Nothing in the Contract Documents shall create any contractual relationship between Owner or Engineer and any Subcontractor or other person or organization having a direct contract with Contractor, nor shall it create any obligation on the part of Owner or Engineer to pay or to see to the payment of any moneys due any Subcontractor or other person or organization, except as may otherwise be required by law. Owner or Engineer may furnish to any Subcontractor or other person or organization, to the extent practicable, evidence of amounts paid to Contractor on account of specific Work done in accordance with the Application of Payment.

6.12 The divisions and sections of the Specifications and the identifications of any Drawings shall not control the Contractor in dividing the Work among Subcontractors or delineating the Work to be performed by any specific trade.

6.13 The Contractor agrees to bind specifically every Subcontractor to the applicable terms and conditions of the Contract Documents for the benefit of the Owner.

6.14 All Work performed for the Contractor by a Subcontractor shall be pursuant to an appropriate agreement between the Contractor and the Subcontractor.

6.15 The Contractor shall be responsible for the coordination of the trades, Subcontractors and materialmen engaged upon his Work.

6.15.1 The Contractor shall cause appropriate provisions to be inserted in all subcontracts relative to the Work to bind Subcontractors to the Contractor by the terms of these General Conditions and other Contract Documents insofar as applicable to the Work of Subcontractors, and to give the Contractor the same power as regards terminating any subcontract that the Owner may exercise over the Contractor under any provisions of the Contract Documents.

6.15.2 The Owner or Engineer will not undertake to settle any differences between the Contractor and his Subcontractors or between Subcontractors.

6.15.3 Notwithstanding 6.15.2 above, if in the opinion of the Engineer, any Subcontractor on the Project proves to be incompetent or otherwise unsatisfactory, he shall be replaced if and when directed in writing.

6.15.4 The Contractor shall not award work to Subcontractors in excess of fifty (50%) percent of the contract value, without prior approval of the Owner.

Patent Fees and Royalties:

6.16 The Contractor will pay all license fees and royalties and assume all costs incident to the use of any invention, design, process or device which is the subject of patent rights or copyrights held by others. He will indemnify and hold harmless the Owner and the Engineer and anyone directly or indirectly employed by either of them from and against all claims, damages, losses and expenses (including attorneys' fees) arising out of any infringement of such rights during or after completion of the Work, and shall defend all such claims in connection with any alleged infringement of such rights.

6.17 The Contractor shall be responsible for determining the application of patent rights and royalties on materials, appliances, articles or systems prior to bidding. However, the Contractor shall not be responsible for such determination on systems which do not involve purchase by him of materials, appliances and articles.

Permits:

6.18 The Contractor will secure and pay for all construction permits and licenses and will pay all governmental charges and inspection fees necessary for the prosecution of the Work. The Owner shall assist the Contractor, when necessary, in obtaining such permits and licenses.

Electric Power and Lighting:

6.19 Electrical power as required during construction shall be provided by the Contractor at the Contractor's expense. Lighting shall be provided by the Contractor in all spaces at all times where necessary for good and proper workmanship, for inspection or for safety. No temporary power shall be used off temporary lighting lines without specific approval of the Owner. The Contractor will also pay all public utility charges.

Laws and Regulations:

6.20 The Contractor will give all notices and comply with all laws, ordinances, rules and regulations applicable to the WORK. If the Contractor observes that the Specifications or Drawings are at variance therewith, the Contractor will give the Engineer prompt written notice thereof, and any necessary changes shall be adjusted by an appropriate Modification. If the Contractor performs any Work knowing it to be contrary to such laws, ordinances, rules and regulations, and without such notice to the Engineer, the Contractor will bear all costs arising therefrom; however, it shall not be the Contractor's primary responsibility to make certain that the Drawings and Specifications are in accordance with such laws, ordinances, rules and regulations.

Taxes:

6.21 Cost of all sales and other taxes for which the Contractor is liable under the Contract shall be included in the Contract Price stated by the Contractor.

Record Drawings:

6.22 The Contractor will keep one record copy of all Specifications, Drawings, Addenda, Modifications, and Shop Drawings at the site.

6.22.1 The Engineer shall furnish the Contractor a set of Drawings and Specifications for the Contractor to record the details of and changes to the Work as the work progresses. The Contractor shall keep the Record Drawings current and shall not cover or conceal any Work until the required information has been recorded. Record Drawings are considered an integral part of the Work and the Work will not be deemed to be complete, on schedule or satisfactory until the Record Drawings are provided. The Contractor shall furnish Record Drawings to the Engineer prior to the submission of the final application for payment.

6.22.2 In addition to the location and limits of all unit priced and lump sum pay items, the following items shall be recorded on the Record Drawings:

1. Depths of various elements in relation to datum.
2. Horizontal and vertical location of underground utilities and appurtenances referenced to permanent surface improvements.
3. Location of internal appurtenances concealed in construction with reference to visible and accessible features of the work.
4. Field changes of dimension and detail.
5. Changes made by Modification.
6. Details not on original Contract Drawings.
7. Locations of plugged openings for future connections.

6.22.3 Specifications and Addenda shall be legibly marked up to record:

1. Manufacturer, trade name, catalog number and supplier of each product and item of equipment actually installed.
2. Changes made by Modification.
3. Other pertinent matters not originally specified.

Safety and Protection:

6.23 The Contractor will be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work. He will take all necessary precautions for the safety of, and will provide the necessary protection to prevent damage, injury or loss to:

6.23.1 All employees on the Work and other persons who may be affected thereby,

6.23.2 All the Work and all materials or equipment to be incorporated therein, whether in storage on or off the site, and

6.23.3 Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction.

6.24 The Contractor will designate a responsible member of his organization at the site whose duty shall be the prevention of accidents. This person shall be the Contractor's superintendent unless otherwise designated in writing by the Contractor to the Owner.

Emergencies:

6.25 In emergencies affecting the safety of persons or the Work or property at the site or adjacent thereto, the Contractor, without special instruction or authorization from the Engineer or Owner, is obligated to act, at his discretion, to prevent threatened damage, injury or loss. He will give the Engineer written notice of any significant changes in the Work or deviations from the Contract Documents caused thereby, within two days of the occurrence, and a Change Order may thereupon be issued covering the changes and deviations involved.

Shop Drawings, Samples and Other Submittals:

6.26 The Contractor shall submit to the Engineers, prior to the start of construction, detailed shop drawings and/or layouts of all manufactured or shop fabricated equipment, product samples and related information that he contemplates to furnish under this contract.

6.27 Shop Drawing / Sample Submittal Requirements

6.27.1 Shop drawings submitted to the Engineer shall bear the Contractor's stamp of approval certifying that they have been checked for conformance with the requirements of the contract documents. The Engineer will return any shop drawings submitted without this certification for re-submission. Shop drawings bearing the Contractor's certification which, in the Engineer's opinion are incomplete, contain numerous errors, have not been checked or only checked superficially, will be also be returned by the Engineer for re-submission.

6.27.2 Shop Drawings /Submittals must be complete, properly identified with the name of the project, dated, and each lot submitted must be accompanied by a letter of transmittal referring to the name of the project and to the specification division and/or page number and referenced to the construction

drawing number or sheet for identification of each item. Shop drawings for each type of work shall be numbered consecutively and the numbering system shall be retained throughout all revisions. The sequential numbering system shall be used as the basis for maintaining a log suitable to tracking the submittal process.

6.27.3 Shop Drawings/Submittals shall be provided both printed on paper and in digital format (PDF) on CD.

6.27.4 Paper for printed copies shall be on standard paper. Text shall be on 8-1/2 inches x 11-inches. Drawings shall not be larger than 11-inches x 17-inches and shall be neatly folded to standard size. Printed copies shall be organized with a table of contents and bound in sections as appropriate and the sections shall be identified using indexed tabs. Provide seven (7) printed copies of each. The Engineer will retain three (3) copies, two (2) copies for the Engineer's use in the field and one (1) copy for the Owner's use. The balance of the copies provided will be returned to the Contractor.

6.27.5 Digital files shall be in Portable Document Format (PDF) and provided on CD. Filenames for PDFs shall be numbered sequentially as above for the submittal tracking process. Text shall be formatted for printing on 8-1/2 inches x 11-inches. Drawings shall be formatted for printing on 11-inches x 17-inches sheets. PDFs shall include a table of contents and be bookmarked the same as for indexed printed copies. Provide two (2) CDs of each.

6.27.6 With each submittal, Contractor shall give Engineer specific written notice of any variations that the Shop Drawing or Sample may have from the requirements of the Contract Documents. This notice shall be set forth in a written communication separate from the Shop Drawings or Sample submittal; and, in addition, in the case of Shop Drawings by a specific notation made on each Shop Drawing submitted to Engineer for review and approval of each such variation.

6.28 Shop Drawings shall consist of drawings, diagrams, illustrations, schedules, performances charts, brochures and other data, prepared for a portion of the work. Shop Drawings shall indicate the model numbers, options, type, size, quantity, arrangement, location, mode of operation, component materials and/or material certification, utility connections, wiring and control diagrams, anchorages, supports, performance and test data, factory-applied coatings, and any other information necessary to insure satisfactory fabrication, installation and operation of the completed project. Shop Drawings shall establish the actual detail of manufactured or fabricated items, indicate proper relation to adjoining work, amplify design details of mechanical and electrical equipment in proper relation to physical spaces in the structure, and incorporate minor changes of design or construction to suit actual conditions.

6.29 The Contractor will also submit to the Engineer for review, with such promptness as to cause no delay in Work, Samples required by the Contract Documents. Samples will have been checked by and stamped with the approval of

the Contractor, identified clearly as to material, manufacturer, any pertinent catalog numbers and the use for which intended.

6.30 The Contractor shall thoroughly check all shop drawings for completeness and for compliance with the Contract Documents and shall verify all dimensions and field conditions and shall coordinate the shop drawings with the requirements of all other work related thereto, as required thereto, as required for proper and complete installation of the work. At the time of each submission, the Contractor will in writing state that the shop drawings are in conformance with the Drawings and Specifications or will call the Engineer's attention to any deviations that the Shop Drawings or Sample may have from the requirements of the Contract Documents.

6.31 Where a shop drawing as submitted by the Contractor indicates a departure from the Contract which the Engineer deems to be a minor adjustment in the interest of the Owner not involving a change in contract price or extension of time, the Engineer may review and return the drawing but the Engineer's review will be made with the understanding that it does not involve any change in the contract price or time and that it is subject generally to all contract stipulations and covenants.

6.32 The Engineer will review with reasonable promptness Shop Drawings and Samples, but his review shall be only for conformance with the design concept of the Project and for compliance with the information given in the Contract Documents. The review of a separate item as such will not indicate review of the assembly in which the item functions. The Contractor will make any corrections required by the Engineer and will return the required number of corrected copies of Shop Drawings and resubmit new Samples until the review is satisfactory to the Engineer. The Contractor shall direct specific attention in writing or on resubmitted Shop Drawings to revisions other than the corrections called for by the Engineer on previous submissions. The Contractor's stamp of approval on any Shop Drawing or Sample shall constitute a representation to the Owner and the Engineer that the Contractor has either determined and verified all quantities, dimensions, field construction criteria, materials, catalogue numbers and similar data or he assumes full responsibility for doing so, and that he has reviewed or coordinated each Shop Drawing or Sample with the requirements of the Work and the Contract Documents.

6.33 In the event a third submittal of Shop Drawings is required, due to previous submittals of incomplete or incorrect Shop Drawings not in accordance with the Drawings and Specifications, the Contractor will be charged the cost incurred by the Engineer for the review of the third and all subsequent submittal reviews. The Owner may impose a set-off against payments due to Contractor to secure reimbursement for such charges.

6.34 If a shop drawing involves a change in structures, connections, etc., then the cost of changing structures, connections, etc., as well as plans and specifications to accommodate the item shall be borne by the Contractor. The Owner will impose a set-off against payments due to Contractor to secure reimbursement for such charges

unless the need for such change is beyond the control of Contractor.

6.35 No work requiring Shop Drawing or Sample submission shall be commenced until the submission has been reviewed by the Engineer. A copy of each Shop Drawing and each Sample shall be kept in good order by the Contractor at the site and shall be available to the Engineer.

6.36 The Engineer's review of Shop Drawings or Samples shall not relieve the Contractor from his responsibility for any deviations from the requirements of the Contract Documents nor shall any review by the Engineer relieve the Contractor from responsibility for errors or omissions in the Shop Drawings.

Cleaning Up:

6.37 Site. The Contractor shall clean up behind the Work as much as is reasonably possible as the Work progresses. Upon completion of the Work, and before acceptance of and final payment for the Project by the Owner, the Contractor shall remove all surplus and discarded materials, excavated material and rubbish from the roadways, sidewalks, parking areas, lawns and all adjacent property; shall clean his portion of Work involved in any building under this Contract, so that no further cleaning by the Owner is necessary prior to his occupancy; shall restore all property, both public and private, which has been disturbed or damaged during the prosecution of the Work to substantially the same condition as existed prior to the work; and shall leave the whole in a neat and presentable condition.

6.38 Structures. Clean-up operations shall consistently be carried on by the Contractor at all times to keep the premises free from accumulation of waste materials and rubbish. Upon completion of the Work he shall remove all rubbish, tools, scaffolding, surplus materials, etc., from the structure and shall leave his work "broom clean", or its equivalent, unless more exactly specified elsewhere in the Contract. The Contractor shall do the following special cleaning for all trades upon completion of the Work:

6.38.1 Remove putty stains and paint from and wash and polish all glass.

6.38.2 Remove all marks, stains, and other soil and dirt from finished concrete, painted, stained and decorated work.

6.38.3 Remove all temporary protections and clean and polish floors in buildings.

6.38.4 Clean and polish all hardware.

6.39 Withholding Payment. Cleaning up is considered to be an integral, important and necessary function of each item of work. Where work on unit price items are substantially complete but lack clean-up and/or corrections ordered by the Engineer, amounts shall be deducted from unit prices in partial payment estimates to amply

cover such clean-up and corrections. When the clean-up and/or corrections are performed, payment shall be made for amounts withheld.

6.40 General. In case of dispute, the Owner may remove the rubbish and charge the cost to the Contractor.

Public Convenience and Safety:

6.41 The Contractor shall, at all times, conduct the Work in such a manner as to insure the least practicable obstruction to public travel. The convenience of the general public and of the residents along and adjacent to the area of the Work shall be provided for in a satisfactory manner, consistent with the operation and local conditions. "Street Closed" signs shall be placed immediately adjacent to the Work, in a conspicuous position, at such locations as traffic demands. At any time that streets are required to be closed, the Contractor shall notify law enforcement agencies, fire departments, and parties operating emergency vehicles before the street is closed and again as soon as it is opened. Access to fire hydrants and other fire extinguishing equipment shall be provided and maintained at all times. The Contractor shall, at all times, maintain proper access to the dwellings and/or businesses located on the private properties adjacent to the Project as required by, and in compliance with, the utility and construction easements acquired from the owners of said properties.

Sanitary Provisions:

6.42 The Contractor shall furnish necessary toilet conveniences, secluded from public observation, for use of all personnel on the Work, whether or not in his employ. They shall be kept in a clean and sanitary condition and shall comply with the requirements and regulations of the public authorities having jurisdiction. He shall commit no public nuisance. Temporary sanitary facilities shall be removed upon completion of the Work and the premises shall be left clean.

Indemnification:

6.43 The Contractor shall indemnify and hold harmless the Owner and the Engineer and their agents and employees from and against any and all liability of every nature, kind and character which may be incurred in connection with the performance or fulfillment of the Work or such other liability resulting from negligence or otherwise on the part of the Contractor, including but not limited to injury to persons and damage to properties, and the structures and improvements thereon, adjacent to the Project, and shall indemnify and hold harmless the Owner and the Engineer from all costs and damages, including attorney's fees, which may be suffered by reason of the failure to fully and completely perform under the Contract Documents and shall fully reimburse Owner and the Engineer for all expenditures of every kind, character and description, including attorney's fees, which may be incurred by Owner and

Engineer in making good any and every default which may exist on the part of the Contractor in connection with its performance under the Contract Documents.

Responsibility for Connecting to Existing Work:

6.44 It shall be the express responsibility of the Contractor to connect his Work to each part of the existing work or work previously installed as required by the Drawings and Specifications to provide a complete installation.

Work in Street, Highway and Other Rights-of-Way:

6.45 Excavation, grading, fill, storm drainage, paving and any other construction or installations in rights-of-way of streets, highways, public carrier lines, utility lines (either aerial, surface or subsurface), etc., shall be done in accordance with requirements of the owners thereof. The Owner will be responsible for obtaining permits necessary for the work.

6.46 The Contractor, at his own expense, shall be required to maintain the streets and thoroughfares disturbed in a passable condition providing means of ingress and egress to persons residing and/or by the Work, conducting business thereon specifically, but not by way of limitation, the Contractor shall maintain proper access to the dwellings and/or businesses located on the property adjacent to the Project at all times during the Project as is provided in the utility and construction easements obtained from the owners of said adjacent property.

6.46.1 The Contractor shall provide additional earth backfill or additional surfacing materials for excavation and/or trenches in streets or thoroughfares, if and when the shrinkage sets in, and shall shape and re-shape and grade and re-grade as, in the opinion of the Engineer, is necessary to maintain all thoroughfares disturbed in good condition from the time of initial excavation to the date of final acceptance. In general, the Contractor shall not be required to construct or maintain detours, or to maintain streets disturbed beyond the date of final acceptance of the work.

6.46.2 The Contractor shall provide facilities on a 24 hour, 7 day basis for pulling out vehicles bogged down due to his operations.

6.46.3 At all times, while the work is in progress the Contractor shall take precautions for the protection of all public by placing and maintaining adequate flagmen, barricades, red flags and/or lights, at locations where streets and public thoroughfares have been disturbed by excavations.

Cooperation with Governmental Departments, Public Utilities, Etc.:

6.47 The Contractor shall be responsible for making all necessary arrangements with governmental departments, public utilities, public carriers, service companies and

corporations owning or controlling roadways, railways, water, sewer, gas, electrical, telephone, and telegraph facilities such as pavements, tracks, piping, wires, cables, conduits, poles, guys, etc., including incidental structures connected therewith, that are encountered in the Work in order that such items may be properly shored, supported and protected. The Contractor shall give all proper notices, shall comply with requirements of such parties in the performance of his Work, shall permit entrance of such parties on the Project in order that they may perform their necessary work, and shall pay all charges and fees made by such parties for this work.

6.47.1 The Contractor's attention is called to the fact that there may be delays on the Project due to work to be done by governmental departments, public utilities, and others in repairing or moving poles, conduits, etc. The Contractor shall cooperate with the above parties, in every way possible, so that the construction can be completed in the least possible time.

6.47.2 The Contractor shall have made himself familiar with all codes, laws, ordinances and regulations which in any manner affect those engaged or employed in the Work, or materials and equipment used in or upon the Work, or in any way affect the conduct of the Work, and no plea of misunderstanding will be considered on account of his ignorance thereof.

Public Convenience and Premises:

6.48 Contractor shall confine his apparatus, storage of materials, and operations of his workmen to limits indicated by law, ordinances, permits, and shall not unnecessarily encumber any part of site.

6.48.1 Contractor shall not overload or permit any part of any structure to be loaded with such weight as will endanger its safety, nor shall he subject any part of the Work to stresses or pressures that will endanger it.

6.48.2 Contractor shall arrange and cooperate with the Owner in routing and parking of automobiles of his employees, Subcontractors and other personnel, and in routing material delivery trucks and other vehicles to the Project site.

Protection of Existing Property Improvements:

6.49 Any existing surface or subsurface improvements, such as pavements, curbs, sidewalks, pipes or utilities, footings, or structures (including portions thereof), trees and shrubbery, not indicated on the Drawings or noted in the Specifications as being removed or altered shall be protected from damage during construction of the Project. Any such improvements damaged during construction of the Project shall be restored to a condition equal to that existing at time of award of Contract at the Contractor's expense.

6.49.1 The existence of, and location of some of the known utilities and obstructions are indicated on the plans but are not guaranteed. The Contractor shall, in addition to the requirements provided in Section 6.47, make sufficient investigation and inspections, at the site of the work, to enable him to determine the existence of and exact nature and location of all such drainage structures, underground and overhead obstructions, fences, and public and private utilities that will be disturbed in the prosecution of the work. The Contractor shall repair or replace such utilities and improvements which are damaged by his operations so as to function properly, at his own expense and in a manner and condition equal to that of such utilities and improvements prior to damage. Fences which must be crossed shall be repaired to an "as was" condition.

6.50 Fuel, Energy and Water. The Contractor shall furnish all fuels, electric power and other energies, water and other consumables used in the prosecution of the work including temporary heat to prevent injury from dampness and cold and testing and trial operations until in the opinion of the Engineer, the work or a part thereof, is Substantially Complete and in use by the Owner, at which time the Owner will begin paying power bills for that part. Arrangements shall be made in advance of need with the utilities involved.

6.51 Flood Protection. The Contractor shall assume complete responsibility for construction and protection of work and property from flood damage in flood prone areas.

ARTICLE 7 - WORK BY OTHERS

7.1 The Owner may perform additional work related to the Project by himself, or he may let other direct contracts therefor which shall contain General Conditions similar to these. The Contractor will afford the other contractors who are parties to such direct contracts (or the Owner, if he is performing the additional work himself), reasonable opportunity for the introduction and storage of materials and equipment and the execution of work, and shall properly connect and coordinate his Work with theirs.

7.2 If any part of the Contractor's work depends for proper execution or results upon the work of any such other contractor (or the Owner), the Contractor will promptly report to the Engineer in writing any defects or deficiencies in such work that render it unsuitable for such proper execution and results.

7.3 The Contractor will do all cutting, fitting, and patching of his Work that may be required to make its several parts come together properly and fit it to receive or be received by such other work. The Contractor will not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of the Engineer and of the other contractors whose work will be affected.

7.4 Cooperation is required in the use of site facilities and in the detailed execution of the Work. Each contractor shall coordinate his operations with those of the other contractors for the best interest of the Work in order to prevent delay in the execution thereof.

7.5 Each contractor shall keep himself informed of the progress of the work of other contractors. Should lack of progress or defective workmanship on the part of other Contractors interfere with his operations, the Contractor shall notify the Engineer immediately. Lack of such notice to the Engineer will be construed as acceptance by the Contractor of the status of the work of other contractors as being satisfactory for proper coordination of his own Work.

ARTICLE 8 - OWNER'S RESPONSIBILITIES

8.1 The Owner will issue all communications to the Contractor through the Engineer.

8.2 The Owner shall have the right to take possession of and use any completed or partially completed portions of the Work, notwithstanding the fact that the time for completing the entire Work or any portion thereof may not have expired; but such taking possession and use shall not be deemed an acceptance of any Work not completed in accordance with the Contract Documents.

ARTICLE 9 - ENGINEER'S STATUS DURING CONSTRUCTION

Owner's Representative:

9.1 The Engineer shall be the Owner's representative during the construction period. The duties and responsibilities and the limitations of authority of the Engineer as the Owner's representative during construction are set forth in Articles 1 through 16 of these General Conditions and shall not be extended without written consent of the Owner and the Engineer.

9.1.1 Except as may be otherwise provided in this contract, all claims, counter-claims, disputes and other matters in question between the Owner and the Contractor arising out of or relating to this agreement or the breach thereof will be decided by mediation if the parties hereto mutually agree, or in a court of competent jurisdiction within the State in which the Project is located.

Visits to Site:

9.2 The Engineer will make periodic visits to the site to observe the progress and quality of the executed Work and to determine, in general, if the Work is proceeding in accordance with the Contract Documents. He will not be required to make

exhaustive or continuous on-site observations to check the quality or quantity of the Work. His efforts will be directed toward providing assurance for the Owner that the completed Project will conform to the requirements of the Contract Documents. On the basis of his on-site observations as an experienced and qualified design professional, he will keep the Owner informed of the progress of the Work and will endeavor to guard the Owner against defects and deficiencies in the Work of contractors.

9.2.1 The Engineer and his representatives will at all times have access to the work. In addition, authorized representatives and agents of any participating Federal or State agency shall be permitted to inspect all of the work. The Contractor will provide proper facilities for such access and observation of the work and also for any inspection, or testing thereof.

Clarifications and Interpretations:

9.3 The Engineer will issue with reasonable promptness such written clarifications or interpretations of the Contract Documents (in the form of Drawings or otherwise) as he may determine necessary, which shall be consistent with or reasonably inferable from the overall intent of the Contract Documents.

9.4 Reference Points. The Engineer shall furnish and establish base lines for locating the principal component parts of the project together with a suitable number of bench marks adjacent to the project.

9.4.1 The Contractor shall carefully preserve bench marks, reference points and stakes and, in case of willful or careless destruction, he shall be charged with the resulting expense of replacement.

Rejecting Defective Work:

9.5 The Engineer will have authority to disapprove or reject Work which is "defective" (which term is hereinafter used to describe Work that is unsatisfactory, faulty or defective, or does not conform to the requirements of the Contract Documents or does not meet the requirements of any inspection, test or approval referred to, or has been damaged prior to final acceptance). He will also have authority to require special inspection or testing of the Work, whether or not the Work is fabricated, installed or completed.

9.5.1 If any work is covered, contrary to the instructions of the Engineer, it must, if requested by the Engineer, be uncovered for his observation and replaced at the Contractor's expense. If the Engineer considers it necessary or advisable that covered work be inspected or tested by others, the Contractor, at the Engineer's request, will uncover, expose or otherwise make available for observation, inspection or testing as the Engineer may require, that portion of the work in questions, furnishing all necessary labor, materials, tools, and equipment.

Project Representatives:

9.6 The Engineer will provide observation sufficient to ascertain if construction is in substantial compliance with the design intent of the Drawings and Specifications.

Decisions on Disagreements:

9.7 The Engineer will be the initial interpreter of the terms and conditions of the Contract Documents and the judge of the performance thereunder. In his capacity as interpreter and judge he will exercise his best efforts to insure faithful performance by both the Owner and the Contractor. He will not show partiality to either and shall not be liable for the result of any interpretation or decision rendered in good faith. Claims, disputes and other matters relating to the execution and progress of the Work or the interpretation of or performance under the Contract Documents shall be referred initially to the Engineer for a decision which he shall render in writing within a reasonable time.

Limitations on Engineer's Responsibilities

9.8 Neither the Engineer's authority to act under this Article 9 nor any decision made by him in good faith either to exercise or not exercise such authority shall give rise to any duty or responsibility of the Engineer to the Contractor, any Subcontractor, any of their agents or employees or any other person performing any of the work.

9.9 The Engineer will not be responsible for the construction means, methods, techniques, sequences or procedures, or the safety precautions and programs incident thereto, and the Engineer will not be responsible for the Contractor's failure to perform the Work in accordance with the Contract Documents.

9.10 The Engineer will not be responsible for the acts or omissions of the Contractor, or any Subcontractors, or any of their agents or employees, or any other person performing any of the Work.

9.11 The Engineers' construction engineering services do not include any administration of jobsite safety which is the sole responsibility of the Contractor. Any reference to safety in the Contract Documents shall not create any duty of jobsite safety administration or oversight by the Engineers.

ARTICLE 10 - CHANGES IN THE WORK

10.1 Without invalidating the Agreement, the Owner may, at any time or from time to time, order additions, deletions or revisions in the Work; these will be authorized by Change Orders. Upon receipt of a Change Order, the Contractor will proceed with

the Work involved. All such Work shall be executed under the applicable conditions of the Contract Documents. If any Change Order causes an increase or decrease in the Contract Price or an extension or shortening of the Contract Time, an equitable adjustment will be made as provided in Article 11 or Article 12. A Change Order signed by the Contractor indicates his agreement therewith.

10.2 The Engineer may, in writing, authorize minor changes or alterations in the Work not involving extra cost and not inconsistent with the overall intent of the Contract Documents.

10.3 Additional Work performed by the Contractor without authorization of a Change Order will not entitle him to an increase in the Contract Price or an extension of the Contract Time, except in the case of an emergency as provided in paragraph 6.25.

10.4 The Owner will execute appropriate Change Orders prepared by the Engineer covering changes in the Work to be performed as provided in paragraph 10.1, and Work performed in an emergency as provided in paragraph 6.25 and any other claim of the Contractor for a change in the Contract Time or the Contract Price which is approved by the Engineer and the Owner.

10.5 It is the Contractor's responsibility to notify his surety of any changes affecting the general scope of the Work or change in the Contract Price and the amount of the applicable bonds shall be adjusted accordingly. The Contractor will furnish proof of such adjustment to the Owner if requested.

ARTICLE 11 - CHANGE OF CONTRACT PRICE

11.1 The Contract Price constitutes the total compensation payable to the Contractor for performing the Work. All duties, responsibilities and obligations assigned to or undertaken by the Contractor shall be at his expense without changing the Contract Price.

11.2 The Owner may, at any time, without notice to the sureties, by written order designated or indicated to be a Change Order, make any change in the Work within the general scope of the contract, including but not limited to changes:

- (1) in the specifications (including drawings and designs);
- (2) in the method or manner of performance of the work;
- (3) in the Owner-furnished facilities, equipment, materials, services, or site; or
- (4) directing acceleration in the performance of the work.

11.2.1 Except as herein provided, no order, statement, or conduct of the Owner shall be treated as a Change Order under this clause or entitle the Contractor to an equitable adjustment hereunder.

11.2.2 No claim by the Contractor for an equitable adjustment hereunder shall be allowed if asserted after final payment under this contract.

11.3 The value of any Work covered by a Change Order or of any claim for an increase or decrease in the Contract Price shall be determined in one of the following ways:

11.3.1 Where the Work involved is covered by unit prices contained in the Contract Documents, by application of unit prices to the quantities of the items involved.

11.3.2 By negotiated lump sum.

11.3.3 The actual cost for labor, direct overhead, materials, supplies, equipment, and other services necessary to complete the work (hereinafter the "Cost of the Work") plus a fixed amount to be agreed upon to cover the cost of general overhead and profit (hereinafter the "Contractor's Fee").

11.4 The term Cost of the Work means the sum of all costs necessarily incurred and paid by the Contractor in the proper performance of the Work. Except as otherwise may be agreed to in writing by Owner, such costs shall be in amounts no higher than those prevailing in the locality of the Project, shall include only the following items and shall not include any of the costs itemized in paragraph 11.5:

11.4.1 Payroll costs for employees in the direct employ of Contractor in the performance of the Work under schedules of job classifications agreed upon by Owner and Contractor. Payroll costs for employees not employed full time on the Work shall be apportioned on the basis of their time spent on the Work. Payroll costs may include, but not be limited to, salaries and wages plus the cost of fringe benefits which shall include social security contributions, unemployment, excise and payroll taxes, workmen's compensation, health and retirement benefits, bonuses, sick leave, vacation and holiday pay applicable thereto. Such employees shall include superintendents and foremen at the site. The expenses of performing work after regular working hours, on Sunday or legal holidays shall be included in the above to the extent authorized by Owner in writing.

11.4.2 Cost of all materials and equipment furnished and incorporated in the Work.

11.4.2.1 All trade discounts, rebates and refunds, and all returns from sale of surplus materials and equipment shall accrue to Owner, and Contractor shall make provisions so that they may be obtained.

11.4.3 Payments made by Contractor to the Subcontractors for Work performed by Subcontractors. If required by Owner, the Contractor shall obtain competitive bids from Subcontractors acceptable to him and shall deliver such Bids to Owner who will then determine with the advice of Engineer, which Bids will be

accepted. If a subcontract provides that the Subcontractor is to be paid on the basis of Cost of Work Plus a Fee, the Cost of Work shall be determined in accordance with paragraphs 11.4 and 11.5. All subcontracts shall be subject to the other provisions of the Contract Documents insofar as applicable.

11.5 The Term Cost of the Work shall not include any of the following:

11.5.1 Payroll costs and other compensation of Contractor's officers, executives principals (of partnership and sole proprietorships), general managers, engineers, architects, estimators, lawyers auditors, accountants, purchasing and contracting agents, expeditors, timekeepers, clerks and other personnel employed by Contractor whether at the site or in his principal or branch office for general administration of the Work and not specifically included in the schedule referred to in subparagraph 11.4.1 - all of which are to be considered administrative costs covered by the Contractor's Fee.

11.5.2 Expenses of Contractor's principal and branch offices other than his office at the site.

11.5.3 Any part of Contractor's capital expenses, including interest on Contractor's capital employed for the Work and charges against Contractor for delinquent payments.

11.5.4 Cost of premiums for all bonds and for all insurance policies whether or not Contractor is required by the Contract Documents to purchase and maintain the same (except as otherwise provided in subparagraph 11.4.1).

11.5.5 Costs due to the negligence of Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable, including but not limited to, the correction of defective work, disposal of materials or equipment wrongly supplied and making good any damage to property.

11.6 The Contractor's Fee which shall be allowed to Contractor for his overhead and profit shall be a mutually acceptable firm fixed price; or, if none can be agreed upon, a mutually acceptable fixed fee based on the estimate of the various portions of the Cost of the Work.

11.7 The amount of credit to be allowed by Contractor to Owner for any such change which results in a net decrease in cost, will be the amount of the actual net decrease. When both additions and credits are involved in any one change, the net shall be computed to include overhead and profit, identified separately, for both additions and credits.

11.8 Whenever the cost of any Work is to be determined pursuant to paragraphs 11.4 and 11.5, the Contractor will submit in a form prescribed by Engineer an itemized cost breakdown together with supporting data.

11.9 Claims For Delay Due To Change: No claim for delay damages will be allowed the Contractor on account of change orders executed by him. In support of this stipulation the following language will be set out on the face of each change order:

"It is further understood and agreed that this modification constitutes payment in full on behalf of the Contractor and its Subcontractors and suppliers for all costs and markups directly or indirectly attributable to the change order herein, for all delays related thereto, and for performance of the changes within the time frame stated."

11.10 Allowances: It is understood that the Contractor has included in the Contract Price all allowances so named in the Contract Documents and shall cause the Work so covered to be done by such material men, suppliers or Subcontractors and for such sums within the limit of the allowances as the Engineer may approve. Upon final payment, the Contract Price shall be adjusted as required and an appropriate Change Order issued. The Contractor agrees that the original Contract Price includes such sums as he deems proper for costs and profit on account of cash allowances. No demand for additional cost or profit in connection therewith will be allowed.

11.10.1 These allowances shall cover the cost to the Contractor, less any applicable trade discount, of the materials and equipment required by the allowance delivered at the site, and all applicable taxes.

11.10.2 The Contractor's costs for unloading and handling on the site, labor, installation costs, overhead, profit and other expenses contemplated for the original allowance shall be included in the Contract Price and not in the allowance.

11.10.3 Whenever the cost, as described in 11.10.1 above, is more than or less than the allowance, the Contract Price shall be adjusted accordingly by Change Order.

ARTICLE 12 - CHANGE OF THE CONTRACT TIME

12.1 The Contract Time may be changed only by a Change Order. Any claim for an extension in the Contract Time shall be based on written notice delivered to Owner and Engineer within 10 days of the occurrence of the event giving rise to the claim. Notice of the extent of the claim with supporting data shall be delivered within 20 days of such occurrence unless Engineer allows an additional period of time to ascertain more accurate data. All claims for adjustment in the Contract Time shall be determined by Engineer if Owner and Contractor cannot otherwise agree. Any change

in the Contract Time resulting from any such claim shall be incorporated in a Change Order.

12.2 The Contract Time will be extended in an amount equal to time lost due to delays beyond the control of Contractor if he makes a claim therefor as provided in paragraph

12.1

12.3. Such delays may include, but not be restricted to, acts or neglect by any other contractor employed by Owner, fires, floods, labor disputes, epidemics, abnormal weather conditions, or acts of God.

12.4 No claim for delay shall be allowed because of failure to furnish Drawings until two weeks after written demand for such Drawings and not then unless such claim be reasonable.

ARTICLE 13 - GUARANTEE

13.1 The Contractor shall guarantee all materials and equipment furnished and work performed for a period of one (1) year from the date of Substantial Completion. The Contractor warrants and guarantees for a period of one (1) year from the date of Substantial Completion of the system that the completed system is free from all defects due to faulty materials or workmanship and the Contractor shall promptly make such corrections as may be necessary by reason of such defects including the repairs of any damage to other parts of the system resulting from such defects. Where equipment is required to have a longer guarantee time period by other section of these specifications, such longer guarantee time period shall govern. The Owner will give notice of observed defects with reasonable promptness. In the event that the Contractor should fail to make such repairs, adjustments, or other Work that may be made necessary by such defects, the Owner may do so and charge the Contractor the cost thereby incurred. The Payment Bond and Performance Bond shall remain in full force and effect through the guarantee period.

13.2 Neither the final payment nor any provision in the Contract nor partial or entire use of the facilities by the Owner shall constitute an acceptance of work not done in accordance with the Contract Documents or relieve the Contractor of liability in respect to any express warranties or responsibility for faulty materials or workmanship.

ARTICLE 14 - PAYMENTS AND COMPLETION

Payments to Contractor:

14.1 At least 10 days before each progress payment falls due (but not more often than once a month), the Contractor will submit to the Engineer an Application for Payment filled out and signed by the Contractor covering the Work performed during the period covered by the Application for Payment and supported by such data as the Engineer may reasonably require. If payment is requested on the basis of materials and equipment not incorporated in the Work but delivered and suitably stored at the site or in an approved location, the Application for Payment shall also be accompanied by such supporting data, satisfactory to the Owner, as will establish the Owner's title to the material and equipment and protect his interest therein, including applicable insurance. The Owner may retain 5 percent of the amount of each payment until the work is at least 50 percent complete, on schedule and satisfactory in the Engineer's opinion, at which time 50 percent of the retainage held to date shall be returned to the Contractor for distribution to the appropriate subcontractors and suppliers. Future retainage shall be withheld at the rate of 2-1/2 percent. On completion and acceptance of a part of the Work on which the price is stated separately in the Contract Documents, payment may be made in full, including retainage percentages, less authorized deductions. The Owner may reinstate up to 5 percent withholding if the Owner determines, at his discretion, that the Contractor is not making satisfactory progress or there is other specific cause for such withholding.

Contractor's Warranty of Title:

14.2 The Contractor warrants and guarantees that title to all Work, materials and equipment covered by an Application for Payment, whether incorporated in the Project or not, will have passed to the Owner prior to the making of the Application for Payment, free and clear of all liens, claims, security interests and encumbrances (hereafter in these General Conditions referred to as "Liens"); and that no work, materials or equipment covered by an Application for Payment will have been acquired by the Contractor or by any other person performing the Work at the site or furnishing materials and equipment for the Project, subject to an agreement under which an interest therein or encumbrance thereon is retained by the seller or otherwise imposed by the Contractor or such other person.

Approval of Payments:

14.3 The Engineer will, within 10 days after receipt of each Application for Payment, either indicate in writing his recommendation for payment and present the Application to the Owner, or return the Application to the Contractor indicating in writing his reasons for refusing to recommend payment. In the latter case, the Contractor may make the necessary corrections and resubmit the Application. The Owner will, within 21 days of presentation to him of an Application for Payment, pay the Contractor the amount recommended by the Engineer.

14.4 The Engineer's recommendation for payment requested in an Application for Payment shall constitute a representation by him to the Owner, based on the Engineer's on-site observations of the Work in progress as an experienced and

qualified design professional and on his review of the Application for Payment and the supporting data, that the Work has progressed to the point indicated; that, to the best of his knowledge, information and belief, the quality of the Work is in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning Project upon Substantial Completion, to the results of any subsequent tests called for in the Contract Documents and any qualifications stated in his approval); and that the Contractor is entitled to payment of the amount requested. However, by recommending such payment the Engineer shall not thereby be deemed to have represented that he made exhaustive or continuous on-site observations to check the quality or the quantity of the Work, or that he has reviewed the means, methods, techniques, sequences, and procedures of construction or that he has made any examination to ascertain how or for what purpose the Contractor has used the moneys paid or to be paid to him on account of the Contract Price, or that title to any Work, materials, or equipment has passed to the Owner free and clear of any liens.

14.5 The Contractor shall make the following certifications on each request for payment (Partial Payment Estimate):

14.5.1 I hereby certify that the work covered by this request for payment has been completed in accordance with the Contract Documents and that the labor and materials listed hereon have been used in the construction of this work, or that all materials included in this request for payment and not yet incorporated into the construction are now on the site or stored at an approved location; and that payment received from the last request for payment has been used to make payments to all first tier Subcontractors and Suppliers except as listed below.

14.6 The Engineer may refuse to approve the whole or any part of any payment if, in his opinion, he is unable to make such representations to the Owner. He may also refuse to approve any such payment, or, because of subsequently discovered evidence or the results of subsequent inspection of tests, nullify any such payment previously approved, to such extent as may be necessary in his opinion to protect the Owner from loss because:

14.6.1 The Work is defective, or completed Work has been damaged requiring correction or replacement,

14.6.2 The Work for which payment is requested cannot be verified,

14.6.3 Claims or Liens have been filed or there is reasonable evidence indicating the probable filing thereof,

14.6.4 The Contract Price has been reduced because of Modifications,

14.6.5 The Owner has been required to correct defective Work or complete the Work in accordance with paragraph 13.1,

14.6.6 Of unsatisfactory prosecution of the Work, including failure to clean up as required.

14.6.7 Of persistent failure to cooperate with other contractors on the Project and persistent failure to carry out the Work in accordance with the Contract Documents.

14.6.8 Of liquidated damages payable by the Contractor, or

14.6.9 Of any other violation of, or failure to comply with, the provisions of the Contract Documents.

14.7 Prior to Substantial Completion, the Owner, with the approval of the Engineer and with the concurrence of the Contractor, may use any completed or substantially completed portions of the Work. Such use shall not constitute an acceptance of such portions of the Work.

14.8 The Owner shall have the right to enter the premises for the purpose of doing work not covered by the Contract Documents. This provision shall not be construed as relieving the Contractor of the sole responsibility for the care and protection of the Work, or the restoration of any damaged Work except such as may be caused by agents or employees of the Owner.

14.9 Upon completion and acceptance of the Work, the Engineer will issue a certificate that the work is in substantial conformance with Contract Documents, recommending Final Acceptance by the Owner and Final Payment. The entire balance found to be due the Contractor, including the retained percentages, but except such sums as may be lawfully retained by the Owner, shall be paid to the Contractor within 30 days of Final Acceptance of the Work.

14.10 The Contractor will indemnify and save the Owner and the Engineer harmless from all claims growing out of the lawful demands of Subcontractors, laborers, workmen, mechanics, material men, and furnishers of machinery and parts thereof, equipment, tools, and all supplies, incurred in the furtherance of the performance of the Work. The Contractor shall, at the Owner's request, furnish satisfactory evidence that all obligations of the nature designated above have been paid, discharged, or waived. If the Contractor fails to do so the Owner may, after having notified the Contractor, either pay unpaid bills or withhold from the Contract Price a sum of money deemed reasonably sufficient to pay any and all such lawful claims until satisfactory evidence is furnished that all liabilities have been fully discharged whereupon payment to the Contractor shall be resumed, in accordance with the terms of the Contract Documents, but in no event shall the provisions of this sentence be construed to impose any obligations upon the Owner to either the

Contractor, his Surety, or any third party. In paying any unpaid bills of the Contractor, any payment so made by the Owner shall be considered as a payment made under the Contract Documents by the Owner to the Contractor and the Owner shall not be liable to the Contractor for any such payments made in good faith.

14.11 The date of beginning and the time for completion of the work are essential conditions of the Contract Documents and the Work embraced shall be commenced on a date specified in the Notice to Proceed.

14.11.1 The Contractor will proceed with the work at such rate of progress to insure full completion for Acceptance within the Contract Time. It is expressly understood and agreed, by and between the Contractor and Owner, that the contract time for the completion of the work described herein is a reasonable time, taking into consideration the average climatic and economic conditions and other factors prevailing in the locality of the work.

14.11.2 If the Contractor should fail to complete the work within the Contract Time, or extension of time granted by the Owner, the Contractor will pay to the Owner the amount for liquidated damages as specified in the bid for each calendar day or working day (as specified) that the Contractor shall be in default after the time stipulated in the contract documents.

14.11.3 The Contractor shall not be charged with liquidated damages or any excess cost when the delay in completion of the work is due to the following, and the Contractor has promptly given written notice of such delay to the Owner or Engineer:

14.11.3.1 To any preference, priority or allocation order duly issued by Owner.

14.11.3.2 To unforeseeable causes beyond the control and without the fault or negligence of the contractor, including but not restricted to, acts of God, or of the public enemy, acts of the Owner, acts of another Contractor in the performance of a contract with the Owner, fires, abnormal floods, epidemics, quarantine restrictions, strikes, freight embargoes, and abnormal and unforeseeable weather; and

14.11.3.3 To any delays of Subcontractors occasioned by any of the causes specified in the above paragraphs.

14.11.4 Requests by the Contractor for time extensions due to abnormally bad weather shall also consider time gained due to abnormally good weather during the contract period.

Acceptance of Final Payment as Release:

14.12 The acceptance by the Contractor of final payment shall be and shall operate as a release to the Owner of all claims and all liability to the Contractor other than claims in stated amounts as may be specifically excepted by the Contractor for all things done or furnished in connection with this Work and for every act and neglect of the Owner and others relating to or arising out of this Work. Any payment, however, final or otherwise, shall not release the Contractor or his sureties from any obligations under the Contract Documents or the Payment Bond and Performance Bond.

Final payment to the Contractor by the Owner shall not be made until the Contractor has obtained written consent from the Surety.

ARTICLE 15 - SUSPENSION OF WORK AND TERMINATION

Owner May Suspend Work:

15.1 The Owner may suspend the Work or a portion thereof by notice in writing to the Contractor. The Contractor may be allowed an increase in the Contract Price or an extension of the Contract Time, or both, directly attributable to any suspension if he makes a claim therefor as provided in Articles 11 and 12, provided the Contractor does not concur in the work suspension.

15.1.1 Should the Owner be prevented or enjoined from proceeding with Work either before or after the start of construction by reason of any litigation or other reason beyond the control of the Owner, the Contractor shall not be entitled to make or assert claim for damage by reason of said delay; but time for completion of the work will be extended to such reasonable time as the Owner may determine to compensate for time lost by such delay with such determination to be set forth in writing.

Owner May Terminate:

15.2 If the Contractor is adjudged as bankrupt or insolvent, or if he makes a general assignment for the benefit of his creditors, or if a trustee or receiver is appointed for the Contractor or for any of his property, or if he files a petition to take advantage of any debtor's act, or to reorganize under the bankruptcy or similar laws, or if he repeatedly fails to supply sufficient skilled workmen or suitable materials or equipment, or if he repeatedly fails to make prompt payments to Subcontractors or for labor, materials or equipment or he disregards laws, ordinances, rules, regulations, or orders of any public body having jurisdiction, or if he disregards the authority of the Engineer, or if he otherwise violates any provision of the Contract Documents, then the Owner may, without prejudice to any other right or remedy and after giving the Contractor and his surety 7 days' written notice, terminate the services of the Contractor and take possession of the Project and of all materials, equipment, tools, construction equipment and machinery thereon owned by the Contractor, and finish

the Work by whatever method he may deem expedient. In such case the Contractor shall not be entitled to receive any further payment until the Work is finished. If the unpaid balance of the Contract Price exceeds the direct and indirect costs of completing the Project, including compensation for additional professional services, such excess shall be paid to the Contractor. If such costs exceed such unpaid balance, the Contractor will pay the difference to the Owner. Such costs incurred by the Owner will be determined by the Engineer and incorporated in a Change Order.

15.3 Where the Contractor's services have been so terminated by the Owner, said termination shall not affect any rights of the Owner against the Contractor then existing or which may thereafter accrue. Any retention or payment of moneys by the Owner due the Contractor will not release the Contractor from liability.

15.4 Upon 7 days' written notice to the Contractor and the Engineer, the Owner may, without cause and without prejudice to any other right or remedy, elect to abandon the Project and terminate the Agreement. In such case, the Contractor shall be paid for all Work executed and any expense sustained plus a reasonable profit.

Removal of Equipment:

15.5 In the case of termination of this Contract before completion, for any cause whatever, the Contractor, if notified to do so by the Owner, shall promptly remove any part or all of his equipment and supplies from the property of the Owner. Should the Contractor not remove such equipment and supplies within 30 days, the Owner shall have the right to remove them at the expense of the Contractor. Equipment and supplies shall not be construed to include such items for which the Contractor has been paid in whole or in part.

ARTICLE 16 - MISCELLANEOUS

16.1 All Specifications, Drawings and copies thereof furnished by the Engineer shall remain his property. They shall not be used on another Project, and, with the exception of those sets which have been signed in connection with the execution of the Agreement, shall be returned to him on request upon completion of the Project.

16.2 The successful Bidder shall be furnished one (1) electronic set of construction plans and specifications for use in the work. Any other plans and specifications needed shall be supplied upon payment of the amount specified for specs/plans on our Cook Coggin Planroom (www.cceplanroom.com).

16.3 The duties and obligations imposed by these General Conditions, and other Conditions and the rights and remedies available hereunder, and, in particular but without limitation, the warranties, guarantees and obligations imposed upon Contractor by paragraph 13.1 and the rights and remedies available to Owner and Engineer thereunder, shall be in addition to, and shall not be construed in any way as

a limitation of, any rights and remedies available to them which are otherwise imposed or available by law, by special guarantee or by other provisions of the Contract Documents.

16.4 Should the Owner or the Contractor suffer injury or damage to its person or property because of any error, omission or act of the other or of any of his employees or agents or others for whose acts he is legally liable, claim shall be made in writing to the other party within a reasonable time of the first observance of such injury or damage.

16.5 The Contract Documents shall be governed by the law of the place of the Project.

16.6 Attorney Fees - In the event it shall be necessary for either party to retain legal counsel to resolve a dispute or to enforce any of its rights hereunder, the party prevailing upon resolution of such disputes or enforcements of such rights shall be entitled to recover payment of all reasonable attorney's fees, expenses and costs incurred therewith.

ARTICLE 17 - ARBITRATION

17.1 All claims, disputes and other matters in question arising out of, or related to, this Agreement or the breach thereof except for claims which have been waived by the making or acceptance of final payment, shall be decided by arbitration, if all parties mutually agree, in accordance with the Construction Industry Arbitration Rules of the American Arbitration Association then obtaining, or in a court of competent jurisdiction. This agreement so to arbitrate shall be specifically enforceable under the prevailing arbitration law. The award rendered by the arbitrators shall be final, and judgment may be entered upon it in any court having jurisdiction thereof. The arbitration decision must present findings of fact, conclusions of law, basis of award and rationale.

17.2 Notice of the request for arbitration shall be filed in writing with the other party to the Agreement and with the American Arbitration Association, if both parties mutually agree to arbitration, and a copy shall be filed with the ENGINEER. The request for arbitration shall be made within the 30-day period where applicable, and in all other cases within a reasonable time after the claim, dispute or other matter in question has arisen, and in no event shall it be made after institution of legal or equitable proceedings based on such claim, dispute or other matter in question would be barred by the applicable statute of limitations.

17.3 The CONTRACTOR will carry on the Work and maintain the progress schedule during any arbitration proceedings, unless otherwise agreed by him and the OWNER in writing.

Mandatory Addendum to
All City of Tupelo Contracts
August 2019

The City of Tupelo (TUPELO), despite any contrary provision contained in any contract to which TUPELO is a party, does not waive any rights, benefits, or prohibitions that may be provided under any law, statute(s), regulation(s), or policies. All provisions to the contrary in any contract to which TUPELO is a party are hereby null, void and deleted. Not intended to be an exhaustive list, the following are examples of such matters and shall be exceptions to any contrary provision(s) in any contract to which TUPELO is a party.

1. TUPELO does not indemnify or hold harmless any party.
Miss. Const. Art. 4, § 100; Miss AG Op., Clark (June 7, 2002); Miss. AG Op., Chamberlin (Oct, 18, 2002).
2. TUPELO does not make any warranty.
Miss. Const. Art. 4, § 100; Miss AG Op., Clark (June 7, 2002); Miss. AG Op., Chamberlin (Oct, 18, 2002).
3. TUPELO does not waive any claim; past, present, or future.
Miss. Const. Art. 4, § 100; Miss AG Op; Clark (June 7, 2002); Miss. AG Op., Chamberlin (Oct, 18, 2002).
4. TUPELO does not waive its sovereign immunity. TUPELO shall only be responsible for liability resulting from the actions of its officers, agents, and employees acting within the course and scope of their official duties.
Miss. Code Ann. § 11-46-1, et seq.
5. TUPELO does not waive its Constitutional Eleventh (11th) Amendment immunity.
U.S. Const. Amend. XI.
6. TUPELO does not agree to the application of laws of another state.
U.S. Const. amend XI; Miss. Code Ann. 11-11-3; Miss. Code Ann. 11-45-1; *City of Jackson v. Wallace*, 196 So. 223 (1940)
7. TUPELO does not limit the tort liability of another party to the amount of the contract or to any other set amount.
Miss. Const. Art. 4, § 100; Miss AG Op., Clark (June 7, 2002); Miss. AG Op., Chamberlin (Oct, 18, 2002); Miss. AG Op., Hathorn (May 28, 1992); Miss. AG Op., Davis (March 3, 1993).
8. TUPELO does not agree to waive warranties of merchantability, fitness for a particular purpose, or any common law warranties to which TUPELO is entitled.
Miss. Const. Art 4, § 100; Miss Code Ann. § 75-2-719; Miss. AG Op., Clark (June 7, 2002); Miss. AG Op., Chamberlin (Oct, 18, 2002).

9. TUPELO does not agree that a party may represent, prosecute or defend legal actions in the name of TUPELO. (CITATION NEEDED.)
10. Provisions that limit the time for TUPELO to pursue legal actions are deleted and void.
Miss. Const. Art. 4, § 104; Miss. Const. Art. 4, § 100; Miss Code Ann. § 15-1-5; Miss AG Op; Clark (June 7, 2002); Miss. AG Op., Chamberlin (Oct, 18, 2002).
11. TUPELO does not agree to submit to binding arbitration.
Miss. AG Op., Clark (June 7, 2002); Miss. AG Op., Chamberlin (Oct. 18, 2002).
12. TUPELO will make payments for all amounts owed under a contract agreement in accordance with state law.
Miss. Code Ann. § 31-7-305.
13. TUPELO advises for all contracts entered into, the provisions of the contract which will contain the commodities purchased or the personal or professional services provided, the price to be paid, and the term of the contract shall not be deemed to be a trade secret or confidential commercial or financial information, and shall be available for examination, copying or reproduction.
Miss. Code § 25-61-9 (7).
14. TUPELO must comply with Mississippi public records law. Records furnished to public bodies by third parties which contain trade secrets or confidential commercial or financial information shall not be subject to inspection, examination, copying or reproduction until notice to said third parties has been given, but such records shall be released within a reasonable period of time unless the said third parties shall have obtained a court order protecting such records as confidential.
Miss. Code § 25-61-9 (1).
15. Data processing software obtained by TUPELO under a licensing agreement that prohibits its disclosure and which software is a trade secret as defined in Miss. Code Section 75-26-3, and data processing software produced by a public body which is sensitive must not be subject to inspection, copying or reproduction under Mississippi public records law. “Sensitive” means only those portions of data processing software, including the specifications and documentation, used to:
(a) Collect, process, store, and retrieve information which is exempt; (b) Control and direct access authorizations and security measures for automated systems; (c) Collect, process, store, and retrieve information disclosure of which would require a significant intrusion into the business of the public body.

16. TUPELO is prohibited from binding its successors in office to contracts, including leases, which result in taking away the successors' rights and powers conferred by law, unless there is specific statutory authority to enter into such contract. In the absence of specific statutory authority, such contracts are voidable by the successors in office.
MS AG Ops., Barton (January 8, 2014) and Barton (July 15, 2011)(both relying on Biloxi Firefighters Assoc. v. City of Biloxi, 810 So.2d 589 (Miss. 2002)).
17. TUPELO does not have the power to grant to any person, firm or corporation any exclusive franchise or any exclusive right to use or occupy the streets, highways, bridges, or public places in such municipality for any purpose. TUPELO cannot grant, renew, or extend any such franchise, privilege or right, without compensation or for any longer period than twenty-five years.
Miss. Code Anno. 21-27-1
18. All contracts must be approved by the City Council of TUPELO, subject to the veto power of the Mayor of TUPELO.
MS AG Ops. 2012-00013

SUPPLEMENTAL GENERAL CONDITIONS

These Supplemental General Conditions shall take precedence over the General Conditions if there are conflicting statements between the two.

1. SPECIFICATIONS If referred to on the drawings or in the specifications, the "Mississippi Standard Specifications for State Aid Road and Bridge Construction", as issued by the "Office of State Aid Road Construction of the Mississippi Department of Transportation", Latest Edition, and any issued addenda, shall be made a part of these specifications as if attached hereto.

If referred to on the drawings or in the specifications, the "Mississippi Standard Specifications for Road and Bridge Construction", as issued by the "Mississippi Department of Transportation", Latest Edition, and any issued addenda, shall be made a part of these specifications as if attached hereto.

2. PAYMENTS TO SUBCONTRACTORS Each month, attached to the contractor's pay request, shall be certification verifying that payment has been made to his subcontractor's. Failure of the contractor to make payment to his subcontractors will result in a delay in payment to the contractor until this problem is remedied.

3. STORM WATER POLLUTION PREVENTION This item is addressed in the Instructions For Bidders section of these Contract Documents.

4. MAINTENANCE OF TRAFFIC It is the Contractor's responsibility to provide the required Maintenance of Traffic in and around the construction area for the protection of the public. Warning signs, barricades, cones, barrels, flagmen, etc., shall be used as needed and as required by the M.U.T.C.D., latest edition. There will be no separate payment for Maintenance of Traffic, as this is considered incidental to the work.

5. CONSTRUCTION STAKING Bench marks and control points are indicated on the plans. It is the responsibility of the Contractor to provide all construction staking required for the construction of this project in compliance with the plans and specifications.

GENERAL SPECIFICATIONS FOR BRIDGE IMPROVEMENTS

Work under this section of the specifications shall consist of furnishing all materials, equipment and labor for the construction and completion of the bridge as described on the plans and in these specifications. In addition to these General Specifications, any portions of other contracts, bound herein, which are applicable, or can be made applicable to this work, shall be deemed to apply.

All work and materials for the construction of the bridge shall conform to the "Mississippi Standard Specifications for State Aid Road and Bridge Construction", as issued by the Office of the State Aid Road Construction and the Mississippi Department of Transportation, latest edition, and all issued addenda and referenced materials.

If there are any conflicts between the General Specifications in the "Mississippi Standard Specifications for State Aid Road and Bridge Construction" and the General Specifications attached herein, the General Specifications attached herein shall apply.

There will be NO fuel adjustments on this project.

OFFICE OF STATE AID ROAD CONSTRUCTION
MISSISSIPPI DEPARTMENT OF TRANSPORTATION

DATE: June 1, 2016

SUBJECT: Piling Splices

The MISSISSIPPI STANDARD SPECIFICATIONS FOR STATE AID ROAD AND BRIDGE CONSTRUCTION 2004 EDITION is hereby supplemented as follows:

Subsection 803.04.8 – Splices on Page 8-46 of the Mississippi Standard Specifications For State Aid Road and Bridge Construction Mississippi Department of Transportation 2004 Edition is hereby added in its entirety after the seventh paragraph on page 8-46.

Add the following after the above addition

901-S-803.04.8.2–Method of Measurement. Splice plates to deteriorated steel piling will be measured by the linear foot of each plate, web and flange, actually welded in place as shown on the contract plans.

901-S-803.05.8.1– Basis of Payment. Splice plates, measured as per 901-S-803.04.8.1, will be paid for at the contract unit price per linear foot, which price shall include the cost of cleaning of the existing pile, fabrication of splice plate, and all labor, equipment, welding, and incidentals necessary to complete the splice.

Payment will be made under:

Pay Item No. 901-S-803-P: Piling Splices - per Linear Foot

Supplemental Specification
901-S-804-1
Concrete Bridges And Structures

OFFICE OF STATE AID ROAD CONSTRUCTION
MISSISSIPPI DEPARTMENT OF TRANSPORTATION

DATE: May 5, 2006

SUBJECT: Concrete Bridges And Structures:

Section S-804 - CONCRETE BRIDGES AND STRUCTURES; of the MISSISSIPPI STANDARD SPECIFICATIONS FOR STATE AID ROAD AND BRIDGE CONSTRUCTION 2004 EDITION is hereby amended as follows:

901-S-804.02.1--General. Add the following materials to the list of materials in Subsection 804.02.01 on page 8-51.

Ground Granulated Blast Furnace Slag (GGBFS) S-714.06
Metakaolin 901-S-714.07.01

901-S-804.02.10--Portland Cement Concrete Mix Design. Change Note ***** of Subsection S-804.02.10 on page 8-56 as follows:

***** Class DS Concrete for drilled shafts shall have an 8 ± 1 -inch slump. In the event of free fall method of concrete placement is used, the slump shall be 6 ± 1 inch.

Delete the last paragraph of Subsection S-804.02.10 on page 8-57 and substitute the following:

Either Type A, D, F, G or mid-range chemical admixture shall be used in all classes of concrete. Any combination of water reducing admixtures shall be approved by the Engineer before their use.

901-S-804.05--Basis of Payment. Add "901" prefix to the pay items listed on page 8-108.
